Proposed Rules

WATER MANAGEMENT DISTRICTS

Southwest Florida Water Management District

RULE NOS.: RULE TITLES:

40D-2.321 Duration of Permits

40D-2.331 Modification of Permits

PURPOSE AND EFFECT: Chapter 2024-180, Laws of Florida, requires water management districts to develop rules promoting reclaimed water use and encouraging quantifiable potable water offsets with specific requirements for such rules. The purpose and effect of the proposed rule amendments will be to: (1) create rule amendments to allow for a water use permit (WUP) duration up to 30 years and WUP extensions up to 10 years if a water supply development or water resource development

project using reclaimed water meets certain conditions under new subsection 373.250(9), F.S.

SUMMARY: These rule amendments will cover the amendments of District rules concerning longer water use permit durations and water use permit extensions for certain projects using reclaimed water that meet subsection 373.250(9), F.S.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: The District conducted an economic review of the revisions to the rule and determined that the impact or regulatory cost, if any, of the revisions will not exceed any one of the economic analysis criteria in a SERC as set forth in Section 120.541(2)(a), F.S. These amendments to the rule are not anticipated to adversely impact businesses or increase regulatory costs to permit applicants. The District has completed for the Governor's Office of Fiscal Accountability and Regulatory Reform (OFARR) the "Is a SERC Required?" form and prepared a summary of the proposed rule amendments, which are both available upon request. Based on the completed "Is a SERC Required?" form and summary and the analysis performed by the District in preparing and completing those documents, the proposed rule amendments are not expected to require legislative ratification pursuant to subsection 120.541(3), F.S.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

RULEMAKING AUTHORITY: 373.044, 373.103, 373.113, 373.149, 373.171, 373.216, 373.249, 373.250 FS.

LAW IMPLEMENTED: 373.079(4)(a), 373.083(5), 373.103, 373.171, 373.219, 373.223, 373.227, 373.236, 373.239, 373.250 FS.

IF REQUESTED WITHIN 21 DAYS OF THE DATE OF THIS NOTICE, A HEARING WILL BE SCHEDULED AND ANNOUNCED IN THE FAR.

THE FULL TEXT OF THE PROPOSED RULE IS:

40D-2.321 Duration of Permits.

(1) through (7), No change.

(8) An applicant is eligible for a permit duration of up to thirty years if the applicant proposes a new water supply development or water resource development project using reclaimed water that meets the advanced waste treatment standards for total nitrogen and total phosphorous as defined in section 403.086(4)(a), F.S. (2024), as part of an application for consumptive use, provided the following conditions are met:

(a) The applicant submits sufficient data to provide reasonable assurance that the conditions for permit issuance will be met for the duration of the permit; and

(b) The applicant demonstrates how the quantifiable savings of the source utilized by the applicant associated with the new water supply development of water resource development project either meets water demands beyond a 20-year permit duration or is completed for the purpose of meeting the requirements of a prevention or recovery strategy established pursuant to Section 373.0421, F.S.; and

(c) The applicant demonstrates a reasonable-beneficial water demand for the permit's allocation through the permit duration; and

(d) The specific permit duration shall be calculated based on the quantity of potable water offsets that produce significant water savings, the project implementation timeframe, and the demonstration of water demand based on projected growth, as calculated at the time of the application; and

(e) The new water supply or water resource development project will be completed and operational within the first 20-years of the issued permit duration; and

(f) The applicant provides documentation of the quantification of the amount of potable resources saved through the use of reclaimed water for new water supply development projects, or the offset provided to the source of water utilized by the applicant for new water resource development projects; and

(g) The use of the reclaimed water must be in the ownership or control of the entity receiving the extended duration; and

(h) A project shall be considered new when completed and operational during the term of the permit and after the effective date of this rule.

40D-2.331 Modification of Permits.

(1) A permittee may seek modification of any of the terms and conditions of an unexpired permit except when the sole purpose is to modify the expiration date. Notwithstanding, a permittee may seek modification for the sole purpose of modifying the expiration date if it is pursuant to subsection 40D-2.321(5), F.A.C., 40D-2.331(4), F.A.C., or when a public water supply permittee achieves demonstrable savings attributable to implementation of a water conservation plan pursuant to Sections 2.4.8.6 and 2.4.8.7 of the Applicant's Handbook. A permit expiration date may also be modified upon request and documentation by the permittee, if the modification application is deemed by the District to be substantial, as described in the WUP Applicant's Handbook Part B Section 1.4.11, (rev. 10/15), resulting in the modification application to (<https://www.flrules.org/Gateway/reference.asp?No=Ref-05856>), be processed as a renewal application with modification. A request for modification shall be reviewed in accordance with the rules in effect at the time the modification is filed.

(2) through (3) No change.

(4) A permittee may apply to extend the permit's duration through a letter modification request for up to ten years if the permittee proposes a new water supply development or new water resource development project using reclaimed water that meets the advanced waste treatment standards for total nitrogen and total phosphorous as defined in paragraph 403.086(4)(a), F.S. (2025), during the term of its permit which results in the reduction of groundwater or surface water withdrawals or is completed to benefit a waterbody with a minimum flow or minimum water level with an adopted recovery or prevention strategy provided the following conditions are met:

(a) The permittee is in compliance with the permittee's consumptive use permit; and

(b) The permittee demonstrates how the quantifiable savings of the source utilized by the permittee associated with the new water supply development or water resource development project either meets water demands beyond the issued permit duration or is completed for the purpose of meeting the requirements of a prevention or recovery strategy established pursuant to section 373.0421, F.S. (2025); and

(c) The permittee demonstrates a reasonable-beneficial water demand for the permit's allocation through the term of the extension; and

(d) The permittee submits a compliance report that contains sufficient data to maintain reasonable assurance that the initial conditions for permit issuance are met at the time of application for the modification. A District-approved compliance report as required under subsection 373.236(4), F.S. (2025), within 1 year prior to the extension request shall satisfy this requirement; and

(e) For water supply development projects, the permit extension shall provide only for the modification of the duration of the permit and shall not be used to change the source of the allocation or increase the quantity; and

(f) For water resource development projects, the permit extension shall provide for the modification of the duration of the permit and shall not be used to change the source of the allocation, but may be used to increase the quantity to no more than the new water resource development project offset. Nothing in this paragraph shall be construed to authorize the use of groundwater where otherwise restricted by rule or law; and

(g) Multiple permit extensions may be requested to reflect quantifiable potable water offsets that will produce significant water savings over the term of the permit. However, in no case shall the cumulative duration of all extensions exceed ten years from the original permit expiration date; and

(h) The specific duration of the extension, with a minimum of one year, shall be calculated based on the following factors: quantity of potable water offsets that will produce significant water savings, quantity of groundwater made available by the development of impact offsets, the duration for which the impact offset as defined in subparagraph 373.250(5)(a)1., F.S. (2025), addresses potential impacts to a minimum flow or minimum water level in prevention or recovery, the project implementation timeframe, and the demonstration of water demand, as calculated at the time of the extension request, and

(i) The new water supply or water resource development project has been completed and is operational prior to the extension being granted or will be completed and operational during the term of the original permit; and

(j) The permittee provides documentation of the quantification of the amount of potable resources that will be saved through the use of reclaimed water for new water supply development projects, or the offset that will be provided to the source of water utilized by the permittee for new water resource development projects; and

(k) The use of the reclaimed water must be in the ownership or control of the entity receiving the extended duration; and

(l) A project shall be considered new when implemented during the term of the original permit and after the effective date of this rule.

RULE NO.: RULE TITLE:

64B2-16.0075 Citations

PURPOSE AND EFFECT: The Board proposes a rule amendment to update the requirements for citations to include a citation for the violation of the recently enacted section 456.072(1)(tt), Florida Statutes, making it a disciplinable offence for a licensee to violate section 456.0625, F.S., for failing to refund overpayments to patients.

SUMMARY: The proposed rule amendment amends Rule 64B2-16.0075, F.A.C., to allow the issuance of a citation for a licensee to fail to refund an overpayment to patients as required by section 456.0625, F.S., in accordance with section 456.072(1)(tt), Florida Statutes.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board concluded that this rule change will not have any impact on licensees and their businesses or the businesses that employ them. The rule will not increase any fees, business costs, personnel costs, will not decrease profit opportunities, and will not require any specialized knowledge to comply. This change will not increase any direct or indirect regulatory costs. Hence, the Board determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the Legislature.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

Section VII Notice of Petitions and Dispositions Regarding Declaratory Statements

DEPARTMENT OF BUSINESS AND PROFESSIONAL REGULATION

Florida Building Commission

RULE NO.: RULE TITLE:

61G20-1.001 Florida Building Code Adopted

NOTICE IS HEREBY GIVEN that the Florida Building Commission has issued an order disposing of the petition for declaratory statement filed by Charleston Square Condominium Association, Inc. on July 21, 2025. The following is a summary of the agency's disposition of the petition:

Petitioner requested an answer to the following questions, based upon the project described within its petition: 1. Does the Charleston Square Condominium building have three habitable stories pursuant to 553.899(3)(a), Florida Statutes, when the building is a mixed-use condominium, with the first floor being solely commercial spaces, and the second and third floors being

residential units? 2. Is there a threshold as to what percentage of the story must be habitable for the entire story to be a “habitable story”? On October 14, 2025, the Commission provided the following answers: In response to Petitioner’s first question, the answer is no. Pursuant to the definition of “habitable space” in the Florida Building Code, Building, 8th (2023), which is more specific to residential living, the existing first floor which consists of commercial spaces (offices, showrooms, storage, and restaurant) is not a habitable story. Therefore, the building in question has only two habitable stories. In response to Petitioner’s second inquiry, this is a question of general applicability, not tied to the petitioner’s particular circumstances, and thus cannot be answered in this declaratory statement.

A copy of the Order Disposing of the Petition for Declaratory Statement may be obtained by contacting: Agency Clerk’s Office, Department of Business and Professional Regulation, 2601 Blair Stone Road, Tallahassee, Florida 32399, (850)921-0342, AGC.Filing@myfloridalicense.com.

61G20-1.001 Florida Building Code Adopted

NOTICE IS HEREBY GIVEN that the Florida Building Commission has issued an order disposing of the petition for declaratory statement filed by Forum Architecture & Interior Design on August 18, 2025. The following is a summary of the agency’s disposition of the petition:

Petitioner requested an answer to the following question, based upon the project described within its petition: Does the Florida Building Code, Building – Eighth Edition (2023) require

Emergency Escape and Rescue Openings (EEROs) within dwelling units or sleeping rooms in an R-2 occupancy apartment building, when two independent means of egress are provided per story as described. On October 14, 2025, the Commission provided the following answer: no. Pursuant to section 1030.1, Florida Building Code, Building, 8th Edition (2023), an R-2 occupancy apartment building that is equipped with an automatic sprinkler system and provided with a minimum of two independent exits per story is not required to provide for emergency escape and rescue openings. Therefore, emergency escape and rescue openings are not required for the dwelling units or the sleeping rooms in question.

A copy of the Order Disposing of the Petition for Declaratory Statement may be obtained by contacting: Agency Clerk’s Office, Department of Business and Professional Regulation, 2601 Blair Stone Road, Tallahassee, Florida 32399, (850)921-0342, AGC.Filing@myfloridalicense.com.

61G20-1.001 Florida Building Code Adopted

NOTICE IS HEREBY GIVEN that the Florida Building Commission has issued an order disposing of the petition for declaratory statement filed by T.A. Krebs, LLC on August 15, 2025. The following is a summary of the agency’s disposition of the petition:

Petitioner requested an answer to the following question, based upon the project described within its petition: Is a detached accessory structure that complies with the requirements of section R322.2.2 without the floor below grade on all sides limited to 600 square feet? On October 14, 2025, the Commission provided the following answer: In response to Petitioner’s question, the answer is that section R322.2.2, Florida Building Code, Residential, 8th Edition (2023), does not apply to the project in question. This section governs enclosed areas below buildings that are elevated in accordance with section R322.2.1, Florida Building Code, Residential, 8th Edition (2023). Pursuant to section R322.2.1, Florida Building Code, Residential, 8th Edition (2023), the project in question is required to be elevated to or above the base flood elevation plus 1 foot. If a firm is currently under contract with FIU for work in this category, and the agreement is eligible for renewal at the end of the fiscal year, the firm is not eligible to submit qualifications at this time. Firms currently under contract with FIU for work in this category will be able to submit qualifications to future solicitations once all renewal periods under their existing agreements expire. This solicitation is intended to encourage new firms to apply.

INSTRUCTIONS: Firms desiring to provide construction services shall submit a letter of application and a completed General Contractor Qualifications Supplement (FIUGCQS) form. Proposals must not exceed 40 pages, including the FIUGCQS and letter of application. Pages must be numbered consecutively. The selected general contractor must warrant that it will neither utilize the services of, nor contract with, any supplier, subcontractor, or consultant in excess of \$15,000.00 in connection with any project for a period of 36 months from the date of their being placed on the convicted vendor list.

FIU STANDARD CONTRACT FORMS, GENERAL TERMS AND CONDITIONS OF THE CONTRACT FOR CONSTRUCTION AND STANDARD INSURANCE REQUIREMENTS APPLICABLE TO GENERAL CONTRACTOR SERVICES PROVIDE FOR AN EFFICIENT AND EFFECTIVE PROCESS. If the contractor enters into a contract with a subcontractor to perform work or provide services pursuant to its contract with FIU, the contractor shall likewise require the subcontractor to comply with the requirements of §448.095, Fla. Stat., and the subcontractor shall provide to the contractor an affidavit stating that the subcontractor does not employ, contract with or subcontract with an unauthorized alien. The contractor shall maintain a copy of such affidavit for the duration of its contract with FIU. This section serves as notice to the contractor regarding the requirements of §448.095, Fla. Stat., and FIU's obligation to terminate the contract if it has a good faith belief that the contractor has knowingly violated §448.095, Fla. Stat. If terminated for such reason, the contractor will not be eligible for award of a public contract for at least one year after the date of such termination. Further, FIU has an obligation to order the immediate termination of any contract between the contractor and a subcontractor performing work on its behalf should FIU develop a good faith belief that the subcontractor has knowingly violated §448.095, Fla. Stat. FIU reserves the right to request documentation from the contractor evidencing its compliance with §448.095, Fla. Stat. at any time during the term of the contract.

All applicants should review Section 448.095, Fla. Stat. carefully.
