INSTRUCTIONS FOR COMPLETING THE APPLICATION

SECTION 1 – LICENSE TYPE

Choose one box that most closely describes the planned establishment. Use the following descriptions provided by Florida law to identify your type of establishment. The specific law for each definition is identified after the description.

- **Seating (SEAT)** – Permanent seating establishments are those fixed public food service establishments that provide and maintain accommodations for consumption of food on the premises of the establishment or under the control of the establishment. The operator of the establishment must provide the number of seats available to the public to the division prior to licensing for fee calculation purposes. The division does not authorize the number of seats. For seating levels and changes to seating, the applicant must obtain wastewater approvals from the Florida Department of Health, Florida Department of Environmental Protection or the local utility authority. The local authority having jurisdiction must approve fire safety issues relating to seating levels. [Rule 61C-1.002(5)(b), Florida Administrative Code (FAC)]
- **No Seats (NOST)** – Permanent nonseating establishments are those fixed public food service establishments for which the sole service provided is intended as take-out or delivery, or do not otherwise provide accommodations for consumption of food by guests on the premises, or the premises are not under the control of the operator. For the purposes of this section, we classify establishments located at food courts and malls in this manner as long as the establishment does not have seating within the premises of the establishment itself. [Rule 61C-1.002(5)(a)1., FAC]
- **Mobile Food Dispensing Vehicle (MFDV)** – Mobile food dispensing vehicles are vehicle-mounted public food service establishments. Some MFDVs are self-propelled and built to travel on public streets. Other MFDVs are not self-propelled but can be moved from place to place. MFDVs may even be watercraft. Vehicles that are required to have vehicle identification numbers (VINs) must submit this number to the division on the application for license. [Rule 61C-1.002(5)(a)2., FAC]

Self-sufficient vehicles are identified as those units that contain, as part of the vehicle, a three-compartment sink for washing, rinsing, and sanitizing equipment and utensils; a separate handwash sink; adequate refrigeration and storage capacity; full provision of power utilities including electrical, LP gas, or a portable power generation unit; a potable water holding tank; and a liquid waste disposal system in accordance with Subparts 5-3 and 5-4 of the Food Code. Self-Sufficient vehicles must have a location where water can be safely procured and where wastewater can be legally disposed of. **This location cannot be a private residence.** Mobile food dispensing

vehicles are not allowed to obtain water from or dispose of wastewater at a private residence, or prepare food; store food products, equipment or utensils; or conduct warewashing or any other activities related to the public food service in a private residence.

- **Hot Dog Cart (HTDG)** – Hot dog carts are MFDVs that limit the preparation of food to frankfurters. [Rule 61C-4.0161(3), FAC]
- **Theme Park Food Cart (PARK)** - Theme park food carts are mobile or stationary units that operate within the confines of a theme park or entertainment complex as an extension of or in association with a fixed public food service establishment. Such carts are licensed collectively by the entity that maintains and operates them. The operator is required to notify the division immediately of any changes in the number of carts. [Rule 61C-1.002(5)(a)6., FAC]
- **Catering (CATR)** - Caterers are public food service establishments where food or drink is prepared for service elsewhere in response to an agreed upon contract for a function or event. The term includes catering kitchens and commissaries. The term "caterer" does not include those establishments licensed pursuant to Chapters 500 or 381, FS, or any other location where food is provided or displayed for sale by the individual meal. A licensed public food service establishment that also provides catering services is not required to hold a separate catering license from the division. Caterers must meet all applicable standards of a public food service establishment as provided in Rules 61C-1.004, 61C-4.010, and 61C-4.023, FAC. Separate independent caterers utilizing the equipment or premises of a licensed establishment are deemed operators as defined by subsection 509.013(2), FS, of such public food service establishment and subject to all applicable requirements of law and rule. [Rule 61C-1.002(5)(a)3., FAC]
- **Vending Machine (VEND)** - Vending machines are any self-service devices licensed pursuant to Chapter 509, FS, which, upon insertion of coin or token, or by other means, dispense unit servings of potentially hazardous food, either in bulk or packaged, without the necessity of replenishing the device between each operation. All vending machine owners shall submit the serial number of each vending machine to the division on the application for license. It is the responsibility of the vending machine owner to maintain an accurate and current list of vending machine locations with the corresponding serial number. This list shall be made available to the division upon request. The division shall coordinate with the vending machine owner to schedule inspections with the assistance of the owner or its agent with the capability to open and demonstrate the machine. [Rule 61C-1.002(5)(a)5., FAC]
