Parent Trees fall under the rules and regulations as outlined in Section 581.031(14), F.S. and Florida Department of Agriculture and Consumer Services Rule Chapter 5B-62 as pertaining to the Citrus Nursery Stock Certification Program. Further information can be found in the Citrus Nursery Stock Certification Procedural Manual.

I \_\_\_\_\_ (print name) desire to enter the following citrus selection into the Parent Tree Candidate Program of the Bureau of Citrus Budwood Registration. Trees of the selection listed below are owned by me or under my control. The Bureau of Citrus Budwood Registration makes propagations from the original source tree as a part of the shoot-tip grafting (STG) and disease testing process. A clean propagation of your shoot-tip grafted parent selection will be returned to you after all testing is complete. The original parent will not be registered and cannot be used as a propagation source. I will pay the STG fee for each selection shoot-tip grafted.

<b>Distribution Options (check one option)</b>	
<b>Option 1</b> <input type="checkbox"/> Owner makes freely available to public	As a service to the citrus industry of Florida, and to guard against possible loss of potentially important germplasm, permission is hereby granted to the Division of Plant Industry to:  Propagate in greenhouses and establish plantings. Decisions on inclusion in foundation plantings will be made by the Division based on horticultural value and space available.  To distribute propagative parts from this parent selection to interested growers and nurserymen.
<b>Option 2</b> <input type="checkbox"/> Owner restricts distribution	I plan to restrict the distribution of propagative parts from this parent selection. The Division of Plant Industry may propagate in greenhouses and establish plantings. Decisions on inclusion in foundation plantings will be made by the Division based on horticultural value and space available.  I understand it is my responsibility to notify the Bureau of Citrus Budwood Registration in writing of any special distribution conditions of this parent selection.
<b>Option 3</b> <input type="checkbox"/> Owner completely controls distribution	I wish to maintain complete control of the distribution of propagative parts from this parent selection.  The Division of Plant Industry will not include this parent selection in their foundation greenhouses or grove plantings. The role of the Division of Plant Industry will be only to shoot-tip graft and test for selected graft-transmissible pathogens and to return a clean plant for me to maintain in an approved structure.
