

**DBPR HR – 7030 DIVISION OF HOTELS AND RESTAURANTS
APPLICATION FOR PUBLIC FOOD SERVICE ESTABLISHMENT LICENSE WITH PLAN REVIEW**

Application begins on page 7

Congratulations on your decision to consider a new business venture! As you explore this opportunity, the Department of Business and Professional Regulation's (DBPR) Division of Hotels and Restaurants (H&R) is ready to assist you through the licensing and regulatory process.

Our responsibility is to work with the business community to achieve the highest levels of health and safety for all Floridians and tens of millions annual visitors. Toward that goal, we are a resource you can use to see that your new business operates within the requirements of the law.

Plan reviewers will assist you in meeting the design and fire safety requirements in the law, and inspectors will provide educational support on site to help you meet the minimum requirements for healthy and safe conditions and products.

This packet contains information regarding the legal requirements of operating your business. It is very important that you familiarize yourself with this information before you begin operating. If you have questions, or need any clarification, please contact the DBPR Customer Contact Center at 850.487.1395 or go online to www.MyFloridaLicense.com/dbpr/hr. Because our knowledge and authority are in state government requirements, it is very important that you also contact local officials regarding any city and county requirements for a new business.

We wish you the best of luck and success in your venture.

GENERAL INSTRUCTIONS

To begin Florida's food service licensing process, the law requires the division to review facility plans for sanitation and safety concerns. Plan review is required when the establishment is:

- Newly built,
- Converted from another use,
- Remodeled or
- Re-opened after being closed at least 1 year.

Please use the checklist below to make sure you provide all necessary requirements for plan review.

APPLICATION

- **Form DBPR HR-7030, Application for Public Food Service License with Plan Review.** For a mobile food dispensing vehicle operation (including hot dog carts and theme park food carts), please complete form DBPR HR-7031, Application for Mobile Food Dispensing Vehicle License with Plan Review (this may be found in a separate application packet).

FILING SEPARATE APPLICATIONS—This application packet includes everything necessary to apply for a food service license and plan review at the same time. Usually, we recommend you apply for plan review prior to building or remodeling your establishment, and then apply for license at least 30 days before you begin operations. If you want to apply for your plan review and food service license separately, please complete form DBPR HR-7005, Application for Plan Review, and form DBPR HR-7007, Application for Public Food Service License, instead of this form.

- **A sample menu** or menu information listed on a separate document.
- **Water and wastewater information and approval.** You may submit a copy of your current water and/or sewer bill as proof of approval. If your establishment is on a well or septic tank, use the Evaluation of Onsite Sewage (Septic) and Water Supply Capacity form. You may also use this form if you do not have a copy of the water or sewer bill. The local authority must sign this form. The local Department of Health and Department of Environmental Protection handle well and septic tank approvals.
- **Equipment specifications**, if the proposed equipment is not customary for food service operations.

FEES

Fees are listed in rule 61C-1.008, Florida Administrative Code. For your convenience, we provide an automated license fee calculator and fee tables on our website at www.MyFloridaLicense.com/dbpr/hr. If you are unsure of the fee, please contact the DBPR Customer Contact Center at 850.487.1395 for the correct license fee amount. In addition to the license fee, there is a one-time application processing fee of \$50 and a plan review fee of \$150. Please make your check or money order for your fees made payable to the Department of Business and Professional Regulation. The division does not accept cash payments.

PLANS

- At least two (2) scaled drawings. The division will keep one and return any additional sets to the applicant. You may submit additional sets required by local authorities.
- Label all areas of the building (e.g., bars, wait stations, seating, dining areas). Include a site plan (drawing of the area surrounding your business) if your business is part of a larger structure.
- Identify all equipment (e.g., stoves, refrigerators, steam tables, prep tables). Plans must include a utility sink, handwash sink(s) and a three-compartment sink or a commercial dishwasher.
- Identify all exits and mark the direction of door swing.
- Indicate the location and type of all portable fire extinguishers and, if applicable, all automatic fire suppression/ventilation hood system(s). (For reporting purposes)
- Indicate the dumpster location and the type of material it will be placed on, which is required to be non-absorbent.
- Identify all storage areas including where cleaning equipment and supplies, dry goods and employee personal items are stored.

OPENING INSPECTION

Once we have received and processed all of the above requirements, we will contact you for an opening inspection.

- If you have 1) completed plan review, 2) submitted your application and fees, 3) you are ready to open your establishment, and 4) you have not heard from us about your inspection, please contact the DBPR Customer Contact Center at 850.487.1395 to request an inspection.
- Inspectors do not routinely conduct pre-opening or courtesy inspections. Do not call to schedule an opening inspection unless absolutely ready to open.
- If opening a newly built, converted or reopened establishment, do not begin to serve food to the public until a satisfactory inspection and a receipt for license to operate have been obtained.
- Change of ownership applications do not require an inspection if the previous owner received a satisfactory inspection within 120 days before the application is processed. If there was no inspection within this time period, we will conduct the opening inspection after you legally become the new owner. See page 6, section 2 for the appropriate application type.
- Ensure that all required equipment is installed and functional prior to the inspector's visit and all the necessary licensing information has been obtained, including owner's name and social security number, Federal Employers Identification Number and/or sales tax number. Have proof of other approvals on site, such as building, electrical, fire, plumbing, etc.
- After achieving a satisfactory inspection, please allow 30 days to receive the license in the mail. You will receive a temporary license after your satisfactory inspection that will allow you to operate until the actual license arrives.

HOW TO DRAW A FLOOR PLAN

The completed drawing should be a good representation of exactly how your establishment looks in real life or how you intend it to look when it has been built. By following these simple instructions, you will be able to draw an accurate, scaled floor plan yourself.

A floor plan is a measured drawing that is an exact miniature representation of your establishment as seen from an overhead view. The plan must be drawn “to scale”, which means that everything must be in the correct proportions. For example, if the establishment is 40 feet long and 20 feet wide, then the length wall would be drawn twice as long as the width wall on your paper. The same is true for all of the interior walls, rooms, and equipment.

Begin by measuring the length and width of your establishment with a tape measure as well as the lengths and widths of all interior rooms including kitchens, dining rooms, bars, store rooms, walk-in coolers, etc. Note: Write down all the measurements taken on a piece of paper for future reference.

Next, measure the length and width of all sinks, tables, worktables, counter tops, and other equipment throughout the establishment. Also measure the spaces between each piece of equipment so that you will be able to accurately position each piece on your plan. You should now have all the measurements needed to complete the drawing. If your establishment does not yet exist, or you have not yet decided upon the exact equipment, your measurements will be estimates.

Draw the plan on graph or quad paper. You may use any size grid, however the most common (and simple) graph paper in office supply stores is labeled as ¼ inch grid. On this graph paper, each small square is ¼ inch long. The way to draw a plan “to scale” is to make each ¼ inch square equal to an exact real life distance. For example, if you make 1 foot equal to a ¼ inch square, then a table in your establishment that is 4 feet long and 3 feet wide is drawn to cover 4 squares across and 3 squares deep. Using the same ¼ inch=1 foot scale, if your establishment is 40 feet long and 20 feet wide, the wall would be 40 squares long and 20 squares wide on the graph paper. Remember to show all exit doors and how they swing.

Draw all interior rooms, walls, hallways and doors according to your measurements. Add all the equipment, sinks, tables, etc., positioned accurately on the plan. Identify each piece of equipment with a number. Create a list identifying to what each number refers:

Example Equipment List

1. Ventilation fan	7. Work top refrigerator	13. Counter
2. Handwash sink	8. Four-burner stove	14. Cash register
3. Ice machine	9. Flat-top griddle	15. Table & chairs
4. Refrigerator / freezer	10. Fryer	16. Grease trap (outside)
5. Mop sink	11. Hood with suppression system	17. Dumpster (outside)
6. 3-compartment sink with drainboards	12. Hot dog machine	18. Water Heater

INSTRUCTIONS FOR COMPLETING THE APPLICATION

SECTION 1 – OFFICE USE ONLY

This is for division office use only. Please do not complete this section.

SECTION 2 –LICENSE TYPE

Indicate the type of service that best describes your establishment. (Required) Use the following descriptions provided by Florida law to identify your type of establishment. The specific law for each definition is identified after the description.

- **Seating (SEAT)** – Permanent seating establishments are those fixed public food service establishments that provide and maintain accommodations for consumption of food on the premises of the establishment or under the control of the establishment. The operator of the establishment must provide the number of seats available to the public to the division prior to licensing for fee calculation purposes. The division does not authorize the number of seats. For seating levels and changes to seating, the applicant must obtain wastewater approvals from the Florida Department of Health, Florida Department of Environmental Protection or the local utility authority. The local authority having jurisdiction must approve fire safety issues relating to seating levels. [Rule 61C-1.002(5)(b), Florida Administrative Code (FAC)]
- **No Seats (NOST)** – Permanent nonseating establishments are those fixed public food service establishments for which the sole service provided is intended as take-out or delivery, or do not otherwise provide accommodations for consumption of food by guests on the premises, or the premises are not under the control of the operator. For the purposes of this section, we classify establishments located at food courts and malls in this manner as long as the establishment does not have seating within the premises of the establishment itself. [Rule 61C-1.002(5)(a)1., FAC]
- **Catering (CATR)** - Caterers are public food service establishments where food or drink is prepared for service elsewhere in response to an agreed upon contract for a function or event. The term includes catering kitchens and commissaries. The term "caterer" does not include those establishments licensed pursuant to Chapters 500 or 381, FS, or any other location where food is provided or displayed for sale by the individual meal. A licensed public food service establishment that also provides catering services is not required to hold a separate catering license from the division. Caterers must meet all applicable standards of a public food service establishment as provided in Rules 61C-1.004, 61C-4.010, and 61C-4.023, FAC. Separate independent caterers utilizing the equipment or premises of a licensed establishment are deemed operators as defined by subsection 509.013(2), FS, of such public food service establishment and subject to all applicable requirements of law and rule. [Rule 61C-1.002(5)(a)3., FAC]

Social security numbers must also be recorded on all occupational license applications and are used for licensee identification purposes pursuant to the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (Welfare Reform Act), 104 Pub.L.193, Sec. 317.
