WATER MANAGEMENT DISTRICTS

Southwest Florida Water Management District

RULE NO.: 40D-8.624
RULE TITLE: Guidance and Minimum Levels for Lakes

PURPOSE AND EFFECT: The purpose of this rulemaking is to adopt revised minimum and guidance levels for Lake Hancock located in Polk County. The effect of the rule is to support the District's water supply planning, water use permitting, and environmental resource permitting programs.

SUMMARY: Section 373.042, F.S., requires the District to establish minimum flows and levels for lakes, wetlands, rivers

and aquifers within the District’s boundaries. Section 373.0421(3), F.S., further requires the District to periodically reevaluate and revise adopted minimum flows and levels. This rulemaking is necessary to delete the previously adopted levels, and adopt new guidance and minimum levels for Lake Hancock located in Polk County. The establishment and periodic evaluation of minimum levels is required by statute to ensure that the minimum hydrologic requirements of the water resources and ecology of this lake are maintained. The revised minimum and guidance levels for Lake Hancock are being developed using previously peer-reviewed, Governing Board adopted methods.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: The District conducted an economic review of the revisions to the rule and determined that the impact or regulatory cost, if any, of the revisions will not exceed any one of the economic analysis criteria in a SERC as set forth in Section 120.541(2)(a), F.S. The revised minimum levels for this lake is unlikely to constitute an additional significant regulatory constraint on groundwater or surface water withdrawals in the area due to existing resource conditions and regulatory constraints in the basin.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

RULEMAKING AUTHORITY: 373.044, 373.113, 373.171, FS.

LAW IMPLEMENTED: 373.036, 373.042, 373.0421, 373.086, 373.709, FS.

Beginning at 6 p.m., participants can view the draft design plans, discuss the project, and provide comments to FDOT representatives. The formal public hearing begins at 7:00 p.m. FDOT encourages the public to attend.

Draft project reports and design plans will be available for review from Thursday, August 4, 2016, through Tuesday, September 6, 2016, at the University of Florida IFAS Agriculture Research - Southwest Florida Research & Education Center (SWFREC), located at 2685 SR 29 North, Immokalee, Florida 34142. Facility hours are Monday through Friday from 8:00 a.m. to 5:00 p.m.

The current design has resulted in various changes from what was shown in the approved Project Development and Environment (PD&E) study. This project will widen SR 82 from a two-lane undivided roadway to an interim four-lane divided roadway while allowing for a future six-lane roadway and intersection improvements at the SR 82/SR 29 intersection. One intersection improvement under consideration involves the addition of a roundabout with associated turn lanes. Other improvements will include replacing the five-foot sidewalk along the south side of SR 82 with a 10-foot multi-use trail. Storm water runoff will be

collected in roadside swales and directed to one regional offsite storm water pond.

Right-of-way acquisition will be required for the proposed roadway and drainage improvements. Right-of-way acquisition for this segment is funded for FDOT's fiscal year 2016/2017. Construction is not funded at this time.
