64B13-5.001 Hours Requirement

PURPOSE AND EFFECT: The Board proposes the rule amendment to clarify the existing language that all licensees may take the 2 hour Controlled Substance Prescribing course as part of their CE requirements for the biennium.

SUMMARY: To clarify the existing language.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: : During discussion of the economic impact of this rule at its Board meeting, the Board concluded that this rule change will not have any impact on licensees and their businesses or the businesses that employ them. The rule will not increase any fees, business costs, personnel costs, will not decrease profit opportunities, and will not require any specialized knowledge to comply. THE FULL TEXT OF THE PROPOSED RULE IS:

64B18-23.002 Standards for the Prescribing of Controlled Substances for the Treatment of Acute Pain.

The standards of practice in this rule do not supersede the level of care, skill and treatment recognized in general law related to healthcare licensure. All podiatric physicians who are authorized to prescribe controlled substances shall comply with the following:

(1) Definitions.

(a) Acute Pain. For the purpose of this rule, "acute pain" is defined as the normal, predicted, physiological, and time-limited response to an adverse chemical, thermal, or mechanical stimulus associated with surgery, trauma, or acute illness. The term does not include pain related to:

1. Cancer.

2. A terminal condition. For purposes of this subparagraph, the term "terminal condition" means a progressive disease or medical or surgical condition that causes significant functional impairment, is not considered to be reversible without the administration of life-sustaining procedures, and will result in death within 1 year after diagnosis if the condition runs its normal course.

3. Palliative care to provide relief of symptoms related to an incurable, progressive illness or injury.

4. A traumatic injury with an Injury Severity Score of 9 or greater.

(b) Prescription Drug Monitoring Program (PDMP) or "the system." For the purpose of this rule, the system is defined as

the Florida Department of Health's electronic system to collect and store controlled substance dispensing information as set forth in Section 893.055, F.S.

(c) Substance Abuse. For the purpose of this rule, "substance abuse" is defined as the use of any substances for non-therapeutic purposes or use of medication for purposes other than those for which it is prescribed.

(2) Standards. The nature and extent of the requirements set forth below will vary depending on the practice setting and circumstances presented to the clinician. The Board has adopted the following standards for the prescribing of controlled substances for acute pain:

(a) Evaluation of the Patient. A medical history and physical examination appropriate for the patient's clinical condition must be conducted and documented in the medical record. The medical record also shall document the presence of one or more recognized medical indications for the use of a controlled substance.

(b) Treatment Plan. The written treatment plan shall indicate if any further diagnostic evaluations or other treatments are planned including non-opioid medications and therapies if indicated. After treatment begins, the physician shall adjust medication therapy, if necessary, to the individual medical needs of each patient.

(c) Informed Consent and Agreement for Treatment. The physician shall discuss the risks and benefits of the use of controlled substances including the risk of abuse and addiction as well as physical dependence with the patient, persons designated by the patient, or with the patient's surrogate or guardian if the patient is incompetent. The discussion shall also include expected pain intensity, duration, options, use of pain medications, non-medication therapies, and common side effects. Special attention must be given to those pain patients who are at risk of misuse or diversion of their medications.

(d) Periodic Review. Based on the circumstances presented, the physician shall review the course of treatment and any new information about the etiology of the pain. Continuation or modification of therapy shall depend on the physician's evaluation of the patient's progress. If treatment goals are not achieved, despite medication adjustments, the physician shall reevaluate the patient and determine the appropriateness of continued treatment. The physician shall monitor patient compliance of medication usage and related treatment plans.

(e) Consultation. The physician shall refer the patient as necessary for additional evaluation and treatment in order to achieve treatment objectives. The management of pain in patients with a history of substance abuse or with a comorbid psychiatric disorder requires extra care, monitoring, and documentation, and may require consultation with or referral to an expert in the management of such patients.

(f) Medical Records. The physician is required to keep accurate and complete records to include, but not be limited to:

1. The medical history and a physical examination, including history of drug abuse or dependence, if indicated,
2. Diagnostic, therapeutic, and laboratory results,
3. Evaluations and consultations,
4. Treatment objectives,
5. Discussion of risks and benefits,
6. Treatments,
7. Medications (including date, type, dosage, and quantity prescribed),
8. Instructions and agreements,
9. Drug testing results if indicated,
10. Justification for deviation from the 3-day prescription supply limit for a Schedule II opioid controlled substance for acute pain,
11. Outline of problems encountered when attempting to consult the PDMP, if the system was non-operational or the clinician, or his or her designee, is unable to access the PDMP due to a temporary technological or electrical failure, and
12. Periodic reviews. Records must remain current, maintained in an accessible manner, readily available for review, and must be in full compliance with Section 456.057, F.S., and Section 461.013(1)(l), F.S.

(g) Compliance with Laws and Rules. Physicians shall at all times, remain in compliance with this rule and all state and federal laws and regulations addressing the prescribing and administration of controlled substances.

FISH AND WILDLIFE CONSERVATION COMMISSION

Marine Fisheries

RULE NOS.:	RULE TITLES:
68B-14.0045	Commercial Harvest Requirements; Licenses, Season Closures, Bag and Trip Limits
68B-14.0046	Transit Through State Waters During Closed Seasons

PURPOSE, EFFECT AND SUMMARY: There are two Individual Fishing Quota (IFQ) programs for commercial harvest in the Gulf of Mexico: red snapper and grouper/tilefish.

These are federal programs, but they apply to all commercial harvest of red snapper, groupers, and tilefishes in both Gulf state and federal waters. Gulf IFQ program participants must follow unique requirements and procedures such as real-time, electronic tracking of vessel location harvest and quota accounting; landing notification requirements; and restrictions on where and when fish can be landed and offloaded. These requirements apply to Gulf IFQ program participants regardless of where they are fishing (federal or state waters). Currently, FWC rules require all commercial harvesters that harvest or possess any IFQ-managed species in the Gulf of Mexico to have a federal Gulf IFQ vessel account.

At its April 2018 meeting, the FWC Commission modified commercial regulations in Gulf state waters to be consistent with federal regulations for the commercial Gulf red snapper and Gulf grouper/tilefish individual fishing quota (IFQ) programs. The purpose of the proposed action is to add other important requirements for Gulf commercial red snapper and grouper/tilefish IFQ fisheries operations, dealer endorsements, landings, and transactions to FWC rule. This federal consistency action will allow FWC to enforce federal Gulf commercial IFQ regulations at the state level.

Rule 68B-14.0045 F.A.C. will be modified to reference federal Gulf IFQ regulations, which will be outlined in the new rule 68B-14.0046, F.A.C. These rules will take effect January 1, 2019.
