All eligible applications will be evaluated on a competitive basis by the Endangered Plant Advisory Council at a public meeting scheduled for the fall of 2019. The Council consists of members appointed by the Florida Commissioner of Agriculture. The Council will review the applications in accordance with the criteria and procedures established in Florida Statute 581.185 and Rule-Chapter 5B-40, Florida Administrative Code. The Council will make a recommendation based on applications received and

qualifications of each applicant to the Commissioner of Agriculture. A level of funding (full or partial) will be suggested for each project recommended.

Final selection of projects for inclusion in the Department of Agriculture and Consumer Services 2018 legislative budget request will be made by the Florida Commissioner of Agriculture and will be based on Council recommendations.

The selection will not result in an immediate grant award. Rather, the proposed grants will be subject to approval of the department’s budget request before the 2020 Legislature. The award and level of funding of each project will be subject to legislative consideration.

If projects receive 2020 legislative funding, funds will become available after July 1, 2020, the beginning of the next fiscal year. The funds will need to be obligated by June 30, 2021. Any unexpended balance of grant funds not under terms of a contract will revert to the state.

**Administrative Requirements**

To receive grant funds, grantees will be required to sign a grant award contract. The grant award contract shall be prepared by the Division and shall contain by reference all regulations, rules, and other conditions governing the grant award. In addition, each grant recipient shall cause an annual post audit to be conducted by an independent certified public accountant. The annual audit report must be submitted to the Department for review.

Please feel free to direct any questions you may have regarding the Endangered and Threatened Native Flora Conservation Grants Program to Mr. Jason D. Stanley, Division of Plant Industry, and Telephone: (352)395-4759.
