|  | b. Apply grade 8 Reading standards to literary nonfiction (e.g., “Delineate and evaluate the argument and specific claims in a text, assessing whether the reasoning is sound and the evidence is relevant and sufficient; recognize when irrelevant evidence is introduced”). |
The course includes, but is not limited to, the following:

- determining central ideas or themes of a text and analyzing their development as well as summarizing the key supporting details and ideas;
- interpreting words and phrases as they are used in a text, including determining technical, connotative, and figurative meanings, and analyzing how specific word choices shape meaning or tone;
- analyzing the structure of texts, including how specific sentences, paragraphs, and larger portions of the text (e.g., a section, chapter, scene, or stanza) relate to each other and the whole;
- integrating and evaluating content presented in diverse formats and media, including visually and quantitatively, as well as in words;
- delineating and evaluating the argument and specific claims in a text, including the validity of the reasoning as well as the source, relevance and sufficiency of the evidence;
- analyzing how two or more texts address similar themes or topics in order to build knowledge or to compare the approaches the authors take;
- writing in response to reading, emulating authors' structures, word choices, styles, etc.

Additional Notes: Students entering the upper grades, who are not reading and writing on grade level, have a variety of intervention needs. No single program or strategy can be successful in remediating the needs of all students. The intervention course should require that students increase the amount and complexity of text they read and write independently throughout the school year to ensure students have enough exposure to various text structures and academic vocabulary to develop skills necessary for college and career readiness.

It is necessary to implement a combination of research-based programs and strategies that have been proven successful in accelerating the development of literacy skills in older readers.

The following practices should be incorporated in the course:

1. Scaffolding of close reading is provided but does not preempt or replace text.
2. Systematic instruction in vocabulary is provided.
3. Explicit instruction in applying grammatical structures and conventions is provided.
4. Student independence is cultivated.

Special Notes:

Instructional Practices: Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any purpose. Using the following instructional practices also helps student learning.

1. Reading assignments from longer text passages, as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Achievement on standardized tests assessing reading and writing skills is a reflection of students' confidence and competence in reading. Therefore, instruction throughout the school year should ensure students possess the ability to read and comprehend...
difficult texts and perform challenging tasks associated with those texts. Time spent engaging students in practice tests should be limited, given most students’ vast experiences with standardized tests and the relatively small role that knowledge of test format plays in student test performance.

In those instances when this course is repeated, the content should be differentiated based on reliable and valid assessment data. If repeated, the required level of student proficiency should increase. If students are making adequate progress (accelerated growth) in a given intervention, that intervention should be continued. If students are not making adequate progress, a new intervention should be implemented.

English Language Development ELD Standards Special Notes Section:
Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. | ELA.6.C.2.1: | Present information orally, in a logical sequence, using nonverbal cues, appropriate volume, clear pronunciation, and appropriate pacing.  
**Clariﬁcations:**  
Clarification 1: Nonverbal cues appropriate to this grade level are posture, tone, expressive delivery, focus on the audience, and facial expression. Clear pronunciation should be interpreted to mean an understanding and application of phonics rules and sight words as well as care taken in delivery. A student’s speech impediment should not be considered as impeding clear pronunciation. Appropriate pacing is adhering to the pauses dictated by punctuation and speaking at a rate that best facilitates comprehension by the audience. Too fast a pace will lose listeners and too slow can become monotonous. The element will also help students address the nervousness that may make them speak too fast during presentations.  
Clarification 2: For further guidance, see the Secondary Oral Communication Rubric.

| ELA.6.C.3.1: | Follow the rules of standard English grammar, punctuation, capitalization, and spelling appropriate to grade level.  
**Clariﬁcations:**  
Clarification 1: Skills to be mastered at this grade level are as follows:  
- Use verbals including gerunds, infinitives, and participial phrases.  
- Use comparative and superlative forms of adjectives.  
- Use pronouns correctly with regard to case, number, and person, correcting for vague pronoun reference.  
Skills to be implemented but not yet mastered are as follows:  
- Appropriately use colons.  
- Appropriately use dangling modifiers.  
- Appropriately use ellipses.  
- Appropriately use hyphens.  
- Vary sentence structure.  
Clarification 2: See Convention Progression by Grade Level for more information.  
Standard Relation to Course: Major |
| ELA.6.C.4.1: | Conduct research to answer a question, drawing on multiple reliable and valid sources, and refocusing the inquiry when appropriate.  
**Clariﬁcations:**  
Clarification 1: While the benchmark does require that students consult multiple sources, there is no requirement that they use every source they consult. Part of the skill in researching is discernment—being able to tell which information is relevant and which sources are trustworthy enough to include.

### ELA.612.F.2.1: Demonstrate an understanding of spoken words, syllables, and sounds.

- a. Orally produce single-syllable and multisyllabic words by accurately blending sounds.
- b. Accurately segment single-syllable and multisyllabic words.

**Clarifications:**
*Clarification 1:* Phonological awareness only refers to what can be done orally at both the sound and syllabic level. This includes isolating sounds, blending sounds, and orally segmenting words based on syllables. It does not involve print or letter knowledge.

- a. Orally combine c-a-t to make cat/ orally combine trou-ser to make trouser.
- b. Orally break cat into c-a-t/ orally break trouser into trou-ser.

### ELA.612.F.2.2: Know and apply phonics and word analysis skills in decoding words.

- a. Use an array of strategies to decode single-syllable and multisyllabic words.
- b. Accurately read multisyllabic words using a combined knowledge of all letter-sound correspondences, and syllabication patterns.

**Clarifications:**
*Clarification 1:* Phonics refers to the relationship between graphemes (letters or letter combinations) and phonemes (speech sounds). Since morphemes represent the smallest unit of language with meaning, morphology refers to the skill of recognizing morphemes as a unit when decoding and determining meaning.

### ELA.612.F.2.3: Know and apply phonics and word analysis skills in encoding words.

- a. Use an array of strategies to accurately encode single-syllable and multisyllabic words.

**Clarifications:**
*Clarification 1:* Encoding refers to using the written word in order to communicate. It combines the skills of phonological awareness, phonics, and morphology to move from the oral to the written word.

- a. The process of encoding sounds through letters (s, r), consonant blends (sh, sk), digraphs (ay, ew), or trigraphs (sch, thr) using conventional spelling patterns to form words.
- b. The process of adding single units of sound with meaning to existing word parts to encode a given word.

### ELA.612.F.2.4: Read grade-level texts with accuracy, automaticity, and appropriate prosody or expression.

**Clarifications:**
*Clarification 1:* See Fluency Norms for grade-level norms. Norms are expressed as words correct per minute (WCPM), a measure that combines accuracy with rate. The chart stops at 6th grade because it represents sufficient automaticity for proficient reading. For secondary students receiving reading interventions, teachers should use the 6th grade norms as a goal.

*Clarification 2:* Appropriate prosody refers to pausing patterns during oral reading that reflect the punctuation and meaning of a text. See Sample Oral Reading Fluency Rubrics for prosody.

*Clarification 3:* Grade-level texts, for the purposes of fluency, are those within the grade band on quantitative text complexity measures and appropriate in content and qualitative measures.

### ELA.K12.EE.1.1: Cite evidence to explain and justify reasoning.

**Clarifications:**
K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.

2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.

4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they’ve directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.

6-8 Students continue with previous skills and use a style guide to create a proper citation.

9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.

### ELA.K12.EE.2.1: Read and comprehend grade-level complex texts proficiently.

**Clarifications:** Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like “Why is the girl smiling?” or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond. |
| ELA.K12.EE.4.1: | Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.  
**Clarifications:** In kindergarten, students learn to listen to one another respectfully. In grades 1-2, students build upon these skills by justifying what they are thinking. For example: “I think ________ because ________.” The collaborative conversations are becoming academic conversations. In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence. |
| ELA.K12.EE.5.1: | Use the accepted rules governing a specific format to create quality work.  
**Clarifications:** Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work. |
| ELA.K12.EE.6.1: | Use appropriate voice and tone when speaking or writing.  
**Clarifications:** In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts. |
| ELD.K12.ELL.LA.1: | English language learners communicate information, ideas and concepts necessary for academic success in the content area of Language Arts. |

**General Course Information and Notes**

**VERSION DESCRIPTION**

This course is designed for 6th grade students reading below grade level. The course includes foundational skill standards to be used until a student has mastered the standard.

Teachers will use the listed standards that correspond to student need based on diagnostic assessments and adjust according to ongoing progress monitoring data.

Effective implementation requires the support to be matched to student need and is provided by the most experienced, and/or specialized expert. Instruction is individualized and targeted to the skills that pose the greatest barrier to learning and is characterized by the greatest number of minutes of instruction with the narrowest focus for an individual or a very small group of students. Individualized diagnostic data, as well as instructional time, are in addition to those provided in core instruction. Formative assessments occur more frequently and focus on the learning barriers to success and are based on intensity of needs. The larger the gap, the more frequent the progress monitoring. The expected outcome is for the student to achieve grade-level proficiency.

**Important Note:** Reading and writing courses should not be used in place of English language arts courses; reading and writing courses are intended to be used to supplement further study in English language arts.

The Intensive courses have been designed for the teacher to select and teach only the appropriate standards corresponding to the student's grade and/or instructional level. This course should not be used in place of grade level English language arts courses and is intended to provide intervention for students who have reading deficiencies.

**GENERAL NOTES**

**English Language Development ELD Standards Special Notes Section:**

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: https://cpalmsmediaprod.blob.core.windows.net/uploads/docs/standards/eld/la.pdf

| **ELA.7.R.1.2:** Compare two or more themes and their development throughout a literary text. **Clariifications:** | **Clarification 1:** Students should continue to work with the concept of universal themes, although mastery isn’t expected until 9th grade. A universal theme is an idea that applies to anyone, anywhere, regardless of cultural differences. Examples include but are not limited to an individual’s or a community’s confrontation with nature; an individual’s struggle toward understanding, awareness, and/or spiritual enlightenment; the tension between the ideal and the real; the conflict between human beings and advancements in technology/science; the impact of the past on the present; the inevitability of fate; the struggle for equality; and the loss of innocence. |
| **ELA.7.R.1.3:** Explain the influence of narrator(s), including unreliable narrator(s), and/or shifts in point of view in a literary text. **Clariifications:** | **Clarification 1:** An unreliable narrator is one who lacks credibility. Because all information is being conveyed through this untrustworthy source, readers have to use inferencing to establish what is likely to be true. Narrators can be unreliable for many reasons including purposeful dishonesty, a lack of information or background knowledge about what that information means, mental illness, or self-deception.  
  **Clarification 2:** "Shifts in point of view” refers to a change in the narrator’s point of view done for effect. Changes can be in degree and/or person: for example, a shift from third-person limited to third-person omniscient or from first-person limited to third-person limited. |
| **ELA.7.R.1.4:** Analyze the impact of various poetic forms on meaning and style. **Clariifications:** | **Clarification 1:** Poetic forms used for this benchmark are sonnet and villanelle.  
  **Clarification 2:** Instruction in this benchmark should focus on how the structure of each poetic form affects its meaning. |
| **ELA.7.R.2.1:** Explain how individual text sections and/or features convey a purpose in texts. **Clariifications:** | **Clarification 1:** Poetic forms used for this benchmark are sonnet and villanelle.  
  **Clarification 2:** Instruction in this benchmark should focus on how the structure of each poetic form affects its meaning. |
| **ELA.7.R.2.2:** Compare two or more central ideas and their development throughout a text. **Clariifications:** | **Clarification 1:** Poetic forms used for this benchmark are sonnet and villanelle.  
  **Clarification 2:** Instruction in this benchmark should focus on how the structure of each poetic form affects its meaning. |
<p>| <strong>ELA.7.R.2.3:</strong> Explain how an author establishes and achieves purpose(s) through diction and syntax. <strong>Clariifications:</strong> | <strong>Clarification 1:</strong> This benchmark focuses on the way in which diction (the author’s word choice) and syntax (the way in which an author arranges those words) work together to achieve a purpose. |</p>

### General Course Information and Notes

**VERSION DESCRIPTION**

This course is designed for 7th grade students reading below grade level. The course includes foundational skill standards to be used until a student has mastered the standard.

Teachers will use the listed standards that correspond to student need based on diagnostic assessments and adjust according to ongoing progress monitoring data.

Effective implementation requires the support to be matched to student need and is provided by the most experienced, and/or specialized expert. Instruction is individualized and targeted to the skills that pose the greatest barrier to learning and is characterized by the greatest number of minutes of instruction with the narrowest focus for an individual or a very small group of students. Individualized diagnostic data, as well as instructional time, are in addition to those provided in core instruction. Formative assessments occur more frequently and focus on the learning barriers to success and are based on intensity of needs. The larger the gap, the more frequent the progress monitoring. The expected outcome is for the student to achieve grade-level proficiency.

**Important Note:** Reading and writing courses should not be used in place of English language arts courses; reading and writing courses are intended to be used to supplement further study in English language arts.

The Intensive courses have been designed for the teacher to select and teach only the appropriate standards corresponding to the student's grade and/or instructional level. This course should not be used in place of grade level English language arts courses and is intended to provide intervention for students who have reading deficiencies.

**GENERAL NOTES**

**English Language Development ELD Standards Special Notes Section:**

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: [https://cpalmsmediaprod.blob.core.windows.net/uploads/docs/standards/eld/la.pdf](https://cpalmsmediaprod.blob.core.windows.net/uploads/docs/standards/eld/la.pdf)

**VERSION REQUIREMENTS**

Interventions must be evidence-based and correspond to either the district K-12 Evidence-based Comprehensive Reading plan or the reading plan within a school's charter.
QUALIFICATIONS

| ELA.6.C.1.2: | Write personal or fictional narratives using narrative techniques, precise words and phrases, and figurative language.  
**Clarifications:**  
Clarification 1: See Writing Types and Narrative Techniques.  
Clarification 2: Figurative language at this grade level should include any on which students have received instruction in this or previous grades. See Figurative Language Standard.                                                                                                                                                                                                                         |
| ELA.6.C.1.3: | Write and support a claim using logical reasoning, relevant evidence from sources, elaboration, and a logical organizational structure with varied transitions.  
**Clarifications:**  
Clarification 1: See Writing Types and Elaborative Techniques.                                                                                                                                                                                                                                                                                                  |
| ELA.6.C.1.4: | Write expository texts to explain and/or analyze information from multiple sources, using a logical organizational structure, relevant elaboration, and varied transitions.  
**Clarifications:**  
Clarification 1: See Writing Types and Elaborative Techniques.                                                                                                                                                                                                                                                                                                  |
| ELA.6.C.2.1: | Present information orally, in a logical sequence, using nonverbal cues, appropriate volume, clear pronunciation, and appropriate pacing.  
**Clarifications:**  
Clarification 1: Nonverbal cues appropriate to this grade level are posture, tone, expressive delivery, focus on the audience, and facial expression. Clear pronunciation should be interpreted to mean an understanding and application of phonics rules and sight words as well as care taken in delivery. A student’s speech impediment should not be considered as impeding clear pronunciation. Appropriate pacing is adhering to the pauses dictated by punctuation and speaking at a rate that best facilitates comprehension by the audience. Too fast a pace will lose listeners and too slow can become monotonous. The element will also help students address the nervousness that may make them speak too fast during presentations.  
Clarification 2: For further guidance, see the Secondary Oral Communication Rubric.                                                                                                                                                                                                                   |
| ELA.6.C.3.1: | Follow the rules of standard English grammar, punctuation, capitalization, and spelling appropriate to grade level.  
**Clarifications:**  
Clarification 1: Skills to be mastered at this grade level are as follows:  
- Use verbals including gerunds, infinitives, and participial phrases.  
- Use comparative and superlative forms of adjectives.  
- Use pronouns correctly with regard to case, number, and person, correcting for vague pronoun reference.                                                                                                                                                                                                 |
| ELA.6.C.4.1: | Skills to be implemented but not yet mastered are as follows:  
- Appropriately use colons.  
- Appropriately use dangling modifiers.  
- Appropriately use ellipses.  
- Appropriately use hyphens.  
- Vary sentence structure.  
**Clarification 2:** See Convention Progression by Grade Level for more information.                                                                                                                                                                                                                                                                                   |
| ELA.6.R.1.1: | Conduct research to answer a question, drawing on multiple reliable and valid sources, and refocusing the inquiry when appropriate.  
**Clarifications:**  
Clarification 1: While the benchmark does require that students consult multiple sources, there is no requirement that they use every source they consult. Part of the skill in researching is discernment—being able to tell which information is relevant and which sources are trustworthy enough to include.                                                                                                                                 |
| ELA.6.R.1.1: | Analyze how the interaction between characters contributes to the development of a plot in a literary text.  
**Clarifications:**  
Analyze the development of stated or implied theme(s) throughout a literary text.                                                                                                                                                                                                                                                                                   |
**ELA.6.R.1.2:** 
Clarification 1: For the purposes of this benchmark, theme is not a one- or two-word topic, but a complete thought that communicates the author's message. See Theme in Glossary.  
Clarification 2: Students should be introduced to the concept of universal themes, although mastery isn't expected until 9th grade. A universal theme is an idea that applies to anyone, anywhere, regardless of cultural differences. Examples include but are not limited to an individual's or a community's confrontation with nature; an individual's struggle toward understanding, awareness, and/or spiritual enlightenment; the tension between the ideal and the real; the conflict between human beings and advancements in technology/science; the impact of the past on the present; the inevitability of fate; the struggle for equality; and the loss of innocence.  

**ELA.6.R.1.3:**  
Explain the influence of multiple narrators and/or shifts in point of view in a literary text.  
*Clarifications:*  
Clarification 1: When referring to the person of the narrator, the term "point of view" is used. Students focused on perspective in fifth grade, so they should differentiate between point of view and perspective when working on this benchmark.  

**ELA.6.R.1.4:**  
Describe the impact of various poetic forms on meaning and style.  
*Clarifications:*  
Clarification 1: Poetic forms used for this benchmark are sonnet and villanelle.  

**ELA.6.R.2.1:**  
Explain how individual text sections and/or features convey meaning in texts.  
*Clarifications:*  
Clarification 1: Various types of support could include an author's use of facts, definitions, concrete details, and/or quotations to develop the central idea(s) in a text.  

**ELA.6.R.2.2:**  
Analyze the central idea(s), implied or explicit, and its development throughout a text.  
*Clarifications:*  
Clarification 1: For more information on types of reasoning, see Types of Logical Reasoning.  

**ELA.6.R.2.3:**  
Analyze authors' purpose(s) in multiple accounts of the same event or topic.  
*Clarifications:*  
Clarification 1: Instruction in types of reasoning will include an introduction to fallacies in reasoning. Fallacies that are related to content, informal fallacies, will be the focus. See Fallacies in Reasoning (Informal).  

**ELA.6.R.2.4:**  
Track the development of an argument, identifying the types of reasoning used.  
*Clarifications:*  
Clarification 1: For more information on types of reasoning, see Types of Logical Reasoning.  

**ELA.6.R.3.1:**  
Explain how figurative language contributes to tone and meaning in text(s).  
*Clarifications:*  
Clarification 1: Figurative language use that students will analyze are metaphor, simile, alliteration, onomatopoeia, personification, hyperbole, and idiom. Other examples can be used in instruction.  

**ELA.6.R.3.2:**  
Paraphrase content from grade-level texts.  
*Clarifications:*  
Clarification 1: Most grade-level texts are appropriate for this benchmark.  

**ELA.6.V.1.1:**  
Integrate academic vocabulary appropriate to grade level in speaking and writing.  
*Clarifications:*  
Clarification 1: To integrate vocabulary, students will apply the vocabulary they have learned to authentic speaking and writing tasks independently. This use should be intentional, beyond responding to a prompt to use a word in a sentence.  

**ELA.6.V.1.2:**  
Apply knowledge of Greek and Latin roots and affixes to determine meanings of words and phrases in grade-level content.  
*Clarifications:*  
Clarification 1: See Common Greek and Latin Roots 6-8 and Affixes.  

**ELA.6.V.1.3:**  
Apply knowledge of context clues, figurative language, word relationships, reference materials, and/or background knowledge to determine the connotative and denotative meaning of words and phrases, appropriate to grade level.  
*Clarifications:*  
Clarification 1: Review of words learned in this way is critical to building background knowledge and related vocabulary.  

**ELA.6.V.2.1:**  
Demonstrate an understanding of spoken words, syllables, and sounds.  
- a. Orally produce single-syllable and multisyllabic words by accurately blending sounds.  
- b. Accurately segment single-syllable and multisyllabic words.  
*Clarifications:*  
Clarification 1: Phonological awareness only refers to what can be done orally at both the sound and syllabic level. This includes isolating sounds, blending sounds, and orally segmenting words based on syllables. It does not involve print or letter knowledge.  
- a. Orally combine c-a-t to make cat/ orally combine trou-ser to make trouser.  
- b. Orally break cat into c-a-t/ orally break trouser into trou-ser.
ELA.612.F.2.2: Know and apply phonics and word analysis skills in decoding words.

a. Use an array of strategies to decode single-syllable and multisyllabic words.
b. Accurately read multisyllabic words using a combined knowledge of all letter-sound correspondences, and syllabication patterns.

Clarifications:
Clarification 1: Phonics refers to the relationship between graphemes (letters or letter combinations) and phonemes (speech sounds). Since morphemes represent the smallest unit of language with meaning, morphology refers to the skill of recognizing morphemes as a unit when decoding and determining meaning.

ELA.612.F.2.3: Know and apply phonics and word analysis skills in encoding words.

a. Use an array of strategies to accurately encode single-syllable and multisyllabic words.

Clarifications:
Clarification 1: Encoding refers to using the written word in order to communicate. It combines the skills of phonological awareness, phonics, and morphology to move from the oral to the written word.
a. The process of encoding sounds through letters (s, r), consonant blends (sh, sk), digraphs (ay, ew), or trigraphs (sch, thr) using conventional spelling patterns to form words.
b. The process of adding single units of sound with meaning to existing word parts to encode a given word.

ELA.612.F.2.4: Read grade-level texts with accuracy, automaticity, and appropriate prosody or expression.

Clarifications:
Clarification 1: See Fluency Norms for grade-level norms. Norms are expressed as words correct per minute (WCPM), a measure that combines accuracy with rate. The chart stops at 6th grade because it represents sufficient automaticity for proficient reading. For secondary students receiving reading interventions, teachers should use the 6th grade norms as a goal.
Clarification 2: Appropriate prosody refers to pausing patterns during oral reading that reflect the punctuation and meaning of a text. See Sample Oral Reading Fluency Rubrics for prosody.
Clarification 3: Grade-level texts, for the purposes of fluency, are those within the grade band on quantitative text complexity measures and appropriate in content and qualitative measures.

ELA.K12.EE.1.1: Cite evidence to explain and justify reasoning.

Clarifications:
K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.
2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.
4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they’ve directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.
6-8 Students continue with previous skills and use a style guide to create a proper citation.
9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.

ELA.K12.EE.2.1: Read and comprehend grade-level complex texts proficiently.

Clarifications:
See Text Complexity for grade-level complexity bands and a text complexity rubric.

ELA.K12.EE.3.1: Make inferences to support comprehension.

Clarifications:
Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.

ELA.K12.EE.4.1: Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.

Clarifications:
In kindergarten, students learn to listen to one another respectfully.
In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think ________ because ________." The collaborative conversations are becoming academic conversations.
In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.

Clarifications:
Use the accepted rules governing a specific format to create quality work.
General Course Information and Notes

VERSION DESCRIPTION

This course is designed for 6th grade students reading below grade level. The course includes foundational skill standards to be used until a student has mastered the standard.

Teachers will use the listed standards that correspond to student need based on diagnostic assessments and adjust according to ongoing progress monitoring data.

Effective implementation requires the support to be matched to student need and is provided by the most experienced, and/or specialized expert. Instruction is individualized and targeted to the skills that pose the greatest barrier to learning and is characterized by the greatest number of minutes of instruction with the narrowest focus for an individual or a very small group of students. Individualized diagnostic data, as well as instructional time, are in addition to those provided in core instruction. Formative assessments occur more frequently and focus on the learning barriers to success and are based on intensity of needs. The larger the gap, the more frequent the progress monitoring. The expected outcome is for the student to achieve grade-level proficiency.

Important Note: Reading and writing courses should not be used in place of English language arts courses; reading and writing courses are intended to be used to supplement further study in English language arts.

The intensive courses have been designed for the teacher to select and teach only the appropriate standards corresponding to the student's grade and/or instructional level. This course should not be used in place of grade level English language arts courses and is intended to provide intervention for students who have reading deficiencies.

GENERAL NOTES

Interventions must be evidence-based and correspond to either the district K-12 Evidence-based Comprehensive Reading plan or the reading plan within a school's charter.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts necessary for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. - Add variety to writing or presentations by using parallel structure and various types of phrases and clauses.  
- Use knowledge of usage rules to create flow in writing and presenting.  
*Clarification 2:* See Convention Progression by Grade Level.  
*Standard Relation to Course:* Major |

**Clarifications:**  
*Clarification 1:* Key elements of a literary text are setting, plot, characterization, conflict, point of view, theme, and tone.  
*Clarification 2:* For layers of meaning, any methodology or model may be used as long as students understand that text may have multiple layers and that authors use techniques to achieve those layers. A very workable model for looking at layers of meaning is that of I.A. Richards: Layer 1) the literal level, what the words actually mean Layer 2) mood, those feelings that are evoked in the reader Layer 3) tone, the author’s attitude Layer 4) author’s purpose (interpretation of author’s purpose as it is often inferred)  
*Clarification 3:* Style is the way in which the writer uses techniques for effect. It is distinct from meaning but can be used to make the author’s message more effective. The components of style are diction, syntax, grammar, and use of figurative language. Style helps to create the author’s voice.  
*Standard Relation to Course:* Major |
| ELA.9.R.1.2: | Analyze universal themes and their development throughout a literary text.  
**Clarifications:**  
*Clarification 1:* A universal theme is an idea that applies to anyone, anywhere, regardless of cultural differences. 9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.

**General Course Information and Notes**

**VERSION DESCRIPTION**

This course is designed for 9th grade students reading below grade level. The course includes foundational skill standards to be used until a student has mastered the standard.

Teachers will use the listed standards that correspond to student need based on diagnostic assessments and adjust according to ongoing progress monitoring data.

Effective implementation requires the support to be matched to student need and is provided by the most experienced, and/or specialized expert. Instruction is individualized and targeted to the skills that pose the greatest barrier to learning and is characterized by the greatest number of minutes of instruction with the narrowest focus for an individual or a very small group of students. Individualized diagnostic data, as well as instructional time, are in addition to those provided in core instruction. Formative assessments occur more frequently and focus on the learning barriers to success and are based on intensity of needs. The larger the gap, the more frequent the progress monitoring. The expected outcome is...
for the student to achieve grade-level proficiency.

GENERAL NOTES

English Language Development ELD Standards Special Notes Section:
Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. | ELA.11.C.1.4: | Write an analysis of complex texts using logical organization and a tone and voice appropriate to the task and audience, demonstrating an understanding of the subject.  
Clarifications:  
Clarification 1: See Writing Types. |

| ELA.11.R.1.1: | Evaluate how key elements enhance or add layers of meaning and/or style in a literary text.  
Clarifications:  
Clarification 1: Key elements of a literary text are setting, plot, characterization, conflict, point of view, theme, and tone.  
Clarification 2: For layers of meaning, any methodology or model may be used as long as students understand that text may have multiple layers and that authors use techniques to achieve those layers. A very workable model for looking at layers of meaning is that of I. A. Richards:  
Layer 1) the literal level, what the words actually mean  
Layer 2) mood, those feelings that are evoked in the reader  
Layer 3) tone, the author’s attitude  
Layer 4) author’s purpose (interpretation of author’s purpose as it is often inferred)  
Clarification 3: Style is the way in which the writer uses techniques for effect. It is distinct from meaning but can be used to make the author’s message more effective. The components of style are diction, syntax, grammar, and use of figurative language. Style helps to create the author’s voice.  
Clarification 4: Track and analyze universal themes in literary texts from different times and places. |
**Clarifications:**

**General Course Information and Notes**

**VERSION DESCRIPTION**

This course is designed for 11th grade students reading below grade level. The course includes foundational skill standards to be used until a student has mastered the standard.

Teachers will use the listed standards that correspond to student need based on diagnostic assessments and adjust according to ongoing progress monitoring data.
Effective implementation requires the support to be matched to student need and is provided by the most experienced, and/or specialized expert. Instruction is individualized and targeted to the skills that pose the greatest barrier to learning and is characterized by the greatest number of minutes of instruction with the narrowest focus for an individual or a very small group of students. Individualized diagnostic data, as well as instructional time, are in addition to those provided in core instruction. Formative assessments occur more frequently and focus on the learning barriers to success and are based on intensity of needs. The larger the gap, the more frequent the progress monitoring. The expected outcome is for the student to achieve grade-level proficiency.

GENERAL NOTES

English Language Development ELD Standards Special Notes Section:
Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: https://cpalmsmediaprod.blob.core.windows.net/uploads/docs/standards/eld/la.pdf

**Clarifications:**

K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.

2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.

4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they’ve directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.

6-8 Students continue with previous skills and use a style guide to create a proper citation.

9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.

**ELA.K12.EE.2.1:** Read and comprehend grade-level complex texts proficiently.

**Clarifications:**

See Text Complexity for grade-level complexity bands and a text complexity rubric.

**ELA.K12.EE.3.1:** Make inferences to support comprehension.

**Clarifications:**

**ELA.K12.EE.4.1:** Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.

**Clarifications:**

In kindergarten, students learn to listen to one another respectfully. In grades 1-2, students build upon these skills by justifying what they are thinking. For example: “I think _______ because _______.” The collaborative conversations are becoming academic conversations.

In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.

**ELA.K12.EE.5.1:** Use the accepted rules governing a specific format to create quality work.

**Clarifications:**

Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.
### ELA.K12.EE.6.1:
Use appropriate voice and tone when speaking or writing.

**Clarifications:**
In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.

**General Course Information and Notes**

**VERSION DESCRIPTION**

This course is designed for 12th grade students reading below grade level. The course includes foundational skill standards to be used until a student has mastered the standard.

Teachers will use the listed standards that correspond to student need based on diagnostic assessments and adjust according to ongoing
progress monitoring data. Effective implementation requires the support to be matched to student need and is provided by the most experienced, and/or specialized expert. Instruction is individualized and targeted to the skills that pose the greatest barrier to learning and is characterized by the greatest number of minutes of instruction with the narrowest focus for an individual or a very small group of students. Individualized diagnostic data, as well as instructional time, are in addition to those provided in core instruction. Formative assessments occur more frequently and focus on the learning barriers to success and are based on intensity of needs. The larger the gap, the more frequent the progress monitoring. The expected outcome is for the student to achieve grade-level proficiency.

GENERAL NOTES

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards
This course includes Florida’s B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EE and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development ELD Standards Special Notes Section:
Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: https://cpalmsmediaprod.blob.core.windows.net/uploads/docs/standards/eld/la.pdf

**General Course Information and Notes**

**VERSION DESCRIPTION**

The course emphasizes the development and use of fundamental writing and language skills for original expression in a variety of academic, technical, and creative formats using a variety of grade appropriate texts encompassing a range of complexity. Students enrolled in the course will
engage in research, write in response to reading, and cite evidence to answer text dependent questions both orally and in writing. The course provides extensive opportunities for students to collaborate with their peers.

The Intensive courses have been designed for the teacher to select and teach only the appropriate standards corresponding to a student’s grade level and/or instructional level.

GENERAL NOTES

**Important Note:** Reading and writing courses should not be used in place of English language arts courses; reading and writing courses are intended to be used to supplement further study in English language arts.

**General Notes:** The content should include, but not be limited to, the following:

- active reading of exemplar writing models to examine text craft, structure, and conventions
  - effects of figurative, denotative, and connotative language choice
  - power and impact of appropriate voice and/or tone
  - influence on idea development of sentence structures, sentence rhythm, and grammatical choices
  - reciprocal nature of content and form
- writing for varied purposes, including developing and supporting argumentative claims
  - crafting coherent, supported informative/expository texts
  - responding to literature for personal and analytical purposes
  - digital writing platforms
  - writing to sources using text-based evidence and reasoning
- effective listening, speaking, and viewing strategies with emphasis on the use of evidence to support or refute a claim in multimedia presentations, class discussions, and extended text discussions
- collaboration amongst peers, especially during drafting and redrafting peer edits

**Special Notes:**

**Instructional Practices:** Teaching from well-written, grade-level instructional materials enhances students’ content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any purpose. Using the following instructional practices also helps student learning.

1. Reading assignments from longer text passages, as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

**Additional Notes:** It is necessary to implement a combination of research-based programs and strategies that have been proven successful in accelerating the development of reading skills in older readers. The instructional approaches should meet the needs of each student based on results of individual diagnostic assessments and progress monitoring.

**English Language Development ELD Standards Special Notes Section:**

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. Standard Relation to Course: Major |
| **ELA.6.C.2.1:** | Present information orally, in a logical sequence, using nonverbal cues, appropriate volume, clear pronunciation, and appropriate pacing.  
**Clarifications:**  
*Clarification 1:* Nonverbal cues appropriate to this grade level are posture, tone, expressive delivery, focus on the audience, and facial expression. Clear pronunciation should be interpreted to mean an understanding and application of phonics rules and sight words as well as care taken in delivery. A student’s speech impediment should not be considered as impeding clear pronunciation. Appropriate pacing is adhering to the pauses dictated by punctuation and speaking at a rate that best facilitates comprehension by the audience. Too fast a pace will lose listeners and too slow can become monotonous. The element will also help students address the nervousness that may make them speak too fast during presentations.  
*Clarification 2:* For further guidance, see the Secondary Oral Communication Rubric.  
Standard Relation to Course: Major |
| **ELA.6.C.3.1:** | Follow the rules of standard English grammar, punctuation, capitalization, and spelling appropriate to grade level.  
**Clarifications:**  
*Clarification 1:* Skills to be mastered at this grade level are as follows:  
- Use verbals including gerunds, infinitives, and participial phrases.  
- Use comparative and superlative forms of adjectives.  
- Use pronouns correctly with regard to case, number, and person, correcting for vague pronoun reference.  
Skills to be implemented but not yet mastered are as follows:  
- Appropriately use colons.  
- Appropriately use dangling modifiers.  
- Appropriately use ellipses.  
- Appropriately use hyphens.  
- Vary sentence structure.  
*Clarification 2:* See Convention Progression by Grade Level for more information.  
Standard Relation to Course: Major |
| **ELA.6.C.4.1:** | Conduct research to answer a question, drawing on multiple reliable and valid sources, and refocusing the inquiry when appropriate.  
**Clarifications:**  
*Clarification 1:* While the benchmark does require that students consult multiple sources, there is no requirement that they use every source they consult. Part of the skill in researching is discernment—being able to tell which information is relevant and which sources are trustworthy enough to include.  
Standard Relation to Course: Major |
| | Integrate diverse digital media to enhance audience engagement in oral or written tasks.  
**Clarifications:** |
### ELA.6.C.5.1: Multimedia Elements

**Clarification 1**: Multimedia elements may include, but are not limited to, drawings, pictures, artifacts, and audio or digital representation. At this grade level, students are using more than one element. The elements may be of the same type (for example, two pictures or a picture and an audio recording). The elements should relate directly to the task and complement the information being shared, meaning that the multimedia elements should add information to the presentation, not restate or reinforce it. The elements should be smoothly integrated into the presentation.

**Standard Relation to Course**: Major

### ELA.6.C.5.2: Use Digital Tools

**Use digital tools to produce writing.**

**Standard Relation to Course**: Major

### ELA.6.R.1.

#### ELA.6.R.1.1: Character Development

**Analyze how the interaction between characters contributes to the development of a plot in a literary text.**

**Clarifications:**

**Clarification 1**: For the purposes of this benchmark, theme is not a one- or two-word topic, but a complete thought that communicates the author’s message. See Theme in Glossary.

**Clarification 2**: Students should be introduced to the concept of universal themes, although mastery isn’t expected until 9th grade. A universal theme is an idea that applies to anyone, anywhere, regardless of cultural differences. Examples include but are not limited to an individual’s or a community’s confrontation with nature; an individual’s struggle toward understanding, awareness, and/or spiritual enlightenment; the tension between the ideal and the real; the conflict between human beings and advancements in technology/science; the impact of the past on the present; the inevitability of fate; the struggle for equality; and the loss of innocence.

**Standard Relation to Course**: Major

#### ELA.6.R.1.2: Theme

**Analyze the development of stated or implied theme(s) throughout a literary text.**

**Clarifications:**

**Clarification 1**: When referring to the person of the narrator, the term “point of view” is used. Students focused on perspective in fifth grade, so they should differentiate between point of view and perspective when working on this benchmark.

**Standard Relation to Course**: Major

#### ELA.6.R.1.3: Poetic Forms

**Describe the impact of various poetic forms on meaning and style.**

**Clarifications:**

**Clarification 1**: Poetic forms used for this benchmark are sonnet and villanelle.

*Rule 6A-1.09412, F.A.C.*
*Effective May 2022*
In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.

English language learners communicate information, ideas and concepts necessary for academic success in the content area of Language Arts.

English language learners communicate for social and instructional purposes within the school setting.

General Course Information and Notes

VERSION DESCRIPTION

This course defines what students should understand and be able to do by the end of 6th grade. Knowledge acquisition should be the primary purpose of any reading approach as the systematic building of a wide range of knowledge across domains is a prerequisite to higher literacy. At this grade level, students are building their facility with rhetoric, the craft of using language in writing and speaking, using classic literature, essays, and speeches as mentor texts.

The benchmarks in this course are mastery goals that students are expected to attain by the end of the year. To build mastery, students will continue to review and apply earlier grade-level benchmarks and expectations.

GENERAL NOTES

English Language Arts is not a discrete set of skills, but a rich discipline with meaningful, significant content, the knowledge of which helps all students actively and fully participate in our society.

Standards should not stand alone as a separate focus for instruction, but should be combined purposefully.

The texts students read should be meaningful and thought-provoking, preparing them to be informed, civic-minded members of their community.

Curricular content for all subjects must integrate critical-thinking, problem-solving, and workforce-literacy skills; communication, reading, and writing skills; mathematics skills; collaboration skills; contextual and applied-learning skills; technology-literacy skills; information and media-literacy skills; and civic-engagement skills.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. ### General Course Information and Notes

**VERSION DESCRIPTION**

**Course Description:** The purpose of this course is to provide grade 6 students, using texts of high complexity, advanced integrated language arts study in reading, writing, speaking, listening, and language for college and career preparation and readiness.

**Honors and Advanced Level Course Note:** Advanced courses require a greater demand on students through increased academic rigor. Academic rigor is obtained through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted.
Students are challenged to think and collaborate critically on the content they are learning. Honors level rigor will be achieved by increasing text complexity through text selection, focus on high-level qualitative measures, and complexity of task. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across disciplines. Academic rigor is more than simply assigning to students a greater quantity of work.

GENERAL NOTES

The content should include, but not be limited to, the following:

- active reading of varied texts for what they say explicitly, as well as the logical inferences that can be drawn
- analysis of literature and informational texts from varied literary periods to examine:
  - text craft and structure
  - elements of literature
  - arguments and claims supported by textual evidence
  - power and impact of language
  - influence of history, culture, and setting on language
  - personal critical and aesthetic response
- writing for varied purposes
  - developing and supporting argumentative claims
  - crafting coherent, supported informative/expository texts
  - responding to literature for personal and analytical purposes
  - writing narratives to develop real or imagined events
  - writing to sources (short and longer research) using text based claims and evidence
- effective listening, speaking, and viewing strategies with emphasis on the use of evidence to support or refute a claim in multimedia presentations, class discussions, and extended text discussions
- collaboration amongst peers

Special Notes:

Instructional Practices: Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any purpose. Using the following instructional practices also helps student learning.

1. Reading assignments from longer text passages, as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. Standard Relation to Course: Major |
| **ELA.6.C.2.1:** | Present information orally, in a logical sequence, using nonverbal cues, appropriate volume, clear pronunciation, and appropriate pacing.  
*Clarifications:*  
Clarification 1: Nonverbal cues appropriate to this grade level are posture, tone, expressive delivery, focus on the audience, and facial expression. Clear pronunciation should be interpreted to mean an understanding and application of phonics rules and sight words as well as care taken in delivery. A student’s speech impediment should not be considered as impeding clear pronunciation. Appropriate pacing is adhering to the pauses dictated by punctuation and speaking at a rate that best facilitates comprehension by the audience. Too fast a pace will lose listeners and too slow can become monotonous. The element will also help students address the nervousness that may make them speak too fast during presentations.  
Clarification 2: For further guidance, see the Secondary Oral Communication Rubric.  
Standard Relation to Course: Major |
| **ELA.6.C.3.1:** | Follow the rules of standard English grammar, punctuation, capitalization, and spelling appropriate to grade level.  
*Clarifications:*  
Clarification 1: Skills to be mastered at this grade level are as follows:  
- Use verbals including gerunds, infinitives, and participial phrases.  
- Use comparative and superlative forms of adjectives.  
- Use pronouns correctly with regard to case, number, and person, correcting for vague pronoun reference.  
Skills to be implemented but not yet mastered are as follows:  
- Appropriately use colons.  
- Appropriately use dangling modifiers.  
- Appropriately use ellipses.  
- Appropriately use hyphens.  
- Vary sentence structure.  
Clarification 2: See Convention Progression by Grade Level for more information.  
Standard Relation to Course: Major |
| **ELA.6.C.4.1:** | Conduct research to answer a question, drawing on multiple reliable and valid sources, and refocusing the inquiry when appropriate.  
*Clarifications:*  
Clarification 1: While the benchmark does require that students consult multiple sources, there is no requirement that they use every source they consult. Part of the skill in researching is discernment—being able to tell which information is relevant and which sources are trustworthy enough to include.  
Standard Relation to Course: Major |
| **Integrate diverse digital media to enhance audience engagement in oral or written tasks.  
*Clarifications:* |
ELA.6.C.5.1: Multimedia elements may include, but are not limited to, drawings, pictures, artifacts, and audio or digital representation. At this grade level, students are using more than one element. The elements may be of the same type (for example, two pictures or a picture and an audio recording). The elements should relate directly to the task and complement the information being shared, meaning that the multimedia elements should add information to the presentation, not restate or reinforce it. The elements should be smoothly integrated into the presentation.

ELA.6.R.1.1: Analyze how the interaction between characters contributes to the development of a plot in a literary text.

Clarifications:

Clarification 1: For the purposes of this benchmark, theme is not a one- or two-word topic, but a complete thought that communicates the author’s message. See Theme in Glossary.

Clarification 2: Students should be introduced to the concept of universal themes, although mastery isn’t expected until 9th grade. A universal theme is an idea that applies to anyone, anywhere, regardless of cultural differences. 2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.  
4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.

Rule 6A-1.09412, F.A.C.  
Effective May 2022  
page 78 of 1288
In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.

English language learners communicate information, ideas and concepts necessary for academic success in the content area of Language Arts.

Interpret primary and secondary sources. 

Examples are artifacts, images, auditory sources, written sources.

This course defines what students should understand and be able to do by the end of the grade level. Knowledge acquisition should be the primary purpose of any reading approach. The systematic building of a wide range of knowledge across domains is a prerequisite to higher literacy. At this grade level, students are building their facility with rhetoric, the craft of using language in writing and speaking, using classic literature, essays, and speeches as mentor texts.

English Language Arts is not a discrete set of skills, but a rich discipline with meaningful, significant content, the knowledge of which helps all students actively and fully participate in our society.

Standards should not stand alone as a separate focus for instruction, but should be combined purposefully.

The texts students read should be meaningful and thought-provoking, preparing them to be informed, civic-minded members of their community.

Curricular content for all subjects must integrate critical-thinking, problem-solving, and workforce-literacy skills; communication, reading, and writing skills; mathematics skills; collaboration skills; contextual and applied-learning skills; technology-literacy skills; information and media-literacy skills; and civic-engagement skills.

Advanced courses require a greater demand on students through increased academic rigor. Academic rigor is obtained through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted. Students are challenged to think and collaborate critically on the content they are learning. Honors level rigor will be achieved by increasing text complexity through text selection, focus on high-level qualitative measures, and complexity of task. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across disciplines. Academic rigor is more than simply assigning to students a greater quantity of work.

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. Using the following instructional practices also helps student learning.

1. Reading assignments from longer text passages, as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. | ELA.7.R.1.2: | Explain the influence of narrator(s), including unreliable narrator(s), and/or shifts in point of view in a literary text. Clarifications:  
Clarification 1: An unreliable narrator is one who lacks credibility. Because all information is being conveyed through this untrustworthy source, readers have to use inferencing to establish what is likely to be true. Narrators can be unreliable for many reasons including purposeful dishonesty, a lack of information or background knowledge about what that information means, mental illness, or self-deception.  
Clarification 2: "Shifts in point of view" refers to a change in the narrator’s point of view done for effect. Changes can be in degree and/or person: for example, a shift from third-person limited to third-person omniscient or from first-person limited to third-person limited. |
| ELA.7.R.1.3: | Explain how an author establishes and achieves purpose(s) through diction and syntax. Clarifications:  
Clarification 1: This benchmark focuses on the way in which diction (the author’s word choice) and syntax (the way in which an author arranges those words) work together to achieve a purpose. |
| ELA.7.R.1.4: | Analyze the impact of various poetic forms on meaning and style. Clarifications:  
Clarification 1: Poetic forms used for this benchmark are sonnet and villanelle. |
| ELA.7.R.2.1: | Explain how individual text sections and/or features convey a purpose in texts. |
| ELA.7.R.2.2: | Compare two or more central ideas and their development throughout a text. |

Clarification 1: This benchmark focuses on the way in which diction (the author’s word choice) and syntax (the way in which an author arranges those words) work together to achieve a purpose. |
| ELA.7.R.2.4: | Track the development of an argument, analyzing the types of reasoning used and their effectiveness. Clarifications:  
Clarification 1: For more information on types of reasoning, see Types of Logical Reasoning. |

#### Standard Relation to Course: Major

**ELA.7.V.1.1:** Integrate academic vocabulary appropriate to grade level in speaking and writing.

**Clarifications:**
- **Clarification 1:** To integrate vocabulary, students will apply the vocabulary they have learned to authentic speaking and writing tasks independently. This use should be intentional, beyond responding to a prompt to use a word in a sentence.
- **Clarification 2:** Academic vocabulary appropriate to grade level refers to words that are likely to appear across subject areas for the current grade level and beyond, vital to comprehension, critical for academic discussions and writing, and usually require explicit instruction.

**Standard Relation to Course: Major**

**ELA.7.V.1.2:** Apply knowledge of Greek and Latin roots and affixes to determine meanings of words and phrases in grade-level content.

**Clarifications:**
- **Clarification 1:** See Common Greek and Latin Roots 6-8 and Affixes.

**Standard Relation to Course: Major**

**ELA.7.V.1.3:** Apply knowledge of context clues, figurative language, word relationships, reference materials, and/or background knowledge to determine the connotative and denotative meaning of words and phrases, appropriate to grade level.

**Clarifications:**
- **Clarification 1:** Review of words learned in this way is critical to building background knowledge and related vocabulary.
- **Clarification 2:** See Context Clues and Word Relationships.

**Clarification 3:** See ELA.7.R.3.1 and Secondary Figurative Language.

**Standard Relation to Course: Major**

**ELA.K12.EE.1.1:** Cite evidence to explain and justify reasoning.

**Clarifications:**
- **K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.**
- **2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.**
- **4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they’ve directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.**
- **6-8 Students continue with previous skills and use a style guide to create a proper citation.**
- **9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.**

**Standard Relation to Course: Supporting**

**ELA.K12.EE.2.1:** Read and comprehend grade-level complex texts proficiently.

**Clarifications:**
- **See Text Complexity for grade-level complexity bands and a text complexity rubric.**

**Standard Relation to Course: Supporting**

**ELA.K12.EE.3.1:** Make inferences to support comprehension.

**Clarifications:**
- **Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like “Why is the girl smiling?” or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.**

**Standard Relation to Course: Supporting**

**ELA.K12.EE.4.1:** Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.

**Clarifications:**
- **In kindergarten, students learn to listen to one another respectfully.**
- **In grades 1-2, students build upon these skills by justifying what they are thinking. For example: “I think _______ because _______. “ The collaborative conversations are becoming academic conversations.**
- **In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.**

**Standard Relation to Course: Supporting**

**ELA.K12.EE.5.1:** Use the accepted rules governing a specific format to create quality work.

**Clarifications:**
- **Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.**

**Standard Relation to Course: Supporting**

**ELA.K12.EE.5.1:** Use appropriate voice and tone when speaking or writing.

**Clarifications:**
- **See Rhetorical Devices.**

**General Course Information and Notes**

**VERSION DESCRIPTION**

This course defines what students should understand and be able to do by the end of 7th grade. Knowledge acquisition should be the primary purpose of any reading approach as the systematic building of a wide range of knowledge across domains is a prerequisite to higher literacy. At this grade level, students are building their facility with rhetoric, the craft of using language in writing and speaking, using classic literature, essays, and speeches as mentor texts.

The benchmarks in this course are mastery goals that students are expected to attain by the end of the year. To build mastery, students will continue to review and apply earlier grade-level benchmarks and expectations.

**GENERAL NOTES**

English Language Arts is not a discrete set of skills, but a rich discipline with meaningful, significant content, the knowledge of which helps all students actively and fully participate in our society.

Standards should not stand alone as a separate focus for instruction, but should be combined purposefully.

The texts students read should be meaningful and thought-provoking, preparing them to be informed, civic-minded members of their community.

Curricular content for all subjects must integrate critical-thinking, problem-solving, and workforce-literacy skills; communication, reading, and writing skills; mathematics skills; collaboration skills; contextual and applied-learning skills; technology-literacy skills; information and media-literacy skills; and civic-engagement skills.

**English Language Development ELD Standards Special Notes Section:**

For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. General Course Information and Notes

VERSION DESCRIPTION

Course Description: The purpose of this course is to provide grade 7 students, using texts of high complexity, advanced integrated language arts study in reading, writing, speaking, listening, and language for college and career preparation and readiness.

Honors and Advanced Level Course Note: Advanced courses require a greater demand on students through increased academic rigor. Academic rigor is obtained through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted. Students are challenged to think and collaborate critically on the content they are learning. Honors level rigor will be achieved by increasing text complexity through text selection, focus on high-level qualitative measures, and complexity of task. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across disciplines. Academic rigor is more than simply assigning to students a greater quantity of work.

GENERAL NOTES

The content should include, but not be limited to, the following:

- active reading of varied texts for what they say explicitly, as well as the logical inferences that can be drawn
- analysis of literature and informational texts from varied literary periods to examine:
  - text craft and structure
  - elements of literature
  - arguments and claims supported by textual evidence
  - power and impact of language
  - influence of history, culture, and setting on language
  - personal critical and aesthetic response
- writing for varied purposes
  - developing and supporting argumentative claims
  - crafting coherent, supported informative/expository texts
  - responding to literature for personal and analytical purposes
  - writing narratives to develop real or imagined events
  - writing to sources using text-based evidence and reasoning
- effective listening, speaking, and viewing strategies with emphasis on the use of evidence to support or refute a claim in multimedia presentations, class discussions, and extended text discussions
- collaboration amongst peers

Special Notes:

Instructional Practices: Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any purpose. Using the following instructional practices also helps student learning.

1. Reading assignments from longer text passages, as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills.   **Clarification 1:** There is no requirement that students research the additional questions generated.  
  **Clarification 2:** While the benchmark does require that students consult multiple sources, there is no requirement that they use every source they consult. | **ELA.7.R.1.2:** | Explain the influence of narrator(s), including unreliable narrator(s), and/or shifts in point of view in a literary text. **Clarifications:** 
  - **Clarification 1:** For the purposes of this benchmark, theme is not a one- or two-word topic, but a complete thought that communicates the author’s message.
  - **Clarification 2:** Students should continue to work with the concept of universal themes, although mastery isn’t expected until 9th grade. A universal theme is an idea that applies to anyone, anywhere, regardless of cultural differences. Examples include but are not limited to an individual’s or a community’s confrontation with nature; an individual’s struggle toward understanding, awareness, and/or spiritual enlightenment; the tension between the ideal and the real; the conflict between human beings and advancements in technology/science; the impact of the past on the present; the inevitability of fate; the struggle for equality; and the loss of innocence. |
| **ELA.7.R.1.3:** | Compare two or more central ideas and their development throughout a text. **Clarifications:** 
  - **Clarification 1:** An unreliable narrator is one who lacks credibility. Because all information is being conveyed through this untrustworthy source, readers have to use inferencing to establish what is likely to be true. Narrators can be unreliable for many reasons including purposeful dishonesty, a lack of information or background knowledge about what that information means, mental illness, or self-deception.  
  - **Clarification 2:** “Shifts in point of view” refers to a change in the narrator’s point of view done for effect. Changes can be in degree and/or person: for example, a shift from third-person limited to third-person omniscient or from first-person limited to third-person limited. |
| **ELA.7.R.1.4:** | Analyze the impact of various poetic forms on meaning and style. **Clarifications:** 
  - **Clarification 1:** Poetic forms used for this benchmark are sonnet and villanelle.  
  - **Clarification 2:** Instruction in this benchmark should focus on how the structure of each poetic form affects its meaning. |
| **ELA.7.R.2.1:** | Explain how individual text sections and/or features convey a purpose in texts. **Clarifications:** 
  - **Clarification 1:** Poetic forms used for this benchmark are sonnet and villanelle.  
  - **Clarification 2:** Instruction in this benchmark should focus on how the structure of each poetic form affects its meaning. |
| **ELA.7.R.2.2:** | Compare two or more central ideas and their development throughout a text. **Clarifications:** 
  - **Clarification 1:** This benchmark focuses on the way in which diction (the author’s word choice) and syntax (the way in which an author arranges those words) work together to achieve a purpose.  
  - **Clarification 2:** The term perspective means “a particular attitude toward or way of regarding something.” |
| **ELA.7.R.2.3:** | Explain how an author establishes and achieves purpose(s) through diction and syntax. **Clarifications:** 
  - **Clarification 1:** This benchmark focuses on the way in which diction (the author’s word choice) and syntax (the way in which an author arranges those words) work together to achieve a purpose.  
  - **Clarification 2:** The term perspective means “a particular attitude toward or way of regarding something.” |
| **ELA.7.R.2.4:** | Track the development of an argument, analyzing the types of reasoning used and their effectiveness. **Clarifications:** 
  - **Clarification 1:** For more information on types of reasoning, see Types of Logical Reasoning.  
  - **Clarification 2:** Instruction in types of reasoning will include fallacies in reasoning. Fallacies that are related to content, informal fallacies, will be the focus. See Fallacies in Reasoning (Informal). |
| **ELA.7.R.3.1:** | Analyze how figurative language contributes to tone and meaning and explain examples of allusions in text(s). **Clarifications:** 
  - **Clarification 1:** Figurative language use that students will analyze are metaphor, simile, alliteration, onomatopoeia, personification, hyperbole, allusion, and idiom. Other examples can be used in instruction.  
  - **Clarification 2:** See Secondary Figurative Language. |
| **ELA.7.R.3.2:** | Paraphrase content from grade-level texts. **Clarifications:** 
  - **Clarification 1:** Most grade-level texts are appropriate for this benchmark. |
| **ELA.7.R.3.3:** | Compare and contrast how authors with differing perspectives address the same or related topics or themes. **Clarifications:** 
  - **Clarification 1:** The term perspective means “a particular attitude toward or way of regarding something.” |
| **ELA.7.R.3.4:** | Explain the meaning and/or significance of rhetorical devices in a text. **Clarifications:** 
  - **Clarification 1:** Rhetorical devices for the purposes of this benchmark are the figurative language devices from 7.R.3.1 with the addition of irony and rhetorical questioning.

General Course Information and Notes

VERSION DESCRIPTION

This course defines what students should understand and be able to do by the end of the grade level. Knowledge acquisition should be the primary purpose of any reading approach. The systematic building of a wide range of knowledge across domains is a prerequisite to higher literacy. At this grade level, students are building their facility with rhetoric, the craft of using language in writing and speaking, using classic literature, essays, and speeches as mentor texts.

GENERAL NOTES

English Language Arts is not a discrete set of skills, but a rich discipline with meaningful, significant content, the knowledge of which helps all students actively and fully participate in our society.

Standards should not stand alone as a separate focus for instruction, but should be combined purposefully.

The texts students read should be meaningful and thought-provoking, preparing them to be informed, civic-minded members of their community.

Curricular content for all subjects must integrate critical-thinking, problem-solving, and workforce-literacy skills; communication, reading, and writing skills; mathematics skills; collaboration skills; contextual and applied-learning skills; technology-literacy skills; information and media-literacy skills; and civic-engagement skills.

Honors and Advanced Level Course Note: Advanced courses require a greater demand on students through increased academic rigor. Academic rigor is obtained through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted. Students are challenged to think and collaborate critically on the content they are learning. Honors level rigor will be achieved by increasing text complexity through text selection, focus on high-level qualitative measures, and complexity of task. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across disciplines. Academic rigor is more than simply assigning to students a greater quantity of work.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: https://cpalmsmediaprod.blob.core.windows.net/uploads/docs/standards/eld/la.pdf.

VERSION REQUIREMENTS

Approximately one-third of the titles from the 7th Grade Sample Book List should be used in instruction.

| ELA.K12.EE.1.1: | Cite evidence to explain and justify reasoning.  
**Clarifications:**  
K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.  
2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.  
4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.  
6-8 Students continue with previous skills and use a style guide to create a proper citation.  
9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ. |
| ELA.K12.EE.2.1: | Read and comprehend grade-level complex texts proficiently.  
**Clarifications:**  
See Text Complexity for grade-level complexity bands and a text complexity rubric. |
| ELA.K12.EE.3.1: | Make inferences to support comprehensioin.  
**Clarifications:**  
Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like “Why is the girl smiling?” or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond. |
| ELA.K12.EE.4.1: | Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.  
**Clarifications:**  
In kindergarten, students learn to listen to one another respectfully.  
In grades 1-2, students build upon these skills by justifying what they are thinking. For example: “I think ________ because ________.” The collaborative conversations are becoming academic conversations.  
In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence. |
| ELA.K12.EE.5.1: | Use the accepted rules governing a specific format to create quality work.  
**Clarifications:**  
Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work. |
| ELA.K12.EE.6.1: | Use appropriate voice and tone when speaking or writing.  
**Clarifications:**  
In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts. |
| ELD.K12.ELL.LA.1: | English language learners communicate information, ideas and concepts necessary for academic success in the content area of Language Arts. |

Analyze media and political communications and identify examples of bias, symbolism and propaganda. |
| SS.7.CG.2.9: |  
- Students will use scenarios to identify bias, symbolism and propaganda.  
- Students will evaluate how bias, symbolism and propaganda can impact public opinion. |

**General Course Information and Notes**

**VERSION DESCRIPTION**

This course defines what students should understand and be able to do by the end of the grade level. Knowledge acquisition should be the primary purpose of any reading approach. The systematic building of a wide range of knowledge across domains is a prerequisite to higher literacy. At this grade level, students are building their facility with rhetoric, the craft of using language in writing and speaking, using classic literature, essays, and speeches as mentor texts.
GENERAL NOTES

English Language Arts is not a discrete set of skills, but a rich discipline with meaningful, significant content, the knowledge of which helps all students actively and fully participate in our society.

Standards should not stand alone as a separate focus for instruction, but should be combined purposefully.

The texts students read should be meaningful and thought-provoking, preparing them to be informed, civic-minded members of their community.

Curricular content for all subjects must integrate critical-thinking, problem-solving, and workforce-literacy skills; communication, reading, and writing skills; mathematics skills; collaboration skills; contextual and applied-learning skills; technology-literacy skills; information and media-literacy skills; and civic-engagement skills.

Honors and Advanced Level Course Note: Advanced courses require a greater demand on students through increased academic rigor. Academic rigor is obtained through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted. Students are challenged to think and collaborate critically on the content they are learning. Honors level rigor will be achieved by increasing text complexity through text selection, focus on high-level qualitative measures, and complexity of task. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across disciplines. Academic rigor is more than simply assigning to students a greater quantity of work.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. 3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

General Course Information and Notes

VERSION DESCRIPTION

This course defines what students should understand and be able to do by the end of 8th grade. Knowledge acquisition should be the primary purpose of any reading approach as the systematic building of a wide range of knowledge across domains is a prerequisite to higher literacy. At this grade level, students are building their facility with rhetoric, the craft of using language in writing and speaking, using classic literature, essays, and speeches as mentor texts.

The benchmarks in this course are mastery goals that students are expected to attain by the end of the year. To build mastery, students will continue to review and apply earlier grade-level benchmarks and expectations.

GENERAL NOTES

English Language Arts is not a discrete set of skills, but a rich discipline with meaningful, significant content, the knowledge of which helps all students actively and fully participate in our society.

Standards should not stand alone as a separate focus for instruction, but should be combined purposefully.

The texts students read should be meaningful and thought-provoking, preparing them to be informed, civic-minded members of their community.

Curricular content for all subjects must integrate critical-thinking, problem-solving, and workforce-literacy skills; communication, reading, and writing skills; mathematics skills; collaboration skills; contextual and applied-learning skills; technology-literacy skills; information and media-literacy skills; and civic-engagement skills.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. VERSION REQUIREMENTS

Course Description: The purpose of this course is to provide grade 8 students, using texts of high complexity, advanced integrated language arts study in reading, writing, speaking, listening, and language for college and career preparation and readiness.

Honors and Advanced Level Course Note: Advanced courses require a greater demand on students through increased academic rigor. Academic rigor is obtained through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted. Students are challenged to think and collaborate critically on the content they are learning. Honors level rigor will be achieved by increasing text complexity through text selection, focus on high-level qualitative measures, and complexity of task. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across disciplines. Academic rigor is more than simply assigning to students a greater quantity of work.

Special Notes:

Instructional Practices: Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any purpose. Using the following instructional practices also helps student learning.

1. Reading assignments from longer text passages, as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. <p>| ELA.K12.EE.1.1: | Cite evidence to explain and justify reasoning. Clarifications: K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing. 2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations. 4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor. 6-8 Students continue with previous skills and use a style guide to create a proper citation. 9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ. |
| ELA.K12.EE.3.1: | Make inferences to support comprehension. Clarifications: Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like “Why is the girl smiling?” or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond. |
| ELA.K12.EE.4.1: | Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations. Clarifications: In kindergarten, students learn to listen to one another respectfully. In grades 1-2, students build upon these skills by justifying what they are thinking. For example: “I think _______ because _______.” The collaborative conversations are becoming academic conversations. In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence. |
| ELA.K12.EE.5.1: | Use the accepted rules governing a specific format to create quality work. Clarifications: Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work. |
| ELA.K12.EE.6.1: | Use appropriate voice and tone when speaking or writing. Clarifications: In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate voice and tone. |</p>

**General Course Information and Notes**

**VERSION DESCRIPTION**

This course defines what students should understand and be able to do by the end of the grade level. Knowledge acquisition should be the primary purpose of any reading approach. The systematic building of a wide range of knowledge across domains is a prerequisite to higher literacy. At this grade level, students are building their facility with rhetoric, the craft of using language in writing and speaking, using classic literature, essays, and speeches as mentor texts.

**GENERAL NOTES**

English Language Arts is not a discrete set of skills, but a rich discipline with meaningful, significant content, the knowledge of which helps all students actively and fully participate in our society.

Standards should not stand alone as a separate focus for instruction, but should be combined purposefully.

The texts students read should be meaningful and thought-provoking, preparing them to be informed, civic-minded members of their community.

Curricular content for all subjects must integrate critical-thinking, problem-solving, and workforce-literacy skills; communication, reading, and writing skills; mathematics skills; collaboration skills; contextual and applied-learning skills; technology-literacy skills; information and media-literacy skills; and civic-engagement skills.

**Honors and Advanced Level Course Note:** Advanced courses require a greater demand on students through increased academic rigor. Academic rigor is obtained through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted. Students are challenged to think and collaborate critically on the content they are learning. Honors level rigor will be achieved by increasing text complexity through text selection, focus on high-level qualitative measures, and complexity of task. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across disciplines. Academic rigor is more than simply assigning to students a greater quantity of work.

**English Language Development ELD Standards Special Notes Section:**

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. General Course Information and Notes

VERSION DESCRIPTION

This course defines what students should understand and be able to do by the end of 9th grade. Knowledge acquisition should be the primary purpose of any reading approach as the systematic building of a wide range of knowledge across domains is a prerequisite to higher literacy. At this grade level, students are working with universal themes and archetypes. They are also continuing to build their facility with rhetoric, the craft of using language in writing and speaking, using classic literature, essays, and speeches as mentor texts.

The benchmarks in this course are mastery goals that students are expected to attain by the end of the year. To build mastery, students will continue to review and apply earlier grade-level benchmarks and expectations.

GENERAL NOTES

English Language Arts is not a discrete set of skills, but a rich discipline with meaningful, significant content, the knowledge of which helps all students actively and fully participate in our society.

Standards should not stand alone as a separate focus for instruction, but should be combined purposefully.

The texts students read should be meaningful and thought-provoking, preparing them to be informed, civic-minded members of their community.

Curricular content for all subjects must integrate critical-thinking, problem-solving, and workforce-literacy skills; communication, reading, and writing skills; mathematics skills; collaboration skills; contextual and applied-learning skills; technology-literacy skills; information and media-literacy skills; and civic-engagement skills.

4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Credit Recovery courses are credit bearing courses with specific content requirements defined by Next Generation Sunshine State Standards and/or Florida Standards. Students enrolled in a Credit Recovery course must have previously attempted the corresponding course (and/or End-of-Course assessment) since the course requirements for the Credit Recovery course are exactly the same as the previously attempted corresponding course. For example, Geometry (1206310) and Geometry for Credit Recovery (1206315) have identical content requirements. It is important to note that Credit Recovery courses are not bound by Section 1003.436(1)(a), Florida Statutes, requiring a minimum of 135 hours of bona fide instruction (120 hours in a school/district implementing block scheduling) in a designed course of study that contains student performance standards, since the students have previously attempted successful completion of the corresponding course. Additionally, Credit Recovery courses should ONLY be used for credit recovery, grade forgiveness, or remediation for students needing to prepare for an End-of-Course assessment retake.

Clarification 1: The classical source texts for this benchmark should be from ancient Greece or Rome’s Classical period (1200 BCE–455 CE). Mythical texts for this benchmark can be from any civilization’s early history. Religious texts for this benchmark include works such as the Bible. |
| ELA.9.R.3.4: | Explain an author’s use of rhetoric in a text.  
**Clarifications:**  
Clarification 1: Rhetorical devices for the purposes of this benchmark are the figurative language devices from 9.R.3.1 with the addition of irony, rhetorical question, antithesis, zeugma, metonymy, and synecdoche.  
Clarification 2: See Secondary Figurative Language and Rhetorical Devices. |
| ELA.9.V.1.1: | Integrate academic vocabulary appropriate to grade level in speaking and writing.  
**Clarifications:**  
Clarification 1: To integrate vocabulary, students will apply the vocabulary they have learned to authentic speaking and writing tasks independently. This use should be intentional, beyond responding to a prompt to use a word in a sentence.  
Clarification 2: Academic vocabulary appropriate to grade level refers to words that are likely to appear across subject areas for the current grade level and beyond, vital to comprehension, critical for academic discussions and writing, and usually require explicit instruction. |
The benchmarks in this course are mastery goals that students are expected to attain by the end of the year. To build mastery, students will:

**ELA.9.V.1.2:** Apply knowledge of etymology and derivations to determine meanings of words and phrases in grade-level content.
- **Clarifications:**
  - **Clarification 1:** Etymology refers to the study of word origins and the ways that words have changed over time.
  - **Clarification 2:** Derivation refers to making new words from an existing word by adding affixes.

**ELA.9.V.1.3:** Apply knowledge of context clues, figurative language, word relationships, reference materials, and/or background knowledge to determine the connotative and denotative meaning of words and phrases, appropriate to grade level.
- **Clarifications:**
  - **Clarification 1:** Review of words learned in this way is critical to building background knowledge and related vocabulary.
  - **Clarification 2:** See Context Clues and Word Relationships.
  - **Clarification 3:** See ELA.9.R.3.1 and Secondary Figurative Language.

Cite evidence to explain and justify reasoning.
- **Clarifications:**
  - K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.
  - 2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.
  - 4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.
  - 6-8 Students continue with previous skills and use a style guide to create a proper citation.
  - 9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.

**ELA.K12.EE.1.1:** Read and comprehend grade-level complex texts proficiently.
- **Clarifications:**
  - See Text Complexity for grade-level complexity bands and a text complexity rubric.

**ELA.K12.EE.2.1:** Make inferences to support comprehension.
- **Clarifications:**
  - Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.

**ELA.K12.EE.3.1:** Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.
- **Clarifications:**
  - In kindergarten, students learn to listen to one another respectfully.
  - In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _______ because ________.” The collaborative conversations are becoming academic conversations.
  - In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.

**ELA.K12.EE.4.1:** Use the accepted rules governing a specific format to create quality work.
- **Clarifications:**
  - Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.

**ELA.K12.EE.5.1:** Use appropriate voice and tone when speaking or writing.
- **Clarifications:**
  - In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.

**ELD.K12.ELL.LA.1:** English language learners communicate information, ideas and concepts necessary for academic success in the content area of Language Arts.

**ELD.K12.ELL.SI.1:** English language learners communicate for social and instructional purposes within the school setting.

**General Course Information and Notes**

**VERSION DESCRIPTION**

This course defines what students should understand and be able to do by the end of 9th grade. Knowledge acquisition should be the primary purpose of any reading approach as the systematic building of a wide range of knowledge across domains is a prerequisite to higher literacy. At this grade level, students are working with universal themes and archetypes. They are also continuing to build their facility with rhetoric, the craft of using language in writing and speaking, using classic literature, essays, and speeches as mentor texts.

The benchmarks in this course are mastery goals that students are expected to attain by the end of the year. To build mastery, students will...
continue to review and apply earlier grade-level benchmarks and expectations.

GENERAL NOTES

English Language Arts is not a discrete set of skills, but a rich discipline with meaningful, significant content, the knowledge of which helps all students actively and fully participate in our society.

Standards should not stand alone as a separate focus for instruction, but should be combined purposefully.

The texts students read should be meaningful and thought-provoking, preparing them to be informed, civic-minded members of their community.

Curricular content for all subjects must integrate critical-thinking, problem-solving, and workforce-literacy skills; communication, reading, and writing skills; mathematics skills; collaboration skills; contextual and applied-learning skills; technology-literacy skills; information and media-literacy skills; and civic-engagement skills.

Special Notes: Credit Recovery courses are credit bearing courses with specific content requirements defined by Next Generation Sunshine State Standards and/or Florida Standards. Students enrolled in a Credit Recovery course must have previously attempted the corresponding course (and/or End-of-Course assessment) since the course requirements for the Credit Recovery course are exactly the same as the previously attempted corresponding course. For example, Geometry (1206310) and Geometry for Credit Recovery (1206315) have identical content requirements. It is important to note that Credit Recovery courses are not bound by Section 1003.436(1)(a), Florida Statutes, requiring a minimum of 135 hours of bona fide instruction (120 hours in a school/district implementing block scheduling) in a designed course of study that contains student performance standards, since the students have previously attempted successful completion of the corresponding course. Additionally, Credit Recovery courses should ONLY be used for credit recovery, grade forgiveness, or remediation for students needing to prepare for an End-of-Course assessment retake.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: https://cpalmsmediaprod.blob.core.windows.net/uploads/docs/standards/eld/la.pdf.

Honors and Advanced Level Course Note: Advanced courses require a greater demand on students through increased academic rigor. Academic rigor is obtained through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted. Students are challenged to think and collaborate critically on the content they are learning. Honors level rigor will be achieved by increasing text complexity through text selection, focus on high-level qualitative measures, and complexity of task. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across disciplines. Academic rigor is more than simply assigning to students a greater quantity of work.

Special Notes:

Instructional Practices: Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any purpose. Using the following instructional practices also helps student learning.

1. Reading assignments from longer text passages, as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. 2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.

4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.

### General Course Information and Notes

#### VERSION DESCRIPTION

This course defines what students should understand and be able to do by the end of 9th grade. Knowledge acquisition should be the primary purpose of any reading approach as the systematic building of a wide range of knowledge across domains is a prerequisite to higher literacy. At this grade level, students are working with universal themes and archetypes. They are also continuing to build their facility with rhetoric, the craft of using language in writing and speaking, using classic literature, essays, and speeches as mentor texts.

The benchmarks in this course are mastery goals that students are expected to attain by the end of the year. To build mastery, students will continue to review and apply earlier grade-level benchmarks and expectations.

**GENERAL NOTES**

English Language Arts is not a discrete set of skills, but a rich discipline with meaningful, significant content, the knowledge of which helps all students actively and fully participate in our society.

Standards should not stand alone as a separate focus for instruction, but should be combined purposefully.

The texts students read should be meaningful and thought-provoking, preparing them to be informed, civic-minded members of their community.

Curricular content for all subjects must integrate critical-thinking, problem-solving, and workforce-literacy skills; communication, reading, and writing skills; mathematics skills; collaboration skills; contextual and applied-learning skills; technology-literacy skills; information and media-literacy skills; and civic-engagement skills.

**Honors and Advanced Level Course Note:** Advanced courses require a greater demand on students through increased academic rigor. Academic rigor is obtained through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted. Students are challenged to think and collaborate critically on the content they are learning. Honors level rigor will be achieved by increasing text complexity through text selection, focus on high-level qualitative measures, and complexity of task. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across disciplines. Academic rigor is more than simply assigning to students a greater quantity of work.

**English Language Development ELD Standards Special Notes Section:**

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: https://cpalmsmediaprod.blob.core.windows.net/uploads/docs/standards/eld/la.pdf.

4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. Standard Relation to Course: Major |
### ELA.10.R.1.1:

**Clarification 2:** For layers of meaning, any methodology or model may be used as long as students understand that text may have multiple layers and that authors use techniques to achieve those layers. A very workable model for looking at layers of meaning is that of I.A. Richards:

- **Layer 3)** tone, the author's attitude
- **Layer 4)** author's purpose (interpretation of author's purpose as it is often inferred).

**Clarification 3:** Style is the way in which the writer uses techniques for effect. It is distinct from meaning but can be used to make the author's message more effective. The components of style are diction, syntax, grammar, and use of figurative language. Style helps to create the author's voice.

General Course Information and Notes

VERSION DESCRIPTION

This course defines what students should understand and be able to do by the end of 10th grade. Knowledge acquisition should be the primary purpose of any reading approach as the systematic building of a wide range of knowledge across domains is a prerequisite to higher literacy. At this grade level, students are working with universal themes and archetypes. They are also continuing to build their facility with rhetoric, the craft of using language in writing and speaking, using classic literature, essays, and speeches as mentor texts.

The benchmarks in this course are mastery goals that students are expected to attain by the end of the year. To build mastery, students will continue to review and apply earlier grade-level benchmarks and expectations.

GENERAL NOTES

English Language Arts is not a discrete set of skills, but a rich discipline with meaningful, significant content, the knowledge of which helps all students actively and fully participate in our society.

Standards should not stand alone as a separate focus for instruction, but should be combined purposefully.

The texts students read should be meaningful and thought-provoking, preparing them to be informed, civic-minded members of their community.

Curricular content for all subjects must integrate critical-thinking, problem-solving, and workforce-literacy skills; communication, reading, and writing skills; mathematics skills; collaboration skills; contextual and applied-learning skills; technology-literacy skills; information and media-literacy skills; and civic-engagement skills.

English Language Development ELD Standards Special Notes Section:

Special Notes:

Instructional Practices: Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any purpose. Using the following instructional practices also helps student learning.

1. Reading assignments from longer text passages, as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Credit Recovery courses are credit bearing courses with specific content requirements defined by Next Generation Sunshine State Standards and/or Florida Standards. Students enrolled in a Credit Recovery course must have previously attempted the corresponding course (and/or End-of-Course assessment) since the course requirements for the Credit Recovery course are exactly the same as the previously attempted corresponding course. For example, Geometry (1206310) and Geometry for Credit Recovery (1206315) have identical content requirements. It is important to note that Credit Recovery courses are not bound by Section 1003.436(1)(a), Florida Statutes, requiring a minimum of 135 hours of bona fide instruction (120 hours in a school/district implementing block scheduling) in a designed course of study that contains student performance standards, since the students have previously attempted successful completion of the corresponding course. Additionally, Credit Recovery courses should ONLY be used for credit recovery, grade forgiveness, or remediation for students needing to prepare for an End-of-Course assessment retake.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. | ELA.10.C.1.2: | Write narratives using an appropriate pace to create tension, mood, and/or tone.  
**Clarifications:**  
*Clarification 1:* See Writing Types and Narrative Techniques. |
| ELA.10.C.1.3: | Write to argue a position, supporting claims using logical reasoning and credible evidence from multiple sources, rebutting counterclaims with relevant evidence, using a logical organizational structure, elaboration, purposeful transitions, and maintaining a formal and objective tone.  
**Clarifications:**  
*Clarification 1:* See Writing Types and Elaborative Techniques.  
*Clarification 2:* The tone should be both formal and objective, relying more on argument and rhetorical appeals rather than on propaganda techniques. Use narrative techniques to strengthen writing where appropriate. |
| ELA.10.C.1.4: | Write expository texts to explain and analyze information from multiple sources, using a logical organization, purposeful transitions, and a tone and voice appropriate to the task.  
**Clarifications:**  
*Clarification 1:* See Writing Types. |
| ELA.10.C.1.5: | Improve writing by considering feedback from adults, peers, and/or online editing tools, revising to address the needs of a specific audience. |
| ELA.10.C.2.1: | Present information orally, with a logical organization and coherent focus, with credible evidence, creating a clear perspective.  
**Clarifications:**  
*Clarification 1:* At this grade level, the emphasis is on the content, but students are still expected to follow earlier expectations: volume, pronunciation, and pacing. A clear perspective is the through-line that unites the elements of the presentation.  
*Clarification 2:* For further guidance, see the Secondary Oral Communication Rubric. |
| ELA.10.C.3.1: | Follow the rules of standard English grammar, punctuation, capitalization, and spelling appropriate to grade level.  
**Clarifications:**  
*Clarification 1:* Skills to be mastered at this grade level are as follows:  
- Add variety to writing or presentations by using parallel structure and various types of phrases and clauses.  
Skills to be implemented but not yet mastered are as follows:  
- Use knowledge of usage rules to create flow in writing and presenting.  
*Clarification 2:* See Convention Progression by Grade Level for more information. |
| ELA.10.C.4.1: | Conduct research to answer a question, refining the scope of the question to align with findings, and synthesizing information from multiple reliable and valid sources.  
**Clarifications:**  
*Clarification 1:* While the benchmark does require that students consult multiple sources, there is no requirement that they use every source they consult. Part of the skill in researching is discernment—being able to tell which information is relevant and which sources are trustworthy enough to include. |
| ELA.10.C.5.1: | Create digital presentations to improve understanding of findings, reasoning, and evidence.  
**Clarifications:**  
*Clarification 1:* The presentation may be delivered live or delivered as a stand-alone digital experience. |
| ELA.10.C.5.2: | Use online collaborative platforms to create and export publication-ready quality writing tailored to a specific audience, integrating multimedia elements. |
| ELA.10.R.1.1: | Analyze how key elements enhance or add layers of meaning and/or style in a literary text.  
**Clarifications:**  
*Clarification 1:* Key elements of a literary text are setting, plot, characterization, conflict, point of view, theme, and tone.  
*Clarification 2:* For layers of meaning, any methodology or model may be used as long as students understand that text may have multiple layers and that authors use techniques to achieve those layers. A very workable model for looking at layers of meaning is that of I.A. Richards:  
Layer 1) the literal level, what the words actually mean  
Layer 2) mood, those feelings that are evoked in the reader  
Layer 3) tone, the author's attitude |

| **Clarification 2:** Academic vocabulary appropriate to grade level refers to words that are likely to appear across subject areas.
areas for the current grade level and beyond, vital to comprehension, critical for academic discussions and writing, and usually require explicit instruction.

**ELA.10.V.1.2:**

Apply knowledge of etymology and derivations to determine meanings of words and phrases in grade-level content.

**Clarifications:**
- **Clarification 1:** Etymology refers to the study of word origins and the ways that words have changed over time.
- **Clarification 2:** Derivation refers to making new words from an existing word by adding affixes.

**ELA.10.V.1.3:**

Apply knowledge of context clues, figurative language, word relationships, reference materials, and/or background knowledge to determine the connotative and denotative meaning of words and phrases, appropriate to grade level.

**Clarifications:**
- **Clarification 1:** Review of words learned in this way is critical to building background knowledge and related vocabulary.
- **Clarification 2:** See Context Clues and Word Relationships.
- **Clarification 3:** See ELA.10.R.3.1 and Secondary Figurative Language.

**ELA.K12.EE.1.1:**

Cite evidence to explain and justify reasoning.

**Clarifications:**
- K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.
- 2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.
- 4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they’ve directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.
- 6-8 Students continue with previous skills and use a style guide to create a proper citation.
- 9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.

**ELA.K12.EE.2.1:**

Read and comprehend grade-level complex texts proficiently.

**Clarifications:**
- See Text Complexity for grade-level complexity bands and a text complexity rubric.

**ELA.K12.EE.3.1:**

Make inferences to support comprehension.

**Clarifications:**
- Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like “Why is the girl smiling?” or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.

**ELA.K12.EE.4.1:**

Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.

**Clarifications:**
- In kindergarten, students learn to listen to one another respectfully.
- In grades 1-2, students build upon these skills by justifying what they are thinking. For example: “I think _______ because _______.” The collaborative conversations are becoming academic conversations.
- In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.

**ELA.K12.EE.5.1:**

Use the accepted rules governing a specific format to create quality work.

**Clarifications:**
- Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.

**ELA.K12.EE.6.1:**

Use appropriate voice and tone when speaking or writing.

**Clarifications:**
- In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.

**ELD.K12.ELL.LA.1:**

English language learners communicate information, ideas and concepts necessary for academic success in the content area of Language Arts.

**ELD.K12.ELL.SI.1:**

English language learners communicate for social and instructional purposes within the school setting.

**General Course Information and Notes**

**VERSION DESCRIPTION**

This course defines what students should understand and be able to do by the end of 10th grade. Knowledge acquisition should be the primary...
The purpose of any reading approach as the systematic building of a wide range of knowledge across domains is a prerequisite to higher literacy. At this grade level, students are working with universal themes and archetypes. They are also continuing to build their facility with rhetoric, the craft of using language in writing and speaking, using classic literature, essays, and speeches as mentor texts.

The benchmarks in this course are mastery goals that students are expected to attain by the end of the year. To build mastery, students will continue to review and apply earlier grade-level benchmarks and expectations.

**GENERAL NOTES**

English Language Arts is not a discrete set of skills, but a rich discipline with meaningful, significant content, the knowledge of which helps all students actively and fully participate in our society.

Standards should not stand alone as a separate focus for instruction, but should be combined purposefully.

The texts students read should be meaningful and thought-provoking, preparing them to be informed, civic-minded members of their community.

Curricular content for all subjects must integrate critical-thinking, problem-solving, and workforce-literacy skills; communication, reading, and writing skills; mathematics skills; collaboration skills; contextual and applied-learning skills; technology-literacy skills; information and media-literacy skills; and civic-engagement skills.

**Special Notes:** Credit Recovery courses are credit bearing courses with specific content requirements defined by Next Generation Sunshine State Standards and/or Florida Standards. Students enrolled in a Credit Recovery course must have previously attempted the corresponding course (and/or End-of-Course assessment) since the course requirements for the Credit Recovery course are exactly the same as the previously attempted corresponding course. For example, Geometry (1206310) and Geometry for Credit Recovery (1206315) have identical content requirements. It is important to note that Credit Recovery courses are not bound by Section 1003.436(1)(a), Florida Statutes, requiring a minimum of 135 hours of bona fide instruction (120 hours in a school/district implementing block scheduling) in a designed course of study that contains student performance standards, since the students have previously attempted successful completion of the corresponding course. Additionally, Credit Recovery courses should ONLY be used for credit recovery, grade forgiveness, or remediation for students needing to prepare for an End-of-Course assessment retake.

**English Language Development ELD Standards Special Notes Section:**

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. General Course Information and Notes

VERSION DESCRIPTION

The purpose of this course is to provide grade 10 students, using texts of high complexity, advanced integrated language arts study in reading, writing, speaking, listening, and language in preparation for college and career readiness.

Honors and Advanced Level Course Note: Advanced courses require a greater demand on students through increased academic rigor. Academic rigor is obtained through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted. Students are challenged to think and collaborate critically on the content they are learning. Honors level rigor will be achieved by increasing text complexity through text selection, focus on high-level qualitative measures, and complexity of task. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across disciplines. Academic rigor is more than simply assigning to students a greater quantity of work.

GENERAL NOTES

The content should include, but not be limited to, the following:

- active reading of varied texts for what they say explicitly, as well as the logical inferences that can be drawn
- analysis of literature and informational texts from varied literary periods to examine:
  - text craft and structure
  - elements of literature
  - arguments and claims supported by textual evidence
  - power and impact of language
  - influence of history, culture, and setting on language
  - personal critical and aesthetic response
- writing for varied purposes
  - developing and supporting argumentative claims
  - crafting coherent, supported informative/expository texts
  - responding to literature for personal and analytical purposes
  - writing narratives to develop real or imagined events
  - writing to sources using text-based evidence and reasoning
- effective listening, speaking, and viewing strategies with emphasis on the use of evidence to support or refute a claim in multimedia presentations, class discussions, and extended text discussions
- collaboration amongst peers

Special Notes:

Instructional Practices: Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any purpose. Using the following instructional practices also helps student learning.

1. Reading assignments from longer text passages, as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. | ELA.10.C.2.1: | Present information orally, with a logical organization and coherent focus, with credible evidence, creating a clear perspective.  
**Clarifications:**  
Clarification 1: At this grade level, the emphasis is on the content, but students are still expected to follow earlier expectations: volume, pronunciation, and pacing. A clear perspective is the through-line that unites the elements of the presentation.  
Clarification 2: For further guidance, see the Secondary Oral Communication Rubric.  
Standard Relation to Course: Major |
| ELA.10.C.3.1: | Follow the rules of standard English grammar, punctuation, capitalization, and spelling appropriate to grade level.

**Clarifications:**  
Clarification 1: While the benchmark does require that students consult multiple sources, there is no requirement that they use every source they consult. Part of the skill in researching is discernment—being able to tell which information is relevant and which sources are trustworthy enough to include.  
Standard Relation to Course: Major |
| ELA.10.C.5.1: | Create digital presentations to improve understanding of findings, reasoning, and evidence.

| | Analyze how key elements enhance or add layers of meaning and/or style in a literary text.  
**Clarifications:**  
Clarification 1: Key elements of a literary text are setting, plot, characterization, conflict, point of view, theme, and tone. |
| ELA.10.R.1.1: | Clarification 2: For layers of meaning, any methodology or model may be used as long as students understand that text may have multiple layers and that authors use techniques to achieve those layers. A very workable model for looking at layers of meaning is that of I.A. Richards:  
Layer 1) the literal level, what the words actually mean  
Layer 2) mood, those feelings that are evoked in the reader  
Layer 3) tone, the author's attitude  
Layer 4) author's purpose (interpretation of author's purpose as it is often inferred).  

Clarification 3: Style is the way in which the writer uses techniques for effect. It is distinct from meaning but can be used to make the author's message more effective. The components of style are diction, syntax, grammar, and use of figurative language. Style helps to create the author's voice.  
Standard Relation to Course: Major |

- **Cite evidence to explain and justify reasoning.**

- **Clarifications:**
  - **K-1 Students:** Include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.

  - **2-3 Students:** Include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.

  - **4-5 Students:** Continue with previous skills and reference comments made by speakers and peers. Students cite texts that they’ve directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.

  - **6-8 Students:** Continue with previous skills and use a style guide to create a proper citation.

**General Course Information and Notes**

**VERSION DESCRIPTION**

This course defines what students in an honors setting should understand and be able to do by the end of 10th grade. Knowledge acquisition should be the primary purpose of any reading approach as the systematic building of a wide range of knowledge across domains is a prerequisite to higher literacy. At this grade level, students are working with universal themes and archetypes. They are also continuing to build their facility with rhetoric, the craft of using language in writing and speaking, using classic literature, essays, and speeches as mentor texts.

The benchmarks in this course are mastery goals that students are expected to attain by the end of the year. To build mastery, students will continue to review and apply earlier grade-level benchmarks and expectations.

**GENERAL NOTES**

English Language Arts is not a discrete set of skills, but a rich discipline with meaningful, significant content, the knowledge of which helps all students actively and fully participate in our society.

Standards should not stand alone as a separate focus for instruction, but should be combined purposefully.

The texts students read should be meaningful and thought-provoking, preparing them to be informed, civic-minded members of their community.

Curricular content for all subjects must integrate critical-thinking, problem-solving, and workforce-literacy skills; communication, reading, and writing skills; mathematics skills; collaboration skills; contextual and applied-learning skills; technology-literacy skills; information and media-literacy skills; and civic-engagement skills.

**Honors and Advanced Level Course Note:** Advanced courses require a greater demand on students through increased academic rigor. Academic rigor is obtained through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted. Students are challenged to think and collaborate critically on the content they are learning. Honors level rigor will be achieved by increasing text complexity through text selection, focus on high-level qualitative measures, and complexity of task. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across disciplines. Academic rigor is more than simply assigning to students a greater quantity of work.

**English Language Development ELD Standards Special Notes Section:**

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. **Clarifications:**  
*Clarification 1:* While the benchmark does require that students consult multiple sources, there is no requirement that they use every source they consult. Part of the skill in researching is discernment—being able to tell which information is relevant and which sources are trustworthy enough to include.

**Clarifications:**  
*Clarification 1:* Key elements of a literary text are setting, plot, characterization, conflict, point of view, theme, and tone.  
*Clarification 2:* For layers of meaning, any methodology or model may be used as long as students understand that text may have multiple layers and that authors use techniques to achieve those layers. A very workable model for looking at layers of meaning is that of I. A. Richards:

General Course Information and Notes

VERSION DESCRIPTION

This course defines what students should understand and be able to do by the end of 11th grade. Knowledge acquisition should be the primary purpose of any reading approach as the systematic building of a wide range of knowledge across domains is a prerequisite to higher literacy. At this grade level, students are working with universal themes and archetypes. They are also continuing to build their facility with rhetoric, the craft of using language in writing and speaking, using classic literature, essays, and speeches as mentor texts.

The benchmarks in this course are mastery goals that students are expected to attain by the end of the year. To build mastery, students will continue to review and apply earlier grade-level benchmarks and expectations.

GENERAL NOTES

English Language Arts is not a discrete set of skills, but a rich discipline with meaningful, significant content, the knowledge of which helps all students actively and fully participate in our society.

Standards should not stand alone as a separate focus for instruction, but should be combined purposefully.

The texts students read should be meaningful and thought-provoking, preparing them to be informed, civic-minded members of their community.
Curricular content for all subjects must integrate critical-thinking, problem-solving, and workforce-literacy skills; communication, reading, and writing skills; mathematics skills; collaboration skills; contextual and applied-learning skills; technology-literacy skills; information and media-literacy skills; and civic-engagement skills.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: https://cpalmsmediaprod.blob.core.windows.net/uploads/docs/standards/eld/la.pdf.

**General Course Information and Notes**

**VERSION DESCRIPTION**

The purpose of this course is to provide grade 11 students, using texts of high complexity, integrated language arts study in reading, writing, speaking, listening, and language for college and career preparation and readiness.

Credit Recovery courses are credit bearing courses with specific content requirements defined by Next Generation Sunshine State Standards and/or Florida Standards. Students enrolled in a Credit Recovery course must have previously attempted the corresponding course (and/or End-of-Course assessment) since the course requirements for the Credit Recovery course are exactly the same as the previously attempted corresponding course. For example, Geometry (1206310) and Geometry for Credit Recovery (1206315) have identical content requirements. It is important to note that Credit Recovery courses are not bound by Section 1003.436(1)(a), Florida Statutes, requiring a minimum of 135 hours of bona fide instruction (120 hours in a school/district implementing block scheduling) in a designed course of study that contains student performance standards, since the students have previously attempted successful completion of the corresponding course. Additionally, Credit Recovery courses should ONLY be used for credit recovery, grade forgiveness, or remediation for students needing to prepare for an End-of-Course assessment retake.

**English Language Development ELD Standards Special Notes Section:**

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. **Clarifications:**  
**Clarification 1:** At this grade level, the emphasis is on the content, but students are still expected to follow earlier expectations: appropriate volume, pronunciation, and pacing. This benchmark introduces rhetorical devices to the benchmark, building on what students have learned in R.3.2 and giving them a chance to apply it.  
**Clarification 2:** For further guidance, see the Secondary Oral Communication Rubric.  

| ELA.11.C.6.1   | Follow the rules of standard English grammar, punctuation, capitalization, and spelling appropriate to grade level.  
**Clarifications:**

**Clarification 2:** See Convention Progression by Grade Level for more information.  

| ELA.11.C.7.1   | Conduct literary research to answer a question, refining the scope of the question to align with interpretations of texts, and synthesizing information from primary and secondary sources.  
**Clarifications:**  
**Clarification 1:** While the benchmark does require that students consult multiple sources, there is no requirement that they use every source they consult. Part of the skill in researching is discernment—being able to tell which information is relevant and which sources are trustworthy enough to include.  

| ELA.11.C.8.1   | Create digital presentations to improve the experience of the audience.  
**Clarifications:**  
**Clarification 1:** At this grade level, students are using multiple elements. The presentation may be delivered live or delivered as a stand-alone digital experience. The elements should be of different types. The elements should relate directly to the presentation and be incorporated in a way that engages the audience.  

| ELA.11.C.9.1   | Create and export quality writing tailored to a specific audience, integrating multimedia elements, publishing to an online or LAN site.  
**Clarifications:**  
**Clarification 1:** Key elements of a literary text are setting, plot, characterization, conflict, point of view, theme, and tone.  
**Clarification 2:** For layers of meaning, any methodology or model may be used as long as students understand that text may have multiple layers and that authors use techniques to achieve those layers. A very workable model for looking at layers of meaning is that of I. A. Richards:
ELA.11.R.1.1: Layer 1) the literal level, what the words actually mean
Layer 2) mood, those feelings that are evoked in the reader
Layer 3) tone, the author's attitude
Layer 4) author's purpose (interpretation of author's purpose as it is often inferred)
Clarification 3: Style is the way in which the writer uses techniques for effect. It is distinct from meaning but can be used to make the author’s message more effective. The components of style are diction, syntax, grammar, and use of figurative language. Style helps to create the author’s voice.

ELA.11.R.1.2: Track and analyze universal themes in literary texts from different times and places.
Clarifications:
Clarification 1: A universal theme is an idea that applies to anyone, anywhere, regardless of cultural differences. Examples include but are not limited to an individual’s or a community’s confrontation with nature; an individual’s struggle toward understanding, awareness, and/or spiritual enlightenment; the tension between the ideal and the real; the conflict between human beings and advancements in technology/science; the impact of the past on the present; the inevitability of fate; the struggle for equality; and the loss of innocence.

ELA.11.R.1.3: Analyze the author’s choices in using juxtaposition to define character perspective.
Clarifications:
Clarification 1: Juxtaposition is the technique of putting two or more elements side by side to invite comparison or contrast.
Clarification 2: The term perspective means “a particular attitude toward or way of regarding something.”

ELA.11.R.1.4: Analyze ways in which poetry reflects themes and issues of its time period.
Clarifications:
Clarification 1: Poetry for this benchmark should be selected from one of the following literary periods.

Clarification 2: Students will evaluate the use of the following features: table of contents, headings, captions, photographs, graphs, charts, illustrations, glossary, footnotes, annotations, and appendix.

ELA.11.R.2.2: Analyze the central idea(s) of speeches and essays from the Classical Period.
Clarifications:
Clarification 1: See Rhetorical Appeals and Rhetorical Devices.

ELA.11.R.2.3: Analyze an author’s choices in establishing and achieving purpose(s) in speeches and essays from the Classical Period.

ELA.11.R.2.4: Compare the development of multiple arguments on the same topic, evaluating the effectiveness and validity of the claims, the authors’ reasoning, and the ways in which the authors use the same information to achieve different ends.
Clarifications:
Clarification 1: Validity refers to the soundness of the arguments.
Clarification 2: For more information on types of reasoning, see Types of Logical Reasoning.

ELA.11.R.3.1: Analyze the author’s use of figurative language and explain examples of allegory.
Clarifications:
Clarification 1: Examples of allegory should be taken from the following periods:
- Classical Period (1200 BCE–455 CE)
- Medieval Period (455 CE–1485 CE)
- Renaissance Period (1300–1600)
- Restoration and 18th Century (1660–1790) British Literature

**Clarifications:**
- **Clarification 1:** To integrate vocabulary, students will apply the vocabulary they have learned to authentic speaking and writing tasks independently. This use should be intentional, beyond responding to a prompt to use a word in a sentence.

- **Clarification 2:** Academic vocabulary appropriate to grade level refers to words that are likely to appear across subject areas for the current grade level and beyond, vital to comprehension, critical for academic discussions and writing, and usually require explicit instruction.

### ELA.11.V.1.2:
Apply knowledge of etymology and derivations to determine meanings of words and phrases in grade-level content.

**Clarifications:**
- **Clarification 1:** Etymology refers to the study of word origins and the ways that words have changed over time.

- **Clarification 2:** Derivation refers to making new words from an existing word by adding affixes.

### ELA.11.V.1.3:
Apply knowledge of context clues, figurative language, word relationships, reference materials, and/or background knowledge to determine the connotative and denotative meaning of words and phrases, appropriate to grade level.

**Clarifications:**
- **Clarification 1:** Review of words learned in this way is critical to building background knowledge and related vocabulary.

- **Clarification 2:** See Context Clues and Word Relationships.

- **Clarification 3:** See ELA.11.R.3.1 and Secondary Figurative Language.

### ELA.K12.EE.1.1:
Cite evidence to explain and justify reasoning.

**Clarifications:**
- **K-1 Students:** include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.

- **2-3 Students:** include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.

- **4-5 Students:** continue with previous skills and reference comments made by speakers and peers. Students cite texts that they’ve directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.

- **6-8 Students:** continue with previous skills and use a style guide to create a proper citation.

- **9-12 Students:** continue with previous skills and should be aware of existing style guides and the ways in which they differ.

ELA.K12.EE.3.1: Clarifications: Make inferences to support comprehension.

ELA.K12.EE.4.1: Clarifications: Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.

ELA.K12.EE.5.1: Clarifications: Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like “Why is the girl smiling?” or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.

ELA.K12.EE.6.1: Clarifications: In kindergarten, students learn to listen to one another respectfully.

ELD.K12.ELL.LA.1: English language learners communicate information, ideas and concepts necessary for academic success in the content area of Language Arts.

ELD.K12.ELL.SI.1: English language learners communicate for social and instructional purposes within the school setting.

**General Course Information and Notes**

**VERSION DESCRIPTION**

This course defines what students should understand and be able to do by the end of 11th grade. Knowledge acquisition should be the primary purpose of any reading approach as the systematic building of a wide range of knowledge across domains is a prerequisite to higher literacy. At this grade level, students are working with universal themes and archetypes. They are also continuing to build their facility with rhetoric, the craft of using language in writing and speaking, using classic literature, essays, and speeches as mentor texts.

The benchmarks in this course are mastery goals that students are expected to attain by the end of the year. To build mastery, students will continue to review and apply earlier grade-level benchmarks and expectations.

Credit Recovery courses are credit bearing courses with specific content requirements defined by Next Generation Sunshine State Standards and/or Florida Standards. Students enrolled in a Credit Recovery course must have previously attempted the corresponding course (and/or End-of-Course assessment) since the course requirements for the Credit Recovery course are exactly the same as the previously attempted corresponding course. For example, Geometry (1206310) and Geometry for Credit Recovery (1206315) have identical content requirements. It is important to note that Credit Recovery courses are not bound by Section 1003.436(1)(a), Florida Statutes, requiring a minimum of 135 hours of bona fide instruction (120 hours in a school/district implementing block scheduling) in a designed course of study that contains student performance standards, since the students have previously attempted successful completion of the corresponding course. Additionally, Credit Recovery courses should ONLY be used for credit recovery, grade forgiveness, or remediation for students needing to prepare for an End-of-Course assessment retake.

**GENERAL NOTES**

English Language Arts is not a discrete set of skills, but a rich discipline with meaningful, significant content, the knowledge of which helps all students actively and fully participate in our society.

Standards should not stand alone as a separate focus for instruction, but should be combined purposefully.

The texts students read should be meaningful and thought-provoking, preparing them to be informed, civic-minded members of their community.

Curricular content for all subjects must integrate critical-thinking, problem-solving, and workforce-literacy skills; communication, reading, and writing skills; mathematics skills; collaboration skills; contextual and applied-learning skills; technology-literacy skills; information and media-literacy skills; and civic-engagement skills.

Approximately one-third of the titles from the 11th Grade Sample Book List should be used in instruction.

**English Language Development ELD Standards Special Notes Section:**

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or
produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. Analyze the meaning of words and phrases as they are used in the text, including figurative and connotative meanings; analyze the impact of specific word choices on meaning and tone, including words with multiple meanings or language that is particularly fresh, engaging, or beautiful. (Include Shakespeare as well as other authors.)

General Course Information and Notes

VERSION DESCRIPTION

Course Description: The purpose of this course is to provide grade 11 students, using texts of high complexity, advanced integrated language arts study in reading, writing, speaking, listening, and language in preparation for college and career readiness.

Honors and Advanced Level Course Note: Advanced courses require a greater demand on students through increased academic rigor. Academic rigor is obtained through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted. Students are challenged to think and collaborate critically on the content they are learning. Honors level rigor will be achieved by increasing text complexity through text selection, focus on high-level qualitative measures, and complexity of task. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across disciplines. Academic rigor is more than simply assigning to students a greater quantity of work.

GENERAL NOTES

The content should include, but not be limited to, the following:

- active reading of varied texts for what they say explicitly, as well as the logical inferences that can be drawn
- analysis of literature and informational texts from varied literary periods to examine:
  - text craft and structure
  - elements of literature
  - arguments and claims supported by textual evidence
  - power and impact of language
  - influence of history, culture, and setting on language
  - personal critical and aesthetic response
- writing for varied purposes
  - developing and supporting argumentative claims
  - crafting coherent, supported informative/expository texts
  - responding to literature for personal and analytical purposes
  - writing narratives to develop real or imagined events
  - writing to sources using text-based evidence and reasoning
- effective listening, speaking, and viewing strategies with emphasis on the use of evidence to support or refute a claim in multimedia presentations, class discussions, and extended text discussions
- collaboration amongst peers

Special Notes:

Instructional Practices: Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any purpose. Using the following instructional practices also helps student learning.

1. Reading assignments from longer text passages, as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. **Clarifications:**  
Clarification 1: Key elements of a literary text are setting, plot, characterization, conflict, point of view, theme, and tone.  
Clarification 2: For layers of meaning, any methodology or model may be used as long as students understand that text may have multiple layers and that authors use techniques to achieve those layers. A very workable model for looking at layers of meaning is that of I. A. Richards. |

ELA.11.R.1.1: | Layer 1) the literal level, what the words actually mean  
Layer 2) mood, those feelings that are evoked in the reader  
Layer 3) tone, the author's attitude

**General Course Information and Notes**

**VERSION DESCRIPTION**

This course defines what students should understand and be able to do by the end of the grade level. Knowledge acquisition should be the primary purpose of any reading approach. The systematic building of a wide range of knowledge across domains is a prerequisite to higher literacy. At this grade level, students are building their facility with rhetoric, the craft of using language in writing and speaking, using classic literature, essays, and speeches as mentor texts.

**GENERAL NOTES**

English Language Arts is not a discrete set of skills, but a rich discipline with meaningful, significant content, the knowledge of which helps all students actively and fully participate in our society.

Standards should not stand alone as a separate focus for instruction, but should be combined purposefully.

The texts students read should be meaningful and thought-provoking, preparing them to be informed, civic-minded members of their community.
Curricular content for all subjects must integrate critical-thinking, problem-solving, and workforce-literacy skills; communication, reading, and writing skills; mathematics skills; collaboration skills; contextual and applied-learning skills; technology-literacy skills; information and media-literacy skills; and civic-engagement skills.

**Honors and Advanced Level Course Note:** Advanced courses require a greater demand on students through increased academic rigor. Academic rigor is obtained through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted. Students are challenged to think and collaborate critically on the content they are learning. Honors level rigor will be achieved by increasing text complexity through text selection, focus on high-level qualitative measures, and complexity of task. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across disciplines. Academic rigor is more than simply assigning to students a greater quantity of work.

**English Language Development ELD Standards Special Notes Section:**

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. |                    | **Clarification 1:** At this grade level, the emphasis is on the content, but students are still expected to follow earlier expectations: appropriate volume, pronunciation, and pacing. Students will be using rhetorical devices as introduced in the 11th grade benchmark. Added to this grade level is a responsiveness to the needs of the audience and adapting to audience response. Students will read the nonverbal cues of the audience to do this. Students first learned nonverbal cues in elementary for this benchmark. |
|                    | **Clarification 2:** For further guidance, see the Secondary Oral Communication Rubric.                                                                                                                                      |

| ELA.12.C.3.1       | Follow the rules of standard English grammar, punctuation, capitalization, and spelling appropriate to grade level.                                                                                                        |
|                    | **Clarifications:**                                                                                                                                                                                                 |
|                    | **Clarification 1:** See Convention Progression by Grade Level for more information.                                                                                                                                  |

| ELA.12.C.4.1       | Conduct research on a topical issue to answer a question and synthesize information from a variety of sources.                                                                                                              |

|                    | **Clarification 1:** While the benchmark does require that students consult multiple sources, there is no requirement that they use every source they consult. Part of the skill in researching is discernment—being able to tell which information is relevant and which sources are trustworthy enough to include. |

| ELA.12.C.5.1       | Design and evaluate digital presentations for effectiveness.                                                                                                                                             |
|                    | **Clarifications:**                                                                                                                                                                                                 |

| ELA.12.C.5.2       | Create, publish, and share multimedia texts through a variety of digital formats.                                                                                                                                 |
|                    | **Clarifications:**                                                                                                                                                                                                 |

|                    | **Clarification 2:** For layers of meaning, any methodology or model may be used as long as students understand that text may have multiple layers and that authors use techniques to achieve those layers. A very workable model for looking at |

layers of meaning is that of I.A. Richards:
Layer 1) the literal level, what the words actually mean
Layer 2) mood, those feelings that are evoked in the reader
Layer 3) tone, the author's attitude
Layer 4) author's purpose (interpretation of author's purpose as it is often inferred)

*Clarification 3:* Style is the way in which the writer uses techniques for effect. It is distinct from meaning, but can be used to make the author's message more effective. The components of style are diction, syntax, grammar, and use of figurative language. Style helps to create the author's voice.

*Clarification 4:* Functional significance refers to the role each element plays in creating meaning or effect for the reader.

---

**ELA.12.R.1.2:** Analyze two or more themes and evaluate their development throughout a literary text.

*Clarifications:*

*Clarification 1:* For the purposes of this benchmark, theme is not a one- or two-word topic, but a complete thought that communicates the author’s message.

**ELA.12.R.1.3:** Evaluate the development of character perspective, including conflicting perspectives.

*Clarifications:*

*Clarification 1:* The term perspective means “a particular attitude toward or way of regarding something.” The term point of view is used when referring to the person of the narrator. This is to prevent confusion and conflation.

**ELA.12.R.1.4:** Evaluate works of major poets in their historical context.

*Clarifications:*

*Sample poets for this benchmark include:*

- Emily Dickinson
- Langston Hughes
- Robert Frost
- Phillis Wheatley
- Edna St. Vincent Millay
- Countee Cullen
- Robert Burns
- Percy Bysshe Shelley

*Clarification 1:* A poet's historical context is the period in which the writing occurred, not when it was discovered or became resurgent.

*Clarification 2:* Evaluation of a poet in context may include similarity to or differences from the work of contemporaries and the literary period, critical reception at the time, and scope of work.

*Clarification 3:* For more information, see Literary Periods.

---

**ELA.12.R.2.1:** Evaluate the structure(s) and features in texts, identifying how the author could make the text(s) more effective.

*Clarifications:*

*Clarification 1:* Students will evaluate the use of the following structures: description, problem/solution, chronological, compare and contrast, cause and effect, and sequence.

*Clarification 2:* Students will evaluate the use of the following features: table of contents, headings, captions, photographs, graphs, charts, illustrations, glossary, footnotes, annotations, and appendix.

**ELA.12.R.2.2:** Evaluate how an author develops the central idea(s), identifying how the author could make the support more effective.

**ELA.12.R.2.3:** Evaluate an author’s choices in establishing and achieving purpose(s).

**ELA.12.R.2.4:** Compare the development of multiple arguments in related texts, evaluating the validity of the claims, the authors’ reasoning, use of the same information, and/or the authors’ rhetoric.

*Clarifications:*

*Clarification 1:* For more information on types of reasoning, see Types of Logical Reasoning.

*Clarification 2:* See Rhetorical Appeals and Rhetorical Devices.

*Clarification 3:* Validity refers to the soundness of the arguments.

---

**ELA.12.R.3.1:** Evaluate an author’s use of figurative language.

*Clarifications:*

*Clarification 1:* Figurative language use that students will evaluate are metaphor, simile, alliteration, onomatopoeia, personification, hyperbole, meiosis (understatement), allusion, and idiom. Other examples can be used in instruction.

*Clarification 2:* See Secondary Figurative Language.
### ELA.12.R.3.2:
Paraphrase content from grade-level texts.  
**Clarifications:**  
**Clarification 1:** Most grade-level texts are appropriate for this benchmark.  

### ELA.12.R.3.3:
Analyze the influence of classic literature on contemporary world texts.  
**Clarifications:**  
**Clarification 1:** Classic literature for this benchmark should be drawn from and representative of the following periods:  
- Classical Period (1200 BCE–455 CE)  
- Medieval Period (455 CE–1485 CE)  
- Renaissance Period (1300–1600)  
- Restoration and 18th Century (1660–1790) British Literature  
- Colonial and Early National Period (1600–1830) American Literature  
- Romantic Period (1790–1870)  
- Realism and Naturalism Period (1870–1930)  
- Modernist Period (1910–1945)  
**Clarification 2:** Contemporary world texts are those written after World War II that, through quality of form and expression, convey ideas of permanent or universal interest.  

### ELA.12.R.3.4:
Evaluate rhetorical choices across multiple texts.  
**Clarifications:**  
**Clarification 1:** Students will evaluate the appropriateness of appeals and the effectiveness of devices. In this grade level, students are using and responsible for all four appeals; kairos was added in 11th grade. This differs from the 11th grade benchmark in that it is comparing the effectiveness of multiple texts.  
**Clarification 2:** Rhetorical devices for the purposes of this benchmark are the figurative language devices from 11.R.3.1 with the addition of irony, rhetorical question, antithesis, zeugma, metonymy, synecdoche, asyndeton, and chiasmus.  
**Clarification 3:** See Secondary Figurative Language.  
**Clarification 4:** See Rhetorical Appeals and Rhetorical Devices.  

### ELA.12.V.1.1:
Integrate academic vocabulary appropriate to grade level in speaking and writing.  
**Clarifications:**  
**Clarification 1:** To integrate vocabulary, students will apply the vocabulary they have learned to authentic speaking and writing tasks independently. This use should be intentional, beyond responding to a prompt to use a word in a sentence.  
**Clarification 2:** Academic vocabulary appropriate to grade level refers to words that are likely to appear across subject areas for the current grade level and beyond, vital to comprehension, critical for academic discussions and writing, and usually require explicit instruction.  

### ELA.12.V.1.2:
Apply knowledge of etymology, derivations, and commonly used foreign phrases to determine meanings of words and phrases in grade-level content.  
**Clarifications:**  
**Clarification 1:** Etymology refers to the study of word origins and the ways that words have changed over time.  
**Clarification 2:** Derivation refers to making new words from an existing word by adding affixes.  
**Clarification 3:** See Foreign Words and Phrases for a list of commonly used foreign phrases.  

### ELA.12.V.1.3:
Apply knowledge of context clues, figurative language, word relationships, reference materials, and/or background knowledge to determine the connotative and denotative meaning of words and phrases, appropriate to grade level.  
**Clarifications:**  
**Clarification 1:** Review of words learned in this way is critical to building background knowledge and related vocabulary.  
**Clarification 2:** See Context Clues and Word Relationships.  
**Clarification 3:** See ELA.12.R.3.1 and Secondary Figurative Language.  

### ELA.K12.EE.1.1:
Cite evidence to explain and justify reasoning.  
**Clarifications:**  
K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.  
2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.  
4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that...
they’ve directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by
the instructor or the style guide referenced by the instructor.

6-8 Students continue with previous skills and use a style guide to create a proper citation.

9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.

General Course Information and Notes

VERSION DESCRIPTION

This course defines what students should understand and be able to do by the end of 12th grade. Knowledge acquisition should be the primary purpose of any reading approach as the systematic building of a wide range of knowledge across domains is a prerequisite to higher literacy. At this grade level, students are working with universal themes and archetypes. They are also continuing to build their facility with rhetoric, the craft of using language in writing and speaking, using classic literature, essays, and speeches as mentor texts.

The benchmarks in this course are mastery goals that students are expected to attain by the end of the year. To build mastery, students will continue to review and apply earlier grade-level benchmarks and expectations.

GENERAL NOTES

English Language Arts is not a discrete set of skills, but a rich discipline with meaningful, significant content, the knowledge of which helps all students actively and fully participate in our society.

Standards should not stand alone as a separate focus for instruction, but should be combined purposefully.

The texts students read should be meaningful and thought-provoking, preparing them to be informed, civic-minded members of their community.

Curricular content for all subjects must integrate critical-thinking, problem-solving, and workforce-literacy skills; communication, reading, and writing skills; mathematics skills; collaboration skills; contextual and applied-learning skills; technology-literacy skills; information and media-literacy skills; and civic-engagement skills.
English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. **Instructional Practices:** Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any purpose. Using the following instructional practices also helps student learning.

1. Reading assignments from longer text passages, as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Credit Recovery courses are credit bearing courses with specific content requirements defined by Next Generation Sunshine State Standards and/or Common Core State Standards. Students enrolled in a Credit Recovery course must have previously attempted the corresponding course (and/or End-of-Course assessment) since the course requirements for the Credit Recovery course are exactly the same as the previously attempted corresponding course. For example, Geometry (1206310) and Geometry for Credit Recovery (1206315) have identical content requirements. It is important to note that Credit Recovery courses are not bound by Section 1003.436(1)(a), Florida Statutes, requiring a minimum of 135 hours of bona fide instruction (120 hours in a school/district implementing block scheduling) in a designed course of study that contains student performance standards, since the students have previously attempted successful completion of the corresponding course. Additionally, Credit Recovery courses should ONLY be used for credit recovery, grade forgiveness, or remediation for students needing to prepare for an End-of-Course assessment retake.

**English Language Development ELD Standards Special Notes Section:**

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills.                       | Clarification 1: At this grade level, the emphasis is on the content, but students are still expected to follow earlier expectations: appropriate volume, pronunciation, and pacing. Students will be using rhetorical devices as introduced in the 11th grade benchmark. Added to this grade level is a responsiveness to the needs of the audience and adapting to audience response. Students will read the nonverbal cues of the audience to do this. Students first learned nonverbal cues in elementary for this benchmark.  
                      | Clarification 2: For further guidance, see the Secondary Oral Communication Rubric.                                                                                                                                                                                                         |

| ELA.12.C.4.1:       | Conduct research on a topical issue to answer a question and synthesize information from a variety of sources. **Clarifications:**  
                      | Clarification 1: While the benchmark does require that students consult multiple sources, there is no requirement that they use every source they consult. Part of the skill in researching is discernment—being able to tell which information is relevant and which sources are trustworthy enough to include. |
| ELA.12.C.5.1:       | Design and evaluate digital presentations for effectiveness. **Clarifications:**  
                      | Clarification 1: The presentation may be delivered live or delivered as a stand-alone digital experience.                                                                                                                                                                      |
| ELA.12.C.5.2:       | Create, publish, and share multimedia texts through a variety of digital formats.                                                                                                                                                                                                                                                           |
| ELA.12.R.1.1:       | Evaluate how key elements enhance or add layers of meaning and/or style in a literary text and explain the functional significance of those elements in interpreting the text. **Clarifications:**  
                      | Clarification 1: Key elements of a literary text are setting, plot, characterization, conflict, point of view, theme, and tone.  
                      | Clarification 2: For layers of meaning, any methodology or model may be used as long as students understand that text may have multiple layers and that authors use techniques to achieve those layers. A very workable model for looking at layers of meaning is that of I.A. Richards:  
                      | Layer 1) the literal level, what the words actually mean  
                      | Layer 2) mood, those feelings that are evoked in the reader  
                      | Layer 3) tone, the author’s attitude  
                      | Layer 4) author’s purpose (interpretation of author’s purpose as it is often inferred)                                                                                               |
Clarification 3: Style is the way in which the writer uses techniques for effect. It is distinct from meaning, but can be used to make the author’s message more effective. The components of style are diction, syntax, grammar, and use of figurative language. Style helps to create the author’s voice.

Clarification 4: Functional significance refers to the role each element plays in creating meaning or effect for the reader.

**ELA.12.R.1.2:** Analyze two or more themes and evaluate their development throughout a literary text.

**Clarifications:**

**Clarification 1:** For the purposes of this benchmark, theme is not a one- or two-word topic, but a complete thought that communicates the author’s message.

**ELA.12.R.1.3:** Evaluate the development of character perspective, including conflicting perspectives.

**Clarifications:**

**Clarification 1:** The term perspective means “a particular attitude toward or way of regarding something.” The term point of view is used when referring to the person of the narrator. This is to prevent confusion and conflation.

**ELA.12.R.1.4:** Evaluate works of major poets in their historical context.

**Clarifications:**

**Sample poets for this benchmark include:**

- Emily Dickinson
- Langston Hughes
- Robert Frost
- Phillis Wheatley
- Edna St. Vincent Millay
- Countee Cullen
- Robert Burns
- Percy Bysshe Shelley

**Clarification 1:** A poet’s historical context is the period in which the writing occurred, not when it was discovered or became resurgent.

**Clarification 2:** Evaluation of a poet in context may include similarity to or differences from the work of contemporaries and the literary period, critical reception at the time, and scope of work.

**Clarification 3:** For more information, see Literary Periods.

**ELA.12.R.2.1:** Evaluate the structure(s) and features in texts, identifying how the author could make the text(s) more effective.

**Clarifications:**

**ELA.12.R.2.3:** Evaluate an author’s choices in establishing and achieving purpose(s).

**ELA.12.R.2.4:** Compare the development of multiple arguments in related texts, evaluating the validity of the claims, the authors’ reasoning, use of the same information, and/or the authors’ rhetoric.

**Clarifications:**

**Clarification 1:** For more information on types of reasoning, see Types of Logical Reasoning.

**Clarification 2:** See Rhetorical Appeals and Rhetorical Devices.

**Clarification 3:** Validity refers to the soundness of the arguments.

**Clarification 2:** See Secondary Figurative Language.

**ELA.12.R.3.2:** Paraphrase content from grade-level texts.

**Clarifications:**

**Clarification 1:** Most grade-level texts are appropriate for this benchmark.

**ELA.12.R.3.3:** Analyze the influence of classic literature on contemporary world texts.

**Clarifications:**

**Clarification 1:** Classic literature for this benchmark should be drawn from and representative of the following periods:

- Classical Period (1200 BCE–455 CE)
- Medieval Period (455 CE–1485 CE)
- Renaissance Period (1300–1600)
| ELA.12.R.3.3:                     | • Restoration and 18th Century (1660–1790) British Literature  
• Colonial and Early National Period (1600–1830) American Literature  
• Romantic Period (1790–1870)  
• Realism and Naturalism Period (1870–1930)  
• Modernist Period (1910–1945)  

**Clarification 2:** Contemporary world texts are those written after World War II that, through quality of form and expression, convey ideas of permanent or universal interest.  

| ELA.12.R.3.4:                     | Evaluate rhetorical choices across multiple texts.  

**Clarifications:**  
**Clarification 1:** Students will evaluate the appropriateness of appeals and the effectiveness of devices. In this grade level, students are using and responsible for all four appeals; kairos was added in 11th grade. This differs from the 11th grade benchmark in that it is comparing the effectiveness of multiple texts.  

**Clarification 2:** Rhetorical devices for the purposes of this benchmark are the figurative language devices from 11.R.3.1 with the addition of irony, rhetorical question, antithesis, zeugma, metonymy, synecdoche, asyndeton, and chiasmus.

**Clarifications:**  
**Clarification 1:** To integrate vocabulary, students will apply the vocabulary they have learned to authentic speaking and writing tasks independently. This use should be intentional, beyond responding to a prompt to use a word in a sentence.  

**Clarification 2:** Academic vocabulary appropriate to grade level refers to words that are likely to appear across subject areas for the current grade level and beyond, vital to comprehension, critical for academic discussions and writing, and usually require explicit instruction.  

| ELA.12.V.1.2:                     | Apply knowledge of etymology, derivations, and commonly used foreign phrases to determine meanings of words and phrases in grade-level content.  

**Clarifications:**  
**Clarification 1:** Etymology refers to the study of word origins and the ways that words have changed over time.  

**Clarification 2:** Derivation refers to making new words from an existing word by adding affixes.  

**Clarification 3:** See Foreign Words and Phrases for a list of commonly used foreign phrases.  

| ELA.12.V.1.3:                     | Apply knowledge of context clues, figurative language, word relationships, reference materials, and/or background knowledge to determine the connotative and denotative meaning of words and phrases, appropriate to grade level.  

**Clarifications:**  
**Clarification 1:** Review of words learned in this way is critical to building background knowledge and related vocabulary.  

**Clarification 2:** See Context Clues and Word Relationships.  

**Clarification 3:** See ELA.12.R.3.1 and Secondary Figurative Language.  

| ELA.K12.EE.1.1:                  | Cite evidence to explain and justify reasoning.  

**Clarifications:**  
K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.  

2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.  

4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they’ve directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.  

6-8 Students continue with previous skills and use a style guide to create a proper citation.  

9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.  

| ELA.K12.EE.2.1:                  | Read and comprehend grade-level complex texts proficiently.  

**Clarifications:**  
See Text Complexity for grade-level complexity bands and a text complexity rubric.  

| ELA.K12.EE.3.1:                  | Make inferences to support comprehension.  

**Clarifications:**  
Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like “Why is the girl smiling?” or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.

Effective May 2022
GENERAL INFORMATION

ELA.K12.EE.4.1: Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.

Clariﬁcations:
In kindergarten, students learn to listen to one another respectfully.

In grades 1-2, students build upon these skills by justifying what they are thinking. For example: “I think _______ because ______.” The collaborative conversations are becoming academic conversations.

In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, reﬁning and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.

ELA.K12.EE.5.1: Use the accepted rules governing a speciﬁc format to create quality work.

Clariﬁcations:
Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.

ELA.K12.EE.6.1: Use appropriate voice and tone when speaking or writing.

Clariﬁcations:
In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.

ELD.K12.ELL.LA.1: English language learners communicate information, ideas and concepts necessary for academic success in the content area of Language Arts.

ELD.K12.ELL.SI.1: English language learners communicate for social and instructional purposes within the school setting.

General Course Information and Notes

VERSION DESCRIPTION

This course deﬁnes what students should understand and be able to do by the end of 12th grade. Knowledge acquisition should be the primary purpose of any reading approach as the systematic building of a wide range of knowledge across domains is a prerequisite to higher literacy. At this grade level, students are working with universal themes and archetypes. They are also continuing to build their facility with rhetoric, the craft of using language in writing and speaking, using classic literature, essays, and speeches as mentor texts.

The benchmarks in this course are mastery goals that students are expected to attain by the end of the year. To build mastery, students will continue to review and apply earlier grade-level benchmarks and expectations.

GENERAL NOTES

English Language Arts is not a discrete set of skills, but a rich discipline with meaningful, signiﬁcant content, the knowledge of which helps all students actively and fully participate in our society.

Standards should not stand alone as a separate focus for instruction, but should be combined purposefully.

The texts students read should be meaningful and thought-provoking, preparing them to be informed, civic-minded members of their community.

Curricular content for all subjects must integrate critical-thinking, problem-solving, and workforce-literacy skills; communication, reading, and writing skills; mathematics skills; collaboration skills; contextual and applied-learning skills; technology-literacy skills; information and media-literacy skills; and civic-engagement skills.

Approximately one-third of the titles from the 12th Grade Sample Book List should be used in instruction.

Credit Recovery courses are credit bearing courses with specific content requirements deﬁned by Next Generation Sunshine State Standards and/or Common Core State Standards. Students enrolled in a Credit Recovery course must have previously attempted the corresponding course (and/or End-of-Course assessment) since the course requirements for the Credit Recovery course are exactly the same as the previously attempted corresponding course. For example, Geometry (1206310) and Geometry for Credit Recovery (1206315) have identical content requirements. It is important to note that Credit Recovery courses are not bound by Section 1003.436(1)(a), Florida Statutes, requiring a minimum of 135 hours of bona ﬁde instruction (120 hours in a school/district implementing block scheduling) in a designed course of study that contains student performance standards, since the students have previously attempted successful completion of the corresponding course. Additionally, Credit Recovery courses should ONLY be used for credit recovery, grade forgiveness, or remediation for students needing to prepare for an End-of-Course assessment retake.

English Language Development ELD Standards Special Notes Section:
Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proﬁciency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. By the end of grade 11, read and comprehend literary nonfiction in the grades 11–CCR text complexity band proficiently, with scaffolding as needed at the high end of the range. By the end of grade 12, read and comprehend literary nonfiction at the high end of the grades 11–CCR text complexity band independently and proficiently.

Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 11–12 topics, texts, and issues, building on others’ ideas and expressing their own clearly and persuasively.

- Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas.
- Work with peers to promote civil, democratic discussions and decision-making, set clear goals and deadlines, and establish individual roles as needed.
- Propose conversations by posing and responding to questions that probe reasoning and evidence; ensure a hearing for a full range of positions on a topic or issue; clarify, verify, or challenge ideas and conclusions; and promote divergent and creative perspectives.
- Respond thoughtfully to diverse perspectives; synthesize comments, claims, and evidence made on all sides of an issue; resolve contradictions when possible; and determine what additional information or research is required to deepen the investigation or complete the task.

Layer 3) tone, the author's attitude

**General Course Information and Notes**

**VERSION DESCRIPTION**

This course defines what students should understand and be able to do by the end of 12th grade. Knowledge acquisition should be the primary purpose of any reading approach as the systematic building of a wide range of knowledge across domains is a prerequisite to higher literacy. At this grade level, students are working with universal themes and archetypes. They are also continuing to build their facility with rhetoric, the craft of using language in writing and speaking, using classic literature, essays, and speeches as mentor texts.

The benchmarks in this course are mastery goals that students are expected to attain by the end of the year. To build mastery, students will continue to review and apply earlier grade-level benchmarks and expectations.

This course incorporates reading and writing study through writing a variety of informative texts using grade-level writing craft and through the in-depth reading and analysis of informational selections in order to develop critical reading and writing skills necessary for success in college courses. This course prepares students for successful completion of Florida college English courses. The benchmarks reflect the Florida Postsecondary Readiness Competencies necessary for entry-level college courses.

**GENERAL NOTES**

English Language Arts is not a discrete set of skills, but a rich discipline with meaningful, significant content, the knowledge of which helps all students actively and fully participate in our society.

Standards should not stand alone as a separate focus for instruction, but should be combined purposefully.
The texts students read should be meaningful and thought-provoking, preparing them to be informed, civic-minded members of their community.

Curricular content for all subjects must integrate critical-thinking, problem-solving, and workforce-literacy skills; communication, reading, and writing skills; mathematics skills; collaboration skills; contextual and applied-learning skills; technology-literacy skills; information and media-literacy skills; and civic-engagement skills.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: https://cpalmsmediaprod.blob.core.windows.net/uploads/docs/standards/eld/la.pdf.

<tr>

Layer 2) mood, those feelings that are evoked in the reader  
Layer 3) tone, the author’s attitude

| **Clarification 3:** Style is the way in which the writer uses techniques for effect. It is distinct from meaning, but can be used to make the author’s message more effective. The components of style are diction, syntax, grammar, and use of figurative language. Style helps to create the author’s voice. |
| **Clarification 4:** Functional significance refers to the role each element plays in creating meaning or effect for the reader.                                                                           |

Standards are not stand alone as a separate focus for instruction, but should be combined purposefully.

The texts students read should be meaningful and thought-provoking, preparing them to be informed, civic-minded members of their community.

Curricular content for all subjects must integrate critical-thinking, problem-solving, and workforce-literacy skills; communication, reading, and writing skills; mathematics skills; collaboration skills; contextual and applied-learning skills; technology-literacy skills; information and media-literacy skills; and civic-engagement skills.

**English Language Development ELD Standards Special Notes Section:**

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. **General Course Information and Notes**

**VERSION DESCRIPTION**

The purpose of this course is to provide grade 12 students, using texts of high complexity, advanced integrated language arts study in reading, writing, speaking, listening, and language for college and career preparation and readiness.

**Honors and Advanced Level Course Note:** Advanced courses require a greater demand on students through increased academic rigor. Academic rigor is obtained through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted. Students are challenged to think and collaborate critically on the content they are learning. Honors level rigor will be achieved by increasing text complexity through text selection, focus on high-level qualitative measures, and complexity of task. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across disciplines. Academic rigor is more than simply assigning to students a greater quantity of work.

**GENERAL NOTES**

The content should include, but not be limited to, the following:

- active reading of varied texts for what they say explicitly, as well as the logical inferences that can be drawn
- analysis of literature and informational texts from varied literary periods to examine:
  - text craft and structure
  - elements of literature
  - arguments and claims supported by textual evidence
  - power and impact of language
  - influence of history, culture, and setting on language
  - personal critical and aesthetic response
- writing for varied purposes
  - developing and supporting argumentative claims
  - crafting coherent, supported informative/expository texts
  - responding to literature for personal and analytical purposes
  - writing narratives to develop real or imagined events
  - writing to sources using text-based evidence and reasoning
- effective listening, speaking, and viewing strategies with emphasis on the use of evidence to support or refute a claim in multimedia presentations, class discussions, and extended text discussions
- collaboration amongst peers

**Special Notes:**

**Instructional Practices:** Teaching from well-written, grade-level instructional materials enhances students’ content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any purpose. Using the following instructional practices also helps student learning.

1. Reading assignments from longer text passages, as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

**English Language Development ELD Standards Special Notes Section:**

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success.   **Clarifications:**  
  Clarification 1: At this grade level, the emphasis is on the content, but students are still expected to follow earlier expectations: appropriate volume, pronunciation, and pacing. Students will be using rhetorical devices as introduced in the 11th grade benchmark. Added to this grade level is a responsiveness to the needs of the audience and adapting to audience response. Students will read the nonverbal cues of the audience to do this. Students first learned nonverbal cues in elementary for this benchmark.  
  Clarification 2: For further guidance, see the Secondary Oral Communication Rubric.

| **ELA.12.C.4.1:** | Conduct research on a topical issue to answer a question and synthesize information from a variety of sources.  
  **Clarifications:**  
  Clarification 1: While the benchmark does require that students consult multiple sources, there is no requirement that they use every source they consult. Part of the skill in researching is discernment—being able to tell which information is relevant and which sources are trustworthy enough to include.

| **ELA.12.R.1.1.1:** | Evaluate how key elements enhance or add layers of meaning and/or style in a literary text and explain the functional significance of those elements in interpreting the text.  
  **Clarifications:**  
  Clarification 1: Key elements of a literary text are setting, plot, characterization, conflict, point of view, theme, and tone.  
  Clarification 2: For layers of meaning, any methodology or model may be used as long as students understand that text may have multiple layers and that authors use techniques to achieve those layers. A very workable model for looking at layers of meaning is that of I.A. Richards:  
  Layer 1) the literal level, what the words actually mean  
  Layer 2) mood, those feelings that are evoked in the reader  
  Layer 3) tone, the author's attitude  
  Layer 4) author's purpose (interpretation of author's purpose as it is often inferred)

| Standard Relation to Course: Major | Clarification 3: Style is the way in which the writer uses techniques for effect. It is distinct from meaning, but can be used to make the author's message more effective. The components of style are diction, syntax, grammar, and use of figurative language. Style helps to create the author's voice. |
| Clarification 4: Functional significance refers to the role each element plays in creating meaning or effect for the reader. |

*Clarification 2:* Evaluation of a poet in context may include similarity to or differences from the work of contemporaries and the literary period, critical reception at the time, and scope of work. 

*Clarification 3:* For more information, see Literary Periods. 

**ELA.12.R.2.1:** Evaluate the structure(s) and features in texts, identifying how the author could make the text(s) more effective. **Clarifications:**

*Clarification 1:* For more information on types of reasoning, see Types of Logical Reasoning. 

*Clarification 2:* See Rhetorical Appeals and Rhetorical Devices. 

*Clarification 3:* Validity refers to the soundness of the arguments. 

**ELA.12.R.3.1:** Evaluate an author’s use of figurative language. **Clarifications:**

**Clarifications:**

- **Clarification 1:** Students will evaluate the appropriateness of appeals and the effectiveness of devices. In this grade level, students are using and responsible for all four appeals; kairos was added in 11th grade. This differs from the 11th grade benchmark in that it is comparing the effectiveness of multiple texts.

- **Clarification 2:** Rhetorical devices for the purposes of this benchmark are the figurative language devices from 11.R.3.1 with the addition of irony, rhetorical question, antithesis, zeugma, metonymy, synecdoche, asyndeton, and chiasmus.

- **Clarification 3:** See Secondary Figurative Language.

- **Clarification 4:** See Rhetorical Appeals and Rhetorical Devices.

### ELA.12.V.1.1: Integrate academic vocabulary appropriate to grade level in speaking and writing.

**Clarifications:**

- **Clarification 1:** To integrate vocabulary, students will apply the vocabulary they have learned to authentic speaking and writing tasks independently. This use should be intentional, beyond responding to a prompt to use a word in a sentence.

### ELA.12.V.1.2: Apply knowledge of etymology, derivations, and commonly used foreign phrases to determine meanings of words and phrases in grade-level content.

**Clarifications:**

- **Clarification 1:** Etymology refers to the study of word origins and the ways that words have changed over time.

### ELA.12.V.1.3: Apply knowledge of context clues, figurative language, word relationships, reference materials, and/or background knowledge to determine the connotative and denotative meaning of words and phrases, appropriate to grade level.

**Clarifications:**

- **Clarification 1:** Review of words learned in this way is critical to building background knowledge and related vocabulary.

- **Clarification 2:** See Context Clues and Word Relationships.

### ELA.K12.EE.1.1: Cite evidence to explain and justify reasoning.

**Clarifications:**

- **K-1 Students** include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.

- **2-3 Students** include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.

- **4-5 Students** continue with previous skills and reference comments made by speakers and peers. Students cite texts that they’ve directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.

- **6-8 Students** continue with previous skills and use a style guide to create a proper citation.
9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.

### General Course Information and Notes

#### VERSION DESCRIPTION

This course defines what students should understand and be able to do by the end of the grade level. Knowledge acquisition should be the primary purpose of any reading approach. The systematic building of a wide range of knowledge across domains is a prerequisite to higher literacy. At this grade level, students are building their facility with rhetoric, the craft of using language in writing and speaking, using classic literature, essays, and speeches as mentor texts.

#### GENERAL NOTES

English Language Arts is not a discrete set of skills, but a rich discipline with meaningful, significant content, the knowledge of which helps all students actively and fully participate in our society.

Standards should not stand alone as a separate focus for instruction, but should be combined purposefully.

The texts students read should be meaningful and thought-provoking, preparing them to be informed, civic-minded members of their community.

Curricular content for all subjects must integrate critical-thinking, problem-solving, and workforce-literacy skills; communication, reading, and writing skills; mathematics skills; collaboration skills; contextual and applied-learning skills; technology-literacy skills; information and media-literacy skills; and civic-engagement skills.

**Honors and Advanced Level Course Note:** Advanced courses require a greater demand on students through increased academic rigor. Academic rigor is obtained through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted. Students are challenged to think and collaborate critically on the content they are learning. Honors level rigor will be achieved by increasing text complexity through text selection, focus on high-level qualitative measures, and complexity of task. Instruction will be structured to give students a

### Standard Relation to Course: Supporting

**ELA.K12.EE.2.1:** Read and comprehend grade-level complex texts proficiently.

**Clarifications:**

See Text Complexity for grade-level complexity bands and a text complexity rubric.

**ELA.K12.EE.3.1:** Make inferences to support comprehension.

**Clarifications:**

Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like “Why is the girl smiling?” or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.

**ELA.K12.EE.4.1:** Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.

**Clarifications:**

In kindergarten, students learn to listen to one another respectfully.

In grades 1-2, students build upon these skills by justifying what they are thinking. For example: “I think _______ because _______.” The collaborative conversations are becoming academic conversations.

In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.

**ELA.K12.EE.5.1:** Use the accepted rules governing a specific format to create quality work.

**Clarifications:**

Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.

**ELA.K12.EE.6.1:** Use appropriate voice and tone when speaking or writing.

**Clarifications:**

In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.

**ELD.K12.ELL.LA.1:** English language learners communicate information, ideas and concepts necessary for academic success in the content area of Language Arts.

**ELD.K12.ELL.SI.1:** English language learners communicate for social and instructional purposes within the school setting.

**Standard Relation to Course: Supporting**

**SS.912.H.2.2:** Classify styles, forms, types, and genres within art forms.

**Clarifications:**

Examples are Gothic and Romanesque columns, modern and ethnic dance, epic poetry and Shakespearean plays, ballads and nationalistic music, surrealism and cubism.

**Standard Relation to Course: Supporting**
deeper understanding of conceptual themes and organization within and across disciplines. Academic rigor is more than simply assigning to students a greater quantity of work.

**English Language Development ELD Standards Special Notes Section:**

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. | LAFS.1112.SL.1.2 | Introduce precise, knowledgeable claim(s), establish the significance of the claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that logically sequences claim(s), counterclaims, reasons,
LAFS.1112.W.1.1: Develop claim(s) and counterclaims fairly and thoroughly, supplying the most relevant evidence for each while pointing out the strengths and limitations of both in a manner that anticipates the audience's knowledge level, concerns, values, and possible biases. Use words, phrases, and clauses as well as varied syntax to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing. Provide a concluding statement or section that follows from and supports the argument presented. Write informative/explanatory texts to examine and convey complex ideas, concepts, and information clearly and accurately through the effective selection, organization, and analysis of content. Introduce a topic; organize complex ideas, concepts, and information so that each new element builds on that which precedes it to create a unified whole; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension. Develop the topic thoroughly by selecting the most significant and relevant facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic. Use appropriate and varied transitions and syntax to link the major sections of the text, create cohesion, and clarify the relationships among complex ideas and concepts. Use precise language, domain-specific vocabulary, and techniques such as metaphor, simile, and analogy to manage the complexity of the topic. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing. Provide a concluding statement or section that follows from and supports the information or explanation presented (e.g., articulating implications or the significance of the topic). Write narratives to develop real or imagined experiences or events using effective technique, well-chosen details, and well-structured event sequences. Engage and orient the reader by setting out a problem, situation, or observation and its significance, establishing one or multiple point(s) of view, and introducing a narrator and/or characters; create a smooth progression of experiences or events. Use narrative techniques, such as dialogue, pacing, description, reflection, and multiple plot lines, to develop experiences, events, and/or characters. Use a variety of techniques to sequence events so that they build on one another to create a coherent whole and build toward a particular tone and outcome (e.g., a sense of mystery, suspense, growth, or resolution). Use precise words and phrases, telling details, and sensory language to convey a vivid picture of the experiences, events, setting, and/or characters. Provide a conclusion that follows from and reflects on what is experienced, observed, or resolved over the course of the narrative. Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience. (Grade-specific expectations for writing types are defined in standards 1–3 above.) Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience. Use technology, including the Internet, to produce, publish, and update individual or shared writing products in response to ongoing feedback, including new arguments or information. Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation. Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the strengths and limitations of each source in terms of the task, purpose, and audience; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and overrelevance on any one source and following a standard format for citation. Draw evidence from literary or informational texts to support analysis, reflection, and research. Apply grades 11–12 Reading standards to literature (e.g., "Demonstrate knowledge of eighteenth-, nineteenth- and early-twentieth-century foundational works of American literature, including how two or more texts from the same period treat similar themes or topics"). Apply grades 11–12 Reading standards to literary nonfiction (e.g., "Delineate and evaluate the reasoning in seminal U.S. texts, including the application of constitutional principles and use of legal reasoning [e.g., in U.S. Supreme Court Case majority opinions and dissents] and the premises, purposes, and arguments in works of public advocacy [e.g., The Federalist, presidential addresses]"). Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of tasks, purposes, and audiences. English language learners communicate information, ideas and concepts necessary for academic success in the content area of Language Arts. English language learners communicate for social and instructional purposes within the school setting.

2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

**English Language Development ELD Standards Special Notes Section:**

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills.   Clarification 1: At this grade level, the emphasis is on the content, but students are still expected to follow earlier expectations: appropriate volume, pronunciation, and pacing. This benchmark introduces rhetorical devices to the benchmark, building on what students have learned in R.3.2 and giving them a chance to apply it.  
  Clarification 2: For further guidance, see the Secondary Oral Communication Rubric. **Standard Relation to Course:** Major |

  Clarification 1: Key elements of a literary text are setting, plot, characterization, conflict, point of view, theme, and tone.  
  Clarification 2: For layers of meaning, any methodology or model may be used as long as students understand that text may have multiple layers and that authors use techniques to achieve those layers. A very workable model for looking at layers of meaning is that of I. A. Richards:  
  - Layer 1) the literal level, what the words actually mean  
  - Layer 2) mood, those feelings that are evoked in the reader  
  - Layer 3) tone, the author’s attitude |
Layer 4) author's purpose (interpretation of author's purpose as it is often inferred)

Clarification 3: Style is the way in which the writer uses techniques for effect. It is distinct from meaning but can be used to make the author's message more effective. The components of style are diction, syntax, grammar, and use of figurative language. Style helps to create the author's voice.

### GENERAL NOTES

**English Language Development ELD Standards Special Notes Section:**

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by students actively and fully participate in our society. **ELA.11.R.3.4:**
Evaluate an author's use of rhetoric in text.

**Clarifications:**
1. Students will evaluate the appropriateness of appeals and the effectiveness of devices. In this grade level, students are using and responsible for all four appeals; kairos is added at this grade level.
2. Rhetorical devices for the purposes of this benchmark are the figurative language devices from 11.R.3.1 with the addition of irony, rhetorical question, antithesis, zeugma, metonymy, synecdoche, asyndeton, and chiasmus.
4. See Rhetorical Appeals and Rhetorical Devices.

**Standard Relation to Course: Major**
Integrate academic vocabulary appropriate to grade level in speaking and writing.

**Clarifications:**
1. To integrate vocabulary, students will apply the vocabulary they have learned to authentic speaking and writing tasks independently. This use should be intentional, beyond responding to a prompt to use a word in a sentence.
2. Academic vocabulary appropriate to grade level refers to words that are likely to appear across subject areas for the current grade level and beyond, vital to comprehension, critical for academic discussions and writing, and usually require explicit instruction.

2. Derivation refers to making new words from an existing word by adding affixes.

**Standard Relation to Course: Major**
Apply knowledge of context clues, figurative language, word relationships, reference materials, and/or background knowledge to determine the connotative and denotative meaning of words and phrases, appropriate to grade level.

**Clarifications:**
1. Review of words learned in this way is critical to building background knowledge and related vocabulary.
2. See Context Clues and Word Relationships.

**Standard Relation to Course: Major**
Cite evidence to explain and justify reasoning.

**Clarifications:**
1. K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.
2. 2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.
3. 4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they’ve directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.
4. 6-8 Students continue with previous skills and use a style guide to create a proper citation.

**General Course Information and Notes**

**VERSION DESCRIPTION**

English Language Arts is not a discrete set of skills, but a rich discipline with meaningful, significant content, the knowledge of which helps all students actively and fully participate in our society. Standards should not stand alone as a separate focus for instruction, but should be combined purposefully.

The purpose of this course is to develop initial college and career readiness communication skills within the context of a career and technical work environment, including community collaboration and leadership.

The content should include, but not be limited to, the following:

- using problem solving skills and research skills primarily in career and technical profession contexts
- reading on-grade level informational and technical texts to obtain and analyze information and synthesize into evidence supporting the text
- writing informational and argument texts to communicate information and ideas with an emphasis on career, technical, and occupational tasks
- using listening and speaking skills to obtain and communicate information and ideas regarding career and technical workforce collaboration and success
- understanding interpersonal relationships in business, career, and technical environments through the study of appropriate on grade-level fiction, non-fiction, and related primary documents
- using highly complex digital and multimedia informational text, along with appropriate electronic tools to enable and enhance workplace transactions
• using listening, speaking, and viewing strategies with emphasis on the use of evidence to support or refute a claim in multimedia presentations, class discussions, and extended text discussions
• collaborating amongst peers

GENERAL NOTES

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. **GENERAL NOTES**

**Special Notes:**

**Instructional Practices:** Teaching from well-written, grade-level instructional materials enhances students’ content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any purpose. Using the following instructional practices also helps student learning.

1. Reading assignments from longer text passages, as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

**English Language Development ELD Standards Special Notes Section:**

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. | **ELA.12.C.2.1:** | Present information orally, with a logical organization, coherent focus, and credible evidence while employing effective rhetorical devices where appropriate. **Clarifications:**  
  **Clarification 1:** At this grade level, the emphasis is on the content, but students are still expected to follow earlier expectations: appropriate volume, pronunciation, and pacing. Students will be using rhetorical devices as introduced in the 11th grade benchmark. Added to this grade level is a responsiveness to the needs of the audience and adapting to audience response. Students will read the nonverbal cues of the audience to do this. Students first learned nonverbal cues in elementary for this benchmark.  
  **Clarification 2:** For further guidance, see the Secondary Oral Communication Rubric. |
| **ELA.12.C.3.1:** | Follow the rules of standard English grammar, punctuation, capitalization, and spelling appropriate to grade level. **Clarifications:**  
  **Clarification 1:** See Convention Progression by Grade Level for more information. |
| **ELA.12.C.4.1:** | Conduct research on a topical issue to answer a question and synthesize information from a variety of sources. **Clarifications:**  
  **Clarification 1:** While the benchmark does require that students consult multiple sources, there is no requirement that they use every source they consult. Part of the skill in researching is discernment—being able to tell which information is relevant and which sources are trustworthy enough to include. |
| **ELA.12.C.5.1:** | Design and evaluate digital presentations for effectiveness. **Clarifications:**  
  **Clarification 1:** The presentation may be delivered live or delivered as a stand-alone digital experience. |
| **ELA.12.C.5.2:** | Create, publish, and share multimedia texts through a variety of digital formats. |
| **ELA.12.R.1.1:** | Evaluate how key elements enhance or add layers of meaning and/or style in a literary text and explain the functional significance of those elements in interpreting the text. **Clarifications:**  
  **Clarification 1:** Key elements of a literary text are setting, plot, characterization, conflict, point of view, theme, and tone.  
  **Clarification 2:** For layers of meaning, any methodology or model may be used as long as students understand that text may have multiple layers and that authors use techniques to achieve those layers. A very workable model for looking at layers of meaning is that of I.A. Richards:  
  Layer 1) the literal level, what the words actually mean  
  Layer 2) mood, those feelings that are evoked in the reader  
  Layer 3) tone, the author’s attitude  
  Layer 4) author’s purpose (interpretation of author’s purpose as it is often inferred)  
  **Clarification 3:** Style is the way in which the writer uses techniques for effect. It is distinct from meaning, but can be used to make the author’s message more effective. The components of style are diction, syntax, grammar, and use of figurative language. Style helps to create the author’s voice.  
  **Clarification 4:** Functional significance refers to the role each element plays in creating meaning or effect for the reader. |

Analyze two or more themes and evaluate their development throughout a literary text.
Clarifications:

**Clarification 1:** For the purposes of this benchmark, theme is not a one- or two-word topic, but a complete thought that communicates the author’s message.

| ELA.12.C.1.2: | Write complex narratives using appropriate techniques to establish multiple perspectives and convey universal themes.  
**Clarifications:**  
*Clarification 1:* See Writing Types and Narrative Techniques. |
| ELA.12.C.1.3: | Write arguments to support claims based on an in-depth analysis of topics or texts using valid reasoning and credible evidence from sources, elaboration, and demonstrating a thorough understanding of the subject.  
**Clarifications:**  
*Clarification 1:* See Writing Types and Elaborative Techniques.  
*Clarification 2:* These written works will take longer and are meant to reflect thorough research and analysis. |
| ELA.12.C.1.4: | Write an in-depth analysis of complex texts using logical organization and appropriate tone and voice, demonstrating a thorough understanding of the subject.  
**Clarifications:**  
*Clarification 1:* See Writing Types. |
| ELA.12.C.1.5: | Improve writing by considering feedback from adults, peers, and/or online editing tools, revising to enhance purpose, clarity, structure, and style. |
| ELA.12.C.2.1: | Present information orally, with a logical organization, coherent focus, and credible evidence while employing effective rhetorical devices where appropriate.  
**Clarifications:**  
*Clarification 1:* At this grade level, the emphasis is on the content, but students are still expected to follow earlier expectations: appropriate volume, pronunciation, and pacing. Students will be using rhetorical devices as introduced in the 11th grade benchmark. Added to this grade level is a responsiveness to the needs of the audience and adapting to audience response. Students will read the nonverbal cues of the audience to do this. Students first learned nonverbal cues in elementary for this benchmark.  
*Clarification 2:* For further guidance, see the Secondary Oral Communication Rubric. |
| ELA.12.C.3.1: | Follow the rules of standard English grammar, punctuation, capitalization, and spelling appropriate to grade level.  
**Clarifications:**  
*Clarification 1:* See Convention Progression by Grade Level for more information. |
| ELA.12.C.4.1: | Conduct research on a topical issue to answer a question and synthesize information from a variety of sources.  
**Clarifications:**  
*Clarification 1:* While the benchmark does require that students consult multiple sources, there is no requirement that they use every source they consult. Part of the skill in researching is discernment—being able to tell which information is relevant and which sources are trustworthy enough to include. |
| ELA.12.C.5.1: | Design and evaluate digital presentations for effectiveness.  
**Clarifications:**  
*Clarification 1:* The presentation may be delivered live or delivered as a stand-alone digital experience. |
| ELA.12.C.5.2: | Create, publish, and share multimedia texts through a variety of digital formats. |
| ELA.12.R.1.1: | Evaluate how key elements enhance or add layers of meaning and/or style in a literary text and explain the functional significance of those elements in interpreting the text.  
**Clarifications:**  
*Clarification 1:* Key elements of a literary text are setting, plot, characterization, conflict, point of view, theme, and tone.  
*Clarification 2:* For layers of meaning, any methodology or model may be used as long as students understand that text may have multiple layers and that authors use techniques to achieve those layers. A very workable model for looking at layers of meaning is that of I.A. Richards:  
Layer 1) the literal level, what the words actually mean  
Layer 2) mood, those feelings that are evoked in the reader  
Layer 3) tone, the author’s attitude  
Layer 4) author’s purpose (interpretation of author’s purpose as it is often inferred)  
*Clarification 3:* Style is the way in which the writer uses techniques for effect. It is distinct from meaning, but can be used to make the author’s message more effective. The components of style are diction, syntax, grammar, and use of figurative language. Style helps to create the author’s voice.  
*Clarification 4:* Functional significance refers to the role each element plays in creating meaning or effect for the reader.  
**Clarification 2:* Analyze two or more themes and evaluate their development throughout a literary text. |
### ELA.12.R.1.2: Clarifications:

*Clarification 1:* For the purposes of this benchmark, theme is not a one- or two-word topic, but a complete thought that communicates the author’s message.

*Clarification 3:* For more information, see Literary Periods.

### ELA.12.R.2.1: Clarifications:

| **LAFS.1112.W.1.1:** | a. Introduce precise, knowledgeable claim(s), establish the significance of the claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that logically sequences claim(s), counterclaims, reasons, and evidence. |
| **LAFS.1112.W.1.1:** | b. Develop claim(s) and counterclaims fairly and thoroughly, supplying the most relevant evidence for each while pointing out the strengths and limitations of both in a manner that anticipates the audience’s knowledge level, concerns, values, and possible biases. |

| **LAFS.1112.W.2.4:** | Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience. (Grade-specific expectations for writing types are defined in standards 1–3 above.) |
Students are challenged to think and collaborate critically on the content they are learning. Honors level rigor will be achieved by increasing text complexity through text selection, focus on high-level qualitative measures, and complexity of task. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across disciplines. Academic rigor is more than simply assigning to students a greater quantity of work.

Academic rigor is obtained through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted.

Honors and Advanced Level Course Note: Advanced courses require a greater demand on students through increased academic rigor. GENERAL NOTES

The content should include, but not be limited to, the following:

- using problem solving skills and research skills
- reading on-grade level informational and technical texts of high complexity to obtain and analyze information and synthesize into evidence supporting the text
- reading on-grade level literary text to obtain information and integrate knowledge of selected texts in listed standards
- writing informational and argument texts to communicate information and ideas
- using listening and speaking skills to obtain and communicate information and ideas
- using highly complex digital and multimedia informational text, along with appropriate electronic tool
- using listening, speaking, and viewing strategies with emphasis on the use of evidence to support or refute a claim in multimedia presentations, class discussions, and extended text discussions
- collaborating amongst peers

Special Notes:

Instructional Practices: Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any purpose. Using the following instructional practices also helps student learning.

1. Reading assignments from longer text passages, as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or
produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. | ELA.12.C.1.3: | Write arguments to support claims based on an in-depth analysis of topics or texts using valid reasoning and credible evidence from sources, elaboration, and demonstrating a thorough understanding of the subject.  
**Clarifications:**  
*Clarification 1:* See Writing Types and Elaborative Techniques.  
*Clarification 2:* These written works will take longer and are meant to reflect thorough research and analysis.  
Standard Relation to Course: Major                                                                 |
| ELA.12.C.1.4: | Write an in-depth analysis of complex texts using logical organization and appropriate tone and voice, demonstrating a thorough understanding of the subject.  
**Clarifications:**  
*Clarification 1:* See Writing Types.  
Standard Relation to Course: Major                                                                 |
| ELA.12.C.1.5: | Improve writing by considering feedback from adults, peers, and/or online editing tools, revising to enhance purpose, clarity, structure, and style.  
Standard Relation to Course: Major                                                                 |
| ELA.12.C.2.1: | Present information orally, with a logical organization, coherent focus, and credible evidence while employing effective rhetorical devices where appropriate.  
**Clarifications:**  
*Clarification 1:* At this grade level, the emphasis is on the content, but students are still expected to follow earlier expectations: appropriate volume, pronunciation, and pacing. Students will be using rhetorical devices as introduced in the 11th grade benchmark. Added to this grade level is a responsiveness to the needs of the audience and adapting to audience response. Students will read the nonverbal cues of the audience to do this. Students first learned nonverbal cues in elementary for this benchmark.  
*Clarification 2:* For further guidance, see the Secondary Oral Communication Rubric.  
Standard Relation to Course: Major                                                                 |
| ELA.12.C.3.1: | Follow the rules of standard English grammar, punctuation, capitalization, and spelling appropriate to grade level.  
**Clarifications:**  
*Clarification 1:* See Convention Progression by Grade Level for more information.  
Standard Relation to Course: Major                                                                 |
| ELA.12.C.4.1: | Conduct research on a topical issue to answer a question and synthesize information from a variety of sources.  
**Clarifications:**  
*Clarification 1:* While the benchmark does require that students consult multiple sources, there is no requirement that they use every source they consult. Part of the skill in researching is discernment—being able to tell which information is relevant and which sources are trustworthy enough to include.  
Standard Relation to Course: Major                                                                 |

**Clarifications:**  
*Clarification 1:* The presentation may be delivered live or delivered as a stand-alone digital experience.  
Standard Relation to Course: Major                                                                 |
| ELA.12.C.5.2: | Create, publish, and share multimedia texts through a variety of digital formats.  
Standard Relation to Course: Major                                                                 |

*Clarification 2:* Students will evaluate the use of the following features: table of contents, headings, captions, photographs, graphs, charts, illustrations, glossary, footnotes, annotations, and appendix.  
Standard Relation to Course: Major                                                                 |
| ELA.12.R.2.2: | Evaluate how an author develops the central idea(s), identifying how the author could make the support more effective.  
Standard Relation to Course: Major                                                                 |
| ELA.12.R.2.3: | Evaluate an author's choices in establishing and achieving purpose(s).  
Standard Relation to Course: Major                                                                 |

**Clarifications:**
Clarification 1: For more information on types of reasoning, see Types of Logical Reasoning.

Clarification 2: See Rhetorical Appeals and Rhetorical Devices.

Clarification 3: Validity refers to the soundness of the arguments.

Standard Relation to Course: Major

Evaluate an author's use of figurative language.

**Clarifications:**

- **Clarification 1:** Figurative language use that students will evaluate are metaphor, simile, alliteration, onomatopoeia, personification, hyperbole, meiosis (understatement), allusion, and idiom. Other examples can be used in instruction.

- **Clarification 2:** See Secondary Figurative Language.

Standard Relation to Course: Major

Paraphrase content from grade-level texts.

**Clarifications:**

- **Clarification 1:** Most grade-level texts are appropriate for this benchmark.

Standard Relation to Course: Major

Evaluate rhetorical choices across multiple texts.

**Clarifications:**

- **Clarification 1:** Students will evaluate the appropriateness of appeals and the effectiveness of devices. In this grade level, students are using and responsible for all four appeals; kairos was added in 11th grade. This differs from the 11th grade benchmark in that it is comparing the effectiveness of multiple texts.

- **Clarification 2:** Rhetorical devices for the purposes of this benchmark are the figurative language devices from 11.R.3.1 with the addition of irony, rhetorical question, antithesis, zeugma, metonymy, synecdoche, asyndeton, and chiasmus.

- **Clarification 3:** See Secondary Figurative Language.

- **Clarification 4:** See Rhetorical Appeals and Rhetorical Devices.

Standard Relation to Course: Major

Integrate academic vocabulary appropriate to grade level in speaking and writing.

**Clarifications:**

- **Clarification 1:** To integrate vocabulary, students will apply the vocabulary they have learned to authentic speaking and writing tasks independently. This use should be intentional, beyond responding to a prompt to use a word in a sentence.

- **Clarification 2:** Academic vocabulary appropriate to grade level refers to words that are likely to appear across subject areas for the current grade level and beyond, vital to comprehension, critical for academic discussions and writing, and usually require explicit instruction.

Standard Relation to Course: Major

Apply knowledge of etymology, derivations, and commonly used foreign phrases to determine meanings of words and phrases in grade-level content.

**Clarifications:**

- **Clarification 1:** Etymology refers to the study of word origins and the ways that words have changed over time.

- **Clarification 2:** Derivation refers to making new words from an existing word by adding affixes.

- **Clarification 3:** See Foreign Words and Phrases for a list of commonly used foreign phrases.

Standard Relation to Course: Major

Apply knowledge of context clues, figurative language, word relationships, reference materials, and/or background knowledge to determine the connotative and denotative meaning of words and phrases, appropriate to grade level.

**Clarifications:**

- **Clarification 1:** Review of words learned in this way is critical to building background knowledge and related vocabulary.

- **Clarification 2:** See Context Clues and Word Relationships.

- **Clarification 3:** See ELA.12.R.3.1 and Secondary Figurative Language.

Standard Relation to Course: Major

Cite evidence to explain and justify reasoning.

**Clarifications:**

- **K-1 Students** include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.

- **2-3 Students** include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.

- **4-5 Students** continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.
6-8 Students continue with previous skills and use a style guide to create a proper citation.

9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.

Standard Relation to Course: Supporting

**ELA.K12.EE.2.1:** Read and comprehend grade-level complex texts proficiently.

**Clarifications:** 
See Text Complexity for grade-level complexity bands and a text complexity rubric.

Standard Relation to Course: Supporting

**ELA.K12.EE.3.1:** Make inferences to support comprehension.

**Clarifications:** 
Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like “Why is the girl smiling?” or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.

Standard Relation to Course: Supporting

**ELA.K12.EE.4.1:** Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.

**Clarifications:** 
In kindergarten, students learn to listen to one another respectfully.

In grades 1-2, students build upon these skills by justifying what they are thinking. For example: “I think _______ because ________.” The collaborative conversations are becoming academic conversations.

In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.

Standard Relation to Course: Supporting

**ELA.K12.EE.5.1:** Use the accepted rules governing a specific format to create quality work.

**Clarifications:** 
Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.

Standard Relation to Course: Supporting

**ELA.K12.EE.6.1:** Use appropriate voice and tone when speaking or writing.

**Clarifications:** 
In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.

Standard Relation to Course: Supporting

**ELD.K12.ELL.LA.1:** English language learners communicate information, ideas and concepts necessary for academic success in the content area of Language Arts.

Standard Relation to Course: Supporting

**ELD.K12.ELL.SI.1:** English language learners communicate for social and instructional purposes within the school setting.

**General Course Information and Notes**

**VERSION DESCRIPTION**

The purpose of this course is to enable students to highly refine communication and critical-thinking skills important for success in college and career readiness.

**GENERAL NOTES**

English Language Arts is not a discrete set of skills, but a rich discipline with meaningful, significant content, the knowledge of which helps all students actively and fully participate in our society. Standards should not stand alone as a separate focus for instruction, but should be combined purposefully.

The content should include, but not be limited to, the following:

- using problem solving skills and research skills
- reading advanced level informational and technical texts of high complexity to obtain and analyze information and synthesize into evidence supporting the text
- reading advanced level literary text to obtain information and integrate knowledge of selected texts in listed standards
- writing informational and argument texts to communicate information and ideas
- using listening and speaking skills to obtain and communicate information and ideas
- using highly complex digital and multimedia informational text, along with appropriate electronic tool
- using listening, speaking, and viewing strategies with emphasis on the use of evidence to support or refute a claim in multimedia presentations, class discussions, and extended text discussions
- collaborating amongst peers

**Honors and Advanced Level Course Note:** Advanced courses require a greater demand on students through increased academic rigor.
Academic rigor is obtained through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted. Students are challenged to think and collaborate critically on the content they are learning. Honors level rigor will be achieved by increasing text complexity through text selection, focus on high-level qualitative measures, and complexity of task. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across disciplines. Academic rigor is more than simply assigning to students a greater quantity of work.

General Course Information and Notes

VERSION DESCRIPTION

The purpose of this Pre-IB course is to prepare students for the International Baccalaureate Diploma Programme (DP). As such, this course will provide academic rigor and relevance through a comprehensive curriculum based on the standards taught with reference to the unique facets of the IB. These facets include interrelatedness of subject areas, a holistic view of knowledge, intercultural awareness, embracing international issues, and communication as fundamental to learning. Instructional design must provide students with values and opportunities that enable them to develop respect for others and an appreciation of similarities and differences. Learning how to learn and how to critically evaluate information is as important as the content of the disciplines themselves.

GENERAL NOTES

The content should include, but not be limited to, the following:

- active reading of highly advanced, varied texts for what they say explicitly, as well as the logical inferences that can be drawn
- analysis of literature and informational texts from varied literary periods to examine:
  - text craft and structure
  - elements of literature
  - arguments and claims supported by textual evidence
  - power and impact of language
  - influence of history, culture, and setting on language
  - personal critical and aesthetic response
- advanced writing for varied purposes
  - developing and supporting argumentative claims
  - crafting coherent, supported informative/expository texts
  - responding to literature for personal and analytical purposes
  - writing narratives to develop real or imagined events
  - writing to sources using text-based evidence and reasoning
- astute listening, speaking, and viewing strategies with emphasis on the use of evidence to support or refute a claim in multimedia presentations, class discussions, and extended text discussions
- extensive collaboration amongst peers

Special Notes:

Special Note. Pre-IB courses have been created by individual schools or school districts since before the MYP started. These courses mapped backwards the Diploma Programme (DP) to prepare students as early as age 14. The IB was never involved in creating or approving these courses. The IB acknowledges that it is important for students to receive preparation for taking part in the DP, and that preparation is the MYP. The IB designed the MYP to address the whole child, which, as a result, has a very different philosophical approach that aims at educating all students aged 11-16. Pre-IB courses usually deal with content, with less emphasis upon the needs of the whole child or the affective domain than the MYP. A school can have a course that it calls "pre-IB" as long as it makes it clear that the course and any supporting material have been developed independently of the IB. For this reason, the school must name the course along the lines of, for example, the "Any School pre-IB course".

The IB does not recognize pre-IB courses or courses labeled IB by different school districts which are not an official part of the IBDP or IBCC curriculum. Typically, students enrolled in grade 9 or 10 are not in the IBDP or IBCC programmes: https://ibanswers.ibo.org/app/answers/detail/a_id/5414/kw/pre-ib. Florida’s Pre-IB courses should only be used in schools where MYP is not offered in order to prepare students to enter the IBDP. Teachers of Florida’s Pre-IB courses should have undergone IB training in order to ensure seamless articulation for students within the subject area.

Honors and Advanced Level Course Note: Advanced courses require a greater demand on students through increased academic rigor. Academic rigor is obtained through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted. Students are challenged to think and collaborate critically on the content they are learning. Honors level rigor will be achieved by increasing text complexity through text selection, focus on high-level qualitative measures, and complexity of task. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across disciplines. Academic rigor is more than simply assigning to students a greater quantity of work.

Instructional Practices: Teaching from well-written, grade-level instructional materials enhances students’ content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any purpose. Using the following instructional practices also helps student learning.

1. Reading assignments from longer text passages, as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by
curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

**Clarifications:**  
*Clarification 1:* See Writing Types and Narrative Techniques. |
| ELA.9.C.1.3: | Write to argue a position, supporting claims using logical reasoning and credible evidence from multiple sources, rebutting counterclaims with relevant evidence, using a logical organizational structure, elaboration, purposeful transitions, and a tone appropriate to the task.  
**Clarifications:**  
*Clarification 1:* See Writing Types and Elaborative Techniques. |
| ELA.9.C.1.4: | Write expository texts to explain and analyze information from multiple sources, using a logical organization, varied purposeful transitions, and a tone appropriate to the task.  
**Clarifications:**

| ELA.9.C.2.1: | Present information orally, with a logical organization and coherent focus, with credible evidence, creating a clear perspective.  
**Clarifications:**  
*Clarification 1:* At this grade level, the emphasis is on the content, but students are still expected to follow earlier expectations: volume, pronunciation, and pacing. A clear perspective is the through-line that unites the elements of the presentation.  
*Clarification 2:* For further guidance, see the Secondary Oral Communication Rubric. |
| ELA.9.C.3.1: | Follow the rules of standard English grammar, punctuation, capitalization, and spelling appropriate to grade level.  
**Clarifications:**  
*Clarification 1:* Skills to be implemented but not yet mastered are as follows:  
- Add variety to writing or presentations by using parallel structure and various types of phrases and clauses.  
- Use knowledge of usage rules to create flow in writing and presenting.  
*Clarification 2:* See Convention Progression by Grade Level. |
| ELA.9.C.4.1: | Conduct research to answer a question, drawing on multiple reliable and valid sources, and refining the scope of the question to align with findings.  
**Clarifications:**  
*Clarification 1:* There is no requirement that students research the additional questions generated. |
| ELA.9.C.5.1: | Create digital presentations with coherent ideas and a clear perspective.  
**Clarifications:**  
*Clarification 1:* The presentation may be delivered live or delivered as a stand-alone digital experience. |
| ELA.9.C.5.2: | Use online collaborative platforms to create and export publication-ready quality writing tailored to a specific audience. |
| ELA.9.R.1.1: | Explain how key elements enhance or add layers of meaning and/or style in a literary text.  
**Clarifications:**  
*Clarification 1:* Key elements of a literary text are setting, plot, characterization, conflict, point of view, theme, and tone.  
*Clarification 2:* For layers of meaning, any methodology or model may be used as long as students understand that text may have multiple layers and that authors use techniques to achieve those layers. A very workable model for looking at layers of meaning is that of I.A. Richards: Layer 1) the literal level, what the words actually mean Layer 2) mood, those feelings that are evoked in the reader Layer 3) tone, the author’s attitude Layer 4) author’s purpose (interpretation of author’s purpose as it is often inferred)  
*Clarification 3:* Style is the way in which the writer uses techniques for effect. It is distinct from meaning but can be used to make the author’s message more effective. The components of style are diction, syntax, grammar, and use of figurative language. Style helps to create the author’s voice. |

**General Course Information and Notes**

**VERSION DESCRIPTION**

This course defines what students should understand and be able to do by the end of 9th grade. Knowledge acquisition should be the primary purpose of any reading approach as the systematic building of a wide range of knowledge across domains is a prerequisite to higher literacy. At this grade level, students are working with universal themes and archetypes. They are also continuing to build their facility with rhetoric, the craft of using language in writing and speaking, using classic literature, essays, and speeches as mentor texts.
The benchmarks in this course are mastery goals that students are expected to attain by the end of the year. To build mastery, students will continue to review and apply earlier grade-level benchmarks and expectations.

**GENERAL NOTES**

English Language Arts is not a discrete set of skills, but a rich discipline with meaningful, significant content, the knowledge of which helps all students actively and fully participate in our society.

Standards should not stand alone as a separate focus for instruction, but should be combined purposefully.

The texts students read should be meaningful and thought-provoking, preparing them to be informed, civic-minded members of their community.

Curricular content for all subjects must integrate critical-thinking, problem-solving, and workforce-literacy skills; communication, reading, and writing skills; mathematics skills; collaboration skills; contextual and applied-learning skills; technology-literacy skills; information and media-literacy skills; and civic-engagement skills.

Special Note: Pre-IB courses have been created by individual schools or school districts since before the MYP started. These courses mapped backwards the Diploma Programme (DP) to prepare students as early as age 14. The IB was never involved in creating or approving these courses. The IB acknowledges that it is important for students to receive preparation for taking part in the DP, and that preparation is the MYP. The IB designed the MYP to address the whole child, which, as a result, has a very different philosophical approach that aims at educating all students aged 11-16. Pre-IB courses usually deal with content, with less emphasis upon the needs of the whole child or the affective domain than the MYP. A school can have a course that it calls "pre-IB" as long as it makes it clear that the course and any supporting material have been developed independently of the IB. For this reason, the school must name the course along the lines of, for example, the "Any School pre-IB course".

The IB does not recognize pre-IB courses or courses labeled IB by different school districts which are not an official part of the IBDP or IBCC curriculum. Typically, students enrolled in grade 9 or 10 are not in the IBDP or IBCC programmes.

**Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards**

This course includes Florida’s B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

**English Language Development ELD Standards Special Notes Section:**

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: https://cpalmsmediaprod.blob.core.windows.net/uploads/docs/standards/eld/la.pdf.

The purpose of this Pre-IB course is to prepare students for the International Baccalaureate Diploma Programme (DP). As such, this course will provide academic rigor and relevance through a comprehensive curriculum based on the standards taught with reference to the unique facets of the IB. These facets include interrelatedness of subject areas, a holistic view of knowledge, intercultural awareness, embracing international issues, and communication as fundamental to learning. Instructional design must provide students with values and opportunities that enable them to develop respect for others and an appreciation of similarities and differences. Learning how to learn and how to critically evaluate information is as important as the content of the disciplines themselves.

GENERAL NOTES

The content should include, but not be limited to, the following:

- active reading of highly advanced, varied texts for what they say explicitly, as well as the logical inferences that can be drawn
- analysis of literature and informational texts from varied literary periods to examine:
  - text craft and structure
  - elements of literature
  - arguments and claims supported by textual evidence
  - power and impact of language
  - influence of history, culture, and setting on language
  - personal critical and aesthetic response
- advanced writing for varied purposes
  - developing and supporting argumentative claims
  - crafting coherent, supported informative/expository texts
  - responding to literature for personal and analytical purposes
  - writing narratives to develop real or imagined events
  - astute listening, speaking, and viewing strategies with emphasis on the use of evidence to support or refute a claim in multimedia presentations, class discussions, and extended text discussions
- extensive collaboration amongst peers

Special Notes:

Special Note. Pre-IB courses have been created by individual schools or school districts since before the MYP started. These courses mapped backwards the Diploma Programme (DP) to prepare students as early as age 14. The IB was never involved in creating or approving these courses. The IB acknowledges that it is important for students to receive preparation for taking part in the DP, and that preparation is the MYP. The IB designed the MYP to address the whole child, which, as a result, has a very different philosophical approach that aims at educating all students aged 11-16. Pre-IB courses usually deal with content, with less emphasis upon the needs of the whole child or the affective domain than the MYP. A school can have a course that it calls "pre-IB" as long as it makes it clear that the course and any supporting material have been developed independently of the IB. For this reason, the school must name the course along the lines of, for example, the “Any School pre-IB course”.

The IB does not recognize pre-IB courses or courses labeled IB by different school districts which are not an official part of the IBDP or IBCC curriculum. Typically, students enrolled in grade 9 or 10 are not in the IBDP or IBCC programmes.

https://ibanswers.ibo.org/app/answers/detail/a_id/5414/kw/pre-ib. Florida’s Pre-IB courses should only be used in schools where MYP is not offered in order to prepare students to enter the IBDP. Teachers of Florida’s Pre-IB courses should have undergone IB training in order to ensure seamless articulation for students within the subject area.

Honors and Advanced Level Course Note: Advanced courses require a greater demand on students through increased academic rigor. Academic rigor is obtained through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted. Students are challenged to think and collaborate critically on the content they are learning. Honors level rigor will be achieved by increasing text complexity through text selection, focus on high-level qualitative measures, and complexity of task. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across disciplines. Academic rigor is more than simply assigning to students a greater quantity of work.

Instructional Practices: Teaching from well-written, grade-level instructional materials enhances students’ content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any purpose. Using the following instructional practices also helps student learning.

1. Reading assignments from longer text passages, as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

</tbody>
</table>
### ELA.10.R.1.1
1. **Layer 1** the literal level, what the words actually mean
2. **Layer 2** mood, those feelings that are evoked in the reader
3. **Layer 3** tone, the author’s attitude
4. **Layer 4** author’s purpose (interpretation of author’s purpose as it is often inferred).

**Clarification:** Style is the way in which the writer uses techniques for effect. It is distinct from meaning but can be used to make the author’s message more effective. The components of style are diction, syntax, grammar, and use of figurative language. Style helps to create the author’s voice.

**Clarification:**

1. **Clarification:** A universal theme is an idea that applies to anyone, anywhere, regardless of cultural differences. Examples include but are not limited to an individual’s or a community’s confrontation with nature; an individual’s struggle toward understanding, awareness, and/or spiritual enlightenment; the tension between the ideal and the real; the conflict between human beings and advancements in technology/science; the impact of the past on the present; the inevitability of fate; the struggle for equality; and the loss of innocence.

2. **Clarification:** Students will analyze the appropriateness of appeals and the effectiveness of devices. In this grade level, students are using and responsible for the appeals of logos, ethos, and pathos.

3. **Clarification:** Validity refers to the soundness of the arguments.

4. **Clarification:** Paraphrase content from grade-level texts.

5. **Clarification:** Most grade-level texts are appropriate for this benchmark.

6. **Clarification:** Analyze how mythical, classical, or religious texts have been adapted.

7. **Clarification:** The classical source texts for this benchmark should be from ancient Greece or Rome’s Classical period (1200 BCE–455 CE). Mythical texts for this benchmark can be from any civilization’s early history. Religious texts for this benchmark include works such as the Bible.

8. **Clarification:** Analyze an author’s use of rhetoric in a text.

9. **Clarification:** Students will analyze the appropriateness of appeals and the effectiveness of devices. In this grade level, students are using and responsible for the appeals of logos, ethos, and pathos.

10. **Clarification:** Rhetorical devices for the purposes of this benchmark are the figurative language devices from 10.R.3.1 with the addition of irony, rhetorical question, antithesis, zeugma, metonymy, synecdoche, and asyndeton.

11. **Clarification:** To integrate vocabulary, students will apply the vocabulary they have learned to authentic speaking and writing.
**ELA.10.V.1.1:**
Writing tasks independently. This use should be intentional, beyond responding to a prompt to use a word in a sentence.

*Clarification 2:* Academic vocabulary appropriate to grade level refers to words that are likely to appear across subject areas for the current grade level and beyond, vital to comprehension, critical for academic discussions and writing, and usually require explicit instruction.

### General Course Information and Notes

**VERSION DESCRIPTION**

The purpose of this Pre-IB course is to prepare students for the International Baccalaureate Diploma Programme (DP). As such, this course will provide academic rigor and relevance through a comprehensive curriculum based on the standards taught with reference to the unique facets of the IB. These facets include interrelatedness of subject areas, a holistic view of knowledge, intercultural awareness, embracing international issues, and communication as fundamental to learning. Instructional design must provide students with values and opportunities that enable them to develop respect for others and an appreciation of similarities and differences. Learning how to learn and how to critically evaluate information is as important as the content of the disciplines themselves.

**Special Notes:** Pre-IB courses have been created by individual schools or school districts since before the MYP started. These courses mapped backwards the Diploma Programme (DP) to prepare students as early as age 14. The IB was never involved in creating or approving these courses. The IB acknowledges that it is important for students to receive preparation for taking part in the DP, and that preparation is the MYP. The IB designed the MYP to address the whole child, which, as a result, has a very different philosophical approach that aims at educating all students aged 11-16. Pre-IB courses usually deal with content, with less emphasis upon the needs of the whole child or the affective domain than the MYP. A school can have a course that it calls “pre-IB” as long as it makes it clear that the course and any supporting material have been developed independently of the IB. For this reason, the school must name the course along the lines of, for example, the “Any School pre-IB course”.

The IB does not recognize pre-IB courses or courses labeled IB by different school districts which are not an official part of the IBDP or IBCC curriculum. Typically, students enrolled in grade 9 or 10 are not in the IBDP or IBCC programmes.
Florida’s Pre-IB courses should only be used in schools where MYP is not offered in order to prepare students to enter the IBDP. Teachers of Florida’s Pre-IB courses should have undergone IB training in order to ensure seamless articulation for students within the subject area.

GENERAL NOTES

This course defines what students should understand and be able to do by the end of 10th grade. Knowledge acquisition should be the primary purpose of any reading approach as the systematic building of a wide range of knowledge across domains is a prerequisite to higher literacy. At this grade level, students are working with universal themes and archetypes. They are also continuing to build their facility with rhetoric, the craft of using language in writing and speaking, using classic literature, essays, and speeches as mentor texts.

The benchmarks in this course are mastery goals that students are expected to attain by the end of the year. To build mastery, students will continue to review and apply earlier grade-level benchmarks and expectations.

English Language Arts is not a discrete set of skills, but a rich discipline with meaningful, significant content, the knowledge of which helps all students actively and fully participate in our society.

Standards should not stand alone as a separate focus for instruction, but should be combined purposefully.

The texts students read should be meaningful and thought-provoking, preparing them to be informed, civic-minded members of their community.

Curricular content for all subjects must integrate critical-thinking, problem-solving, and workforce-literacy skills; communication, reading, and writing skills; mathematics skills; collaboration skills; contextual and applied-learning skills; technology-literacy skills; information and media-literacy skills; and civic-engagement skills.

Approximately one-third of the titles from the 10th Grade Sample Book List should be used in instruction.

Honors and Advanced Level Course Note: Advanced courses require a greater demand on students through increased academic rigor. Academic rigor is obtained through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted. Students are challenged to think and collaborate critically on the content they are learning. Honors level rigor will be achieved by increasing text complexity through text selection, focus on high-level qualitative measures, and complexity of task. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across disciplines. Academic rigor is more than simply assigning to students a greater quantity of work.

Florida’s Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards

This course includes Florida’s B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

Course Standards

Reading Literature
These reading literature standards offer a focus for instruction each year and help ensure that students gain adequate exposure to a range of texts and tasks. Rigor is also infused through the requirement that students read increasingly complex texts through the grades. Students advancing through the grades are expected to meet each year's grade-specific standards and retain or further develop skills and understandings mastered in preceding grades.

Reading Informational Text
These reading informational text standards offer a focus for instruction each year and help ensure that students gain adequate exposure to a range of texts and tasks. Rigor is also infused through the requirement that students read increasingly complex texts through the grades.

Writing
Each year in their writing, students should demonstrate increasing sophistication in all aspects of language use, from vocabulary and syntax to the development and organization of ideas, and they should address increasingly demanding content and sources. Students advancing through the grades are expected to meet each succeeding year's grade-specific writing standards and retain or further develop skills and understandings mastered in preceding grades.

Speaking and Listening
The following speaking and listening standards offer a focus for instruction each year to help ensure that students gain adequate mastery of a range of communication skills and applications.

Language
The following language standards offer a focus for instruction each year to help ensure that students gain adequate mastery of a range of language skills and applications. Students advancing through the grades are expected to meet each succeeding year's grade-specific benchmarks and retain or further develop skills and understandings mastered in preceding grades. The following standards may be addressed again in higher grades at a more rigorous level of study: LAFS.6.L.1.1c, LAFS.6.L.1.1d, LAFS.6.1.1e, LAFS.6.L.2.3a, LAFS.6.L.2.3b

**Special Notes:**

**Instructional Practices:** Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any purpose. Using the following instructional practices also helps student learning.

1. Reading assignments from longer text passages, as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

**English Language Development ELD Standards Special Notes Section:**

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. Clarification 2: Figurative language at this grade level should include any on which students have received instruction in this or previous grades. See Figurative Language Standard. |
| ELA.6.C.1.3 | Write and support a claim using logical reasoning, relevant evidence from sources, elaboration, and a logical organizational structure with varied transitions.  
**Clarifications:**  
Clarification 1: See Writing Types and Elaborative Techniques. |
| ELA.6.C.1.4 | Write expository texts to explain and/or analyze information from multiple sources, using a logical organizational structure, relevant elaboration, and varied transitions.  
**Clarifications:**  
Clarification 1: See Writing Types and Elaborative Techniques. |
| ELA.6.C.1.5 | Improve writing by planning, revising, and editing, considering feedback from adults and peers.  
Present information orally, in a logical sequence, using nonverbal cues, appropriate volume, clear pronunciation, and appropriate pacing.  
**Clarifications:**  
Clarification 1: Nonverbal cues appropriate to this grade level are posture, tone, expressive delivery, focus on the audience, and facial expression. Clear pronunciation should be interpreted to mean an understanding and application of phonics rules and sight words as well as care taken in delivery. A student’s speech impediment should not be considered as impeding clear pronunciation. Appropriate pacing is adhering to the pauses dictated by punctuation and speaking at a rate that best facilitates comprehension by the audience. Too fast a pace will lose listeners and too slow can become monotonous. The element will also help students address the nervousness that may make them speak too fast during presentations.  
Clarification 2: For further guidance, see the Secondary Oral Communication Rubric. |
| ELA.6.C.2.1 | Follow the rules of standard English grammar, punctuation, capitalization, and spelling appropriate to grade level.  
**Clarifications:**  
Clarification 1: Skills to be mastered at this grade level are as follows:  
- Use verbals including gerunds, infinitives, and participial phrases.  
- Use comparative and superlative forms of adjectives.  
- Use pronouns correctly with regard to case, number, and person, correcting for vague pronoun reference. |
| ELA.6.C.3.1 | Skills to be implemented but not yet mastered are as follows:  
- Appropriately use colons.  
- Appropriately use dangling modifiers.  
- Appropriately use ellipses.  
- Appropriately use hyphens.  
- Vary sentence structure.  
**Clarification 2:** See Convention Progression by Grade Level for more information. |
| ELA.6.C.4.1 | Conduct research to answer a question, drawing on multiple reliable and valid sources, and refocusing the inquiry when appropriate.  
**Clarifications:**  
Clarification 1: While the benchmark does require that students consult multiple sources, there is no requirement that they use every source they consult. Part of the skill in researching is discernment—being able to tell which information is relevant and which sources are trustworthy enough to include. |
| ELA.6.C.5.1 | Integrate diverse digital media to enhance audience engagement in oral or written tasks.  
**Clarifications:**  
Clarification 1: Multimedia elements may include, but are not limited to, drawings, pictures, artifacts, and audio or digital representation. At this grade level, students are using more than one element. The elements may be of the same type (for example, two pictures or a picture and an audio recording). The elements should relate directly to the task and complement the information being shared, meaning that the multimedia elements should add information to the presentation, not restate or reinforce it. The elements should be smoothly integrated into the presentation. |
| ELA.6.C.5.2 | Use digital tools to produce writing. |
| ELA.6.R.1.1 | Analyze how the interaction between characters contributes to the development of a plot in a literary text. **Clarifications:**
| ELA.6.R.1.2 | Analyze the development of stated or implied theme(s) throughout a literary text. **Clarifications:**  
  | Clarification 1: For the purposes of this benchmark, theme is not a one- or two-word topic, but a complete thought that communicates the author’s message. See Theme in Glossary.  
  | Clarification 2: Students should be introduced to the concept of universal themes, although mastery isn’t expected until 9th grade. A universal theme is an idea that applies to anyone, anywhere, regardless of cultural differences. Examples include but are not limited to an individual’s or a community’s confrontation with nature; an individual’s struggle toward understanding, awareness, and/or spiritual enlightenment; the tension between the ideal and the real; the conflict between human beings and advancements in technology/science; the impact of the past on the present; the inevitability of fate; the struggle for equality; and the loss of innocence.  
| ELA.6.R.1.3 | Explain the influence of multiple narrators and/or shifts in point of view in a literary text. **Clarifications:**
| ELA.6.R.1.4 | Describe the impact of various poetic forms on meaning and style. **Clarifications:**
| ELA.6.R.2.1 | Explain how individual text sections and/or features convey meaning in texts.  
| ELA.6.R.2.2 | Analyze the central idea(s), implied or explicit, and its development throughout a text. **Clarifications:**
| ELA.6.R.2.3 | Analyze authors’ purpose(s) in multiple accounts of the same event or topic.  
| ELA.6.R.2.4 | Track the development of an argument, identifying the types of reasoning used. **Clarifications:**
| ELA.6.R.3.1 | Explain how figurative language contributes to tone and meaning in text(s). **Clarifications:**
| ELA.6.R.3.2 | Paraphrase content from grade-level texts. **Clarifications:**
| ELA.6.R.3.3 | Compare and contrast how authors from different time periods address the same or related topics. **Clarifications:**
| ELA.6.R.3.4 | Identify rhetorical appeals in a text. **Clarifications:**
| ELA.6.V.1.1 | Integrate academic vocabulary appropriate to grade level in speaking and writing. **Clarifications:**

Emphasis will be on acquisition of integrated English communication skills in a wide range of content and activities using texts of high complexity to ensure college and career preparation and readiness.

This course defines what students should understand and be able to do by the end of 6th grade. Knowledge acquisition should be the primary purpose of any reading approach as the systematic building of a wide range of knowledge across domains is a prerequisite to higher literacy. At this grade level, students are building their facility with rhetoric, the craft of using language in writing and speaking, using classic literature, essays, and speeches as mentor texts.

The benchmarks in this course are mastery goals that students are expected to attain by the end of the year. To build mastery, students will

GENERAL NOTES

English Language Arts is not a discrete set of skills, but a rich discipline with meaningful, significant content, the knowledge of which helps all students actively and fully participate in our society.

Standards should not stand alone as a separate focus for instruction, but should be combined purposefully.

The texts students read should be meaningful and thought-provoking, preparing them to be informed, civic-minded members of their community.

Curricular content for all subjects must integrate critical-thinking, problem-solving, and workforce-literacy skills; communication, reading, and writing skills; mathematics skills; collaboration skills; contextual and applied-learning skills; technology-literacy skills; information and media-literacy skills; and civic-engagement skills.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. Course Standards

Reading Literature
These reading literature standards offer a focus for instruction each year and help ensure that students gain adequate exposure to a range of texts and tasks. Rigor is also infused through the requirement that students read increasingly complex texts through the grades. Students advancing through the grades are expected to meet each year’s grade-specific standards and retain or further develop skills and understandings mastered in preceding grades.

Writing
Each year in their writing, students should demonstrate increasing sophistication in all aspects of language use, from vocabulary and syntax to the development and organization of ideas, and they should address increasingly demanding content and sources. Students advancing through the grades are expected to meet each succeeding year’s grade-specific writing standards and retain or further develop skills and understandings mastered in preceding grades.

Speaking and Listening
The following speaking and listening standards offer a focus for instruction each year to help ensure that students gain adequate mastery of a range of communication skills and applications.

Language
The following language standards offer a focus for instruction each year to help ensure that students gain adequate mastery of a range of language skills and applications. Students advancing through the grades are expected to meet each succeeding year’s grade-specific benchmarks and retain or further develop skills and understandings mastered in preceding grades. The following standards may be addressed again in higher grades at a more rigorous level of study: LAFS.7.L.1.1c, LAFS.L.2.3a

Additional Requirements:
The following Florida Standards for Mathematical Practices are applicable to all content areas.

- Make sense of problems and persevere in solving them. (MP 1)
- Construct viable arguments and critique the reasoning of others. (MP 3)
- Attend to precision. (MP 6)

  - writing to sources using text- based evidence and reasoning
- effective listening, speaking, and viewing strategies with emphasis on the use of evidence to support or refute a claim in multimedia presentations, class discussions, and extended text discussions.
- collaboration amongst peers

**Special Notes:**
Instructional Practices: Teaching from well-written, grade-level instructional materials enhances students’ content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any purpose. Using the following instructional practices also helps student learning.

1. Reading assignments from longer text passages, as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

English Language Development ELD Standards Special Notes Section:
Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standards should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills.   - Appropriately use colons.  
  - Appropriately use dangling modifiers.  
  - Appropriately use ellipses.  
  - Appropriately use hyphens.

<tr>
<td>ELA.7.R.1.2</td>
<td>Clarification 2: Students should continue to work with the concept of universal themes, although mastery isn’t expected until 9th grade. A universal theme is an idea that applies to anyone, anywhere, regardless of cultural differences. Examples include but are not limited to an individual’s or a community’s confrontation with nature; an individual’s struggle toward understanding, awareness, and/or spiritual enlightenment; the tension between the ideal and the real; the conflict between human beings and advancements in technology/science; the impact of the past on the present; the inevitability of fate; the struggle for equality; and the loss of innocence.</td>
</tr>
<tr>
<td>ELA.7.R.1.3</td>
<td>Explain the influence of narrator(s), including unreliable narrator(s), and/or shifts in point of view in a literary text. Clarifications: Clarification 1: An unreliable narrator is one who lacks credibility. Because all information is being conveyed through this untrustworthy source, readers have to use inferencing to establish what is likely to be true. Narrators can be unreliable for many reasons including purposeful dishonesty, a lack of information or background knowledge about what that information means, mental illness, or self-deception. Clarification 2: “Shifts in point of view” refers to a change in the narrator’s point of view done for effect. Changes can be in degree and/or person: for example, a shift from third-person limited to third-person omniscient or from first-person limited to third-person limited.</td>

Clarifications: Clarification 1: Figurative language use that students will analyze are metaphor, simile, alliteration, onomatopoeia, personification, hyperbole, allusion, and idiom. Other examples can be used in instruction. Clarification 2: See Secondary Figurative Language.</td>

<tr>
<td>ELA.7.R.3.4</td>
<td>Explain the meaning and/or significance of rhetorical devices in a text. Clarifications: Clarification 1: Rhetorical devices for the purposes of this benchmark are the figurative language devices from 7.R.3.1 with the addition of irony and rhetorical questioning. Clarification 2: See Secondary Figurative Language. Clarification 3: See Rhetorical Devices.</td>
</tr>
<tr>
<td>ELA.7.V.1.1</td>
<td>Integrate academic vocabulary appropriate to grade level in speaking and writing. Clarifications: Clarification 1: To integrate vocabulary, students will apply the vocabulary they have learned to authentic speaking and writing tasks independently. This use should be intentional, beyond responding to a prompt to use a word in a sentence. Clarification 2: Academic vocabulary appropriate to grade level refers to words that are likely to appear across subject areas for the current grade level and beyond, vital to comprehension, critical for academic discussions and writing, and usually require explicit instruction.</td>
</tr>
<tr>
<td>ELA.7.V.1.2</td>
<td>Apply knowledge of Greek and Latin roots and affixes to determine meanings of words and phrases in grade-level content. **Clarification 3:** See ELA.7.R.3.1 and Secondary Figurative Language. |
| --- | --- |
| ELA.K12.EE.1.1: | Cite evidence to explain and justify reasoning.  
**Clarifications:**  
K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.  
2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.  
4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they’ve directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.  
6-8 Students continue with previous skills and use a style guide to create a proper citation.  
9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ. |
| ELA.K12.EE.2.1: | Read and comprehend grade-level complex texts proficiently.  
**Clarifications:**  
See Text Complexity for grade-level complexity bands and a text complexity rubric. |
| ELA.K12.EE.3.1: | Make inferences to support comprehension.  
**Clarifications:**  
Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like “Why is the girl smiling?” or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond. |
| ELA.K12.EE.4.1: | Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.  
**Clarifications:**  
In kindergarten, students learn to listen to one another respectfully.  
In grades 1-2, students build upon these skills by justifying what they are thinking. For example: “I think _______ because _______.“ The collaborative conversations are becoming academic conversations.  
In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence. |
| ELA.K12.EE.5.1: | Use the accepted rules governing a specific format to create quality work.  
**Clarifications:**  
Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work. |
| ELA.K12.EE.6.1: | Use appropriate voice and tone when speaking or writing.  
**Clarifications:**  
In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts. |
| ELD.K12.ELL.LA.1: | English language learners communicate information, ideas and concepts necessary for academic success in the content area of Language Arts. |
| ELD.K12.ELL.SI.1: | English language learners communicate for social and instructional purposes within the school setting. |

**General Course Information and Notes**

**VERSION DESCRIPTION**

The purpose of this course is to enable students who are native speakers of languages other than English to develop proficient listening, speaking, reading, and writing skills in the English language. Emphasis will be on acquisition of integrated English communication skills in a wide range of content and activities using texts of high complexity to ensure college and career preparation and readiness.

This course defines what students should understand and be able to do by the end of 7th grade. Knowledge acquisition should be the primary purpose of any reading approach as the systematic building of a wide range of knowledge across domains is a prerequisite to higher literacy. At this grade level, students are building their facility with rhetoric, the craft of using language in writing and speaking, using classic literature, essays, and speeches as mentor texts.

The benchmarks in this course are mastery goals that students are expected to attain by the end of the year. To build mastery, students will
continue to review and apply earlier grade-level benchmarks and expectations.

GENERAL NOTES

English Language Arts is not a discrete set of skills, but a rich discipline with meaningful, significant content, the knowledge of which helps all students actively and fully participate in our society.

Standards should not stand alone as a separate focus for instruction, but should be combined purposefully.

The texts students read should be meaningful and thought-provoking, preparing them to be informed, civic-minded members of their community.

Curricular content for all subjects must integrate critical-thinking, problem-solving, and workforce-literacy skills; communication, reading, and writing skills; mathematics skills; collaboration skills; contextual and applied-learning skills; technology-literacy skills; information and media-literacy skills; and civic-engagement skills.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standards should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. *Clarifications:*  
*Clarification 1:* See Writing Types and Narrative Techniques. |

*Clarifications:*  
*Clarification 1:* See Writing Types and Elaborative Techniques. |
| **ELA.8.C.1.4:** | Write expository texts to explain and analyze information from multiple sources, using relevant supporting details, logical organization, and varied purposeful transitions.

| **ELA.8.C.2.1:** | Present information orally, in a logical sequence, supporting the central idea with credible evidence.  
*Clarifications:*  
*Clarification 1:* At this grade level, the emphasis is on the content, but students are still expected to follow earlier expectations: volume, pronunciation, and pacing.  
*Clarification 2:* For further guidance, see the Secondary Oral Communication Rubric. |
| **ELA.8.C.3.1:** | Follow the rules of standard English grammar, punctuation, capitalization, and spelling appropriate to grade level.

The purpose of this course is to enable students who are native speakers of languages other than English to develop proficient listening, speaking, reading, and writing skills in the English language. Emphasis will be on acquisition of integrated English communication skills in a wide range of content and activities using texts of high complexity to ensure college and career preparation and readiness.

This course defines what students should understand and be able to do by the end of 8th grade. Knowledge acquisition should be the primary purpose of any reading approach as the systematic building of a wide range of knowledge across domains is a prerequisite to higher literacy. At this grade level, students are building their facility with rhetoric, the craft of using language in writing and speaking, using classic literature, essays, and speeches as mentor texts.

The benchmarks in this course are mastery goals that students are expected to attain by the end of the year. To build mastery, students will continue to review and apply earlier grade-level benchmarks and expectations.
GENERAL NOTES

English Language Arts is not a discrete set of skills, but a rich discipline with meaningful, significant content, the knowledge of which helps all students actively and fully participate in our society.

Standards should not stand alone as a separate focus for instruction, but should be combined purposefully.

The texts students read should be meaningful and thought-provoking, preparing them to be informed, civic-minded members of their community.

Curricular content for all subjects must integrate critical-thinking, problem-solving, and workforce-literacy skills; communication, reading, and writing skills; mathematics skills; collaboration skills; contextual and applied-learning skills; technology-literacy skills; information and media-literacy skills; and civic-engagement skills.

English Language Development ELD Standards Special Notes Section:

General Course Information and Notes

VERSION DESCRIPTION

The purpose of this course is to enable middle school students who are native speakers of languages other than English to accelerate the development of communication and literacy skills that will promote English proficiency. This course will strengthen English listening, speaking, reading and writing skills so that students are able to successfully comprehend middle school grade-level text independently, as well as communicate for social and instructional purposes within the school setting. Instruction will emphasize reading comprehension, writing fluency, and academic vocabulary through various levels of complexity. Texts used for instruction focus on a wide range of topics in Language Arts, Mathematics, Science, Social Studies and academic language in order to support students in meeting the knowledge demands of increasingly complex text. Students enrolled in the course will engage in interactive text-based discussion, question generation, and research opportunities, as well as cite evidence when answering text-dependent questions orally and in writing. Scaffolding is provided as necessary as students engage in reading and writing increasingly complex text. Explicit support is decreased or removed progressively as the reading and writing abilities of the students improve over time. The course will also provide extensive opportunities for students to learn English by communicating and collaborating with their teachers and peers for social and acculturation purposes.

The multiple credit course is a multi-grade-level elective that should be designed with the following student considerations:

- grade-level content
- proficiency level in English
- instructional needs

This course should be tailored to meet the needs of the individual student. Appropriate benchmarks from the following set of standards should be identified to develop an appropriate curriculum.

GENERAL NOTES

Additional Notes: To ensure students have enough exposure to various text structures and academic vocabulary to develop skills necessary for college and career readiness, it is necessary to implement a combination of research-based programs and strategies that have been proven successful in accelerating the development of literacy skills in ELLs. To do this, the following practices should be incorporated in the course:

1. Providing opportunities for listening, speaking, reading and writing English skills.
2. Scaffolding of close reading that does not preempt or replace text.
3. Delivering systematic instruction in academic and social vocabulary.
4. Applying grammatical structures and conventions through explicit instruction.
5. Increasing the amount and complexity of text read and independent writing.
6. Asking high-level, communicative and text-specific questions which requires high-level student responses.

General Course Information and Notes

The purpose of this course is to enable middle school students who are native speakers of languages other than English to accelerate the development of communication and literacy skills that will promote English proficiency. This course will strengthen English listening, speaking, reading and writing skills so that students are able to successfully comprehend middle school grade-level text independently, as well as communicate for social and instructional purposes within the school setting. Instruction will emphasize reading comprehension, writing fluency, and academic vocabulary through various levels of complexity. Texts used for instruction focus on a wide range of topics in Language Arts, Mathematics, Science, Social Studies and academic language in order to support students in meeting the knowledge demands of increasingly complex text. Students enrolled in the course will engage in interactive text-based discussion, question generation, and research opportunities, as well as cite evidence when answering text-dependent questions orally and in writing. Scaffolding is provided as necessary as students engage in reading and writing increasingly complex text. Explicit support is decreased or removed progressively as the reading and writing abilities of the students improve over time. The course will also provide extensive opportunities for students to learn English by communicating and collaborating with their teachers and peers for social and acculturation purposes.

The multiple credit course is a multi-grade-level elective that should be designed with the following student considerations:

- grade-level content
- proficiency level in English
- instructional needs

This course should be tailored to meet the needs of the individual student.

GENERAL NOTES

Additional Notes: To ensure students have enough exposure to various text structures and academic vocabulary to develop skills necessary for college and career readiness, it is necessary to implement a combination of research-based programs and strategies that have been proven successful in accelerating the development of literacy skills in ELLs. To do this, the following practices should be incorporated in the course:

1. Providing opportunities for listening, speaking, reading and writing English skills.
2. Scaffolding of close reading that does not preempt or replace text.
3. Delivering systematic instruction in academic and social vocabulary.
4. Applying grammatical structures and conventions through explicit instruction.
5. Increasing the amount and complexity of text read and independent writing.
6. Asking high-level, communicative and text-specific questions which requires high-level student responses.

English Language Development ELD Standards Special Notes Section:
Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. Course Standards

Reading Literature

**Standard Notes:** These reading literature standards offer a focus for instruction each year and help ensure that students gain adequate exposure to a range of texts and tasks. Rigor is also infused through the requirement that students read increasingly complex texts through the grades. Students advancing through the grades are expected to meet each year’s grade-specific standards and retain or further develop skills and understandings mastered in preceding grades.

Reading Informational Text

**Standard Notes:** These reading informational text standards offer a focus for instruction each year and help ensure that students gain adequate exposure to a range of texts and tasks. Rigor is also infused through the requirement that students read increasingly complex texts through the grades.

Writing

**Standard Notes:** Each year in their writing, students should demonstrate increasing sophistication in all aspects of language use, from vocabulary and syntax to the development and organization of ideas, and they should address increasingly demanding content and sources. Students advancing through the grades are expected to meet each succeeding year’s grade-specific writing benchmarks and retain or further develop skills and understandings mastered in preceding grades.

Speaking and Listening

**Standard Notes:** The following speaking and listening standards offer a focus for instruction each year to help ensure that students gain adequate mastery of a range of communication skills and applications.

Language

**Standard Notes:** The following language standards offer a focus for instruction each year to help ensure that students gain adequate mastery of a range of language skills and applications. Students advancing through the grades are expected to meet each succeeding year’s grade-specific standards and retain or further develop skills and understandings mastered in preceding grades. The following standards may be addressed again in higher grades at a more rigorous level of study:

The purpose of this course is to enable middle school students who are native speakers of languages other than English instruction that enables students to accelerate the development of reading and writing skills and to strengthen those skills so they are able to successfully read and write middle grade level text independently. Instruction emphasizes reading comprehension, writing fluency, and vocabulary study through the use of a variety of literary and informational texts encompassing a broad range of text structures, genres, and levels of complexity. Texts used for instruction focus on a wide range of topics, including content-area information, in order to support students in meeting the knowledge demands of increasingly complex text. Students enrolled in the course will engage in interactive text-based discussion, question generation, and research opportunities. They will write in response to reading and cite evidence when answering text dependent questions orally and in writing. The course provides extensive opportunities for students to collaborate with their peers. Scaffolding is provided as necessary as students engage in reading and writing increasingly complex text and is removed as the reading and writing abilities of students improve over time.

The multiple credit courses have been designed for the teacher to select and teach only the appropriate standards corresponding to a student's grade level and/or instructional needs.

VERSION DESCRIPTION

The purpose of this course is to enable middle school students who are native speakers of languages other than English instruction that enables students to accelerate the development of reading and writing skills and to strengthen those skills so they are able to successfully read and write middle grade level text independently. Instruction emphasizes reading comprehension, writing fluency, and vocabulary study through the use of a variety of literary and informational texts encompassing a broad range of text structures, genres, and levels of complexity. Texts used for instruction focus on a wide range of topics, including content-area information, in order to support students in meeting the knowledge demands of increasingly complex text. Students enrolled in the course will engage in interactive text-based discussion, question generation, and research opportunities. They will write in response to reading and cite evidence when answering text dependent questions orally and in writing. The course provides extensive opportunities for students to collaborate with their peers. Scaffolding is provided as necessary as students engage in reading and writing increasingly complex text and is removed as the reading and writing abilities of students improve over time.

The multiple credit courses have been designed for the teacher to select and teach only the appropriate standards corresponding to a student's grade level and/or instructional needs.

GENERAL NOTES

General Notes:
The course includes, but is not limited to, the following:

- determining central ideas or themes of a text and analyzing their development as well as summarizing the key supporting details and ideas;
- interpreting words and phrases as they are used in a text, including determining technical, connotative, and figurative meanings, and analyzing how specific word choices shape meaning or tone;
- analyzing the structure of texts, including how specific sentences, paragraphs, and larger portions of the text (e.g., a section, chapter, scene, or stanza) relate to each other and the whole;
- integrating and evaluating content presented in diverse formats and media, including visually and quantitatively, as well as in words;
- delineating and evaluating the argument and specific claims in a text, including the validity of the reasoning as well as the source, relevance and sufficiency of the evidence;
- analyzing how two or more texts address similar themes or topics in order to build knowledge or to compare the approaches the authors take;
- writing in response to reading, emulating authors’ structures, word choices, styles, etc.

Additional Notes: Students entering the upper grades who are not reading and writing on grade level have a variety of intervention needs. No single program or strategy can be successful in remediating the needs of all students. The intervention course should require that students increase the amount and complexity of text they read and write independently throughout the school year to ensure students have enough exposure to various text structures and academic vocabulary to develop skills necessary for college and career readiness.

It is necessary to implement a combination of research-based programs and strategies that have been proven successful in accelerating the development of literacy skills in older readers.
The following practices should be incorporated in the course:

1. Scaffolding of close reading is provided but does not preempt or replace text.
2. Systematic instruction in vocabulary is provided.
3. Explicit instruction in applying grammatical structures and conventions is provided.
4. Student independence is cultivated.

Special Notes:

Instructional Practices: Teaching from well-written, grade-level instructional materials enhances students’ content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any purpose. Using the following instructional practices also helps student learning.

1. Reading assignments from longer text passages, as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Achievement on standardized tests assessing reading and writing skills is a reflection of students’ confidence and competence in reading. Therefore, instruction throughout the school year should ensure students possess the ability to read and comprehend difficult texts and perform challenging tasks associated with those texts. Time spent engaging students in practice tests should be limited, given most students’ vast experiences with standardized tests and the relatively small role that knowledge of test format plays in student test performance.

In those instances when this course is repeated, the content should be differentiated based on reliable and valid assessment data. If repeated, the required level of student proficiency should increase. If students are making adequate progress (accelerated growth) in a given intervention, that intervention should be continued. If students are not making adequate progress, a new intervention should be implemented.

The College and Career Readiness (CCR) standards and grade-specific standards are necessary complements—the former providing broad standards, the latter providing additional specificity—that together define the skills and understandings that all students must demonstrate at each grade level. Students advancing through the grades are expected to meet each succeeding year’s grade specific benchmarks, retain or further develop skills and understandings mastered in preceding grades, and work steadily toward meeting the more general expectations described by the CCR anchor standards.

English Language Development ELD Standards Special Notes Section:
Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. | ELA.6.C.2.1: | Present information orally, in a logical sequence, using nonverbal cues, appropriate volume, clear pronunciation, and appropriate pacing.  
**Clarifications:**  
Clarification 1: Nonverbal cues appropriate to this grade level are posture, tone, expressive delivery, focus on the audience, and facial expression. Clear pronunciation should be interpreted to mean an understanding and application of phonics rules and sight words as well as care taken in delivery. A student's speech impediment should not be considered as impeding clear pronunciation. Appropriate pacing is adhering to the pauses dictated by punctuation and speaking at a rate that best facilitates comprehension by the audience. Too fast a pace will lose listeners and too slow can become monotonous. The element will also help students address the nervousness that may make them speak too fast during presentations.  
Clarification 2: For further guidance, see the Secondary Oral Communication Rubric.  
Standard Relation to Course: Major                                                                                                                                                                                                 |

Clarification 1: For the purposes of this benchmark, theme is not a one- or two-word topic, but a complete thought that...
**ELA.6.R.1.2:**
Communicates the author’s message. See Theme in Glossary.

*Clarification 2:* Students should be introduced to the concept of universal themes, although mastery isn’t expected until 9th grade. A universal theme is an idea that applies to anyone, anywhere, regardless of cultural differences. Examples include but are not limited to an individual’s or a community’s confrontation with nature; an individual’s struggle toward understanding, awareness, and/or spiritual enlightenment; the tension between the ideal and the real; the conflict between human beings and advancements in technology/science; the impact of the past on the present; the inevitability of fate; the struggle for equality; and the loss of innocence.

**Standard Relation to Course:** Major

**ELA.6.R.1.3:**
Explain the influence of multiple narrators and/or shifts in point of view in a literary text.

*Clarifications:*
- **Clarification 1:** When referring to the person of the narrator, the term “point of view” is used. Students focused on perspective in fifth grade, so they should differentiate between point of view and perspective when working on this benchmark.

**Standard Relation to Course:** Major

**ELA.6.R.1.4:**
Describe the impact of various poetic forms on meaning and style.

*Clarifications:*
- **Clarification 1:** Poetic forms used for this benchmark are sonnet and villanelle.

Explain how individual text sections and/or features convey meaning in texts.

**Standard Relation to Course:** Major

**ELA.6.R.2.2:**
Analyze the central idea(s), implied or explicit, and its development throughout a text.

*Clarifications:*
- **Clarification 1:** Various types of support could include an author’s use of facts, definitions, concrete details, and/or quotations to develop the central idea(s) in a text.

**Standard Relation to Course:** Major

**ELA.6.R.2.3:**
Analyze authors’ purpose(s) in multiple accounts of the same event or topic.

**Standard Relation to Course:** Major

**ELA.6.R.2.4:**

*Clarifications:*
- **Clarification 1:** For more information on types of reasoning, see Types of Logical Reasoning.
- **Clarification 2:** Instruction in types of reasoning will include an introduction to fallacies in reasoning. Fallacies that are related to content, informal fallacies, will be the focus. See Fallacies in Reasoning (Informal).

**Standard Relation to Course:** Major

**ELA.6.R.3.1:**
Explain how figurative language contributes to tone and meaning in text(s).

*Clarifications:*
- **Clarification 1:** Figurative language use that students will analyze are metaphor, simile, alliteration, onomatopoeia, personification, hyperbole, and idiom. Other examples can be used in instruction.

**Clarification 2:** See Secondary Figurative Language.

**Standard Relation to Course:** Major

**ELA.6.R.3.2:**
Paraphrase content from grade-level texts.

*Clarifications:*
- **Clarification 1:** Most grade-level texts are appropriate for this benchmark.

**Standard Relation to Course:** Major

**ELA.6.R.3.3:**
Compare and contrast how authors from different time periods address the same or related topics.

*Clarifications:*
- **Clarification 1:** Texts for this benchmark should be selected from the following literary periods:
  - Colonial and Early National Period (1600–1830) American Literature
  - Romantic Period (1790–1870)
  - Realism and Naturalism Period (1870–1930)
  - Modernist Period (1910–1945)
  - Contemporary Period (1945–present)

**Standard Relation to Course:** Major

**ELA.6.R.3.4:**
Identify rhetorical appeals in a text.

*Clarifications:*
- **Clarification 1:** Students will identify the appeals of logos, ethos, and pathos.

**Clarification 2:** See Rhetorical Appeals.

**Standard Relation to Course:** Major

**ELA.6.V.1.1:**
Integrate academic vocabulary appropriate to grade level in speaking and writing.

*Clarifications:*
- **Clarification 1:** To integrate vocabulary, students will apply the vocabulary they have learned to authentic speaking and writing tasks independently. This use should be intentional, beyond responding to a prompt to use a word in a sentence.

**Clarification 2:** Academic vocabulary appropriate to grade level refers to words that are likely to appear across subject areas for the current grade level and beyond, vital to comprehension, critical for academic discussions and writing, and usually require explicit instruction.

**ELA.6.V.1.2:**
Apply knowledge of Greek and Latin roots and affixes to determine meanings of words and phrases in grade-level content.

**Clarifications:**
- Clarification 1: See Common Greek and Latin Roots 6-8 and Affixes.

**ELA.6.V.1.3:**
Apply knowledge of context clues, figurative language, word relationships, reference materials, and/or background knowledge to determine the connotative and denotative meaning of words and phrases, appropriate to grade level.

**Clarifications:**
- Clarification 1: Review of words learned in this way is critical to building background knowledge and related vocabulary.

**ELA.612.F.2.1:**
Demonstrate an understanding of spoken words, syllables, and sounds.

- a. Orally produce single-syllable and multisyllabic words by accurately blending sounds.
- b. Accurately segment single-syllable and multisyllabic words.

**Clarifications:**
- Clarification 1: Phonological awareness only refers to what can be done orally at both the sound and syllabic level. This includes isolating sounds, blending sounds, and orally segmenting words based on syllables. It does not involve print or letter knowledge.

**ELA.612.F.2.2:**
Know and apply phonics and word analysis skills in decoding words.

- a. Use an array of strategies to decode single-syllable and multisyllabic words.
- b. Accurately read multisyllabic words using a combined knowledge of all letter-sound correspondences, and syllabication patterns.

**Clarifications:**
- Clarification 1: Phonics refers to the relationship between graphemes (letters or letter combinations) and phonemes (speech sounds). Since morphemes represent the smallest unit of language with meaning, morphology refers to the skill of recognizing morphemes as a unit when decoding and determining meaning.

**ELA.612.F.2.3:**
Know and apply phonics and word analysis skills in encoding words.

- a. Use an array of strategies to accurately encode single-syllable and multisyllabic words.

**Clarifications:**
- Clarification 1: Encoding refers to using the written word in order to communicate. It combines the skills of phonological awareness, phonics, and morphology to move from the oral to the written word.

**ELA.612.F.2.4:**
Read grade-level texts with accuracy, automaticity, and appropriate prosody or expression.

**Clarifications:**
- Clarification 1: See Fluency Norms for grade-level norms. Norms are expressed as words correct per minute (WCPM), a measure that combines accuracy with rate. The chart stops at 6th grade because it represents sufficient automaticity for proficient reading. For secondary students receiving reading interventions, teachers should use the 6th grade norms as a goal.

**Clarification 2:** Appropriate prosody refers to pausing patterns during oral reading that reflect the punctuation and meaning of a text. See Sample Oral Reading Fluency Rubrics for prosody.

**Clarification 3:** Grade-level texts, for the purposes of fluency, are those within the grade band on quantitative text complexity measures and appropriate in content and qualitative measures.

**ELA.7.C.1.2:**
Write personal or fictional narratives using narrative techniques, a recognizable point of view, precise words and phrases, and figurative language.

**Clarifications:**
- Clarification 1: See Writing Types and Narrative Techniques.
- Clarification 2: See Secondary Figurative Language.

**ELA.8.C.1.5:** Improve writing by planning, editing, considering feedback from adults and peers, and revising for clarity and cohesiveness.

**Clarifications:**
- At this grade level, the emphasis is on the content, but students are still expected to follow earlier expectations: volume, pronunciation, and pacing.

**ELA.8.C.2.1:** Present information orally, in a logical sequence, supporting the central idea with credible evidence.

**Clarification 2:** For further guidance, see the Secondary Oral Communication Rubric.

**ELA.8.C.3.1:** Follow the rules of standard English grammar, punctuation, capitalization, and spelling appropriate to grade level.

**Clarifications:**
- Skills to be mastered at this grade level are as follows:
  - Appropriately use passive and active voice.
  - Use semicolons to form sentences.
  - Use verbs with attention to voice and mood.

**Clarification 2:** See Convention Progression by Grade Level for more information.

**ELA.8.C.5.2:** Use a variety of digital tools to collaborate with others to produce writing.

**ELA.8.R.1.1:** Analyze the interaction between character development, setting, and plot in a literary text.

Examples include but are not limited to an individual’s or a community’s confrontation with nature; an individual’s struggle toward understanding, awareness, and/or spiritual enlightenment; the tension between the ideal and the real; the conflict between human beings and advancements in technology/science; the impact of the past on the present; the inevitability of fate; the struggle for equality; and the loss of innocence.

**ELA.8.R.2.1:** Analyze how individual text sections and/or features convey a purpose and/or meaning in texts.

**ELA.8.R.2.2:** Analyze two or more central ideas and their development throughout a text.

**Clarifications:**
- Figurative language use that students will analyze are metaphor, simile, alliteration, onomatopoeia, personification, hyperbole, allusion, and idiom. Other examples can be used in instruction.

**General Course Information and Notes**

**VERSION DESCRIPTION**

This course is designed for students who are native speakers of languages other than English. This course includes instruction that enables students to accelerate the development of reading and writing skills and to strengthen those skills so they are able to successfully read and write middle grade level text independently. Instruction emphasizes reading comprehension, writing, and vocabulary study with access to a broad range of texts.

The purpose of this course is to enable middle school students who are native speakers of languages other than English instruction that enables students to accelerate the development of reading and writing skills and to strengthen those skills so they are able to successfully read and write middle grade level text independently. Instruction emphasizes reading comprehension, writing fluency, and vocabulary study through the use of a variety of literary and informational texts encompassing a broad range of text structures, genres, and levels of complexity. Texts used for instruction focus on a wide range of topics, including content-area information, in order to support students in meeting the knowledge demands of increasingly complex text. Students enrolled in the course will engage in interactive text-based discussion, question generation, and research opportunities. They will write in response to reading and cite evidence when answering text dependent questions orally and in writing. The course provides extensive opportunities for students to collaborate with their peers. Scaffolding is provided as necessary as students engage in reading and writing increasingly complex text and is removed as the reading and writing abilities of students improve over time.

The multiple credit courses have been designed for the teacher to select and teach only the appropriate standards corresponding to a student's grade level and/or instructional needs.

**GENERAL NOTES**

English Language Arts is not a discrete set of skills, but a rich discipline with meaningful, significant content, the knowledge of which helps all...
students actively and fully participate in our society. Standards should not stand alone as a separate focus for instruction, but should be combined purposefully.

The texts students read should be meaningful and thought-provoking, preparing them to be informed, civic-minded members of their community.

Curricular content for all subjects must integrate critical-thinking, problem-solving, and workforce-literacy skills; communication, reading, and writing skills; mathematics skills; collaboration skills; contextual and applied-learning skills; technology-literacy skills; information and media-literacy skills; and civic-engagement skills.

General Notes:
The course includes, but is not limited to, the following:

- analyzing central ideas of a text (implied or explicit) and its development;
- applying knowledge of context clues, figurative language, word relationships, reference materials, and/or background knowledge to determine the connotative and denotative meaning of words and phrases, appropriate to grade level;
- analyzing the structure of texts, including how specific sentences, paragraphs, and larger portions of the text (e.g., a section, chapter, scene, or stanza) relate to each other and the whole;
- tracking the development of an argument, analyzing the types of reasoning used and their effectiveness;
- analyzing authors' purpose(s) in multiple accounts of the same event or topic;

Additional Notes: Students entering the upper grades who are not reading and writing on grade level have a variety of intervention needs. No single program or strategy can be successful in remediating the needs of all students. The intervention course should require that students increase the amount and complexity of text they read and write independently throughout the school year to ensure students have enough exposure to various text structures and academic vocabulary to develop skills necessary for college and career readiness.

It is necessary to implement a combination of research-based programs and strategies that have been proven successful in accelerating the development of literacy skills in older readers.

The following practices should be incorporated in the course:

1. Scaffolding of close reading is provided but does not preempt or replace text.
2. Systematic instruction in vocabulary is provided.
3. Explicit instruction in applying grammatical structures and conventions is provided.
4. Student independence is cultivated.

Special Notes:

Instructional Practices: Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any purpose. Using the following instructional practices also helps student learning.

1. Reading assignments from longer text passages, as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Achievement on standardized tests assessing reading and writing skills is a reflection of students' confidence and competence in reading. Therefore, instruction throughout the school year should ensure students possess the ability to read and comprehend difficult texts and perform challenging tasks associated with those texts. Time spent engaging students in practice tests should be limited, given most students' vast experiences with standardized tests and the relatively small role that knowledge of test format plays in student test performance.

In those instances when this course is repeated, the content should be differentiated based on reliable and valid assessment data. If repeated, the required level of student proficiency should increase. If students are making adequate progress (accelerated growth) in a given intervention, that intervention should be continued. If students are not making adequate progress, a new intervention should be implemented.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: https://cpalmsmediaprod.blob.core.windows.net/uploads/docs/standards/eld/la.pdf

**Special Notes:**

**Instructional Practices:** Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any purpose. Using the following instructional practices also helps student learning.

1. Reading assignments from longer text passages, as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

**English Language Development ELD Standards Special Notes Section:**

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. ### General Course Information and Notes

**VERSION DESCRIPTION**

The purpose of this course is to enable students who are native speakers of languages other than English to develop proficient listening, speaking, reading, and writing skills in the English language. Emphasis will be on acquisition of integrated English communication skills in a wide range of content and activities using texts of high complexity to ensure college and career preparation and readiness.

This course defines what students should understand and be able to do by the end of 9th grade. Knowledge acquisition should be the primary purpose of any reading approach as the systematic building of a wide range of knowledge across domains is a prerequisite to higher literacy. At
this grade level, students are working with universal themes and archetypes. They are also continuing to build their facility with rhetoric, the craft of using language in writing and speaking, using classic literature, essays, and speeches as mentor texts.

The benchmarks in this course are mastery goals that students are expected to attain by the end of the year. To build mastery, students will continue to review and apply earlier grade-level benchmarks and expectations.

GENERAL NOTES

English Language Arts is not a discrete set of skills, but a rich discipline with meaningful, significant content, the knowledge of which helps all students actively and fully participate in our society.

Standards should not stand alone as a separate focus for instruction, but should be combined purposefully.

Curricular content for all subjects must integrate critical-thinking, problem-solving, and workforce-literacy skills; communication, reading, and writing skills; mathematics skills; collaboration skills; contextual and applied-learning skills; technology-literacy skills; information and media-literacy skills; and civic-engagement skills.

English Language Development ELD Standards Special Notes Section:
Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. - Develop the topic with well-chosen, relevant, and sufficient facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience’s knowledge of the topic.
- Use appropriate and varied transitions to link the major sections of the text, create cohesion, and clarify the relationships among complex ideas and concepts.
- Use precise language and domain-specific vocabulary to manage the complexity of the topic.
- Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.
- Provide a concluding statement or section that follows from and supports the information or explanation presented (e.g., articulating implications or the significance of the topic).

**LAFS.910.W.1.3:**
- Draw evidence from literary or informational texts to support analysis, reflection, and research.
- Maintain the flow of ideas, avoiding plagiarism and following a standard format for citation.

**LAFS.910.W.2.4:**
- Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience. (Grade-specific expectations for writing types are defined in standards 1–3 above.)

**LAFS.910.W.2.5:**
- Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.

**LAFS.910.W.2.6:**
- Use technology, including the Internet, to produce, publish, and update individual or shared writing products, taking advantage of technology’s capacity to link to other information and to display information flexibly and dynamically.

**LAFS.910.W.3.7:**
- Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the usefulness of each source in answering the research question; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and following a standard format for citation.

Special Notes:

Instructional Practices: Teaching from well-written, grade-level instructional materials enhances students’ content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any purpose. Using the following instructional practices also helps student learning.

1. Reading assignments from longer text passages, as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. | ELA.10.C.1.2:      | Write narratives using an appropriate pace to create tension, mood, and/or tone. **Clarifications:**  
  **Clarification 1:** See Writing Types and Narrative Techniques.                                                                                               |
| ELA.10.C.1.3:      | Write to argue a position, supporting claims using logical reasoning and credible evidence from multiple sources, rebutting counterclaims with relevant evidence, using a logical organizational structure, elaboration, purposeful transitions, and maintaining a formal and objective tone. **Clarifications:**  
  **Clarification 1:** See Writing Types and Elaborative Techniques.  
  **Clarification 2:** The tone should be both formal and objective, relying more on argument and rhetorical appeals rather than on propaganda techniques. Use narrative techniques to strengthen writing where appropriate. |
| ELA.10.C.1.4:      | Write expository texts to explain and analyze information from multiple sources, using a logical organization, purposeful transitions, and a tone and voice appropriate to the task. **Clarifications:**  
  **Clarification 1:** See Writing Types.                                                                                                                      |
| ELA.10.C.1.5:      | Improve writing by considering feedback from adults, peers, and/or online editing tools, revising to address the needs of a specific audience.                                                                                                                                         |
| ELA.10.C.2.1:      | Present information orally, with a logical organization and coherent focus, with credible evidence, creating a clear perspective. **Clarifications:**  
  **Clarification 1:** At this grade level, the emphasis is on the content, but students are still expected to follow earlier expectations: volume, pronunciation, and pacing. A clear perspective is the through-line that unites the elements of the presentation.  
  **Clarification 2:** For further guidance, see the Secondary Oral Communication Rubric.                                                                                                                   |
| ELA.10.C.3.1:      | Follow the rules of standard English grammar, punctuation, capitalization, and spelling appropriate to grade level. **Clarifications:**  
  **Clarification 1:** Skills to be mastered at this grade level are as follows:  
  - Add variety to writing or presentations by using parallel structure and various types of phrases and clauses.  
  Skills to be implemented but not yet mastered are as follows:  
  - Use knowledge of usage rules to create flow in writing and presenting.  
  **Clarification 2:** See Convention Progression by Grade Level for more information.                                                           |
| ELA.10.C.4.1:      | Conduct research to answer a question, refining the scope of the question to align with findings, and synthesizing information from multiple reliable and valid sources. **Clarifications:**  
  **Clarification 1:** While the benchmark does require that students consult multiple sources, there is no requirement that they use every source they consult. Part of the skill in researching is discernment—being able to tell which information is relevant and which sources are trustworthy enough to include. |
| ELA.10.C.5.1:      | Create digital presentations to improve understanding of findings, reasoning, and evidence. **Clarifications:**  
  **Clarification 1:** The presentation may be delivered live or delivered as a stand-alone digital experience.                                                                                                   |
| ELA.10.C.5.2:      | Use online collaborative platforms to create and export publication-ready quality writing tailored to a specific audience, integrating multimedia elements.                                                                                                                          |
| ELA.10.R.1.1:      | Analyze how key elements enhance or add layers of meaning and/or style in a literary text. **Clarifications:**  
  **Clarification 1:** Key elements of a literary text are setting, plot, characterization, conflict, point of view, theme, and tone.  
  **Clarification 2:** For layers of meaning, any methodology or model may be used as long as students understand that text may have multiple layers and that authors use techniques to achieve those layers. A very workable model for looking at layers of meaning is that of I.A. Richards:  
  Layer 1) the literal level, what the words actually mean  
  Layer 2) mood, those feelings that are evoked in the reader  
  Layer 3) tone, the author’s attitude |
Layer 4) author's purpose (interpretation of author’s purpose as it is often inferred).

*Clarification 3:* Style is the way in which the writer uses techniques for effect. It is distinct from meaning but can be used to make the author’s message more effective. The components of style are diction, syntax, grammar, and use of figurative language. Style helps to create the author’s voice.

*4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they’ve directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.*

**VERSION DESCRIPTION**

The purpose of this course is to enable students who are native speakers of languages other than English to develop proficient listening, speaking,
reading, and writing skills in the English language. Emphasis will be on acquisition of integrated English communication skills in a wide range of content and activities using texts of high complexity to ensure college and career preparation and readiness.

This course defines what students should understand and be able to do by the end of 10th grade. Knowledge acquisition should be the primary purpose of any reading approach as the systematic building of a wide range of knowledge across domains is a prerequisite to higher literacy. At this grade level, students are working with universal themes and archetypes. They are also continuing to build their facility with rhetoric, the craft of using language in writing and speaking, using classic literature, essays, and speeches as mentor texts.

The benchmarks in this course are mastery goals that students are expected to attain by the end of the year. To build mastery, students will continue to review and apply earlier grade-level benchmarks and expectations.

GENERAL NOTES

English Language Arts is not a discrete set of skills, but a rich discipline with meaningful, significant content, the knowledge of which helps all students actively and fully participate in our society.

Standards should not stand alone as a separate focus for instruction, but should be combined purposefully.

The texts students read should be meaningful and thought-provoking, preparing them to be informed, civic-minded members of their community.

Curricular content for all subjects must integrate critical-thinking, problem-solving, and workforce-literacy skills; communication, reading, and writing skills; mathematics skills; collaboration skills; contextual and applied-learning skills; technology-literacy skills; information and media-literacy skills; and civic-engagement skills.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. The multiple credit course is a multi-grade-level elective that should be designed with the following student considerations:

- **Social and instructional purposes within the school setting.** Instruction will emphasize reading comprehension, writing fluency, and academic vocabulary through various levels of complexity. Texts used for instruction focus on a wide range of topics in Language Arts, Mathematics, Science, Social Studies and academic language in order to support students in meeting the knowledge demands of increasingly complex text. Students enrolled in the course will engage in interactive text-based discussion, question generation, and research opportunities, as well as cite evidence when answering text-dependent questions orally and in writing. Scaffolding is provided as necessary as students engage in reading and writing increasingly complex text. Explicit support is decreased or removed progressively as the reading and writing abilities of the students improve over time. The course will also provide extensive opportunities for students to learn English by communicating and collaborating with their teachers and peers for social and acculturation purposes.

The purpose of this course is to enable high school students who are native speakers of languages other than English to accelerate the development of communication and literacy skills that will promote English proficiency. This course will strengthen English listening, speaking, reading and writing skills so that students are able to successfully comprehend high school grade-level text independently, as well as communicate for social and instructional purposes within the school setting. The multiple credit course is a multi-grade-level elective that should be designed with the following student considerations:

- grade-level content
- proficiency level in English
- instructional needs

This course should be tailored to meet the needs of the individual student. Appropriate benchmarks from the following set of standards should be identified to develop an appropriate curriculum.

**Additional Notes:** To ensure students have enough exposure to various text structures and academic vocabulary to develop skills necessary for college and career readiness, it is necessary to implement a combination of research-based programs and strategies that have been proven successful in accelerating the development of literacy skills in ELLs. To do this, the following practices should be incorporated in the course:

1. Providing opportunities for listening, speaking, reading and writing English skills.
2. Scaffolding of close reading that does not preempt or replace text.
3. Delivering systematic instruction in academic and social vocabulary.
4. Applying grammatical structures and conventions through explicit instruction.
5. Increasing the amount and complexity of text read and independent writing.
6. Asking high-level, communicative and text-specific questions which requires high-level student responses.

**English Language Development ELD Standards Special Notes Section:**

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. **General Course Information and Notes**

**VERSION DESCRIPTION**

The purpose of this course is to provide students who are native speakers of languages other than English instruction enabling students to accelerate the development of reading and writing skills and to strengthen these skills so they are able to successfully read, write, and comprehend grade level text independently. Instruction emphasizes reading comprehension and vocabulary through the use of a variety of literary and informational texts encompassing a broad range of text structures, genres, and levels of complexity. Texts used for instruction focus on a wide range of topics, including content-area information, in order to support students in meeting the knowledge demands of increasingly complex text.

**Important Note:** Reading and writing courses should not be used in place of English language arts courses; reading and writing courses are intended to be used to supplement further study in English language arts.

**GENERAL NOTES**

The content should include, but not be limited to, the following:

- active reading of varied texts for what they say explicitly, as well as the logical inferences that can be drawn
- analysis of literature and informational texts from varied literary periods to examine:
  - text craft and structure
  - elements of literature
  - arguments and claims supported by textual evidence
  - power and impact of language
  - influence of history, culture, and setting on language
  - personal critical and aesthetic response
- writing for varied purposes

Rule 6A-1.09412, F.A.C. Effective May 2022
- developing and supporting argumentative claims
- crafting coherent, supported informative/expository texts
- responding to literature for personal and analytical purposes
- writing narratives to develop real or imagined events
- writing to sources using text-based evidence and reasoning
- effective listening, speaking, and viewing strategies with emphasis on the use of evidence to support or refute a claim in multimedia presentations, class discussions, and extended text discussions
- collaboration amongst peers

Special Notes:

Instructional Practices: Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any purpose. Using the following instructional practices also helps student learning.

1. Reading assignments from longer text passages, as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Additional Notes: Students entering the upper grades who are not reading on grade level have a variety of reading intervention needs. No single program or strategy can be successful in remediating the needs of all students. The reading intervention course should require that students increase the amount and complexity of text they read independently throughout the school year, as these students do not have enough exposure to various text structures and academic vocabulary to develop skills necessary for college and career readiness.

It is necessary to implement a combination of research-based programs and strategies that have been proven successful in accelerating the development of reading skills in older readers. The instructional approaches should meet the needs of each student based on results of individual diagnostic assessments and progress monitoring.

Instruction should be explicit and systematic. It should provide direct explanations (modeling) and systematic practice opportunities (guided instruction), as well as carefully managed cumulative review to ensure mastery.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. **Clarifications:**

- **Clarification 4:** The tone should be both formal and objective, relying more on argument and rhetorical appeals rather than on propaganda techniques. Use narrative techniques to strengthen writing where appropriate.
- **Clarification 5:** See Writing Types.
- **Clarification 6:** See Convention Progression by Grade Level for more information.
- **Clarification 7:** Key elements of a literary text are setting, plot, characterization, conflict, point of view, theme, and tone.
- **Clarification 8:** For layers of meaning, any methodology or model may be used as long as students understand that text may have multiple layers and that authors use techniques to achieve those layers. A very workable model for looking at layers of meaning is that of I.A. Richards:
  1. **Layer 1** the literal level, what the words actually mean
  2. **Layer 2** mood, those feelings that are evoked in the reader
  3. **Layer 3** tone, the author's attitude
  4. **Layer 4** author's purpose (interpretation of author's purpose as it is often inferred).
Clarification 3: Style is the way in which the writer uses techniques for effect. It is distinct from meaning but can be used to make the author's message more effective. The components of style are diction, syntax, grammar, and use of figurative language. Style helps to create the author's voice.

For layers of meaning, any methodology or model may be used as long as students understand that text may have multiple layers and that authors use techniques to achieve those layers. A very workable model for looking at layers of meaning is that of I. A. Richards:
Layer 1) the literal level, what the words actually mean
Layer 2) mood, those feelings that are evoked in the reader
Layer 3) tone, the author's attitude
Layer 4) author's purpose (interpretation of author's purpose as it is often inferred)

Clarification 3: Style is the way in which the writer uses techniques for effect. It is distinct from meaning but can be used to make the author’s message more effective. The components of style are diction, syntax, grammar, and use of figurative language. Style helps to create the author’s voice.

K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.

2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.

4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.

6-8 Students continue with previous skills and use a style guide to create a proper citation.

9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.

**Standard Relation to Course: Supporting**

**ELA.K12.EE.2.1:**
Read and comprehend grade-level complex texts proficiently.

**Clarifications:**
See Text Complexity for grade-level complexity bands and a text complexity rubric.

**ELA.K12.EE.3.1:**
Make inferences to support comprehension.

**Clarifications:**
Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like “Why is the girl smiling?” or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.

**ELA.K12.EE.4.1:**
Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.

**Clarifications:**
In kindergarten, students learn to listen to one another respectfully.

In grades 1-2, students build upon these skills by justifying what they are thinking. For example: “I think ________ because ________.” The collaborative conversations are becoming academic conversations.

In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.

**Standard Relation to Course: Supporting**

**ELA.K12.EE.5.1:**
Use the accepted rules governing a specific format to create quality work.

**Clarifications:**
Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.

**Standard Relation to Course: Supporting**

**ELA.K12.EE.6.1:**
Use appropriate voice and tone when speaking or writing.

**Clarifications:**
In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.

**ELD.K12.ELL.LA.1:**
English language learners communicate information, ideas and concepts necessary for academic success in the content area of Language Arts.

**ELD.K12.ELL.SI.1:**
English language learners communicate for social and instructional purposes within the school setting.

**General Course Information and Notes**

**VERSION DESCRIPTION**

The purpose of this course is to provide students who are native speakers of languages other than English instruction that enables students to accelerate the development of reading and writing skills and to strengthen these skills so they are able to successfully read, write, and comprehend grade level text independently. Instruction emphasizes reading comprehension and vocabulary through the use of a variety of literary and informational texts encompassing a broad range of text structures, genres, and levels of complexity. Texts used for instruction focus on a wide range of topics, including content-area information, in order to support students in meeting the knowledge demands of increasingly complex text.

**Important Note:** Reading and writing courses should not be used in place of English language arts courses; reading and writing courses are intended to be used to supplement further study in English language arts.
English Language Arts is not a discrete set of skills, but a rich discipline with meaningful, significant content, the knowledge of which helps all students actively and fully participate in our society. Standards should not stand alone as a separate focus for instruction, but should be combined purposefully.

The content should include, but not be limited to, the following:

- reading of varied texts for what they say explicitly, as well as the logical inferences that can be drawn
- analyzing literature and informational texts from varied literary periods to examine:
  - key elements and universal themes of literature
  - text structures and/or features convey a purpose and/or meaning in texts
  - figurative language and rhetoric use
  - influence of history, culture, and setting on language
- writing for varied purposes
  - arguing a position using supporting claims
  - writing expository texts to explain and analyze information from multiple sources
  - responding to literature for personal and analytical purposes
  - writing narratives using narrative techniques, varied transitions, and a clearly established point of view
  - writing to sources using text-based evidence and reasoning
- conducting research to answer questions, drawing on multiple reliable and valid sources
- creating and collaborating presentation with coherent ideas with peers, including considering feedback

Additional Notes: Students entering the upper grades who are not reading on grade level have a variety of reading intervention needs. No single program or strategy can be successful in remediating the needs of all students. The reading intervention course should require that students increase the amount and complexity of text they read independently throughout the school year, as these students do not have enough exposure to various text structures and academic vocabulary to develop skills necessary for college and career readiness.

It is necessary to implement a combination of research-based programs and strategies that have been proven successful in accelerating the development of reading skills in older readers. The instructional approaches should meet the needs of each student based on results of individual diagnostic assessments and progress monitoring.

Instruction should be explicit and systematic. It should provide direct explanations (modeling) and systematic practice opportunities (guided instruction), as well as carefully managed cumulative review to ensure mastery.

English Language Development ELD Standards Special Notes Section:
Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. Special Notes:

**Instructional Practices:** Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any purpose. Using the following instructional practices also helps student learning.

1. Reading assignments from longer text passages, as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

**English Language Development ELD Standards Special Notes Section:**
Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. **General Course Information and Notes**

**VERSION DESCRIPTION**

The purpose of this course is to enable students who are native speakers of languages other than English to develop proficient listening, speaking, reading, and writing skills in the English language. Emphasis will be on acquisition of integrated English communication skills in a wide range of content and activities using texts of high complexity to ensure college and career preparation and readiness.

This course defines what students should understand and be able to do by the end of 12th grade. Knowledge acquisition should be the primary purpose of any reading approach as the systematic building of a wide range of knowledge across domains is a prerequisite to higher literacy. At this grade level, students are working with universal themes and archetypes. They are also continuing to build their facility with rhetoric, the craft of using language in writing and speaking, using classic literature, essays, and speeches as mentor texts.

The benchmarks in this course are mastery goals that students are expected to attain by the end of the year. To build mastery, students will continue to review and apply earlier grade-level benchmarks and expectations.

**GENERAL NOTES**

English Language Arts is not a discrete set of skills, but a rich discipline with meaningful, significant content, the knowledge of which helps all students actively and fully participate in our society.

Standards should not stand alone as a separate focus for instruction, but should be combined purposefully.

The texts students read should be meaningful and thought-provoking, preparing them to be informed, civic-minded members of their community.

Curricular content for all subjects must integrate critical-thinking, problem-solving, and workforce-literacy skills; communication, reading, and writing skills; mathematics skills; collaboration skills; contextual and applied-learning skills; technology-literacy skills; information and media-literacy skills; and civic-engagement skills.

**English Language Development ELD Standards Special Notes Section:**

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. **Clarifications:**  
**Clarification 1:** At this grade level, the emphasis is on the content, but students are still expected to follow earlier expectations: appropriate volume, pronunciation, and pacing. This benchmark introduces rhetorical devices to the benchmark, building on what students have learned in R.3.2 and giving them a chance to apply it.  
**Clarification 2:** For further guidance, see the Secondary Oral Communication Rubric.                                                                                                                                                                                                 |

2. Make inferences to support comprehension.

**ELA.K12.EE.3.1:** Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.

**Clarifications:**
1. Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.
In kindergarten, students learn to listen to one another respectfully. In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _______ because ________." The collaborative conversations are becoming academic conversations.

In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.

Use the accepted rules governing a specific format to create quality work. Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.

In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.

English language learners communicate information, ideas and concepts necessary for academic success in the content area of Language Arts.

English language learners communicate for social and instructional purposes within the school setting.

General Course Information and Notes

VERSION DESCRIPTION

The purpose of this course is to provide students knowledge of the principles of semantics and logic using texts of high complexity and advanced integrated language arts study.

Honors and Advanced Level Course Note: Academic rigor is more than simply assigning to students a greater quantity of work. Through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted, students are challenged to think and collaborate critically on the content they are learning.

GENERAL NOTES

The content should include, but not be limited to, the following:

- active reading of advanced texts for what they say explicitly, as well as the logical inferences that can be drawn
- analysis of informational texts from varied literary periods to examine:
  - semantic concepts of text and changes across literary periods
  - arguments and claims supported by textual evidence, including logical fallacies
  - power and impact of language
  - inductive and deductive reasoning
  - critical and aesthetic response
- writing for varied purposes
  - developing and supporting argumentative claims
  - crafting coherent, supported informative/expository texts
  - writing to sources using text-based evidence and reasoning
- effective listening, speaking, and viewing strategies with emphasis on the use of evidence to support or refute a claim in multimedia presentations, class discussions, and extended text discussions
- collaboration amongst peers

Special Notes:

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. A very workable model for looking at layers of meaning is that of I.A. Richards: Layer 1) the literal level, what the words actually mean Layer 2) mood, those feelings that are evoked in the reader Layer 3) tone, the author’s attitude Layer 4) author’s purpose (interpretation of author’s purpose as it is often inferred)  
                      Clarification 3: Style is the way in which the writer uses techniques for effect. It is distinct from meaning but can be used to make the author’s message more effective.   **2-3 Students** include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.  
  **4-5 Students** continue with previous skills and reference comments made by speakers and peers. Students cite texts that they’ve directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.  
  **6-8 Students** continue with previous skills and use a style guide to create a proper citation.

**English Language Development ELD Standards Special Notes Section:**

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or
produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. Instructional Practices

Teaching well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any purpose. Using the following instructional practices also helps student learning.

1. Reading assignments from longer text passages, as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. Students will be using rhetorical devices as introduced in the 11th grade benchmark. Added to this grade level is a responsiveness to the needs of the audience and adapting to audience response. | **ELA.12.R.1.1:** | Evaluate how key elements enhance or add layers of meaning and/or style in a literary text and explain the functional significance of those elements in interpreting the text.  
**Clarifications:**  
**Clarification 1:** Key elements of a literary text are setting, plot, characterization, conflict, point of view, theme, and tone.  
**Clarification 2:** For layers of meaning, any methodology or model may be used as long as students understand that text may have multiple layers and that authors use techniques to achieve those layers. A very workable model for looking at layers of meaning is that of I.A. Richards:  
Layer 1) the literal level, what the words actually mean  
Layer 2) mood, those feelings that are evoked in the reader  
Layer 3) tone, the author’s attitude  
Layer 4) author’s purpose (interpretation of author’s purpose as it is often inferred)
Clarification 3: Style is the way in which the writer uses techniques for effect. It is distinct from meaning, but can be used to make the author’s message more effective. The components of style are diction, syntax, grammar, and use of figurative language. Style helps to create the author’s voice.

Clarification 4: Functional significance refers to the role each element plays in creating meaning or effect for the reader.

### General Course Information and Notes

**VERSION DESCRIPTION**

The purpose of this course is to enable students, using texts of high complexity, to develop knowledge of modern literature through integrated educational experiences of reading, writing, speaking and listening, and language. Emphasis will be on representative modern literature, with its varied cultural influences, highlighting the major genres, themes, issues, and influences associated with the literary period.

**GENERAL NOTES**

English Language Arts is not a discrete set of skills, but a rich discipline with meaningful, significant content, the knowledge of which helps all students actively and fully participate in our society. Standards should not stand alone as a separate focus for instruction, but should be combined purposefully.

The content should include, but not be limited to, the following:

- active reading of varied texts for what they say explicitly, as well as the logical inferences that can be drawn.
- analysis of literature and informational texts from varied literary periods to examine:
  - text craft and structure
  - elements of literature
  - arguments, themes, and claims supported by textual evidence
  - power and impact of language
  - influence of history, culture, and setting on language
  - personal critical and aesthetic response
- writing for varied purposes
  - crafting coherent, supported informative/expository texts
  - responding to literature for personal and analytical purposes
- effective collaboration strategies with emphasis on the use of evidence to support or refute a claim in multimedia presentations, class discussions, and extended text discussions.
- collaboration amongst peers
English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. General Course Information and Notes

VERSION DESCRIPTION

The purpose of this course is to enable students, using texts of high complexity, to develop knowledge of British and Commonwealth literature through advanced integrated educational experiences of reading, writing, speaking and listening, and language. Emphasis will be on representative British and Commonwealth literature, with its varied cultural influences, highlighting the major genres, themes, issues, and influences associated throughout the literary period.

The content should include, but not be limited to, the following:

- active reading of varied texts for what they say explicitly, as well as the logical inferences that can be drawn
- analysis of literature and informational texts from varied literary periods to examine:
  - text craft and structure
  - elements of literature
  - arguments, themes, and claims supported by textual evidence
  - power and impact of language
  - personal critical and aesthetic response
- writing for varied purposes
  - developing and supporting argumentative claims
  - crafting coherent, supported informative/expository texts
  - responding to literature for personal and analytical purposes
  - writing narratives to develop real or imagined events
  - writing to sources (short and longer research) using text-based claims and evidence
- effective listening, speaking, and viewing strategies with emphasis on the use of evidence to support or refute a claim in multimedia presentations, class discussions, and extended text discussions.

Special Notes:

Instructional Practices: Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any purpose. Using the following instructional practices also helps students learning.

1. Reading assignments from longer text passages, as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

English Language Development (ELD) Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate for social and instructional purposes within the school setting. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: {{AzureStorageLink}}/uploads/docs/standards/eld/si.pdf.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

</table>
Clarification 2: For layers of meaning, any methodology or model may be used as long as students understand that text may have multiple layers and that authors use techniques to achieve those layers. A very workable model for looking at layers of meaning is that of I.A. Richards:
Layer 1) the literal level, what the words actually mean
Layer 2) mood, those feelings that are evoked in the reader
Layer 3) tone, the author’s attitude
Layer 4) author’s purpose (interpretation of author’s purpose as it is often inferred).

Clarification 3: Style is the way in which the writer uses techniques for effect. It is distinct from meaning but can be used to make the author’s message more effective. The components of style are diction, syntax, grammar, and use of figurative language. Style helps to create the author’s voice.

ELA.10.R.1.1: Analyze and compare universal themes and their development throughout a literary text.
Clarifications:
Clarification 1: A universal theme is an idea that applies to anyone, anywhere, regardless of cultural differences. Examples include but are not limited to an individual’s or a community’s confrontation with nature; an individual’s struggle toward understanding, awareness, and/or spiritual enlightenment; the tension between the ideal and the real; the conflict between human beings and advancements in technology/science; the impact of the past on the present; the inevitability of fate; the struggle for equality; and the loss of innocence.
Standard Relation to Course: Major

ELA.10.R.1.2: Analyze coming of age experiences reflected in a text and how the author represents conflicting perspectives.
Clarifications:
Clarification 1: For more information, see Literary Periods.
Standard Relation to Course: Major

ELA.10.R.1.3: Analyze how authors create multiple layers of meaning and/or ambiguity in a poem.
Clarifications:
Clarification 1: For more information, see Literary Periods.
Standard Relation to Course: Major

ELA.10.R.1.4: Analyze the impact of multiple text structures and the use of features in text(s).
Clarifications:
Clarification 1: Students will evaluate the use of the following structures: description, problem/solution, chronological, compare and contrast, cause and effect, and sequence.
Clarification 2: Students will evaluate the use of the following features: table of contents, headings, captions, photographs, graphs, charts, illustrations, glossary, footnotes, annotations, and appendix.
Standard Relation to Course: Major

ELA.10.R.2.1: Analyze the central idea(s) of historical American speeches and essays.
Standard Relation to Course: Major

ELA.10.R.2.2: Analyze an author’s choices in establishing and achieving purpose(s) in historical American speeches and essays.
Clarifications:
Clarification 1: In this grade level, students are using and responsible for the appeals of logos, ethos, and pathos.
Clarification 2: See Rhetorical Appeals and Rhetorical Devices.
Standard Relation to Course: Major

ELA.10.R.2.3: Compare the development of two opposing arguments on the same topic, evaluating the effectiveness and validity of the claims, and analyzing the ways in which the authors use the same information to achieve different ends.
Clarifications:
Clarification 1: Validity refers to the soundness of the arguments.
Standard Relation to Course: Major

ELA.10.R.2.4: Analyze how figurative language creates mood in text(s).
Clarifications:
Clarification 1: Figurative language use that students will analyze are metaphor, simile, alliteration, onomatopoeia, personification, hyperbole, meiosis (understatement), allusion, and idiom. Other examples can be used in instruction.
Clarification 2: See Secondary Figurative Language.
Standard Relation to Course: Major

ELA.10.R.3.1: Paraphrase content from grade-level texts.
Clarifications:
Clarification 1: Most grade-level texts are appropriate for this benchmark.
Standard Relation to Course: Major

ELA.10.R.3.2: Analyze how mythical, classical, or religious texts have been adapted.
Clarifications:
Clarification 1: The classical source texts for this benchmark should be from ancient Greece or Rome’s Classical period (1200 BCE–455 CE). Mythical texts for this benchmark can be from any civilization’s early history. Religious texts for this benchmark include works such as the Bible.
Standard Relation to Course: Major

ELA.10.R.3.3: Analyze an author’s use of rhetoric in a text.
Clarifications:
Clarification 1: Students will analyze the appropriateness of appeals and the effectiveness of devices. In this grade level,
students are using and responsible for the appeals of logos, ethos, and pathos.

Clarification 2: Rhetorical devices for the purposes of this benchmark are the figurative language devices from 10.R.3.1 with the addition of irony, rhetorical question, antithesis, zeugma, metonymy, synecdoche, and asyndeton.

Clarification 3: See Secondary Figurative Language.

Clarification 4: See Rhetorical Appeals and Rhetorical Devices.

---

Integrate academic vocabulary appropriate to grade level in speaking and writing.

**Clarifications:**

Clarification 1: To integrate vocabulary, students will apply the vocabulary they have learned to authentic speaking and writing tasks independently. This use should be intentional, beyond responding to a prompt to use a word in a sentence.

Clarification 2: Academic vocabulary appropriate to grade level refers to words that are likely to appear across subject areas for the current grade level and beyond, vital to comprehension, critical for academic discussions and writing, and usually require explicit instruction.

*Standard Relation to Course: Major*

---

Apply knowledge of etymology and derivations to determine meanings of words and phrases in grade-level content.

**Clarifications:**

Clarification 1: Etymology refers to the study of word origins and the ways that words have changed over time.

Clarification 2: Derivation refers to making new words from an existing word by adding affixes.

*Standard Relation to Course: Major*

---

Apply knowledge of context clues, figurative language, word relationships, reference materials, and/or background knowledge to determine the connotative and denotative meaning of words and phrases, appropriate to grade level.

**Clarifications:**

Clarification 1: Review of words learned in this way is critical to building background knowledge and related vocabulary.

Clarification 2: See Context Clues and Word Relationships.

*Standard Relation to Course: Major*

---

Cite evidence to explain and justify reasoning.

**Clarifications:**

K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.

2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.

4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they’ve directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.

6-8 Students continue with previous skills and use a style guide to create a proper citation.

9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.

*Standard Relation to Course: Supporting*

---

Read and comprehend grade-level complex texts proficiently.

**Clarifications:**

See Text Complexity for grade-level complexity bands and a text complexity rubric.

*Standard Relation to Course: Supporting*

---

Make inferences to support comprehension.

**Clarifications:**

Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like “Why is the girl smiling?” or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.

*Standard Relation to Course: Supporting*

---

Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.

**Clarifications:**

In kindergarten, students learn to listen to one another respectfully.

In grades 1-2, students build upon these skills by justifying what they are thinking. For example: “I think _______ because _______. “ The collaborative conversations are becoming academic conversations.

In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.

*Standard Relation to Course: Supporting*
Use the accepted rules governing a specific format to create quality work.

**Clarifications:**
Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.

**Standard Relation to Course:** Supporting

---

Use appropriate voice and tone when speaking or writing.

**Clarifications:**
In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.

**Standard Relation to Course:** Supporting

---

English language learners communicate information, ideas and concepts necessary for academic success in the content area of Language Arts.

**Standard Relation to Course:** Supporting

| ELA.10.V.1.1: | Integrate academic vocabulary appropriate to grade level in speaking and writing.  
*Clariations:*
*Clarification 1:* To integrate vocabulary, students will apply the vocabulary they have learned to authentic speaking and writing tasks independently. This use should be intentional, beyond responding to a prompt to use a word in a sentence.  
*Clarification 2:* Academic vocabulary appropriate to grade level refers to words that are likely to appear across subject areas for the current grade level and beyond, vital to comprehension, critical for academic discussions and writing, and usually require explicit instruction.  
Standard Relation to Course: Major |
| ELA.10.V.1.2: | Apply knowledge of etymology and derivations to determine meanings of words and phrases in grade-level content.  
*Clariations:*
*Clarification 1:* Etymology refers to the study of word origins and the ways that words have changed over time.  
*Clarification 2:* Derivation refers to making new words from an existing word by adding affixes.  
Standard Relation to Course: Major |

*Clarification 2:* See Context Clues and Word Relationships.  
*Clarification 3:* See ELA.10.R.3.1 and Secondary Figurative Language.  
Standard Relation to Course: Major |
| ELA.K12.EE.1.1: | Cite evidence to explain and justify reasoning.  
*Clariations:*
K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.  
2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.  
4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.  
6-8 Students continue with previous skills and use a style guide to create a proper citation.  
9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.

| ELA.K12.EE.3.1: | Make inferences to support comprehension.  
*Clariations:*
Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like “Why is the girl smiling?” or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.

| ELA.K12.EE.4.1: | Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.  
*Clariations:*
In kindergarten, students learn to listen to one another respectfully.  
In grades 1-2, students build upon these skills by justifying what they are thinking. For example: “I think _______ because _______.” The collaborative conversations are becoming academic conversations.  
In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.

### English Language Development (ELD) Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate for social and instructional purposes within the school setting. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:
For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

Special Notes:
Instructional Practices: Teaching from well-written, grade-level instructional materials enhances students’ content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any purpose. Using the following instructional practices also helps student learning.

1. Reading assignments from longer text passages, as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

English Language Development ELD Standards Special Notes Section:
Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. Emphasis will be on representative contemporary literature, with its varied cultural influences, highlighting the major genres, themes, issues, and influences associated throughout the literary period.

GENERAL NOTES

English Language Arts is not a discrete set of skills, but a rich discipline with meaningful, significant content, the knowledge of which helps all students actively and fully participate in our society. Standards should not stand alone as a separate focus for instruction, but should be combined purposefully.

The content should include, but not be limited to, the following:

- active reading of varied Contemporary texts for what they say explicitly, as well as the logical inferences that can be drawn
- analysis of varied contemporary literature and informational texts to examine:
  - elements of literature
  - arguments, themes, and claims supported by textual evidence
  - power and impact of language
  - influence of history, culture, and setting on language
  - personal critical and aesthetic response
- writing for varied purposes
  - crafting coherent, supported expository texts
  - responding to literature for personal and analytical purposes
- collaboration amongst peers

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate
information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. **GENERAL COURSE INFORMATION AND NOTES**

The purpose of this course is to enable students, using texts of appropriate complexity, to develop knowledge of contemporary literature through integrated educational experiences of reading, writing, speaking and listening, and language. Emphasis will be on representative contemporary literature, with its varied cultural influences, highlighting the major genres, themes, issues, and influences associated throughout the literary period.
GENERAL NOTES

English Language Arts is not a discrete set of skills, but a rich discipline with meaningful, significant content, the knowledge of which helps all students actively and fully participate in our society. Standards should not stand alone as a separate focus for instruction, but should be combined purposefully.

The content should include, but not be limited to, the following:

- active reading of varied Contemporary texts for what they say explicitly, as well as the logical inferences that can be drawn
- analysis of varied contemporary literature and informational texts to examine:
  - elements of literature
  - arguments, themes, and claims supported by textual evidence
  - power and impact of language
  - influence of history, culture, and setting on language
  - personal critical and aesthetic response
- writing for varied purposes
  - crafting coherent, supported expository texts
  - responding to literature for personal and analytical purposes
- collaboration amongst peers

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.  
6-8 Students continue with previous skills and use a style guide to create a proper citation.  
9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.  
Standard Relation to Course: Support |
| **ELA.K12.EE.2.1:** | Read and comprehend grade-level complex texts proficiently.  
*Clarifications:*  
See Text Complexity for grade-level complexity bands and a text complexity rubric.  
Standard Relation to Course: Support |
| **ELA.K12.EE.3.1:** | Make inferences to support comprehension.  
*Clarifications:*  
Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like “Why is the girl smiling?” or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.  
Standard Relation to Course: Support |
| **ELA.K12.EE.4.1:** | Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.  
*Clarifications:*  
In kindergarten, students learn to listen to one another respectfully.  
In grades 1-2, students build upon these skills by justifying what they are thinking. For example: “I think ________ because ________.” The collaborative conversations are becoming academic conversations.  
In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.  
Standard Relation to Course: Support |
| **ELA.K12.EE.5.1:** | Use the accepted rules governing a specific format to create quality work.  
*Clarifications:*  
Students will incorporate skills learned into work products to produce quality work. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.  
Standard Relation to Course: Support |
| **ELA.K12.EE.6.1:** | Use appropriate voice and tone when speaking or writing.  
*Clarifications:*  
In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.  
Standard Relation to Course: Support |
