- o Controlled Release Fertilizer use efficiency related to seasonality, rainfall, and heat units in Florida for various commodities
- o Fertigation to improve nutrient use efficiency
- o Software and data collection tool development
 - Irrigation application and management technologies
 - Water resource protection using nutrient mitigation methods and treatment technologies for on-farm or edge-of-farm application
 - Soil Health specific to Florida
- o Mixed species or cover crops for improving nutrient utilization
- o Rotational cropping or integrated crop/livestock systems for improving nutrient utilization
 - Demonstrations of water quality improvement projects that provide information on FDACS BMP benefits to water resources with specific reductions in nutrients (lbs/ac) and quantities of water savings.

This solicitation is in response to legislation passed during the 2020 legislative session. OAWP will evaluate and use approved proposals to develop a research plan and legislative budget request as required by law (403.067(4)(f), Florida Statutes). The research plan will guide OAWP in decisions related to critical work in furtherance of the OAWP BMP program. Research proposals outside of OAWP’s statutory authority will not be eligible for funding related to this solicitation.

Conditions and Specifications

Prospective recipients must be registered in the MyFloridaMarketPlace (MFMP) system and where required, the Sunbiz system prior to submittal. Business entities which must be on file with Sunbiz include the following: Corporations for and not for profit, Limited Liability Companies (LLC), Limited Partnerships (LP) including Limited Liability Limited Partnerships (LLLP), and organizations doing business under a fictitious name (DBA). Prospective recipients will only be considered for an award if they are associated with a land grant university AND are a qualified entity registered in the MFMP and Sunbiz systems. The registration address and federal employer identification (FEID) number must match that registered with the State of Florida.

Submit Proposals To: Kathryn Holland, Environmental Administrator, Office of Agricultural Water Policy, Florida Department of Agriculture and Consumer Services, Elliot Building, 401 S. Monroe Street, Tallahassee, Florida 32399, (850)617-1736, Kathryn.Holland@FDACS.gov

Pre-proposals are due to OAWP by February 1, 2022. Applicants will be notified by March 15th if the proposal is accepted. OAWP will work with successful applicants to establish the scope of work for contracting purposes as described in the Research Project Proposal Guide for Principle Investigators.

Approved projects will be eligible for inclusion in the initial Legislative Budget Request (LBR) and research plan and may receive funding for fiscal year 2023/2024, which starts July 1, 2023. All funding for research projects awarded from this solicitation process is subject to annual appropriations by the Florida Legislature. Approved multi-year projects will be considered in future funding cycles and LBR development unless the recipient requests otherwise.

OAWP BMP Research Program Priorities

Research will support and provide the scientific and technical justification for the FDACS OAWP BMP program or investigate new, innovative practices that improve and quantify nutrient and irrigation use efficiencies. The project proposal should address one or more of these OAWP priorities:

- Nutrient management system
 - o Agronomic rate recommendations that balance production with water resource protection through the inclusion of water quality monitoring
 - o Soil and tissue test calibrations and correlations
