

Health and Safety Checklist for Non-Public Schools

INTRODUCTION

Non-public schools that provide school readiness services and are exempt from licensure under Section 402.3025, Florida Statutes, must complete a health and safety checklist each year, submit it to their local early learning coalition and post it in plain sight for visitors and parents. The items on this checklist are not specific requirements of license-exempt providers. Items checked identify the unique aspects of each school readiness program. This provider has completed a health and safety checklist covering the following.

Staff-To-Child Ratios/Supervision	Transportation

Definition of Non-Public Schools

A non-public school is a private school defined as an individual, association, copartnership, or corporation, or department, division, or section of such organizations, that designates itself as an educational center. A non-public school may be licensed or license-exempt pursuant to S. 402.3025, F.S. Charter schools do not fall into this category.

About the Health and Safety Checklist

Neither the Office of Early Learning nor the local early learning coalition has reviewed or verified the information in this health and safety checklist. If you have questions about the health and safety of your child care provider, check with your provider or contact the Early Learning Coalition of ______ at phone number> or <email address> or the local licensing agency at phone number>.
