In order for a proposed code change to be accepted as a glitch change, it must fall within one of the following criteria.

Check at least one and all that apply.

- (a.) Conflicts within the updated code;
- (b.) Conflicts between the updated code and the Florida Fire Prevention Code adopted pursuant to chapter 633;
- (c.) Unintended results from the integration of previously adopted Florida-specific amendments with the model code;
- (d.) Equivalency of standards;
- (e.) Changes to or inconsistencies with federal or state law;
- (f.) Adoption of an updated edition of the National Electrical Code if the commission finds that delay of implementing the updated edition causes undue hardship to stakeholders or otherwise threatens the public health, safety, and welfare.
