FISH AND WILDLIFE CONSERVATION COMMISSION

Freshwater Fish and Wildlife

RULE NO.: 68A-16.006
 RULE TITLE: Prohibitions Related to Bird Traps

PURPOSE AND EFFECT: The purpose of this rule is to address the trafficking of migratory birds and improve the enforcement relating to illegal activities relating to the taking and trapping of migratory birds. This rule language covers a wide variety of traps used by illegal trappers. The effect of this rule is to establish regulations related to the use, placement, possession, and transport of bird traps to prevent illegal trapping migratory birds. The proposed rule language includes exceptions, such as for persons possessing a federal permit or falconry permit and those engaged in activities authorized under Rules 68A-9.010, (Taking of Nuisance Wildlife), 68A-9.012, (Taking of Wildlife on Airport Property) or 68A-12 F.A.C. (Rules Related to Game).

SUMMARY: The Federal Migratory Bird Treaty Act and associated state rule (68A-16.001, F.A.C) prohibits the capture, possession, sale, purchase, and transportation of native birds in

Florida. Despite these protections, illegal trapping of native birds has long been a concern in the state, particularly in south Florida, where trapping is thought to be widespread. Although it is illegal to capture, possess, or sell native birds under existing state rule, there currently are no regulations on the use, placement, possession, or transport of bird traps. This complicates the ability of Law Enforcement to enforce existing protections, because officers cannot make a case unless they witness birds in the trap or persons with a bird in their possession. To support the ability of Law Enforcement officers to enforce existing protections, staff recommend establishing regulations regarding the use, placement, possession, and transport of bird traps. The proposed rule language includes exceptions, such as for persons possessing a federal permit or falconry permit and those engaged in activities authorized under Rules 68A-9.010, (Taking of Nuisance Wildlife), 68A-9.012, (Taking of Wildlife on Airport Property) or 68A-12 F.A.C. (Rules Related to Game).

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: the nature of the rule and the preliminary analysis conducted to determine whether a SERC was required.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

(e) Persons possessing a federal authorization to trap nuisance, depredating or injurious birds except migratory game birds and birds listed in Chapter 68A-27 or Rule 68A-16.002, F.A.C., may use, place, or possess bird traps or allow bird traps to be placed while conducting the authorized activities.

(f) Captive wildlife facilities holding a valid captive wildlife permit may use, place, or possess bird traps on the permitted property, or other areas with land owner permission, to capture escaped captive birds, provided the permit holder provides notification prior to placement and use of traps to the Florida Fish and Wildlife Conservation Commission Division of Law Enforcement of the number and species of escaped birds, along with the number and type of bird traps set.

(g) Persons or companies possessing one of the following licenses or certifications issued by the Florida Department of Agriculture and Consumer Services pursuant to Chapter 482, F.S., may use, place, or possess bird traps for the capture of birds that are not resident game birds and that are not included in 50 C.F.R. §10.13 (November 1, 2013), List of Migratory Birds:

NOTICE TO DESIGN-BUILDER:

The University of Florida Board of Trustees announces that Design-Build services will be required for the project listed below:

Project: UF-373, Special Collections Building (Florida Museum of Natural History, Main Campus, University of Florida)

The new two-story, Special Collections building will be approximately 30,000 GSF and will have a receiving area for the specimens/collections as well as a compact storage shelving system specifically designed for museum collections. Offices for staff working with the collections as well as lab/work areas will be designed to optimize efficiency, adjacencies and collaboration. The facility needs access to the existing Powell Hall and will be designed for future expansion.

The estimated project budget is approximately \$8,000,000.00 including all site improvements, underground utilities, landscaping, etc.). The project will be delivered using the Design-Build and is scheduled to begin design in October 2019 with construction commencing around July 2020. Gold certification from Florida Green Building Coalition will be required.

The contract for design/build services will consist of two parts. Part one services include design, construction administration, value engineering, constructability analyses, development of a cost model, estimating, and the development of a Guaranteed Maximum Price (GMP) proposal based on 100% Construction Documents, for which the design-builder will be paid a fixed fee.

If the GMP is accepted, part two, the construction phase, will be implemented. In part two of the contract, the Design-Builder becomes the single point of responsibility for completion of the construction documents, performance of the construction of the project and shall publicly bid trade contracts. Failure to negotiate an acceptable fixed fee for part one of the contract, or to arrive at an acceptable GMP within the time provided in the agreement may result in the termination of the Design-Builder's contract.

Blanket design professional liability insurance will be required from the architect, mechanical, electrical, plumbing, fire protection, structural, landscape, and civil engineering consultants for this project and will be provided as a part of Basic Services. The selected applicant will also be required to

provide insurance coverage for General Liability, Automotive Liability, Workers' Compensation, and Builder's Risk.

Plans and specifications for University of Florida projects are subject to reuse in accordance with the provisions of Section 287.055, Florida Statutes.

Applicants will be evaluated on the basis of their past performance, experience, personnel, design and construction ability, references, bonding capacity, workload, and responses to questions posed both in the shortlist and interview phases. The Selection Committee may reject all proposals and stop the selection process at any time.

At the time of application, the applicant must be licensed to practice as a general contractor in the State of Florida and the applicant or its architectural, landscape architectural, and engineering consultants must possess current design licenses from the appropriate governing board and be properly registered to practice its profession in the State of Florida. If the applicant is a corporation, it must be chartered by the Florida Department of State to operate in Florida.

Applicants desiring to provide Design-Build services for the project shall submit a proposal only after thoroughly reviewing the facilities program, Project Fact Sheet, and other background information. The proposal shall be prepared as specified in the DBQS Instructions and shall include:

1. A Letter of Application that concisely illustrates the applicant's understanding of the scope of services, schedule, and other goals and considerations as outlined in the Project Fact Sheet and facilities program.
2. Company information and signed certification.
3. A completed, project-specific "Design-Builder Qualifications Supplement" (DBQS) proposal. Applications on any other form will not be considered.
4. Resumes, LEED or FGBC accreditation, and other pertinent credentials for all proposed staff (applicant and consultants).
5. Proof of the applicant's corporate status in Florida (if applicable) and copies of current licenses for all construction, architectural, landscape architectural, and engineering entities (applicant firm and consulting firms) from the appropriate governing board.
6. Proof of bonding capacity and proof of design consultants' (architecture and engineering) ability to be insured for the level of professional liability coverage demanded for this project.

As required by Section 287.133, Florida Statutes, an applicant may not submit a proposal for this project if it is on the convicted vendor list for a public entity crime committed within the past 36 months. The selected Design-Builder must warrant that it will neither utilize the services of, nor contract with, any supplier, subcontractor, or consultant in excess of \$15,000.00 in connection with this project for a period of 36 months from the date of their being placed on the convicted vendor list.

Incomplete proposals will be disqualified. Submittal materials will not be returned.

Additional information to assist the applicant in preparing a complete proposal – including the project-specific DBQS forms, Instructions, Project Fact Sheet, Facilities Program, UF Design and Commissioning Services Guide, UF Design and Construction Standards, standard University of Florida Owner-Design/Builder agreement, and other project and process information – can be found on the Planning Design & Construction website.

Finalists may be provided with supplemental interview requirements and criteria as needed.

Provide the number of copies prescribed in the Project Fact Sheet. Submittals must be received in the Planning Design & Construction office by 3:00 p.m. local time, on Wednesday, August 28, 2019. Facsimile (FAX) submittals are not acceptable and will not be considered.
