Each filing should include an exhibit with the requested increase and one without the requested increase.

Formulas (and underlying assumptions) used to determine projected values should be disclosed as part of the filing.

Assumptions disclosed should include the interest, medical trend, insurance trend, aging, lapse, shock lapse, and the effectiveness of past and proposed rate increases.

* Calendar year expected claims and expected loss ratios are taken from the durational experience exhibit. 2011 expected loss ratios are taken from the approved durational loss ratio slope one duration beyond the 2010 expected loss ratio. Each additional future value follows the approved durational loss ratio slope.
