Proposed Rules

DEPARTMENT OF HEALTH

Board of Orthotists and Prosthetists

RULE NO.: RULE TITLE:

64B14-3.001 Definitions

PURPOSE AND EFFECT: The proposed rule amendments are intended to clarify and update the rule language regarding definitions.

SUMMARY: To update the rule language for definitions.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board concluded that this rule change will not have any impact on licensees and their businesses or the businesses that employ them. The rule will not increase any fees, business costs, personnel costs, will not decrease profit opportunities, and will not require any specialized knowledge to comply. This change will not increase any direct or indirect regulatory costs. Hence, the Board determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the Legislature. No person or interested party submitted additional information regarding the economic impact at that time.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

Emergency Rules

EXECUTIVE OFFICE OF THE GOVERNOR

Division of Emergency Management

RULE NO.: RULE TITLE:

27PER24-1 Florida Nonprofit Security Grant Program

SPECIFIC REASONS FOR FINDING AN IMMEDIATE DANGER TO THE PUBLIC HEALTH, SAFETY OR WELFARE: In section 2, Chapter 2023-352, Laws of Florida (L.O.F.), the Florida Legislature authorized the Division of Emergency Management (Division) to adopt emergency rules to implement a grant program benefiting nonprofit organizations that are at high risk for violent attacks or hate

crimes (Program). The Program’s purpose is to provide grants that may be used to increase security and safety to nonprofit organizations including houses of worship, schools, museums, and community centers.

REASON FOR CONCLUDING THAT THE PROCEDURE IS FAIR UNDER THE CIRCUMSTANCES: In section 2, Chapter 2023-352, L.O.F., the Legislature made a specific finding that all conditions to adopt emergency rules pursuant to s. 120.54(4), F.S., had been deemed met for purposes of implementing the Program. The emergency rulemaking process is fair under the circumstances, as it was declared so by the Legislature, and because it allows the Division to fulfill its legislative mandate to implement and administer the Program while still providing reasonable and appropriate notice.

SUMMARY: The rule establishes the Nonprofit Security Grant Program, identifies eligible applicants, establishes processes for application submission and review, specifies terms of eligibility, and delineates other Program requirements.

NOTICE TO CONSTRUCTION MANAGERS:

The University of Florida Board of Trustees announces that CM-At-Risk services will be required for the project listed below:

Project: UF-318, Dental Science Building - Gainesville

The project may consist of both a building addition and the renovation of existing facilities. The extent of the addition and the existing building renovation subprojects will be determined based on design approaches, funding, construction timing, integration with other projects, and other factors.

The current estimated construction budget is approximately \$53,000,000, including both the addition and renovation projects. Future additional funding may be requested. The project will be delivered using the Construction Manager At-Risk method. Three Green Globes certification by the Green Building Initiative is mandatory.

The contract for construction management services will generally consist of two phases, pre-construction and construction, for each of the project phases. Pre-construction services will begin immediately and will include production of cost studies and estimates; value engineering; analysis of the design documents for constructability, coordination, detailing, materials, and systems; development and maintenance of the construction schedule; production of detailed jobsite management plans; development of strategies for the procurement of trade contracts; development of waste management strategies; and development of a Guaranteed Maximum Price (GMP) proposals based on Construction

Documents. If the GMP proposal is accepted and executed, the construction phase will be implemented. In this phase, the construction manager becomes the single point of responsibility for performance of the construction of the project and shall publicly bid trade contracts. Failure to negotiate an acceptable fixed fee for phase one of the contract, or failure to arrive at an acceptable GMP budget within the time provided in the agreement, may result in the termination of the construction manager's contract.

Applicants will be evaluated on the basis of their past performance, experience, personnel, references, bonding capacity, workload, and responses to questions posed both in the shortlist and interview phases. The Selection Committee may reject all proposals and stop the selection process at any time.

At the time of application, the applicant must be licensed to practice as a general contractor in the State of Florida and, if the applicant is a corporation, must be chartered by the Florida Department of State to operate in Florida. The selected applicant will also be required to provide insurance coverage for General Liability, Automotive Liability, Workers' Compensation, and Builder's Risk.

Applicants desiring to provide construction management services for the project shall submit a proposal only after thoroughly reviewing the facilities program, Project Fact Sheet, and other background information. The proposal shall be prepared as specified in the CMQS Instructions and shall include:

1. A Letter of Application that concisely illustrates the applicant's understanding of the scope of services, schedule, and other goals and considerations as outlined in the Project Fact Sheet and facilities program.
2. Company information and signed certification.
3. A completed, project-specific "CM Qualifications Supplement" (CMQS) proposal. Applications on any other form will not be considered.
4. Resumes, LEED accreditation, and other pertinent credentials for all proposed staff.
5. Proof of the applicant's corporate status in Florida (if applicable) and a copy of the applicant firm's current contracting license from the appropriate governing board.
6. Proof of applicant's bonding capacity and liability insurance coverage.

If the applicant is a corporation, it must be chartered by the Florida Department of State to operate in Florida. As required by Section 287.133, Florida Statutes, an applicant may not submit a proposal for this project if it is on the convicted vendor list for a public entity crime committed within the past 36 months. The selected construction manager must warrant that it will neither utilize the services of, nor contract with, any supplier, subcontractor, or consultant in excess of \$15,000.00

in connection with this project for a period of 36 months from the date of their being placed on the convicted vendor list. Incomplete proposals will be disqualified. Submittal materials will not be returned.
