Section IV Emergency Rules

DEPARTMENT OF CITRUS

RULE NO.: RULE TITLE:
20ER23-1 Orange Maturity Standards - Processed
SPECIFIC REASONS FOR FINDING AN IMMEDIATE
DANGER TO THE PUBLIC HEALTH, SAFETY OR
WELFARE: Section 120.54(4)(b), Florida Statutes, states that

those rules pertaining to perishable agricultural commodities shall be included in the definition of rules relating to the public health, safety, or welfare.

Section 601.111, Florida Statutes explicitly states that an emergency may be created by hurricanes that affect a substantial part of the citrus industry. An emergency rule adopted under that subsection must contain an expiration date of no longer than one year after its effective date.

Due to the effect of Hurricane Ian, a significant amount of the Florida orange crop will have a minimum ratio of solids to citric acid below the nine to one (9.0:1) minimum established in rule during the 2022-2023 season. The current rule will harm growers financially due to the inability to sell the fruit that does not meet the current minimum ratio of solids to citric acid or brix value.

After discussing the matter at a telephonic meeting and hearing in Bartow, Florida on February 22, 2023, the Florida Citrus Commission found that there exist unusual weather conditions which caused a substantial portion of the orange crop to fail maturity requirements. The FCC voted unanimously to adopt Emergency Rule 20ER23-1, lowering the minimum Brix requirement, and waiving the ratio of total soluble solids to anhydrous citric acid for all oranges for the period of February 23, 2022, through May 23, 2023.

REASON FOR CONCLUDING THAT THE PROCEDURE IS FAIR UNDER THE CIRCUMSTANCES: Adequate notice procedures were used by the Department of Citrus to inform the public and the Florida citrus industry of the pending adoption of Emergency Rule 20ER23-1 lowering the Brix requirement and waiving the minimum ratio of total soluble solids to anhydrous citric acid for all oranges, in that notice was sent via email on February 21, 2023 of the emergency rulemaking to take place at the February 22, 2023, meeting to members of the Florida Citrus Commission, all industry organizations, the Florida Press Corps and other interested persons.

SUMMARY: Emergency rule 20ER23-1 lowers the Brix requirement and waives the minimum ratio of total soluble solids to anhydrous citric acid for all oranges for the period beginning February 23, 2023, through May 23, 2023, assuring good and safe citrus products go to market and the industry is not harmed financially.

THE PERSON TO BE CONTACTED REGARDING THE EMERGENCY RULE IS: Belinette Jones, Legal Assistant, Florida Department of Citrus, P.O. Box 9010, Bartow, Florida 33831-9010 or BJones@citrus.myflorida.com

THE FULL TEXT OF THE EMERGENCY RULE IS:

20ER23-1 Orange Maturity Standards –Processed

For the period beginning at 12:00 a.m. on February 23, 2023, and end at 11:59 p.m. May 23, 2023, all oranges must have a Brix value of no less than 7.0 and there shall be no minimum ratio of total soluble solids to anhydrous citric acid on all oranges.

Rulemaking Authority 601.10(7), 601.11, 601.111 FS. Law Implemented 601.9910(1) FS. History— New 2-23-23.

THIS RULE TAKES EFFECT UPON BEING FILED WITH THE DEPARTMENT OF STATE UNLESS A LATER TIME AND DATE IS SPECIFIED IN THE RULE.

EFFECTIVE DATE: 2/23/2023

Section V Petitions and Dispositions Regarding Rule Variance or Waiver

DEPARTMENT OF BUSINESS AND PROFESSIONAL REGULATION

Division of Hotels and Restaurants

RULE NO.: RULE TITLE:

61C-4.010 Sanitation and Safety Requirements

The Florida Department of Business and Professional Regulation, Division of Hotels and Restaurants hereby gives notice: On February 2, 2023 the Division of Hotels and Restaurants received a Petition for a Routine Variance for Subparagraph 3-305.11(A)(2), 2017 FDA Food Code, Section 3-305.14, 2017 FDA Food Code, Section 6-202.15, 2017 FDA Food Code, Section 6-202.16, 2017 FDA Food Code, subsection 61C-4.010(1), Florida Administrative Code, and subsection 61C-4.010(6), Florida Administrative Code from Peralta LLC located in Miami. The above referenced F.A.C. addresses the requirement for proper handling and dispensing of food. They are requesting to dispense bulk time/temperature control for safety foods from an open air mobile food dispensing vehicle.

The Petition for this variance was published in Vol 49/23 on February 2, 2023. The Order for this Petition was signed and approved on February 21, 2023. After a complete review of the variance request, the Division finds that the application of this Rule will create a financial hardship to the food service establishment. Furthermore, the Division finds that the Petitioner meets the burden of demonstrating that the underlying statute has been achieved by the Petitioner ensuring that each pan within the steam table is properly covered with an individual lid; the steam table is enclosed within a cabinet with tight-fitting doors, and is protected by an air curtain installed and operated according to the manufacturer’s specifications that protects against flying vermin or other environmental contaminants; all steam table foods must be properly reheated for hot holding at approved commissaries and held hot at the

proper minimum temperature per the parameters of the currently adopted FDA Food Code; and steam table food is to be dispensed by the operator with no customer self-service. The Petitioner shall also strictly adhere to the operating procedures and copies of the variance and operating procedures are to be present on the MFDV during all periods of operation.

A copy of the Order or additional information may be obtained by contacting: Daisy.Lee@myfloridalicense.com, Division of Hotels and Restaurants, 2601 Blair Stone Road, Tallahassee, Florida 32399-1011.

RULE NO.: RULE TITLE:

61C-4.010 Sanitation and Safety Requirements

The Florida Department of Business and Professional Regulation, Division of Hotels and Restaurants hereby gives notice: On February 2, 2023 the Division of Hotels and Restaurants received a Petition for a Routine Variance for Subparagraph 3-305.11(A)(2), 2017 FDA Food Code, Section 3-305.14, 2017 FDA Food Code, Section 6-202.15, 2017 FDA Food Code, Section 6-202.16, 2017 FDA Food Code, subsection 61C-4.010(1), Florida Administrative Code, and subsection 61C-4.010(6), Florida Administrative Code from Jadeth Catering Corp. located in Hialeah. The above referenced F.A.C. addresses the requirement for proper handling and dispensing of food. They are requesting to dispense bulk time/temperature control for safety foods from an open air mobile food dispensing vehicle.

The Petition for this variance was published in Vol 49/23 on February 2, 2023. The Order for this Petition was signed and approved on February 21, 2023. After a complete review of the variance request, the Division finds that the application of this Rule will create a financial hardship to the food service establishment. Furthermore, the Division finds that the Petitioner meets the burden of demonstrating that the underlying statute has been achieved by the Petitioner ensuring that each pan within the steam table is properly covered with an individual lid; the steam table is enclosed within a cabinet with tight-fitting doors, and is protected by an air curtain installed and operated according to the manufacturer’s specifications that protects against flying vermin or other environmental contaminants; all steam table foods must be properly reheated for hot holding at approved commissaries and held hot at the proper minimum temperature per the parameters of the currently adopted FDA Food Code; and steam table food is to be dispensed by the operator with no customer self-service. Presentation & Public Comment Period: 6:00 p.m.

In-Person Meeting - March 2, 2023

Open House: 4:30 p.m. – 6:30 p.m.

Public Comment Period: 6:30 p.m.

Location: Steinhatchee Community Center, 1013 Riverside Drive, Steinhatchee, FL 32259

The Granger Drive bridge is currently a single-lane, two span timber bridge over the tributary of the Steinhatchee River.

Constructed in 1989, the bridge connects the two unpaved segments of Granger Drive. In 2019, the bridge was closed due to significant deterioration of the bridge substructure. The PD&E study is proposing to replace the existing bridge with a single-lane, cast-in-place concrete bridge. The proposed bridge will increase the horizontal and vertical clearance underneath the bridge to allow larger boats to pass underneath it.

While comments about the project are accepted at any time, please note that comments must be received by March 12, 2023 to be included in the formal meeting record.

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability, or family status. People who require special accommodations under the Americans with Disabilities Act or who require translation services (free of charge) should contact Jared Sweat, Project Manager at the information provided below at least seven (7) days prior to the meeting.

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been carried out by the Florida Department of Transportation (FDOT) pursuant to 23 U.S.C. §327 and a Memorandum of Understanding dated May 26, 2022 and executed by the Federal Highway Administration and FDOT.

POLK COUNTY BOARD OF COUNTY COMMISSIONERS
LEGAL ADVERTISEMENT NOTICE OF UNSOLICITED PROPOSAL FOR PUBLIC-PRIVATE PARTNERSHIP OPPORTUNITY FOR A REGIONAL WATER QUALITY TREATMENT AND WETLAND RESTORATION PROJECT
Polk County, a political subdivision of the State of Florida, has received an unsolicited proposal submitted in accordance with

the provisions of Section 255.065, Florida Statutes, Florida's Public-Private Partnership Act, for a proposed REGIONAL WATER QUALITY TREATMENT AND WETLAND RESTORATION PROJECT ("the Project") located in Polk County. The entity which has submitted the unsolicited Project proposal shall secure Project financing through publicly available funding sources and/or funding sources available to local governments in the state of Florida for the design, construction, operation, and maintenance of an approximate 400-acre water quality and wetland restoration project on private lands controlled by the entity making the proposal. The fee simple interest in the underlying real property, and ownership of the Project, shall be conveyed to the County upon the successful implementation and establishment of the proposed Project, following expiration of the proposed maintenance period.

The Project shall treat excess surface water flows from Peace Creek and Saddle Creek basins, which have been identified by the State of Florida as "Impaired Waters". The Project shall also incorporate a natural, vegetated treatment system designed to remove Total Phosphorus (TP) and Total Nitrogen (TN) from the basin's surface water. Additionally, the Project shall provide restoration and enhancement of specified wetland functions and values including, but not limited to, stream restoration, wildlife habitat, and floodplain restoration.

Under Florida's Public-Private Partnership Statute 255.065, Polk County is required to publish notice of the acceptance of an unsolicited proposal and a willingness to accept other proposals. Therefore, the County is hereby seeking qualified Respondents to prepare and submit proposals that address present and future water quality and other water resource enhancement/restoration objectives within the Peace Creek and Saddle Creek basins. As such, responsive proposals shall be required to address financing, design, construction, operation, and maintenance of an equivalent project, and project objectives, in terms of project size, water quality benefits, wetland restoration and enhancement benefits and floodplain restoration benefits on private lands controlled by a qualified Respondent submitting a proposal for County consideration within the Saddle Creek and Peace Creek basins that treats flows from surface waters from both basins via a natural vegetated treatment system. Proposals must provide reasonable assurances that the proposed project shall achieve annual TP and TN reductions, restore hydrology on historically agricultural lands, improve wildlife habitat and provide a measurable comprehensive environmental benefit to the basins. Respondents shall convey the property, and all improvements thereon, to the County upon the end of the proposed project agreement term.

To be considered a qualified Respondent, the entity submitting a project proposal must have a demonstrated track record in the

financing, design, construction, operation, and maintenance of regionally significant public water resource and water quality infrastructure projects, along with the capacity to bond the entire contract value through the end of the agreement term.

Any entity that has an interest in submitting a competing proposal under the provisions of Section 255.065, Florida Statutes, is hereby invited to submit a proposal in compliance with the provisions of Section 255.065 Florida Statutes. Proposals that do not fully address each of the items required in this notice will be deemed “non-responsive”. The submitted proposal shall include one (1) hard copy and one (1) electronic copy and shall be submitted prior to 2:00 p.m. on March 22, 2023. Proposals received at or after 2:00 p.m. on March 22, 2023, will be rejected.

Dated this 23rd day of February 2023

Polk County, FL

PROPOSAL SUBMITTAL INSTRUCTIONS:

Proposals must be submitted in a “sealed” parcel or electronically through Polk County’s secure website, Kiteworks. Proposals will be publicly opened at 2:00 p.m. on the receiving date.

Sealed Parcel Submittal:

If you are submitting a sealed parcel proposal submit one (1) original hard copy and (1) electronic copy of the proposal in a sealed parcel. The parcel should be labeled “Regional Water Quality Treatment & Wetland Restoration Project” and marked with the proposer’s name and address. The Proposals may be mailed, expressed mailed or hand delivered to: Polk County Procurement Division, 330 W. Church Street, RM 150, Bartow, FL 33830, 1(863)534-6757.

It is the Proposers responsibility to ensure their package is delivered to the Procurement Division prior to the Receiving date and time referenced above.

Electronic Proposals Submittal:

All prospective Proposers that are interested in submitting their proposals electronically can do so via the County’s secure electronic submittal website, Kiteworks. Proposers must email Danielle Rose at daniellerose@polk-county.net at least 48 hours prior to opening to receive a link to upload their submittal. Only upload your document as a PDF and use the name convention for your file as follow:

“Regional Water Quality Treatment & Wetland Restoration Project”

For more instructions, a video tutorial can be produced by emailing Danielle Rose to further explain the electronic solicitation submittal process. Procurement recommends that proposers submitting electronically double check the documents submitted into Kiteworks to ensure information has been uploaded.
