PURPOSE AND EFFECT: The proposed rule amendment is
intended to update and clarify language for certification of
industrial facility specialty contractors.

SUMMARY: Updating the rule language.

SUMMARY OF STATEMENT OF ESTIMATED
REGULATORY COSTS AND LEGISLATIVE
RATIFICATION:

The Agency has determined that this will not have an adverse
impact on small business or likely increase directly or indirectly
regulatory costs in excess of \$200,000 in the aggregate within
one year after the implementation of the rule. A SERC has not
been prepared by the Agency.

The Agency has determined that the proposed rule is not
expected to require legislative ratification based on the
statement of estimated regulatory costs or if no SERC is
required, the information expressly relied upon and described
herein: During discussion of the economic impact of this rule at
its Board meeting, the Board, based upon the expertise and
experience of its members, determined that a Statement of
Estimated Regulatory Costs (SERC) was not necessary and that
the rule will not require ratification by the Legislature. No
person or interested party submitted additional information
regarding the economic impact at that time.

Any person who wishes to provide information regarding a
statement of estimated regulatory costs, or provide a proposal

RULE NO.: RULE TITLE:
64B8-8.0012 Probation Variables and Practice
Restrictions

PURPOSE AND EFFECT: The proposed rule amendments are
intended to address instances where a physician is unable to
locate a board-certified supervisor or a supervisor who is
located within 20 miles of the Respondent’s practice.

SUMMARY: The proposed rule amendments permit the
Probation Committee to authorize a monitor who is not board-
certified in the Respondent’s specialty area/practice area or to
authorize a monitor who is not located within 20 miles of the

Respondent’s practice in instances where the Respondent can demonstrate that he or she is unable to locate such a monitor to supervise the Respondent during a period of probation.

**SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:**

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board concluded that this rule change will not have any impact on licensees and their businesses or the businesses that employ them. The rule will not increase any fees, business costs, personnel costs, will not decrease profit opportunities, and will not require any specialized knowledge to comply. This change will not increase any direct or indirect regulatory costs. Hence, the Board determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the Legislature. No person or interested party submitted additional information regarding the economic impact at that time.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

RULE NO.: RULE TITLE:

61G20-3.015 Equivalence of Standards

NOTICE IS HEREBY GIVEN that the Florida Building Commission has received the petition for declaratory statement from Al-Farooq Corporation. The petition seeks the agency's opinion as to the applicability of 61G20-3.015, Florida Administrative Code, as it applies to the petitioner.

Petitioner wishes to seek approval under chapter 61G20-3, F.A.C., for a product, and presents the following question: Given that it is likely that ASTM E1996-17 will be incorporated into future versions of the Florida Building Code, and since this revision implies that it is not a structural issue for spacer substitutions following ASTM E1997-17 A.1.9.2, is it acceptable to follow this new exemption for spacers, even though the Florida Building Code, 6th Edition, Chapter 35 currently only lists ASTM 1996 -05, 06, 09, 2012a or 2014a as reference standards?

A copy of the Petition for Declaratory Statement may be obtained by contacting: Agency Clerk's Office, Department of Business and Professional Regulation, 2601 Blair Stone Road, Tallahassee, Florida 32399, (850)921-0342, AGC.Filing@myfloridalicense.com.
