PART A – Authorization for release of information to the FRS (to be completed by teacher)

Florida law provides that I may claim retirement credit for teaching service in the PUBLIC school systems of other states. I authorize you to release information required in Part B regarding my PUBLIC school teaching service as revealed by your payroll records. To be creditable in Florida, out-of-state teaching must be as a member of the teaching or professional staff or as a certificated employee of any public free school and be similar to such service in the PUBLIC school system in Florida. Teaching service for which I am now eligible or will be eligible to receive a retirement income benefit elsewhere is not creditable in Florida; also service as a graduate or student assistant is not creditable.

Please complete Part B following the example on the back and mail this form to me at the following address:
