RULE NO.: 40B-4.3030
 RULE TITLE: Conditions for Issuance of Works of the District Permits

The Suwannee River Water Management District (SRWMD), hereby gives notice:

that a final order has been issued. This order (18-0003) grants variance under Section 120.542, F.S. to Judith Robarts, 229 SE Nancy Avenue, Branford, FL 32008, for construction within the 75-foot setback from the top of the riverbank in Lafayette County, in Township 7 South, Range 14 East, Section 26. These rules are intended to set forth criteria for development activities within a Works of the District. The petition has been assigned ERP Number WOD-067-232242-1, Robarts Room Addition. The petition for variance was received by SRWMD on April 23, 2018. Notice of receipt of petition requesting variance was published in F.A.R., Volume 44, Number 94, May 14, 2018. This order provides a variance from SRWMD criteria for subsection 40B-4.3030(13), F.A.C. for construction within the 75-foot setback from the top of the riverbank. The Florida Department of Business and Professional Regulation, Division of Hotels and Restaurants hereby gives notice:

On July 2, 2018 the Division of Hotels and Restaurants received a Petition for an Emergency Variance for paragraph 61C-1.004(1)(a), Florida Administrative Code and Paragraph 5-202.11(A), 2009 FDA Food Code from You Are Amazing Inc. located in Melbourne. The above referenced F.A.C. addresses the requirement that each establishment have an approved plumbing system installed to transport potable water and

The Petition for this variance was published in Vol. 44/129 on July 3, 2018. The Order for this Petition was signed and approved on July 10, 2018. After a complete review of the variance request, the Division finds that the application of this Rule will create a financial hardship to the food service establishment. Furthermore, the Division finds that the Petitioner meets the burden of demonstrating that the underlying statute has been achieved by the Petitioner ensuring the wastewater holding tank for the handwash sink and the three compartment sink is emptied at a frequency as to not create a sanitary nuisance; and potable water provided must come from an approved source and be protected from contamination during handling. The Petitioner shall also ensure that the handwash sink and the three compartment sink is provided with hot and cold running water under pressure, and that the handwash sink is provided with soap, an approved hand drying device and a handwashing sign.
