- Indian tribes or authorized tribal organizations.

Eligible Activities: Activities include mitigation projects that will result in protection of public or private property from natural hazards. Activities for which implementation has already been initiated or completed are not eligible for funding. Eligible projects include, but are not limited to, the following:

- Acquisition or relocation of hazard-prone structures;
- Retrofitting of existing buildings and facilities that will result in increased protection from hazards;
- Elevation of flood-prone structures;
- Infrastructure protection measures;
- Stormwater management improvements;
- Minor structure flood control;
- Flood diversion and storage;
- Aquifer storage and recovery;
- Floodplain and stream restoration;
- Residential and community safe room construction;
- Generators for a critical facility, provided they are cost-effective, contribute to a long-term solution to the problem that they are intended to address, and meet other project eligibility criteria as required by 44 CFR § 206.434(c); or generators that are an integral part of a larger eligible project.

Ineligible Activities: The state will not consider funding requests for:

- Construction of new facilities (Nevertheless, the cost associated with above-code upgrades to new facilities may be considered);
- Equipment such as emergency pumps, vehicles, and communication devices;
- Tree removal, debris removal, and other forms of maintenance; or
- *Projects already in progress (Construction may not begin until the contract between the State and subrecipient is executed and the project has met requirements of the National Environmental Policy Act).*

Eligibility Criteria: All projects submitted must meet *minimum criteria* to be considered for funding. An eligible project must:

- Conform to the Florida State Hazard Mitigation Plan and the respective community's LMS;

- Conform to the funding priorities for the disaster, as established in the appropriate LMS;
- Demonstrate cost-effectiveness;
- Be technically feasible;
- Benefit the designated disaster area;
- Conform to all applicable environmental laws and regulations, as well as Executive Orders;
- Solve a problem independently or constitute a functional part of a solution;
- Benefit a National Flood Insurance Program (NFIP) participating community that is not on probation or suspended from the NFIP; and
- Meet all applicable State and local codes and standards.

Cost-Share Requirements

Under the HMGP, FEMA will contribute up to 75 percent of the total amount approved under the grant award to implement eligible, cost-effective mitigation measures. The applicant must provide the remaining 25-percent non-federal share. Contributions, cash, and in-kind services are acceptable as part of the non-federal share. Requirements for in-kind contributions can be found in 2 CFR §200.306. In-kind contributions must be directly related to the eligible project cost and are those personnel, materials, equipment and supplies owned, controlled, and operated by the applicant or a third party contributor.

Applicants may use the Global Match concept as part of the 25-percent non-federal share. Global Match permits a potential applicant to meet the non-federal share match by receiving credit for state and/or local government funds that were committed to a similar type of project(s). These similar, non-federally funded projects must meet all of the HMGP eligibility requirements. This means that if Global Match is approved, the applicant may receive up to 100 percent federal share.

Pre-Award Costs

Prior to receiving a grant award, pre-award costs may be requested. Pre-award costs include items such as engineering, environmental study, permitting, and other "soft" costs associated with a construction project. *Construction activities are not considered pre-award costs.* Pre-award costs must be requested in writing. Guidelines for pre-award costs are included in *Attachment A*.

County Funding Allocation

To ensure funds are distributed equitably, designated counties have been assigned a portion of the total HMGP grant. The amount is based on a calculation of the proportional share of the total federal assistance under the Public Assistance (PA), Individual Assistance (IA), and Small Business Administration (SBA) programs as of January 2017.

Commitment of project funds by the Division is contingent upon receipt of appropriate Legislative Budget Authority.

These figures are shown in *Attachment B* and represent the estimated amount of HMGP funds currently available. HMGP funding is available only to those counties that have a current FEMA-approved LMS. Project applications will be considered only if:

- (1) The application is accompanied by an endorsement by the LMS Chairperson or Vice-Chairperson stating that the project is included in the current LMS; and,
- (2) If more than one project is submitted, the endorsement indicates the prioritization. A sample project submission letter is shown in *Attachment C*.

The Division will attempt to fund each submitted project in priority order until the county's allocation has been exhausted. In accordance with Florida Administrative Code (F.A.C.) 27P-22.006, the Division uses the following tiered allocation system up until the State application deadline with FEMA:

Tier 1 The available HMGP funds are allocated to counties included in the relevant Presidential Disaster Declaration in proportion to each county's share of federal disaster funding from the Public Assistance (PA), Individual Assistance (IA), and Small Business Administration (SBA) Disaster Loan Program as of 90 days after a Disaster Declaration as reported by FEMA. Eligible projects submitted by each county included in the relevant Presidential Disaster Declaration will be funded in order of priority as outlined in the LMS until the allocated funds are exhausted or all eligible projects are funded.

Tier 2 Any allocation remaining after all eligible projects in any declared county are funded shall be re-allocated to those counties included in the relevant Presidential Disaster Declaration whose allocation was not sufficient to fund all submitted eligible projects. The order of priority for re-allocating funds is detailed in *Attachment D*.

Tier 3 In the event funds remain after the Tier 1 and Tier 2 processes, any remaining funds will be offered on a statewide basis as described in *Attachment D*.

Please see *Attachment D* for a detailed explanation of funding tiers.

Funding Availability and Notification

FEMA notifies the State of HMGP funding availability at the following milestones:

1. ***Initial 90-Day Estimate***: This is an early estimate only and not an actual commitment of funding by FEMA. Funding may increase or decrease based on actual disaster claims during the declaration period. These estimates are provided for planning purposes and to jump-start the HMGP application process.
2. ***Obligation prior to 12 Months***: Prior to the 12-month lock-in, FEMA will only obligate funds up to 75% of

any current estimate. This is to eliminate the risk over obligating funds for any given disaster in the event the 12-month lock-in is lower than initially estimated.

3. 12 Months from the Date of Declaration: This represents the State's Lock-in Amount. It is the maximum amount available the state can expect to receive from FEMA. In rare occurrences, FEMA may conduct a subsequent review 18 months after the declaration, but only at the request of the State. The estimate from that review may cause the final lock-in to fluctuate up or down depending on the findings.

It is important for potential applicants to recognize that HMGP funds are contingent upon FEMA's reexamination of the disaster figures at the given time intervals. A county's funding allocation can increase or decrease after it has submitted an application.
