Awards will be based on a 30 day month. For an "overall adjustment rating" of "outstanding" on the DC6-308:

(a) Unauthorized Entry or Exit. Each CSU and SRT shall have policies and procedures regarding unauthorized entry to or exit from the unit.

(b) Control of potentially injurious items.

1. Policies and procedures shall prohibit the transmittal onto or carrying onto the unit sharps, flammables, toxins, weapons, caustic chemicals, rope, or other items potentially injurious to individuals on the unit.

2. Therapeutic activity materials shall also exclude similarly potentially hazardous items such as bats, paddles, mallets, knives, ropes, cords, wire clothes hangers, wire, sharp pointed scissors, luggage straps, and sticks.

3. Housekeeping supplies and chemicals shall, whenever practical, be non-toxic or non-caustic. The unit shall implement procedures to avoid access by individuals receiving services during use or storage.

4. Nursing and medical supplies including drugs, sharps, and breakables shall be safeguarded from access by individuals receiving services through storage, use, and disposal processes.

(c) Use of Restraint or Seclusion. Each CSU and SRT shall develop and maintain detailed policies and procedures for the use of seclusion and restraint, in accordance with Chapter 65E-5, F.A.C. Such policies and procedures shall be readily available to CSU and SRT staff, individuals served, guardians, and others as specified by the individual.

(d) Suicide Precaution.

1. Suicide precaution is for the protection of individuals who have been assessed to be potentially suicidal and require a higher level of supervision.

2. The modification or removal of suicide precautions shall require clinical justification determined by an assessment and shall be specified by the attending physician and documented in the clinical record. A registered nurse, clinical psychologist or other mental health professional may initiate suicide precautions prior to obtaining a psychiatric nurse's, physician's or psychiatrist's order, but in all instances must obtain an order within one hour of initiating the precautions. Telephone orders shall be reviewed and signed by a psychiatric nurse or physician within 24 hours of their initiation.

3. Each CSU shall develop policies and procedures for implementing suicide precautions addressing: assessment, staffing, levels of observation and documentation. Policies and procedures shall require constant visual observation of individuals clinically determined to be actively suicidal.

(e) Other high risk behaviors, such as elopement and assaultive behavior, shall be addressed in the CSU and SRT policies and procedures.

(20) Nursing Services.

(a) Medical Prescription. Registered nurses shall ensure that each psychiatric nurse's, physician's, or psychiatrist's orders are followed. When a determination is made that the orders have not been followed or were refused by the individual being served, the psychiatric nurse, physician or psychiatrist shall be notified within 24 hours. The registered nurse or nursing service shall substantiate this action through documentation in the individual's clinical record.

(b) Nursing Standards. Each CSU and SRT shall develop and maintain a standard manual of nursing services which shall address medications, treatments, diet, personal hygiene care

and grooming, clean bed linens and environment, and protection from infection.

(21) Continuity of Care. Upon admission, all individuals receiving services, in both a CSU and SRT shall be assessed for the need of case management services. If determined to need case management services, the individual shall be linked to a case manager in the community.

(22) Children. Every CSU and SRT which serves individuals under 18 years of age shall define, in policies and procedures, the services and supervision to be provided to the children. Minors under the age of 14 years shall not be admitted to a bed in a room or ward with an adult. They may share common areas with an adult only when under direct visual observation by unit staff. This shall be reviewed and documented on a daily basis.

(23) Collocation.

(a) Collocation means the operation of CSU and SRT, or CSU and substance abuse detoxification services from a common nurses' station without treatment system integration. It may result in the administration of those services by the same organization and the sharing of common services, such as housekeeping, maintenance and professional services. A CSU shall be separated and secured by locked doors from the SRT and detoxification units.

(b) Whenever a CSU is collocated with an SRT or substance abuse detoxification unit there shall be no compromise in CSU standards. In all instances, whenever there is a conflict between CSU rules and SRT, substance abuse rules, the more restrictive rules shall apply.

(c) Individuals receiving CSU, SRT, and detoxification services shall not commingle or share a common space unless individually authorized by a physician's or psychiatrist's written order to participate in specific treatment and evaluation activities on other units as specified in the individual's service plan. Service plan documentation shall include: type of activity, supervision, frequency of activity, and duration of each activity session.

(d) Collocation Staffing Requirements. CSU and SRT, or CSU and detoxification staff may be shared if the individual served staff ratio is not violated and the health, safety and welfare of the individual is not jeopardized. When services are collocated and staff resources are shared, the staffing pattern shall be the more restrictive as required by this rule, based on the combined total number of beds. When the combined number of beds exceeds 30, nursing and direct service staff shall not be shared.

(24) Passes.

(a) A psychiatric nurse's or physician's order shall be written in accordance with unit policies and procedures specifying each occasion that an individual receiving services is permitted off unit and consistent with the service plan.

(b) Each written order shall specify: the clinical basis for the order; the necessity and purpose of the order; the level of supervision while off the unit; the staff designated responsible for the individual receiving services; and the authorized time of departure and return deadline which cannot exceed 24 hours for CSUs and 48 hours for SRTs.

(25) Smoking. Each CSU and SRT shall designate smoking areas or declare the facility non-smoking for both staff and individuals receiving services, and shall post signs to so indicate. Areas frequented by smokers and non-smokers shall not be designated a smoking area. The facility shall ensure the operation of adequate smoke evacuation mechanisms to maintain a healthful air quality throughout.

(26) Personal Items. Individuals receiving services in CSUs and SRTs are entitled to wear their own clothing except when this right is restricted for safety. This restriction must be fully justified in the clinical record. Policies and procedures shall be developed which describe the utilization of special clothing, or describe unit restrictions concerning other potentially hazardous personal articles, such as sharps and ingestibles.

(27) Universal Infection Control. Each CSU and SRT shall develop and implement policies and procedures for universal infection control and prevention to protect people from blood and body fluid borne disease. Specific procedures shall include management of individuals who potentially have infectious diseases, such as Hepatitis B, Human Immunodeficiency Virus (HIV), Acquired Immune Deficiency Syndrome (AIDS), or other infectious diseases. These procedures shall include: isolation, specific infection control techniques, availability of proper equipment, proper disposal of potentially infected waste, transfer, and the release of confidential information to select unit medical and direct care staff on a need-to-know basis. Any testing for HIV must be done in accordance with the Department of Health's requirements as stated in Chapter 64D-2, F.A.C. Policies and procedures shall be regularly updated to include information provided by the department, the Department of Health, and the Center for Disease Control. All biohazardous waste must be handled and disposed in accordance with the Department of Health's requirements as stated in Chapter 64E-16, F.A.C.

(28) HIV and AIDS Education Requirements. Each CSU and SRT must meet the Department of Health's requirements for HIV and AIDS education pursuant to section 381.0035, F.S., for each employee and individual receiving services and maintain records of such training.

(29) Unit operating policy and procedure manuals shall be organized and maintained for easy access and reference and available to all facility staff at all times. The CSU and SRT shall have a copy of Chapter 394, F.S., Chapters 65E-5 and 65E-12,

F.A.C., on the unit available to all staff and individuals receiving services at all times.

(30) CSUs and SRTs shall ensure that the unit's licensed professionals and other unit staff function together under a set of written reciprocal unit protocols. These protocols shall establish the sequence of activities to be performed, designate authorized or responsible personnel, and establish standards for the accuracy, completion, and comprehensiveness of activities.

Time starts when the participant touches any component of the tools or equipment used for the skill assessment. Time stops when the participant communicates to the examiner that the task is complete.

2. Skills involving forcible entry techniques, selecting and using hose appliances, carrying and raising roof ladders, advancing hose up a portable ladder, and deployment of salvage covers for overhaul will have a time limit of 4 minutes and 40 seconds. Time will start when the participant touches any component of the equipment used for the assessment. Time will stop when the participant notifies the examiner the task is complete.

3. The skill involving use of the Emergency Response Guidebook (ERG) will have a time limit of 20 minutes. The ERG and test question sheet may be administered in a group setting. The time will start when the examiner notifies the participant(s) to start the exercise and end at the 20-minute time limit. This time is set forth by the Bureau herein and based on
