Section II Proposed Rules

WATER MANAGEMENT DISTRICTS

Southwest Florida Water Management District

RULE NO.: RULE TITLE:
40D-8.623 Minimum Wetland Levels

PURPOSE AND EFFECT: The purpose is to amend Rule 40D-8.623 F.A.C., to revise, replace, and adopt new minimum levels for certain wetlands located in Hillsborough, Pasco, and Pinellas Counties.

SUMMARY: Section 373.042, F.S., requires the District to establish minimum flows and levels for lakes, wetlands, rivers and aquifers within the District's boundaries. Section 373.0421(3), F.S., further requires the District to periodically

reevaluate and revise adopted minimum flows and levels. This rule is necessary to revise the previously established minimum levels for certain wetlands previously listed in the rule. The establishment and periodic evaluation of minimum levels is required by statute to ensure that the minimum hydrologic requirements of the water resources and ecology of the area are maintained.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: The District conducted an economic review of the revisions to the rule and determined that the impact or regulatory cost, if any, of the revisions will not exceed any one of the economic analysis criteria in a SERC as set forth in Section 120.541(2)(a), F.S. The revised minimum flows for these systems are unlikely to constitute an additional significant regulatory constraint on groundwater or surface water withdrawals in the area due to existing resource conditions and regulatory constraints in the basin.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

RULEMAKING AUTHORITY: 373.044, 373.113, 373.171, FS.

LAW IMPLEMENTED: 373.036, 373.042, 373.0421, 373.086, 373.709, FS.

IF REQUESTED WITHIN 21 DAYS OF THE DATE OF THIS NOTICE, A HEARING WILL BE SCHEDULED AND ANNOUNCED IN THE FAR.

THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULE IS: Donna Campbell, Staff Environmental Scientist, SWFWMD, 2379 Broad Street, Brooksville, FL 34604, (352) 796-7211, ext. 4236

THE FULL TEXT OF THE PROPOSED RULE IS:

40D-8.623 Minimum Wetland Levels.

(1) through (2) No change.

(3) Minimum Wetland Levels are hereby established as set forth in the following table. Wetland water levels are deemed to be below the Minimum Wetland Level when the Long-term

Current P50 is below the Minimum Wetland Level. If insufficient data exists to determine if a wetland is below its Minimum Wetland Level, the wetland can be determined to be below the Minimum Wetland Level based on a comparison with wetlands that are hydrologically or hydrogeologically similar or, located in close proximity or, in the same drainage basin or, by use of aerial photographs or evaluation of hydrologic data or Hydrologic Indicators in the subject wetland.

RULE NO.: RULE TITLE:

61C-5.001 Safety Standards

The Department of Business and Professional Regulation, Division of Hotels and Restaurants, Bureau of Elevator Safety hereby gives notice: On January 27, 2020 the Division issued an order. The Final Order was in response to a Petition for a Variance from Elevator Safety & Technical Services, filed November 26, 2019, and advertised on December 10, 2019 in Vol.45, No.238, of the Florida Administrative Register. No comments were received in response to the petition. RULE NO.: RULE TITLE:

61C-4.010 Sanitation and Safety Requirements

The Florida Department of Business and Professional Regulation, Division of Hotels and Restaurants hereby gives notice: On January 13, 2020 the Division of Hotels and Restaurants received a Petition for an Emergency Variance for Subparagraph 3-305.11(A)(2), 2017 FDA Food Code, Section 3-305.14, 2017 FDA Food Code, Section 6-202.15, 2017 FDA Food Code, Section 6-202.16, 2017 FDA Food Code, subsection 61C-4.010(1), Florida Administrative Code, and subsection 61C-4.010(6), Florida Administrative Code from

RUDEN HERNANDEZ located in Orlando. The above referenced F.A.C. addresses the requirement for proper handling and dispensing of food. They are requesting to dispense bulk time/temperature control for safety foods from an open air mobile food dispensing vehicle.

The Petition for this variance was published in Vol. 46/09 on January 14, 2020. The Order for this Petition was signed and approved on January 28, 2020. After a complete review of the variance request, the Division finds that the application of this Rule will create a financial hardship to the food service establishment. Furthermore, the Division finds that the Petitioner meets the burden of demonstrating that the underlying statute has been achieved by the Petitioner ensuring that each pan within the steam table is properly covered with an individual lid; the steam table is enclosed within a cabinet with tight-fitting doors, and is protected by an air curtain installed and operated according to the manufacturer's specifications that protects against flying vermin or other environmental contaminants; all steam table foods must be properly reheated for hot holding at approved commissaries and held hot at the proper minimum temperature per the parameters of the currently adopted FDA Food Code; and steam table food is to be dispensed by the operator with no customer self-service. The Petitioner shall also strictly adhere to the operating procedures and copies of the variance and operating procedures are to be present on the MFDV during all periods of operation.
