Purpose

This certificate program is part of the Human Services AS degree program (1351150400).

A College Credit Certificate consists of a program of instruction of less than sixty (60) credits of college-level courses, which is part of an AS or AAS degree program and prepares students for entry into employment (Rule 6A-14.030, F.A.C.).

This program offers a sequence of courses that provides coherent and rigorous content aligned with challenging academic standards and relevant technical knowledge and skills needed to prepare for further education and careers in the Human Services career cluster; provides technical skill proficiency, and includes competency-based applied learning that contributes to the academic knowledge, higher-order reasoning and problem-solving skills, work attitudes, general employability skills, technical skills, and occupation-specific skills, and knowledge of all aspects of the Human Services career cluster.

This program is designed to prepare students for employment as clinical specialists, human services practitioners, chemical dependency practitioners, addictions specialists, substance abuse counselors, and social services practitioners, SOC Code 31-9099, or Mental Health and Substance Abuse Social Workers, SOC Code 21-1023, or to provide supplemental training for persons previously or currently employed these occupations.

The present education options include two tracks in the Human Services AS degrees are offered, Track I is a generalists program to prepare mental health/human services practitioners, (65 credit hours) while Track II is a program designed for students who wish to be specially prepared to assist in helping those affected by problems with addictions (73 credit hours).

The **Addiction Studies Program College Credit Certificate** will provide a quicker and less intensive route for practitioners in the field to obtain their certification in addictions (CAP) provided by the Florida Certification Board.

The content includes, but is not limited to, personal awareness, history and present status of addictions/mental health/human services movement, interdisciplinary addiction professional roles and functions, human growth and development, adaptive and maladaptive patterns of behavior, case management, various treatment modalities, and therapeutic interventions, interpersonal communications, assessment, evaluation, working knowledge of DSM diagnostic criteria, etiology of addictions, psychopharmacology, pharmacology of abused substances, information management, employability skills, health and safety, including CPR, universal precautions and AIDS training.

This certificate focuses on teaching broad, transferable skills and stresses understanding and demonstration of the human services profession, with an emphasis on addictions. In addition, the College Credit Certificate will provide a vital workforce development initiative to aid students and community agencies in obtaining certification, with corresponding increases in salary and employment.

Additional Information relevant to this Career and Technical Education (CTE) program is provided at the end of this document.

Standards

After successfully completing this program, the student will be able to perform the following:

Additional Information

Laboratory Activities

Laboratory investigations that include scientific inquiry, research, measurement, problem solving, emerging technologies, tools and equipment, as well as, experimental, quality, and safety procedures are an integral part of this career and technical program/course. Laboratory investigations benefit all students by developing an understanding of the complexity and ambiguity of empirical work, as well as the skills required to manage, operate, calibrate and troubleshoot equipment/tools used to make observations. Students understand measurement error; and have the skills to aggregate, interpret, and present the resulting data. Equipment and supplies should be provided to enhance hands-on experiences for students.

Special Notes

This program meets the Department of Health HIV/AIDS and domestic violence education requirements. Upon completion of this program the instructor will provide a certificate to the student verifying that the HIV/AIDS and domestic violence requirements have been met.

If students in this program are seeking a licensure, certificate or registration through the Department of Health, please refer to 456.0635 F.S. for more information on disqualification for a license, certificate, or registration through the Department of Health.

The colleges and universities offering this College Credit Certificate are encouraged to become providers for the Florida Certification Board, which is the only certifying board authorized by the Florida Statutes and the Florida Administrative Code (FAC) addressing substance abuse services.

The Florida Certification Board has specified the definitions and roles of an addiction professional.

This program includes multi-disciplinary foundations and builds on the competencies required for professional practice foundations. Education is required in psychopharmacology, the etiology and course of abuse, the pharmacology of substances which are consciousness altering and subject to abuse, case record keeping, methods of intervention, identifying and using appropriate resources, current federal and states rules and regulations governing the treatment of individuals abusing consciousness altering drugs, and the scope and limits of ethical expectations in the treatment of individuals abusing consciousness altering substances.

The program is designed to provide the academic and addiction-specific education requirement of the Florida Certification Board.

Accommodations

Federal and state legislation requires the provision of accommodations for students with disabilities to meet individual needs and ensure equal access. Postsecondary students with disabilities must self-identify, present documentation, request accommodations if needed, and develop a plan with their counselor and/or instructors. Accommodations received in postsecondary education may differ from those received in secondary education. Accommodations change the way the student is instructed. Students with disabilities may need accommodations in such areas as instructional methods and materials, assignments and assessments, time demands and schedules, learning environment, assistive technology and special communication systems. Documentation of the accommodations requested and provided should be maintained in a confidential file.

Purpose

This program offers a sequence of courses that provides coherent and rigorous content aligned with challenging academic standards and relevant technical knowledge and skills needed to prepare for further education and careers in the Human Services career cluster; provides technical skill proficiency, and includes competency-based applied learning that contributes to the academic knowledge, higher-order reasoning and problem-solving skills, work attitudes, general employability skills, technical skills, and occupation-specific skills, and knowledge of all aspects of the Human Services career cluster.

The purpose of this program is to prepare students for employment as psychiatric aides, case aides SOC Code 29-2053 (Psychiatric Technicians), unit treatment and rehabilitation specialists, mental health technicians, social services aide, activities assistant, group treatment/program aide, or admissions assistant.

The content includes, but is not limited to, concepts of mental health and mental illness; treatment plans and activities designed to stabilize, reorient, and rehabilitate mentally ill and emotionally disturbed patients; techniques of administration of prepackaged medication; observation of patients for changes in vital signs and behavior patterns; assisting patients in activities of daily living; supervising individual patients and patient teams; leadership and human relations; CPR, health, safety, and employability skills. The Health Science Core must be taken by all students (secondary, postsecondary adult and postsecondary vocational) planning to complete any health occupations program. Once successfully completed, the core

does not need to be repeated at any instructional level.

This program focuses on broad, transferable skills and stresses understanding and demonstration of the following elements of the health care industry; planning, management, finance, technical and production skills, underlying principles of technology, labor issues, community issues and health, safety, and environmental issues.

Additional Information relevant to this Career and Technical Education (CTE) program is provided at the end of this document.

Program Structure

This program is an Applied Technology Diploma (ATD) program that is part of a technical degree program, is less than 60 credit hours, and leads to employment in a specific occupation. An ATD program may consist of either technical credit or college credit. A public school district may offer an ATD program only as technical credit, with college credit awarded to a student upon articulation to a community college.

PSAV Program

When offered at the district level, this program is a planned sequence of instruction consisting of two occupational completion points and the courses as shown below.

OCP	Course Number	Course Title	Length	SOC Code
A	HUS0090	Human Services Core	90 hours	31-9099
B	HCP0811 HCP0812	Psychiatric Technician 1 Psychiatric Technician 2	315 hours 315 hours	29-2053

College Credit

When offered at the community college level, this ATD program is part of the Human Services AS program (1351150400) and has a program length of 24 credits.

Standards

After successfully completing this program, the student will be able to perform the following:

Human Services Core: The Human Services Core is a core of basic knowledge necessary for any Human Services career. Students who have previously completed the Human Services Careers Core or any other health occupations program do not have to repeat standards 01-09.

Additional Information

Laboratory Activities

Laboratory investigations that include scientific inquiry, research, measurement, problem solving, emerging technologies, tools and equipment, as well as, experimental, quality, and safety procedures are an integral part of this career and technical program/course. Laboratory investigations benefit all students by developing an understanding of the complexity and ambiguity of empirical work, as well as the skills required to manage, operate, calibrate and troubleshoot equipment/tools used to make observations. Students understand measurement error; and have the skills to aggregate, interpret, and present the resulting data. Equipment and supplies should be provided to enhance hands-on experiences for students.

Special Notes

Either a community college or school district may offer the ATD program. A community college may offer the ATD as either college credit or vocational credit. A vocational technical center may offer the ATD as vocational credit only. Students completing an ATD at a vocational technical center will be awarded the guaranteed college credit upon enrollment at the community college.

This program is part of the Human Services AS degree and guarantees transfer of 24 credit hours toward the related AS degree. Minimum entrance requirements for this program include a high school diploma or GED. Students must meet the minimum basic skills to complete this program.

This program meets the Department of Health HIV/AIDS and domestic violence education requirements. Upon completion of this program the instructor will provide a certificate to the student verifying that the HIV/AIDS and domestic violence requirements have been met.

If students in this program are seeking a licensure, certificate or registration through the Department of Health, please refer to 456.0635 F.S. for more information on disqualification for a license, certificate, or registration through the Department of Health.

Career and Technical Student Organization (CTSO)

HOSA is the appropriate career and technical student organization for providing leadership training and reinforcing specific career and technical skills. Career and Technical Student Organizations provide activities for students as an integral part of the instruction offered. The activities of such organizations are defined as part of the curriculum in accordance with Rule 6A-6.065, F.A.C.

Basic Skills

In PSAV programs offered for 450 hours or more, in accordance with Rule 6A-10.040, F.A.C. the minimum basic skills grade levels required for postsecondary adult career and technical students to complete this program are: Mathematics 10, Language 10, and Reading 10. These grade level numbers correspond to a grade equivalent score obtained on a state designated basic skills examination.

Adult students with disabilities, as defined in Section 1004.02(7), Florida Statutes, may be exempted from meeting the Basic Skills requirements (Rule 6A-10.040). Students served in exceptional student education (except gifted) as defined in s. 1003.01(3)(a), F.S., may also be exempted from meeting the Basic Skills requirement. Each school district and Florida College must adopt a policy addressing procedures for exempting eligible students with disabilities from the Basic Skills requirement as permitted in Section 1004.91(3), F.S.

Students who possess a college degree at the Associate of Applied Science level or higher; who have completed or are exempt from the college entry-level examination; or who have passed a state, national, or industry licensure exam are exempt from meeting the Basic Skills requirement (Rule 6A-10.040, F.A.C.) Exemptions from state, national or industry licensure are limited to the certifications listed at <http://www.fldoe.org/core/fileparse.php/5423/urlt/2014-15-basicskills-with-License-exempt.rtf>.

Accommodations

Federal and state legislation requires the provision of accommodations for students with disabilities to meet individual needs and ensure equal access. Postsecondary students with disabilities must self-identify, present documentation, request accommodations if needed, and develop a plan with their counselor and/or instructors. Accommodations received in postsecondary education may differ from those received in secondary education. Accommodations change the way the student is instructed. Students with disabilities may need accommodations in such areas as instructional methods and materials, assignments and assessments, time demands and schedules, learning environment, assistive technology and special communication systems. Documentation of the accommodations requested and provided should be maintained in a confidential file.

Note: postsecondary curriculum and regulated secondary programs cannot be modified.

Program Length

In accordance with Rule 6A-10.024, F.A.C. an ATD program consists of a course of study that is part of an AS or AAS degree program, is less than 60 credit hours, is approximately 50% of the technical component (non-general education), and leads to employment in a specific occupation. An ATD program may consist of either technical credit or college credit.

Students must have a high school diploma, a GED, or a certificate of completion to be admitted to an ATD program. Within six weeks of entry, students in ATD programs of 450 or more hours must be tested pursuant to Rule 6A-10.040, F.A.C. and if below minimum standards for completion from the program, must receive remedial instruction. The minimum standards must be at least the equivalent of a score of ten (10) on all sections of basic skills test approved in Rule 6A-10.040, F.A.C. Students must successfully complete all remedial instruction before completing the ATD.

Community Colleges may offer either college or career credit toward the ATD. A Career Center in a public school district may offer an ATD program only as technical credit, with college credit awarded to a student upon articulation to a community college (Section 1004.02, F.S.)

When offered at a community college the standard length of this program is 24 credits. When offered at a technical center the standard length of this program is 720 clock hours.

In accordance with Rule 6A-10.024, F.A.C. all faculty providing instruction must have at least a baccalaureate degree or an associate degree with demonstrated competencies in the specific instructional program as defined by the Southern Association of Colleges and Schools.

Purpose

This certificate program is part of the Human Services AS degree program (1351150400).

A College Credit Certificate consists of a program of instruction of less than sixty (60) credits of college-level courses, which is part of an AS or AAS degree program and prepares students for entry into employment (Rule 6A-14.030, F.A.C.).

This program offers a sequence of courses that provides coherent and rigorous content aligned with challenging academic standards and relevant technical knowledge and skills needed to prepare for further education and careers in the Human Services career cluster; provides technical skill proficiency, and includes competency-based applied learning that contributes to the academic knowledge, higher-order reasoning and problem-solving skills, work attitudes, general employability skills, technical skills, and occupation-specific skills, and knowledge of all aspects of the Human Services career cluster.

This program focuses on broad, transferable skills and stresses understanding and demonstration of the following elements of the health care industry; planning, management, finance, technical and production skills, underlying principles of technology, labor issues, community issues and health, safety, and environmental issues.

The program is designed to prepare students for employment as psychiatric aides, case aides, unit treatment and rehabilitation specialists, or asylum attendants SOC Code 29-2053 (Psychiatric Technicians) or to provide supplemental training for persons previously or currently employed in these occupations.

The content includes, but is not limited to, concepts of mental health and mental illness; treatment plans and activities designed to stabilize, reorient, and rehabilitate mentally ill and emotionally disturbed patients; techniques of administration of prepackaged medication; observation of patients for changes in vital signs and behavior patterns; assisting patients in activities of daily living; supervising individual patients and patient teams; leadership and human relations; CPR, health, safety, and employability skills. The Health Careers Core must be taken by all students (secondary, postsecondary adult and postsecondary vocational) planning to complete any Health Occupations program. Once successfully completed, the core does not need to be repeated at any instructional level.

Additional Information relevant to this Career and Technical Education (CTE) program is provided at the end of this document.

Standards

After successfully completing this program, the student will be able to perform the following:

Human Services Core: The Human Services Core is a core of basic knowledge necessary for any Human Services career. Students who have previously completed the Human Services Careers Core or any other health occupations program do not have to repeat standards 01-09.

- 01.0 Demonstrate knowledge of the human services delivery system and human services occupations.
- 02.0 Demonstrate the ability to communicate and use interpersonal skills effectively.
- 03.0 Demonstrate legal and ethical responsibilities.

Additional Information

Laboratory Activities

Laboratory investigations that include scientific inquiry, research, measurement, problem solving, emerging technologies, tools and equipment, as well as, experimental, quality, and safety procedures are an integral part of this career and technical program/course. Laboratory investigations benefit all students by developing an understanding of the complexity and ambiguity of empirical work, as well as the skills required to manage, operate, calibrate and troubleshoot equipment/tools used to make observations. Students understand measurement error; and have the skills to aggregate, interpret, and present the resulting data. Equipment and supplies should be provided to enhance hands-on experiences for students.

Special Notes

This program meets the Department of Health HIV/AIDS and domestic violence education requirements. Upon completion of this program the instructor will provide a certificate to the student verifying that the HIV/AIDS and domestic violence requirements have been met.

If students in this program are seeking a licensure, certificate or registration through the Department of Health, please refer to 456.0635 F.S. for more information on disqualification for a license, certificate, or registration through the Department of Health.

Accommodations

Federal and state legislation requires the provision of accommodations for students with disabilities to meet individual needs and ensure equal access. Postsecondary students with disabilities must self-identify, present documentation, request accommodations if needed, and develop a plan with their counselor and/or instructors. Additional Information

Laboratory Activities

Laboratory investigations that include scientific inquiry, research, measurement, problem solving, emerging technologies, tools and equipment, as well as, experimental, quality, and safety procedures are an integral part of this career and technical program/course. Laboratory investigations benefit all students by developing an understanding of the complexity and ambiguity of empirical work, as well as the skills required to manage, operate, calibrate and troubleshoot equipment/tools used to make observations. Students understand measurement error; and have the skills to aggregate, interpret, and present the resulting data. Equipment and supplies should be provided to enhance hands-on experiences for students.

Special Notes

Either a community college or school district may offer the ATD program. A community college may offer the ATD as either college credit or vocational credit. A vocational technical center may offer the ATD as vocational credit only. Vocational credit will be converted to college credit upon transfer to the AS degree at the community college.

This program is part of the Human Services AS degree and guarantees transfer of 21 credit hours toward the related AS degree. Minimum entrance requirements for this program include a high school diploma or GED. Students must meet the minimum basic skills to complete this program.

Faculty teaching this program must have a minimum of a bachelor's degree in the specialty area or an associate degree and demonstrated competencies in the specialty area or meet the "exceptional cases" criteria as established by the Southern Association of Colleges and Schools.

No fees will be charged for the transfer of credit from a vocational technical center to a community college. The established statewide fee structure will be adhered to by both delivery systems.

This program meets the Department of Health HIV/AIDS and domestic violence education requirements. Upon completion of this program the instructor will provide a certificate to the student verifying that the HIV/AIDS and domestic violence requirements have been met.

If students in this program are seeking a licensure, certificate or registration through the Department of Health, please refer to 456.0635 F.S. for more information on disqualification for a license, certificate, or registration through the Department of Health.

Career and Technical Student Organization (CTSO)

HOSA is the appropriate career and technical student organization for providing leadership training and reinforcing specific career and technical skills. Career and Technical Student Organizations provide activities for students as an integral part of the instruction offered. The activities of such organizations are defined as part of the curriculum in accordance with Rule 6A-6.065, F.A.C.

Basic Skills

In PSAV programs offered for 450 hours or more, in accordance with Rule 6A-10.040, F.A.C. the minimum basic skills grade levels required for postsecondary adult career and technical students to complete this program are: Mathematics 10, Language 10, and Reading 10. These grade level numbers correspond to a grade equivalent score obtained on a state designated basic skills examination.

Adult students with disabilities, as defined in Section 1004.02(7), Florida Statutes, may be exempted from meeting the Basic Skills requirements (Rule 6A-10.040). Students served in exceptional student education (except gifted) as defined in s. 1003.01(3)(a), F.S., may also be exempted from meeting the Basic Skills requirement. Each school district and Florida College must adopt a policy addressing procedures for exempting eligible students with disabilities from the Basic Skills requirement as permitted in Section 1004.91(3), F.S.

Students who possess a college degree at the Associate of Applied Science level or higher; who have completed or are exempt from the college entry-level examination; or who have passed a state, national, or industry licensure exam are exempt from meeting the Basic Skills requirement (Rule 6A-10.040, F.A.C.) Exemptions from state, national or industry licensure are limited to the certifications listed at <http://www.fldoe.org/core/fileparse.php/5423/urlt/2014-15-basicskills-with-License-exempt.rtf>.

Accommodations

Federal and state legislation requires the provision of accommodations for students with disabilities to meet individual needs and ensure equal access. Postsecondary students with disabilities must self-identify, present documentation, request accommodations if needed, and develop a plan with their counselor and/or instructors. Accommodations received in postsecondary education may differ from those received in secondary education. Accommodations change the way the student is instructed. Students with disabilities may need accommodations in such areas as instructional methods and materials, assignments and assessments, time demands and schedules, learning environment, assistive technology and special communication systems. Documentation of the accommodations requested and provided should be maintained in a confidential file.

Note: postsecondary curriculum and regulated secondary programs cannot be modified.

Program Length

In accordance with Rule 6A-10.024, F.A.C. an ATD program consists of a course of study that is part of an AS or AAS degree program, is less than 60 credit hours, is approximately 50% of the technical component (non-general education), and leads to employment in a specific occupation. An ATD program may consist of either technical credit or college credit.

Students must have a high school diploma, a GED, or a certificate of completion to be admitted to an ATD program. Within six weeks of entry, students in ATD programs of 450 or more hours must be tested pursuant to Rule 6A-10.040, F.A.C. and if below minimum standards for completion from the program, must receive remedial instruction. The minimum standards must be at least the equivalent of a score of ten (10) on all sections of basic skills test approved in Rule 6A-10.040, F.A.C. Students must successfully complete all remedial instruction before completing the ATD.

Community Colleges may offer either college or career credit toward the ATD. A Career Center in a public school district may offer an ATD program only as technical credit, with college credit awarded to a student upon articulation to a community college (Section 1004.02, F.S.)

When offered at a community college the standard length of this program is 21 credits. When offered at a technical center the standard length of this program is 630 clock hours.

In accordance with Rule 6A-10.024, F.A.C. all faculty providing instruction must have at least a baccalaureate degree or an associate degree with demonstrated competencies in the specific instructional program as defined by the Southern Association of Colleges and Schools.

Purpose

This certificate program is part of the Human Services AS degree program (1351150400).

A College Credit Certificate consists of a program of instruction of less than sixty (60) credits of college-level courses, which is part of an AS or AAS degree program and prepares students for entry into employment (Rule 6A-14.030, F.A.C.).

This program offers a sequence of courses that provides coherent and rigorous content aligned with challenging academic standards and relevant technical knowledge and skills needed to prepare for further education and careers in the Human Services career cluster; provides technical skill proficiency, and includes competency-based applied learning that contributes to the academic knowledge, higher-order reasoning and problem-solving skills, work attitudes, general employability skills, technical skills, and occupation-specific skills, and knowledge of all aspects of the Human Services career cluster.

This College Credit Certificate program is designed to be the first educational step to a professional career in Human Services as Human Service Assistants, Social Service Aides or Case Management Aides (SOC 21-1093), or other positions that are a part of the social services delivery. It will provide credit course work and field experience for those employed in human service occupations as well as those who seek to enter the profession without experience.

The College Credit Certificate will focus on broad introductory principles of human behavior specific to the good practices and techniques in human service. Course work will enable student's to employ effective communications and interpersonal skills, understand the legal and ethical responsibilities of human services and demonstrate computer literacy.

Through a twenty seven (27) credit hour program, students will demonstrate knowledge of the human services system, specifically how it affects practice and policy as well as the roles of human service workers in various settings. Students must be able to demonstrate knowledge of human development from birth to senescence, understand adaptive and maladaptive patterns of behavior and have an understanding of various treatment modalities and therapeutic interventions.

Students must develop effective interpersonal communication with clients, co-workers and supervisors. They must be able to demonstrate assessment, evaluation, problem solving and referral and crisis intervention skills as well as a working knowledge of legal and ethical issues related to human services.

Additional Information relevant to this Career and Technical Education (CTE) program is provided at the end of this document.

Standards

After successfully completing this program, the student will be able to perform the following:

Additional Information

Laboratory Activities

Laboratory investigations that include scientific inquiry, research, measurement, problem solving, emerging technologies, tools and equipment, as well as, experimental, quality, and safety procedures are an integral part of this career and technical program/course. Laboratory investigations benefit all students by developing an understanding of the complexity and ambiguity of empirical work, as well as the skills required to manage, operate, calibrate and troubleshoot equipment/tools used to make observations. Students understand measurement error; and have the skills to aggregate, interpret, and present the resulting data. Equipment and supplies should be provided to enhance hands-on experiences for students.

Special Notes

This program meets the Department of Health HIV/AIDS and domestic violence education requirements. Upon completion of this program the instructor will provide a certificate to the student verifying that the HIV/AIDS and domestic violence requirements have been met.

If students in this program are seeking a licensure, certificate or registration through the Department of Health, please refer to 456.0635 F.S. for more information on disqualification for a license, certificate, or registration through the Department of Health.

Accommodations

Federal and state legislation requires the provision of accommodations for students with disabilities to meet individual needs and ensure equal access. Postsecondary students with disabilities must self-identify, present documentation, request accommodations if needed, and develop a plan with their counselor and/or instructors. Accommodations received in postsecondary education may differ from those received in secondary education. Accommodations change the way the student is instructed. Additional Information

Laboratory Activities

Laboratory investigations that include scientific inquiry, research, measurement, problem solving, emerging technologies, tools and equipment, as well as, experimental, quality, and safety procedures are an integral part of this career and technical program/course. Laboratory investigations benefit all students by developing an understanding of the complexity and ambiguity of empirical work, as well as the skills required to manage, operate, calibrate and troubleshoot equipment/tools used to make observations. Students understand measurement error; and have the skills to aggregate, interpret, and present the resulting data. Equipment and supplies should be provided to enhance hands-on experiences for students.

Accommodations

Federal and state legislation requires the provision of accommodations for students with disabilities to meet individual needs and ensure equal access. Postsecondary students with disabilities must self-identify, present documentation, request accommodations if needed, and develop a plan with their counselor and/or instructors. Accommodations received in postsecondary education may differ from those received in secondary education. Accommodations change the way the student is instructed. Students with disabilities may need accommodations in such areas as instructional methods and materials, assignments and assessments, time demands and schedules, learning environment, assistive technology and special communication systems. Documentation of the accommodations requested and provided should be maintained in a confidential file.

Additional Information

Laboratory Activities

Laboratory investigations that include scientific inquiry, research, measurement, problem solving, emerging technologies, tools and equipment, as well as, experimental, quality, and safety procedures are an integral part of this career and technical program/course. Laboratory investigations benefit all students by developing an understanding of the complexity and ambiguity of empirical work, as well as the skills required to manage, operate, calibrate and troubleshoot equipment/tools used to make observations. Students understand measurement error; and have the skills to aggregate, interpret, and present the resulting data. Equipment and supplies should be provided to enhance hands-on experiences for students.

Special Notes

Special interest to those students in Tracks I and II will be obtaining certification by the Florida Certification Board. National accreditation for human services programs is available from the Council for Standards in Human Service Education (CSHSE).

This program meets the Department of Health HIV/AIDS and domestic violence education requirements. Upon completion of this program the instructor will provide a certificate to the student verifying that the HIV/AIDS and domestic violence requirements have been met.

If students in this program are seeking a licensure, certificate or registration through the Department of Health, please refer to 456.0635 F.S. for more information on disqualification for a license, certificate, or registration through the Department of Health.

Track I: Graduates will be eligible for employment as practitioners in occupations in the Human services fields.

Track II: This program includes multi-disciplinary foundations and builds on the competencies required in Track I. Education is required in psychopharmacology, the etiology and course of abuse, the pharmacology of substances which are consciousness altering and subject to abuse, case record keeping, methods of intervention, identifying and using appropriate resources, current federal and states rules and regulations governing the treatment of individuals abusing consciousness altering drugs, and the scope and limits of ethical expectations in the treatment of individuals abusing consciousness altering substances.

The program is designed to provide the academic and addiction-specific education requirement of the Florida Certification Board.

Career and Technical Student Organization (CTSO)

HOSA (Future Health Professionals) is the appropriate career and technical student organization for providing leadership training and reinforcing specific career and technical skills. Career and Technical Student Organizations provide activities for students as an integral part of the instruction offered. The activities of such organizations are defined as part of the curriculum in accordance with Rule 6A-6.065, F.A.C.

Accommodations

Federal and state legislation requires the provision of accommodations for students with disabilities to meet individual needs and ensure equal access. Postsecondary students with disabilities must self-identify, present documentation, request accommodations if needed, and develop a plan with their counselor and/or instructors. Accommodations received in postsecondary education may differ from those received in secondary

education. Accommodations change the way the student is instructed. Students with disabilities may need accommodations in such areas as instructional methods and materials, assignments and assessments, time demands and schedules, learning environment, assistive technology and special communication systems. Documentation of the accommodations requested and provided should be maintained in a confidential file.

Certificate Programs

A College Credit Certificate consists of a program of instruction of less than sixty (60) credits of college-level courses, which is part of an AS or AAS degree program and prepares students for entry into employment (Rule 6A-14.030, F.A.C.). This AS degree program includes the following College Credit Certificates:

05.04 Practice conflict resolution techniques.

06.0 Demonstrate employability skills – the student will be able to:

06.01 Identify academic skills required for job success.

06.02 Recognize factors that may influence career choices.

06.03 Identify sources of career information.

06.04 List the steps in a job search.

06.05 Demonstrate effective interviewing skills

06.06 Identify existing Family and Consumer Sciences career pathways within the school system.

07.0 Create and maintain an employment portfolio – the student will be able to:

07.01 Identify the components of a portfolio.

07.02 Discuss the value of a career portfolio.

07.03 Prepare a computer-generated portfolio.

07.04 Maintain the portfolio components in a professionally organized format.

CTE Standards and Benchmarks

08.0	Demonstrate critical thinking skills and application of the decision making process as it relates to personal and work situations – the student will be able to:
08.01	Define the decision-making process.
08.02	Apply the decision making-process in workplace situations.
08.03	Demonstrate the ability to apply critical thinking skills.
09.0	Recognize and demonstrate effective communication skills – the student will be able to:
09.01	Define assertive, aggressive, and passive communication.
09.02	Identify the impact of non-verbal behavior on communication.
09.03	Analyze the importance of accepting constructive criticism.
09.04	Demonstrate techniques for dealing with criticism.
09.05	Demonstrate computer literacy.
09.06	Practice appropriate written and verbal communication necessary for the workplace.
09.07	Practice effective presentation techniques.
10.0	Identify appropriate dress for various job experiences – the student will be able to:
10.01	Practice good grooming techniques.
10.02	Identify the factors needed to create an economical, coordinated, easy care work wardrobe.
10.03	Select appropriate clothing for a variety of careers and work situations.
11.0	Recognize the importance of healthy choices as they relate to the well-being of the individual – the student will be able to:
11.01	Define and describe symptoms of stress.

15.04 Identify first aid procedures for accidents and injuries.

16.0 Identify career pathways related to family and consumer sciences – the student will be able to:

16.01 Define and describe the different types of businesses related to Family and Consumer Sciences career pathways.

CTE Standards and Benchmarks

16.02 Explain entrepreneurship.

16.03 Describe the risks and advantages of entrepreneurship.

16.04 Develop an entrepreneur business plan for a Family and Consumer Sciences career pathway.

16.05 Operate an on-site business related to a Family and Consumer Sciences career pathway.

Additional Information

Laboratory Activities

Laboratory investigations that include scientific inquiry, research, measurement, problem solving, emerging technologies, tools and equipment, as well as, experimental, quality, and safety procedures are an integral part of this career and technical program/course. Laboratory investigations benefit all students by developing an understanding of the complexity and ambiguity of empirical work, as well as the skills required to manage, operate, calibrate and troubleshoot equipment/tools used to make observations. Students understand measurement error; and have the skills to aggregate, interpret, and present the resulting data. Equipment and supplies should be provided to enhance hands-on experiences for students.

Special Notes

The length of this course is one semester. It may be offered for two semesters when appropriate. When offered for one semester, it is recommended that it be at the exploratory level and more in-depth when offered for two semesters.

Accommodations

Federal and state legislation requires the provision of accommodations for students with disabilities as identified on the secondary student's Individual Educational Plan (IEP) or 504 plan or postsecondary student's accommodations' plan to meet individual needs and ensure equal access. Accommodations change the way the student is instructed. Students with disabilities may need accommodations in such areas as instructional methods and materials, assignments and assessments, time demands and schedules, learning environment, assistive technology and special communication systems. Documentation of the accommodations requested and provided should be maintained in a confidential file.

In addition to accommodations, some secondary students with disabilities (students with an IEP served in Exceptional Student Education (ESE)) will need modifications to meet their needs. Modifications change the outcomes or what the student is expected to learn, e.g., modifying the curriculum of a secondary career and technical education course. Note: postsecondary curriculum and regulated secondary programs cannot be modified.

Purpose

This program offers a sequence of courses that provides coherent and rigorous content aligned with challenging academic standards and relevant technical knowledge and skills needed to prepare for further education and careers in the Human Services career cluster; provides technical skill proficiency, and includes competency-based applied learning that contributes to the academic knowledge, higher-order reasoning and problem-solving skills, work attitudes, general employability skills, technical skills, and occupation-specific skills, and knowledge of all aspects of the Human Services career cluster.

The content includes but is not limited to parenting roles and responsibilities; nurturing and protective environments for children; positive parenting strategies; effective communication in parent/child relationships; multicultural diversity and trends in technology.

Additional Information relevant to this Career and Technical Education (CTE) program is provided at the end of this document.

Program Structure

This program is a planned sequence of instruction consisting of .5 credits.

Academic Alignment Table

Academic alignment is an ongoing, collaborative effort of professional educators specializing in the fields of science, mathematics, English/language arts, and Career and Technical Education (CTE). This initiative supports CTE programs by improving student performance through the integration of academic content within CTE courses. Career and Technical Education courses that have been aligned to the Next Generation Sunshine State Standards for Science and the Florida Standards for Mathematics and English/Language Arts will show the following data: the quantity of academic standards in the CTE course; the total number of standards contained in the academic course; and the percentage of alignment to the CTE course.

Florida Standards for Technical Subjects

Florida Standards (FS) for English Language Arts and Literacy in History/Social Studies, Science, and Technical Subjects are the critical reading and writing literacy standards designed for grade 6 and above. These standards are predicated on teachers of history/social studies, science, and technical subjects using their content area expertise to help students meet the particular challenges of reading, writing, speaking, listening, and language in their respective fields. It is important to note that the 6-12 literacy standards in history/social studies, science, and technical subjects are not meant to replace content standards in those areas but rather to supplement them.

This curriculum framework incorporates the grades 9-10 reading and writing literacy standards in the first two courses of this CTE program and grade 11-12 reading and writing literacy standards in the third and fourth courses of this CTE program. The standards for Mathematical Practices describe varieties of expertise that educators at all levels should seek to develop in their students. These practices rest on important “processes and proficiencies” with longstanding importance in mathematics education. This curriculum framework incorporates the appropriate mathematical practices in the first four courses of this CTE program.

Common Career Technical Core – Career Ready Practices

Career Ready Practices describe the career-ready skills that educators should seek to develop in their students. These practices are not exclusive to a Career Pathway, program of study, discipline or level of education. Career Ready Practices should be taught and reinforced in all career exploration and preparation programs with increasingly higher levels of complexity and expectation as a student advances through a program of study.

1. Act as a responsible and contributing citizen and employee.
2. Apply appropriate academic and technical skills.
3. Attend to personal health and financial well-being.
4. Communicate clearly, effectively and with reason.
5. Consider the environmental, social and economic impacts of decisions.
6. Demonstrate creativity and innovation.
7. Employ valid and reliable research strategies.
8. Utilize critical thinking to make sense of problems and persevere in solving them.
9. Model integrity, ethical leadership and effective management.
10. Plan education and career path aligned to personal goals.
11. Use technology to enhance productivity.
12. Work productively in teams while using cultural/global competence.

Standards

After successfully completing this program, the student will be able to perform the following:

- 01.0 Methods and strategies for using Florida Standards for grades 09-10 reading in Technical Subjects for student success in Parenting Skills.
- 02.0 Methods and strategies for using Florida Standards for grades 09-10 writing in Technical Subjects for student success in Parenting Skills.
- 03.0 Methods and strategies for using Florida Standards for grades 09-10 Mathematical Practices in Technical Subjects for student success in Parenting Skills.
- 04.0 Analyze and evaluate parenting roles and responsibilities.
- 05.0 Define self-esteem and relate it to self-image and behaviors in both parents and children.
- 06.0 Define and explain a nurturing and protective environment for children.
- 07.0 Describe positive parenting skills in guiding children's behavior at different stages (including the special needs child).
- 08.0 Emphasize the importance of effective communication in parent/child relationships.
- 09.0 Identify and summarize family and community support systems.
- 10.0 Describe parenting issues and concerns.
- 11.0 Demonstrate an awareness of the diversity of today's family unit.
- 12.0 Demonstrate an understanding of family, multicultural and ethnic diversity and its impact on parents and children.
- 13.0 Relate current trends and technological advances to the parenting process.
- 14.0 Demonstrate leadership and organizational skills.
- 15.0 Analyze recent trends/developments in brain research.

Course Title: Parenting Skills
Course Number: 8500300
Course Credit: .5

Course Description:

The purpose of this course is to prepare students for the multiple roles essential to becoming a model parent and to understand the dual roles of males and females as parents and wage earners. This course will also enhance their abilities to assist children to become effective citizens in a multicultural and technological society.

04.0 Analyze and evaluate parenting roles and responsibilities – the student will be able to:		
04.01 Define parenting and related terminology.		
04.02 Describe the myths and realities of parenthood.		
04.03 Analyze the positive and negative reasons for having children.		
04.04 Evaluate the financial impact of rearing children.		
04.05 Describe characteristics of nurturing parents and family members.		
04.06 Assess the roles, responsibilities and rewards involved in being an effective parent.		
04.07 Compare and contrast parenting styles such as democratic, permissive and authoritarian.		
04.08 Determine the attitudes and characteristics that would indicate personal readiness for parenthood.		
05.0 Define self-esteem and relate it to self-image and behaviors in both parents and children – the student will be able to:		
05.01 Define self-esteem.		
05.02 Analyze the characteristics of people with both high and low self-esteem.		
05.03 Discuss how positive self-esteem affects children throughout the developmental stages.		
05.04 Develop strategies to encourage high self-esteem in children throughout developmental stages.		
05.05 Analyze factors that have a negative impact on a child's self-esteem.		
05.06 List and discuss activities, clubs, sports, etc. and their impact on children's and parent's self-esteem.		

CTE Standards and Benchmarks		FS-M/LA	NGSSS-Sci
06.0	Define and explain a nurturing and protective environment for children – the student will be able to:		
06.01	Define and explain the meaning of a nurturing and protective environment.		
06.02	Identify the developmental stages of children (physical, social, emotional and intellectual.)		
06.03	Demonstrate an awareness of appropriate physical care of children including bathing, feeding, dressing and health routines.		
06.04	Identify and discuss factors that would enhance or impede positive parenting and family relationships (to include divorce, death, HIV/AIDS, latchkey children, drugs and suicide).		
06.05	Define child abuse and neglect and differentiate between the types of child abuse and neglect.		
06.06	Describe the influence of personal and environmental factors that can result in child abuse.		
06.07	Define Shaken Baby Syndrome.		
06.08	Assess the skills needed for parenting children with special needs or who are at risk.		
06.09	Explain ways to assist children in managing stress.		
06.10	Devise strategies that will assist parents in becoming involved in their children's education at home and at school.		
06.11	Evaluate factors to consider when selecting child care.		
07.0	Describe positive parenting skills in guiding children's behavior at different stages (including the special needs child) – the student will be able to:		
07.01	Identify and discuss positive parenting skills.		
07.02	Distinguish between responsible and irresponsible behavior in children at different developmental stages.		
07.03	Define and explain: discipline, punishment, and guidance.		
07.04	Outline acceptable methods of guidance used to modify behavior in a child.		
08.0	Emphasize the importance of effective communication in parent/child relationships – the student will be able to:		
08.01	Define effective communication and relate it to a child's social, emotional, and intellectual development.		
08.02	Discuss the importance of openness and truthfulness in parent/child communication.		

CTE Standards and Benchmarks		FS-M/LA	NGSSS-Sci
08.03	Differentiate between positive and negative communication between parent and child.		
08.04	Compile a list of effective methods used to encourage parent/child communication.		
09.0	Identify and summarize family and community support systems – the student will be able to:		
09.01	Prepare a list of community resources available to families and summarize their services.		
09.02	Research and report on state and federal resources that provide support for families.		
10.0	Describe parenting issues and concerns – the student will be able to:		
10.01	Analyze the influences of television and other media on the family.		
10.02	Develop and analyze a list of social problems that affect parenting.		
10.03	Identify responsibilities and concerns relative to teen parenting.		
11.0	Demonstrate an awareness of the diversity of today's family unit – the student will be able to:		
11.01	Describe factors that cause diversity in families.		
11.02	Compare the differences between lifestyles of today and the past.		
11.03	Analyze ways of strengthening families that are diverse.		
12.0	Demonstrate an understanding of family, multicultural and ethnic diversity and its impact on parents and children – the student will be able to:		
12.01	Define family, multicultural and ethnic diversity.		
12.02	Define cultural bias, stereotypes and prejudices and determine how each limits and/or interferes with effective parenting.		
12.03	Analyze and determine similarities and differences among multicultural families.		
12.04	Develop strategies to help families assimilate into a new and different cultural environment.		
12.05	Determine ways parents can assist their children in distinguishing between truths and myths regarding other cultures.		
13.0	Relate current trends and technological advances to the parenting process – the student will be able to:		
13.01	Compile a list of current trends and new technology and discuss their relationship to the parenting process.		

CTE Standards and Benchmarks		FS-M/LA	NGSSS-Sci
13.02	Devise methods of keeping abreast of current trends and new technology that impact parenting.		
13.03	Research and report on adaptive tools and equipment used by children with special needs.		
13.04	Demonstrate an awareness of how new technology and adaptive tools and equipment can be used to enhance parenting.		
14.0	Demonstrate leadership and organizational skills – the student will be able to:		
14.01	Identify vocational youth organizations related to family life.		
14.02	Determine purposes and functions of vocational youth organizations.		
14.03	Explain roles and responsibilities of members and work cooperatively as a group member to achieve organizational goals.		
14.04	Demonstrate confidence in leadership roles and organizational responsibilities.		
14.05	Demonstrate commitment to achieve organizational goals.		
14.06	Develop a personal growth project.		
14.07	Weigh competitive events for vocational youth organizations.		
15.0	Analyze recent trends/developments in brain research – the student will be able to:		
15.01	Conduct a study of brain research as it relates to the development of the brain from 0-6 years, using various forms of media, including magazines, books, and the internet. Summarize findings.		
15.02	Explain why the first three years of life are critical to a child's development.		
15.03	Describe adult-child interactions during infancy and early childhood that promote healthy emotional and social development.		
15.04	Using the media center, prepare a list of books and other resources on brain research.		
15.05	Give examples of activities that are age appropriate for ages 0-6.		

Additional Information

Laboratory Activities

Laboratory investigations that include scientific inquiry, research, measurement, problem solving, emerging technologies, tools and equipment, as well as, experimental, quality, and safety procedures are an integral part of this career and technical program/course. Laboratory investigations benefit all students by developing an understanding of the complexity and ambiguity of empirical work, as well as the skills required to manage, operate, calibrate and troubleshoot equipment/tools used to make observations. Students understand measurement error; and have the skills to aggregate, interpret, and present the resulting data. Equipment and supplies should be provided to enhance hands-on experiences for students.

Career and Technical Student Organization (CTSO)

Family, Career and Community Leaders of America (FCCLA) is the inter-curricular career and technical student organization providing leadership training and reinforcing specific career and technical skills. Career and Technical Student Organizations provide activities for students as an integral part of the instruction offered. The activities of such organizations are defined as part of the curriculum in accordance with Rule 6A-6.065, F.A.C.

Cooperative Training – OJT

On-the-job training is appropriate but not required for this program. Whenever offered, the rules, guidelines, and requirements specified in the OJT framework apply.

Accommodations

Federal and state legislation requires the provision of accommodations for students with disabilities as identified on the secondary student's Individual Educational Plan (IEP) or 504 plan or postsecondary student's accommodations' plan to meet individual needs and ensure equal access. Accommodations change the way the student is instructed. Students with disabilities may need accommodations in such areas as instructional methods and materials, assignments and assessments, time demands and schedules, learning environment, assistive technology and special communication systems. Documentation of the accommodations requested and provided should be maintained in a confidential file.

In addition to accommodations, some secondary students with disabilities (students with an IEP served in Exceptional Student Education (ESE)) will need modifications to meet their needs. Modifications change the outcomes or what the student is expected to learn, e.g., modifying the curriculum of a secondary career and technical education course. Note: postsecondary curriculum and regulated secondary programs cannot be modified.

Some secondary students with disabilities (ESE) may need additional time (i.e., longer than the regular school year), to master the student performance standards associated with a regular Occupational Completion Point (OCP) or a Modified Occupational Completion Point (MOCP). If needed, a student may enroll in the same career and technical course more than once. Documentation should be included in the IEP that clearly indicates that it is anticipated that the student may need an additional year to complete an OCP/MOCP. The student should work on different competencies and new applications of competencies each year toward completion of the OCP/MOCP. After achieving the competencies identified for the year, the student earns credit for the course. It is important to ensure that credits earned by students are reported accurately. The district's information system must be designed to accept multiple credits for the same course number for eligible students with disabilities.

Program Title: Family Dynamics
Program Type: Non Career Preparatory
Career Cluster: Human Services

Secondary – Non Career Preparatory

Program Number	8500345
CIP Number	09200116PA
Grade Level	9-12, 30, 31
Standard Length	.5 credit
Teacher Certification	FAM CON SC 1
CTSO	FCCLA
CTE Program Resources	http://www.fldoe.org/academics/career-adult-edu/career-tech-edu/program-resources.stml

Purpose

This program offers a sequence of courses that provides coherent and rigorous content aligned with challenging academic standards and relevant technical knowledge and skills needed to prepare for further education and careers in the Human Services career cluster; provides technical skill proficiency, and includes competency-based applied learning that contributes to the academic knowledge, higher-order reasoning and problem-solving skills, work attitudes, general employability skills, technical skills, and occupation-specific skills, and knowledge of all aspects of the Human Services career cluster.

The content includes but is not limited to: recognizing the role and importance of the family; formulating skills in preparation for successful adult and family life; studying the family life cycle; developing skills to build and maintain healthy family relationships; addressing current issues that create stress and conflict within the family unit; recognizing the importance of balancing work and family; and evaluating the impact of technological and social forces on the family - past, present and future.

Additional Information relevant to this Career and Technical Education (CTE) program is provided at the end of this document.

Program Structure

This program is a planned sequence of instruction consisting of ½ credit.

Academic Alignment Table

Academic alignment is an ongoing, collaborative effort of professional educators specializing in the fields of science, mathematics, English/language arts, and Career and Technical Education (CTE). This initiative supports CTE programs by improving student performance through the integration of academic content within CTE courses. Career and Technical Education courses that have been aligned to the Next Generation Sunshine State Standards for Science and the Florida Standards for Mathematics and English/Language Arts will show the following data: the quantity of academic standards in the CTE course; the total number of standards contained in the academic course; and the percentage of alignment to the CTE course.

Florida Standards for Technical Subjects

Florida Standards (FS) for English Language Arts and Literacy in History/Social Studies, Science, and Technical Subjects are the critical reading and writing literacy standards designed for grade 6 and above. These standards are predicated on teachers of history/social studies, science, and technical subjects using their content area expertise to help students meet the particular challenges of reading, writing, speaking, listening, and language in their respective fields. It is important to note that the 6-12 literacy standards in history/social studies, science, and technical subjects are not meant to replace content standards in those areas but rather to supplement them.

This curriculum framework incorporates the grades 9-10 reading and writing literacy standards in the first two courses of this CTE program and grade 11-12 reading and writing literacy standards in the third and fourth courses of this CTE program. The standards for Mathematical Practices describe varieties of expertise that educators at all levels should seek to develop in their students. These practices rest on important “processes and proficiencies” with longstanding importance in mathematics education. This curriculum framework incorporates the appropriate mathematical practices in the first four courses of this CTE program.

Common Career Technical Core – Career Ready Practices

Career Ready Practices describe the career-ready skills that educators should seek to develop in their students. These practices are not exclusive to a Career Pathway, program of study, discipline or level of education. Career Ready Practices should be taught and reinforced in all career exploration and preparation programs with increasingly higher levels of complexity and expectation as a student advances through a program of study.

1. Act as a responsible and contributing citizen and employee.
2. Apply appropriate academic and technical skills.
3. Attend to personal health and financial well-being.
4. Communicate clearly, effectively and with reason.
5. Consider the environmental, social and economic impacts of decisions.
6. Demonstrate creativity and innovation.
7. Employ valid and reliable research strategies.
8. Utilize critical thinking to make sense of problems and persevere in solving them.
9. Model integrity, ethical leadership and effective management.
10. Plan education and career path aligned to personal goals.
11. Use technology to enhance productivity.
12. Work productively in teams while using cultural/global competence.

Standards

After successfully completing this program, the student will be able to perform the following:

- 01.0 Methods and strategies for using Florida Standards for grades 09-10 reading in Technical Subjects for student success in Family Dynamics.
- 02.0 Methods and strategies for using Florida Standards for grades 09-10 writing in Technical Subjects for student success in Family Dynamics.
- 03.0 Methods and strategies for using Florida Standards for grades 09-10 Mathematical Practices in Technical Subjects for student success in Family Dynamics.
- 04.0 Identify concerns adolescents' face regarding their changing bodies as a part of human development, behavior and relationships.
- 05.0 Prepare for adult and family life.
- 06.0 Specify the role and significance of the family.
- 07.0 Examine the major phases in the family life cycle.
- 08.0 Build healthy family relationships.
- 09.0 Develop strategies for managing stress, conflict and crisis.
- 10.0 Assess the importance of balancing work and family.
- 11.0 Evaluate forces that impact the family.
- 12.0 Demonstrate leadership and organizational skills.
- 13.0 Identify recent trends/developments in brain research.

Course Title: Family Dynamics
Course Number: 8500345
Course Credit: .5

Course Description:

The purpose of this course is to prepare students for the roles, responsibilities and relationships essential to functional families and to understand the nature, function, and significance of human relationships within family and individual units.

10.02	Describe latchkey children and identify issues and concerns.		
10.03	Identify factors that endanger personal and family safety, and formulate preventive actions.		
10.04	Describe the needs and care requirements of elderly family members.		
10.05	Describe the needs and care requirements of children of working parents.		
10.06	Analyze on site/corporate childcare and its benefits.		
10.07	Research the availability and benefits of shared jobs/flex time.		
11.0	Evaluate forces that impact the family – the student will be able to:		
11.01	Compare, select and use current technology for the home.		
11.02	Assess the positive and negative effects of the media as it relates to family life.		
11.03	Describe the interrelationship between school and family.		
11.04	Research current laws regarding the family and their effects on member's rights, privileges and responsibilities.		
11.05	Evaluate the cause and effect relationship of the economy on economic independence of families.		
11.06	Assess the impact of family mobility in today's society.		
12.0	Demonstrate leadership and organizational skills – the student will be able to:		
12.01	Identify professional and youth organizations.		
12.02	Identify purposes and functions of professional and youth organizations.		
12.03	Identify roles and responsibilities of members of professional and youth organizations.

Additional Information

Laboratory Activities

Laboratory investigations that include scientific inquiry, research, measurement, problem solving, emerging technologies, tools and equipment, as well as, experimental, quality, and safety procedures are an integral part of this career and technical program/course. Laboratory investigations benefit all students by developing an understanding of the complexity and ambiguity of empirical work, as well as the skills required to manage, operate, calibrate and troubleshoot equipment/tools used to make observations. Students understand measurement error; and have the skills to aggregate, interpret, and present the resulting data. Equipment and supplies should be provided to enhance hands-on experiences for students.

Career and Technical Student Organization (CTSO)

Family, Career and Community Leaders of America (FCCLA) is the inter-curricular career and technical student organization providing leadership training and reinforcing specific career and technical skills. Career and Technical Student Organizations provide activities for students as an integral part of the instruction offered. The activities of such organizations are defined as part of the curriculum in accordance with Rule 6A-6.065, F.A.C.

Cooperative Training – OJT

On-the-job training is appropriate but not required for this program. Whenever offered, the rules, guidelines, and requirements specified in the OJT framework apply.

Accommodations

Federal and state legislation requires the provision of accommodations for students with disabilities as identified on the secondary student's Individual Educational Plan (IEP) or 504 plan or postsecondary student's accommodations' plan to meet individual needs and ensure equal access. Accommodations change the way the student is instructed. Students with disabilities may need accommodations in such areas as instructional methods and materials, assignments and assessments, time demands and schedules, learning environment, assistive technology and special communication systems. Documentation of the accommodations requested and provided should be maintained in a confidential file.

In addition to accommodations, some secondary students with disabilities (students with an IEP served in Exceptional Student Education (ESE)) will need modifications to meet their needs. Modifications change the outcomes or what the student is expected to learn, e.g., modifying the curriculum of a secondary career and technical education course. Note: postsecondary curriculum and regulated secondary programs cannot be modified.

Some secondary students with disabilities (ESE) may need additional time (i.e., longer than the regular school year), to master the student performance standards associated with a regular Occupational Completion Point (OCP) or a Modified Occupational Completion Point (MOCP). If needed, a student may enroll in the same career and technical course more than once. Documentation should be included in the IEP that clearly indicates that it is anticipated that the student may need an additional year to complete an OCP/MOCP. The student should work on different competencies and new applications of competencies each year toward completion of the OCP/MOCP. After achieving the competencies identified for the year, the student earns credit for the course. It is important to ensure that credits earned by students are reported accurately. The district's information system must be designed to accept multiple credits for the same course number for eligible students with disabilities.

Purpose

This program offers a sequence of courses that provides coherent and rigorous content aligned with challenging academic standards and relevant technical knowledge and skills needed to prepare for further education and careers in the Human Services career cluster; provides technical skill proficiency, and includes competency-based applied learning that contributes to the academic knowledge, higher-order reasoning and problem-solving skills, work attitudes, general employability skills, technical skills, and occupation-specific skills, and knowledge of all aspects of the Human Services career cluster.

The content includes but is not limited to the latest technology as it relates to the home and the global role of the family. Leadership and organizational skills are a vital part of this program.

Additional Information relevant to this Career and Technical Education (CTE) program is provided at the end of this document.

Program Structure

This program is a planned sequence of instruction consisting of 1 credit.

Academic Alignment Table

Academic alignment is an ongoing, collaborative effort of professional educators specializing in the fields of science, mathematics, English/language arts, and Career and Technical Education (CTE). This initiative supports CTE programs by improving student performance through the integration of academic content within CTE courses. Career and Technical Education courses that have been aligned to the Next Generation Sunshine State Standards for Science and the Florida Standards for Mathematics and English/Language Arts will show the following data: the quantity of academic standards in the CTE course; the total number of standards contained in the academic course; and the percentage of alignment to the CTE course.

Florida Standards for Technical Subjects

Florida Standards (FS) for English Language Arts and Literacy in History/Social Studies, Science, and Technical Subjects are the critical reading and writing literacy standards designed for grade 6 and above. These standards are predicated on teachers of history/social studies, science, and technical subjects using their content area expertise to help students meet the particular challenges of reading, writing, speaking, listening, and language in their respective fields. It is important to note that the 6-12 literacy standards in history/social studies, science, and technical subjects are not meant to replace content standards in those areas but rather to supplement them.

This curriculum framework incorporates the grades 9-10 reading and writing literacy standards in the first two courses of this CTE program and grade 11-12 reading and writing literacy standards in the third and fourth courses of this CTE program. The standards for Mathematical Practices describe varieties of expertise that educators at all levels should seek to develop in their students. These practices rest on important “processes and proficiencies” with longstanding importance in mathematics education. This curriculum framework incorporates the appropriate mathematical practices in the first four courses of this CTE program.

Common Career Technical Core – Career Ready Practices

Career Ready Practices describe the career-ready skills that educators should seek to develop in their students. These practices are not exclusive to a Career Pathway, program of study, discipline or level of education. Career Ready Practices should be taught and reinforced in all career exploration and preparation programs with increasingly higher levels of complexity and expectation as a student advances through a program of study.

1. Act as a responsible and contributing citizen and employee.
2. Apply appropriate academic and technical skills.
3. Attend to personal health and financial well-being.
4. Communicate clearly, effectively and with reason.
5. Consider the environmental, social and economic impacts of decisions.
6. Demonstrate creativity and innovation.
7. Employ valid and reliable research strategies.
8. Utilize critical thinking to make sense of problems and persevere in solving them.
9. Model integrity, ethical leadership and effective management.
10. Plan education and career path aligned to personal goals.
11. Use technology to enhance productivity.
12. Work productively in teams while using cultural/global competence.

Standards

After successfully completing this program, the student will be able to perform the following:

- 01.0 Methods and strategies for using Florida Standards for grades 09-10 reading in Technical Subjects for student success in Family, Home and Consumer Technology.
- 02.0 Methods and strategies for using Florida Standards for grades 09-10 writing in Technical Subjects for student success in Family, Home and Consumer Technology.
- 03.0 Methods and strategies for using Florida Standards for grades 09-10 Mathematical Practices in Technical Subjects for student success in Family, Home and Consumer Technology.
- 04.0 Analyze current and future trends in food technology.
- 05.0 Utilize current technology and resources in food management.
- 06.0 Assess careers related to the food industry.
- 07.0 Integrate the use of technology to explore solutions for global food issues utilizing cooperative learning strategies.
- 08.0 Assess current and future trends in consumer and personal finance.
- 09.0 Analyze the purchase and maintenance cost of current household equipment.
- 10.0 Assess careers related to the consumer industry.
- 11.0 Analyze the impact of consumer technology on the individual and family.
- 12.0 Formulate ideas for future trends in residential environments.
- 13.0 Consider current technology and resources in housing.
- 14.0 Analyze residential alternatives.
- 15.0 Explore environmental and ecological issues related to a person's residence.
- 16.0 Utilize technology to evaluate residential and maintenance costs.
- 17.0 Assess careers related to the residential industry.
- 18.0 Appraise the impact of residential technology on the family unit.
- 19.0 Formulate ideas for future trends in apparel technology.
- 20.0 Consider current innovative technology and resources within the apparel industry.
- 21.0 Explore environmental, ecological, and global issues related to apparel.
- 22.0 Analyze textile science.
- 23.0 Assess careers related to the apparel industry.
- 24.0 Explore the impact of technology on apparel selections by individuals and families.
- 25.0 Demonstrate leadership and organizational skills.

Course Title: Family, Home and Consumer Technology
Course Number: 8500365
Course Credit: 1

Course Description:

The purpose of this course is to show future trends in food and consumer technology, global food issues, impact of food technology, trends in consumer and personal finance, consumer decisions, cost of technology equipment, and the impact consumer technology on the family unit. Additionally, it includes future trends in equipment technology, current innovative resources, apparel and housing alternatives, environmental and ecological issues as well as the impact on the family.

CTE Standards and Benchmarks	FS-M/LA	NGSSS-Sci
04.0 Analyze current and future trends in food technology – the student will be able to:		
04.01 Assess the need for meal planning on the basis of a changing lifestyle.		
04.02 Explore trends in food preparation and meal management.		
04.03 Evaluate innovations in food preservation and storage, such as irradiation and dehydration.		
04.04 Predict the effects of future trends in food technology on the social and psychological aspects of the family, community and the world.		
05.0 Utilize current technology and resources in food management – the student will be able to:		
05.01 Assess current technology, such as computer software, dealing with meal planning and the purchasing of food.		
05.02 Evaluate food preparation equipment on the basis of function, convenience and cost.		
05.03 Explore the safe use of current equipment.		
06.0 Assess careers related to the food industry – the student will be able to:		
06.01 Explore emerging careers in the food industry.		
06.02 Analyze career statistics, on-line data and written publication information to predict future job trends.		
06.03 Analyze ways technology will create and/or change careers in the food industry i.e., bioterrorism.		
07.0 Integrate the use of technology to explore solutions for global food issues utilizing cooperative learning strategies – the student will be able to:		
07.01 Examine current and future global food issues, i.e., bioterrorism.

07.02 Research technologies that would be appropriate to use in addressing global food issues.		
07.03 Analyze the impact of local concerns on global issues.		
08.0 Assess current and future trends in consumer and personal finance – the student will be able to:		
08.01 Explore current technology and resources in the banking industry, such as electronic money transactions including debit cards and the use of ATM's.		
08.02 Explore software/online services for record keeping and managing resources.		
08.03 Evaluate the issues of privacy of financial matters versus public disclosure.		
08.04 Analyze the privacy issues with on-line banking and purchasing.		
09.0 Analyze the purchase and maintenance cost of current innovative residential equipment – the student will be able to:		
09.01 Evaluate costs related to home technology.		
09.02 Explore maintenance costs of technological equipment for the home.		
09.03 Compare the effects of leasing vs. purchasing household technical equipment.		
10.0 Assess careers related to the consumer industry – the student will be able to:		
10.01 Explore emerging careers in consumerism and technology.		
10.02 Analyze ways technology has created change in career options.		
11.0 Analyze the impact of consumer technology on the individual and family – the student will be able to:		
11.01 Evaluate the effect of technological changes on issues such as lifestyles, cost and leisure time.		
11.02 Demonstrate responsible decision making strategies when purchasing new or used technology for the home.		
12.0 Formulate ideas for future trends in residential environments – the student will be able to:		
12.01 Analyze examples of automation of residential design.		
12.02 Explore efficient use of resources as related to global issues.		
13.0 Consider current technology and resources used in residential

environments – the student will be able to:		
13.01 Utilize computer-aided design (CAD) and/or on-line services for interior/exterior design.		
14.0 Analyze residential alternatives – the student will be able to:		
14.01 Assess residential options as they relate to individual and family needs.		
14.02 Evaluate the advantages and disadvantages of the available residential options.		
14.03 Differentiate between various multicultural issues as they relate to residential environments.		
15.0 Explore environmental and ecological issues related to a person’s residence – the student will be able to:		
15.01 Assess the need for healthy residential environments; supportive of individual and family growth and development.		
15.02 Analyze environmental issues as they relate to temperature, noise, air, water quality, products and materials.		
15.03 Demonstrate ecological awareness by recycling, reusing and reducing supplies and materials.		
16.0 Utilize technology to evaluate residential and maintenance costs – the student will be able to:		
16.01 Evaluate the affordability of purchasing a home.		
16.02 Consider cost factors for home maintenance.		
16.03 Identify relocating expenses and evaluate alternative options.		
17.0 Assess careers related to the residential industry – the student will be able to:		
17.01 Explore emerging careers in the residential industry.		
17.02 Analyze ways technology has created change in career options within the residential industry.		
18.0 Appraise the impact of technology on the family – the student will be able to:		
18.01 Analyze the impact of home technology on family relationships.		
19.0 Formulate ideas for future trends in apparel technology – the student will be able to:		
19.01 Explore options for developing colors, textures and fabrics.

19.02 Analyze design, retail, and manufacturing trends within the clothing industry.		
20.0 Consider current technology and resources within the apparel industry – the student will be able to:		
20.01 Demonstrate computer-aided design (CAD)/on-line services for creating/selecting fabrics and apparel.		
20.02 Explore computer-aided manufacturing (CAM) in the apparel industry such as laser cutting, fusing, robotics and computer designed layouts.		
20.03 Explore the use of computer imaging to create three-dimensional designs.		
21.0 Explore environmental, ecological and global issues related to apparel – the student will be able to:		
21.01 Assess the history of clothing manufacturing from home sewing to mass production.		
21.02 Explore environmentally-friendly fibers, fabrics and processes.		
21.03 Demonstrate ecological awareness for recycling, reusing and reducing supplies and materials used in apparel production.		
22.0 Analyze textile science – the student will be able to:		
22.01 Evaluate new fabrics which use natural and manufactured fibers.		
22.02 Explore the care of a variety of fabrics utilizing equipment such as microwave dryers and computerized laundry equipment.		
23.0 Assess careers related to the apparel industry – the student will be able to:		
23.01 Explore emerging careers in the apparel industry.		
23.02 Analyze ways technology has created change in career options within the apparel industry.		
24.0 Explore the impact of technology on apparel selections by individuals and families – the student will be able to:		
24.01 Analyze alternate methods of retail shopping for clothing needs such as television, catalogs, and on-line services.		
25.0 Demonstrate leadership and organizational skills – the student will be able to:		
25.01 Identify professional and youth organizations.		
25.02 Identify purposes and functions of professional and youth organizations.

Special Notes

This course is designed for one year with a possible exit at the semester and may be taught in a non-sequential order.

Career and Technical Student Organization (CTSO)

Family, Career and Community Leaders of America (FCCLA) is the inter-curricular career and technical student organization providing leadership training and reinforcing specific career and technical skills. Career and Technical Student Organizations provide activities for students as an integral part of the instruction offered. The activities of such organizations are defined as part of the curriculum in accordance with Rule 6A-6.065, F.A.C.

Cooperative Training – OJT

On-the-job training is appropriate but not required for this program. Whenever offered, the rules, guidelines, and requirements specified in the OJT framework apply.

Accommodations

Federal and state legislation requires the provision of accommodations for students with disabilities as identified on the secondary student's Individual Educational Plan (IEP) or 504 plan or postsecondary student's accommodations' plan to meet individual needs and ensure equal access. Accommodations change the way the student is instructed. Students with disabilities may need accommodations in such areas as instructional methods and materials, assignments and assessments, time demands and schedules, learning environment, assistive technology and special communication systems. Documentation of the accommodations requested and provided should be maintained in a confidential file.

In addition to accommodations, some secondary students with disabilities (students with an IEP served in Exceptional Student Education (ESE)) will need modifications to meet their needs. Modifications change the outcomes or what the student is expected to learn, e.g., modifying the curriculum of a secondary career and technical education course. Note: postsecondary curriculum and regulated secondary programs cannot be modified.

Some secondary students with disabilities (ESE) may need additional time (i.e., longer than the regular school year), to master the student performance standards associated with a regular Occupational Completion Point (OCP) or a Modified Occupational Completion Point (MOCP). Purpose

The purpose of this course is to assist students in making informed decisions regarding their future academic and occupational goals and to provide information regarding careers in the Human Services career cluster. The content includes but is not limited to development of self-esteem, a personal value system and self-discipline by developing positive coping skills to deal with physical, emotional, intellectual and social changes in self and others.

Additional Information relevant to this Career and Technical Education (CTE) program is provided at the end of this document.

Standards

After successfully completing this program, the student will be able to perform the following:

- 01.0 Demonstrate an understanding of the Early Childhood Development and Services career pathway.
- 02.0 Demonstrate an understanding of the Counseling and Mental Health Services career pathway.
- 03.0 Demonstrate an understanding of the Family and Community Services career pathway.
- 04.0 Demonstrate an understanding of the Personal Care Services career pathway.
- 05.0 Demonstrate an understanding of the Consumer Services career pathway.
- 06.0 Apply leadership and communication skills.
- 07.0 Describe how information technology is used in the Human Services career cluster.
- 08.0 Use information technology tools.

Listed below are the standards that must be met to satisfy the requirements of Section 1003.4156, Florida Statutes--The student will be able to:

- 09.0 Describe the influences that societal, economic, and technological changes have on employment trends and future training.
- 10.0 Develop skills to locate, evaluate, and interpret career information.
- 11.0 Identify and demonstrate processes for making short and long term goals.
- 12.0 Demonstrate employability skills such as working in a group, problem-solving and organizational skills, and the importance of entrepreneurship.
- 13.0 Understand the relationship between educational achievement and career choices/postsecondary options.
- 14.0 Identify a career cluster and related pathways that match career and education goals.
- 15.0 Develop a career and education plan that includes short and long-term goals, high school program of study, and postsecondary/career goals.
- 16.0 Demonstrate knowledge of technology and its application in career fields/clusters.

02.04 Explain how heredity and environment affect the development of personality.

02.05 Identify factors that affect self-concept and achievement.

02.06 State how a positive self-concept builds good relationships with friends, peers, parents, and family members.

02.07 Identify characteristics of individuals with high/low self-esteem.

02.08 Inventory personal traits, attitudes, abilities, talents and values that can be used as resources in personal development.

02.09 Analyze personality strengths and weaknesses.

02.10 Identify how values and standards affect character and actions.

02.11 Determine how to make ethical decisions.

03.0 Identify and apply skills needed for positive interpersonal relationships–The student will be able to:

03.01 Identify social skills that contribute to good relationships with others, including diverse multi-cultural groups.

03.02 Identify appropriate topics of conversation when establishing relationships with acquaintances.

03.03 List forms of verbal and non-verbal communication.

03.04 Practice positive communication skills.

03.05 Demonstrate appropriate manners and etiquette for a variety of social situations.

04.0 Identify positive coping skills for adjusting to stress and conflict–The student will be able to:

04.01 Identify positive and negative stress.

04.02 Identify changes that affect families.

04.03 Describe ways of coping with personal and family stress and crises.

04.04 Recognize signs of peer pressure and bullying.

04.05 Demonstrate refusal skills.

04.06 Identify causes of conflict.

CTE Standards and Benchmarks

04.07 List the steps in the conflict resolution process.

04.08 Compare ways of dealing with and preventing conflict with friends and family members.

05.0 Identify relationships that influence personality development–The student will be able to:

05.01 Identify types of relationships.

05.02 Describe qualities of a friend

05.03 Recognize healthy and unhealthy relationships.

05.04 List the functions of families.

05.05 List types of family structures.

05.06 Describe the family life cycle.

05.07 Identify ways to blend work and family.

05.08 Discuss the benefits and challenges of current technology and the impact on the family.

05.09 Identify factors in caring for children and the elderly.

05.10 Discuss the joys and challenges of being a parent.

05.11 Discuss the joys and challenges of being a parent

06.0 Assess the importance of good health and wellness–The student will be able to:

06.01 Describe wellness.

06.02 Explain the importance of good nutrition.

06.03 Classify foods according to the Food Guide Pyramid.

06.04 List the essential nutrients and describe their functions and sources.

06.05 List good health practices that contribute to looking your best.

06.06 Identify the health risks associated with the use of alcohol, tobacco, and other drugs.

06.07 List resources and organizations that assist individuals who abuse alcohol, tobacco, and other drugs.

06.08 Develop an exercise and nutrition plan that incorporates the components of wellness.

CTE Standards and Benchmarks

06.09 Identify careers related to health and wellness.

07.0 Develop a plan for managing your resources—The student will be able to:

07.01 Define needs and wants.

07.02 Identify major and minor decisions and the factors that affect decisions.

07.03 Identify the steps of the decision-making process.

07.04 Develop a self-improvement plan using the decision-making process to set goals and priorities.

07.05 Apply the decision-making process to personal, social, and family activities.

07.06 Identify factors that affect consumer choices.

07.07 Identify ways to manage your resources for personal needs and wants.

07.08 Develop a spending and savings plan for your money.

07.09 Discuss reasons for working.

07.10 Explain the relationship between income and lifestyle.

07.11 Identify the personal skills needed for employment.

07.12 Discuss careers related to resource management.

Listed below are the standards that must be met to satisfy the requirements of Section 1003.4156, Florida Statutes--The student will be able to:

08.0 Describe the influences that societal, economic, and technological changes have on employment trends and future training.

09.0 Develop skills to locate, evaluate, and interpret career information.

10.0 Identify and demonstrate processes for making short and long term goals.

11.0 Demonstrate employability skills such as working in a group, problem-solving and organizational skills, and the importance of entrepreneurship.

12.0 Understand the relationship between educational achievement and career choices/postsecondary options.

13.0 Identify a career cluster and related pathways that match career and education goals.

CTE Standards and Benchmarks

14.0 Develop a career and education plan that includes short and long-term goals, high school program of study, and postsecondary/career goals.

15.0 Demonstrate knowledge of technology and its application in career fields/clusters.

Additional Information

Laboratory Activities

Laboratory investigations that include scientific inquiry, research, measurement, problem solving, emerging technologies, tools and equipment, as well as, experimental, quality, and safety procedures are an integral part of this career and technical program/course. Laboratory investigations benefit all students by developing an understanding of the complexity and ambiguity of empirical work, as well as the skills required to manage, operate, calibrate and troubleshoot equipment/tools used to make observations. Students understand measurement error; and have the skills to aggregate, interpret, and present the resulting data. Equipment and supplies should be provided to enhance hands-on experiences for students.

Career Planning

The requirements of section 1003.4156 (1) (e), Florida Statutes, have been integrated into this course. The statute requires that students take a career and education planning course that must result in a completed personalized academic and career plan for the student; must emphasize the importance of entrepreneurship skills; must emphasize technology or the application of technology in career fields; and, beginning in the 2014-2015 academic year, must provide information from the Department of Economic Opportunity's economic security report as described in section 445.07, Florida Statutes. For additional information on the Middle School Career and Education Planning course requirements, go to <http://www.fldoe.org/workforce/ced/>.

Career and Technical Student Organization (CTSO)

FCCLA is the inter-curricular career and technical student organization(s) providing leadership training and reinforcing specific career and technical skills. Career and Technical Student Organizations provide activities for students as an integral part of the instruction offered. The activities of such organizations are defined as part of the curriculum in accordance with Rule 6A-6.065, F.A.C.

Accommodations

Federal and state legislation requires the provision of accommodations for students with disabilities as identified on the secondary student's Individual Educational Plan (IEP) or 504 plan or postsecondary student's accommodations' plan to meet individual needs and ensure equal access. Accommodations change the way the student is instructed. Students with disabilities may need accommodations in such areas as instructional methods and materials, assignments and assessments, time demands and schedules, learning environment, assistive technology and special communication systems. Documentation of the accommodations requested and provided should be maintained in a confidential file.

In addition to accommodations, some secondary students with disabilities (students with an IEP served in Exceptional Student Education (ESE)) will need modifications to meet their needs. Modifications change the outcomes or what the student is expected to learn, e.g., modifying the curriculum of a secondary career and technical education course. Note: postsecondary curriculum and regulated secondary programs cannot be modified.

Purpose

This program offers a sequence of courses that provides coherent and rigorous content aligned with challenging academic standards and relevant technical knowledge and skills needed to prepare for further education and careers in the Human Services career cluster; provides technical skill proficiency, and includes competency-based applied learning that contributes to the academic knowledge, higher-order reasoning and problem-solving skills, work attitudes, general employability skills, technical skills, and occupation-specific skills, and knowledge of all aspects of the Human Services career cluster.

The content includes but is not limited to positive emotional, social, physical, and intellectual development of the individual; marriage and skill based relationship education; family and community; consumer education; nutrition; cardiopulmonary resuscitation (CPR); hazards of smoking; substance education; breast and testicular self-examination and cancer detection; human immunodeficiency virus (HIV), acquired immunodeficiency syndrome (AIDS) and other sexually transmitted diseases; and benefits of sexual abstinence, and consequences of teenage pregnancy.

Additional Information relevant to this Career and Technical Education (CTE) program is provided at the end of this document.

Program Structure

This program is a planned sequence of instruction consisting of .5 credits.

Academic Alignment Table

Academic alignment is an ongoing, collaborative effort of professional educators specializing in the fields of science, mathematics, English/language arts, and Career and Technical Education (CTE). This initiative supports CTE programs by improving student performance through the integration of academic content within CTE courses. Career and Technical Education courses that have been aligned to the Next Generation Sunshine State Standards for Science and the Florida Standards for Mathematics and English/Language Arts will show the following data: the quantity of academic standards in the CTE course; the total number of standards contained in the academic course; and the percentage of alignment to the CTE course.

Florida Standards for Technical Subjects

Florida Standards (FS) for English Language Arts and Literacy in History/Social Studies, Science, and Technical Subjects are the critical reading and writing literacy standards designed for grade 6 and above. These standards are predicated on teachers of history/social studies, science, and technical subjects using their content area expertise to help students meet the particular challenges of reading, writing, speaking, listening, and language in their respective fields. It is important to note that the 6-12 literacy standards in history/social studies, science, and technical subjects are not meant to replace content standards in those areas but rather to supplement them.

This curriculum framework incorporates the grades 9-10 reading and writing literacy standards in the first two courses of this CTE program and grade 11-12 reading and writing literacy standards in the third and fourth courses of this CTE program. The standards for Mathematical Practices describe varieties of expertise that educators at all levels should seek to develop in their students. These practices rest on important “processes and proficiencies” with longstanding importance in mathematics education. This curriculum framework incorporates the appropriate mathematical practices in the first four courses of this CTE program.

Common Career Technical Core – Career Ready Practices

Career Ready Practices describe the career-ready skills that educators should seek to develop in their students. These practices are not exclusive to a Career Pathway, program of study, discipline or level of education. Career Ready Practices should be taught and reinforced in all career exploration and preparation programs with increasingly higher levels of complexity and expectation as a student advances through a program of study.

1. Act as a responsible and contributing citizen and employee.
2. Apply appropriate academic and technical skills.
3. Attend to personal health and financial well-being.
4. Communicate clearly, effectively and with reason.
5. Consider the environmental, social and economic impacts of decisions.
6. Demonstrate creativity and innovation.
7. Employ valid and reliable research strategies.
8. Utilize critical thinking to make sense of problems and persevere in solving them.
9. Model integrity, ethical leadership and effective management.
10. Plan education and career path aligned to personal goals.
11. Use technology to enhance productivity.
12. Work productively in teams while using cultural/global competence.

Standards

After successfully completing this program, the student will be able to perform the following:

- 01.0 Methods and strategies for using Florida Standards for grades 09-10 reading in Technical Subjects for student success in Life Management Skills.
- 02.0 Methods and strategies for using Florida Standards for grades 09-10 writing in Technical Subjects for student success in Life Management Skills.
- 03.0 Methods and strategies for using Florida Standards for grades 09-10 Mathematical Practices in Technical Subjects for student success in Life Management Skills.
- 04.0 Demonstrate skills contributing to positive emotional development and effective marriage and personal relationships.
- 05.0 Integrate responsible consumer decisions and management techniques to enhance the quality of personal and family life.
- 06.0 Apply principles of nutrition to food choices.
- 07.0 Perform first-aid for foreign body airway obstruction (FBAO) and cardiopulmonary resuscitation (CPR).
- 08.0 Determine the physical, mental, emotional, social, economic, and legal consequences of use, misuse and abuse of tobacco, alcohol and drugs on the individual, family and community.
- 09.0 Identify the self-examination procedures used for breast and testicular cancer detection.
- 10.0 Recognize the effects of human immunodeficiency virus (HIV) acquired immunodeficiency syndrome and sexually transmitted diseases (STDs) and assess their consequences on the individual, family and community.
- 11.0 Identify the benefits of sexual abstinence and consequences of teenage pregnancy.
- 12.0 Discuss parenting roles and responsibilities.
- 13.0 Demonstrate leadership and organizational skills.

Course Title: Life Management Skills
Course Number: 8502000
Course Credit: .5

Course Description:

The purpose of this course is to prepare students for the roles, responsibilities and relationships essential to functional families and to understand the nature, function, and significance of human relationships within family and individual units.

Florida Standards		Correlation to CTE Program Standard #
01.0	Methods and strategies for using Florida Standards for grades 09-10 reading in Technical Subjects for student success in Life Management Skills.	
01.01	Key Ideas and Details	
01.01.1	Cite specific textual evidence to support analysis of science and technical texts, attending to the precise details of explanations or descriptions. LAFS.910.RST.1.1	
01.01.2	Determine the central ideas or conclusions of a text; trace the text’s explanation or depiction of a complex process, phenomenon, or concept; provide an accurate summary of the text. LAFS.910.RST.1.2	
01.01.3	Follow precisely a complex multistep procedure when carrying out experiments, taking measurements, or performing technical tasks, attending to special cases or exceptions defined in the text. LAFS.910.RST.1.3	
01.02	Craft and Structure	
01.02.1	Determine the meaning of symbols, key terms, and other domain-specific words and phrases as they are used in a specific scientific or technical context relevant to grades 9–10 texts and topics. LAFS.910.RST.2.4	
01.02.2	Analyze the structure of the relationships among concepts in a text, including relationships among key terms (e.g., force, friction, reaction force, energy). LAFS.910.RST.2.5	
01.02.3	Analyze the author’s purpose in providing an explanation, describing a procedure, or discussing an experiment in a text, defining the question the author seeks to address.

04.0 Demonstrate skills contributing to positive emotional development and effective marriage and personal relationships – the student will be able to:		
04.01 Consider the effects of self-esteem on personal development.		
04.02 Demonstrate effective communication skills.		
04.03 Identify attitudes and behaviors for establishing and maintaining interpersonal relationships.		
04.04 Develop strategies for conflict resolution.		
04.05 Determine the effect of personal relationship skills on the individual, family, and community.		
04.06 Design a plan for setting personal goals.		
04.07 Incorporate decision-making skills into personal development.		
04.08 Assess coping techniques for stress management.		
04.09 Analyze the symptoms of suicide and apply intervention techniques.		
05.0 Integrate responsible consumer decisions and management techniques to enhance the quality of personal and family life – the student will be able to:		
05.01 Interpret consumer rights and responsibilities.		
05.02 Evaluate advertising techniques.		
05.03 Identify the components of a paycheck and explain payroll deductions in relation to income tax.		
05.04 Develop a plan for resource management.		
05.05 Implement the procedures for establishing and maintaining checking and savings accounts.

05.06 Analyze the types, sources and uses of credit.		
06.0 Apply principles of nutrition to food choices – the student will be able to:		
06.01 Identify dietary guidelines that promote and maintain good health.		
06.02 Describe the functions and food sources of essential nutrients.		
06.03 Plan nutritious meals and snacks using the food pyramid.		
06.04 Evaluate food labeling.		
06.05 Analyze signs and symptoms of eating disorders.		
07.0 Perform first-aid for foreign body airway obstruction (FBAO) and cardiopulmonary resuscitation (CPR) – the student will be able to:		
07.01 Demonstrates emergency relief on a person with an obstructed airway.		
07.02 Demonstrate one-rescuer cardiopulmonary resuscitation (CPR).		
08.0 Determine the physical, mental, emotional, social, economic and legal consequences of use, misuse and abuse of tobacco, alcohol and drugs on the individual, family and community – the student will be able to:		
08.01 Analyze reasons for legal and illegal substance use, misuse and abuse and identify possible alternatives.		
08.02 Evaluate the effects that legal and illegal substance use, misuse and abuse can have on the individual, family and community.		
08.03 Evaluate the legal ramifications of substance abuse.		
08.04 Identify community agencies where help is available for substance abusers and victims of substance abuse.		
09.0 Identify the self-examination procedures used for breast and testicular cancer detection – the student will be able to:		
09.01 Identify the signs and symptoms of cancer.		
09.02 Explain self-examination procedures for breast and testicular cancer.		
10.0 Recognize the effects of human immunodeficiency virus (HIV), acquired immunodeficiency syndrome (AIDS) and sexually transmitted diseases (STDs) and assess their consequences on the individual, family and community – the student will be able to:

Additional Information

Laboratory Activities

Laboratory investigations that include scientific inquiry, research, measurement, problem solving, emerging technologies, tools and equipment, as well as, experimental, quality, and safety procedures are an integral part of this career and technical program/course. Laboratory investigations benefit all students by developing an understanding of the complexity and ambiguity of empirical work, as well as the skills required to manage, operate, calibrate and troubleshoot equipment/tools used to make observations. Students understand measurement error; and have the skills to aggregate, interpret, and present the resulting data. Equipment and supplies should be provided to enhance hands-on experiences for students.

Special Notes

Targeted goals are written in accordance with Florida Statute 1003.43 general requirements for high school graduation/life management skills. The framework reflects the philosophy of family and consumer sciences.

Activities may provide opportunities to utilize equipment such as, CPR mannequins, human anatomy models, computers, a television and VCR/DVD player, and equipment in the food laboratory.

The concept of management is an integral part of the course and should be reflected in the facility, equipment, instructional materials and learning experiences.

Career and Technical Student Organization (CTSO)

Family, Career and Community Leaders of America (FCCLA) is the inter-curricular career and technical student organization providing leadership training and reinforcing specific career and technical skills. Career and Technical Student Organizations provide activities for students as an integral part of the instruction offered. The activities of such organizations are defined as part of the curriculum in accordance with Rule 6A-6.065, F.A.C.

Cooperative Training – OJT

On-the-job training is appropriate but not required for this program. Whenever offered, the rules, guidelines, and requirements specified in the OJT framework apply.

Accommodations

Federal and state legislation requires the provision of accommodations for students with disabilities as identified on the secondary student's Individual Educational Plan (IEP) or 504 plan or postsecondary student's accommodations' plan to meet individual needs and ensure equal access. Accommodations change the way the student is instructed. Students with disabilities may need accommodations in such areas as instructional methods and materials, assignments and assessments, time demands and schedules, learning environment, assistive technology and special communication systems. Documentation of the accommodations requested and provided should be maintained in a confidential file.

In addition to accommodations, some secondary students with disabilities (students with an IEP served in Exceptional Student Education (ESE)) will need modifications to meet their needs. Modifications change the outcomes or what the student is expected to learn, e.g., modifying the curriculum of a secondary career and technical education course. Note: postsecondary curriculum and regulated secondary programs cannot be modified.

Some secondary students with disabilities (ESE) may need additional time (i.e., longer than the regular school year), to master the student performance standards associated with a regular Occupational Completion Point (OCP) or a Modified Occupational Completion Point (MOCP). If needed, a student may enroll in the same career and technical course more than once. Documentation should be included in the IEP that clearly indicates that it is anticipated that the student may need an additional year to complete an OCP/MOCP. The student should work on different competencies and new applications of competencies each year toward completion of the OCP/MOCP. After achieving the competencies identified for the year, the student earns credit for the course. It is important to ensure that credits earned by students are reported accurately. The district's information system must be designed to accept multiple credits for the same course number for eligible students with disabilities.

Academic Alignment Table

Some or all of the courses in this program have been academically aligned to the Florida Standards for Mathematics and the Next Generation Sunshine State Standards (NGSSS) for Science. The table below contains the results of the alignment efforts by both academic core and Career and Technical Education (CTE) professional educators. Data shown in the table includes the number of academic standards in the CTE course and the percentage of alignment to the CTE course.

Florida Standards for Technical Subjects

Florida Standards (FS) for English Language Arts and Literacy in History/Social Studies, Science, and Technical Subjects are the critical reading and writing literacy standards designed for grade 6 and above. These standards are predicated on teachers of history/social studies, science, and technical subjects using their content area expertise to help students meet the particular challenges of reading, writing, speaking, listening, and language in their respective fields. It is important to note that the 6-12 literacy standards in history/social studies, science, and technical subjects are not meant to replace content standards in those areas but rather to supplement them.

This curriculum framework incorporates the grades 9-10 reading and writing literacy standards in the first two courses of this CTE program and grade 11-12 reading and writing literacy standards in the third and fourth courses of this CTE program. The standards for Mathematical Practices describe varieties of expertise that educators at all levels should seek to develop in their students. These practices rest on important “processes and proficiencies” with longstanding importance in mathematics education. This curriculum framework incorporates the appropriate mathematical practices in the first four courses of this CTE program.

Common Career Technical Core – Career Ready Practices

Career Ready Practices describe the career-ready skills that educators should seek to develop in their students. These practices are not exclusive to a Career Pathway, program of study, discipline or level of education. Career Ready Practices should be taught and reinforced in all career exploration and preparation programs with increasingly higher levels of complexity and expectation as a student advances through a program of study.

1. Act as a responsible and contributing citizen and employee.
2. Apply appropriate academic and technical skills.
3. Attend to personal health and financial well-being.
4. Communicate clearly, effectively and with reason.
5. Consider the environmental, social and economic impacts of decisions.
6. Demonstrate creativity and innovation.
7. Employ valid and reliable research strategies.
8. Utilize critical thinking to make sense of problems and persevere in solving them.

9. Model integrity, ethical leadership and effective management.
10. Plan education and career path aligned to personal goals.
11. Use technology to enhance productivity.
12. Work productively in teams while using cultural/global competence.

Standards

After successfully completing this program, the student will be able to perform the following:

- 01.0 Methods and strategies for using Florida Standards for grades 09-10 reading in Technical Subjects for student success in Dry Cleaning and Laundering.
- 02.0 Methods and strategies for using Florida Standards for grades 09-10 writing in Technical Subjects for student success in Dry Cleaning and Laundering.
- 03.0 Methods and strategies for using Florida Standards for grades 09-10 Mathematical Practices in Technical Subjects for student success in Dry Cleaning and Laundering.
- 04.0 Demonstrate understanding of procedures of orientation and safety.
- 05.0 Use and maintain spotting equipment and tools.
- 06.0 Identify fibers and fabrics.
- 07.0 Identify and test fabric and dyestuffs.
- 08.0 Demonstrate understanding of chemicals and formulas.
- 09.0 Identify stains.
- 10.0 Remove stains.
- 11.0 Explain properties and uses of petroleum and synthetic solvents.
- 12.0 Methods and strategies for using Florida Standards for grades 11-12 reading in Technical Subjects for student success in Dry Cleaning and Laundering.
- 13.0 Methods and strategies for using Florida Standards for grades 11-12 writing in Technical Subjects for student success in Dry Cleaning and Laundering.
- 14.0 Methods and strategies for using Florida Standards for grades 11-12 Mathematical Practices in Technical Subjects for student success in Dry Cleaning and Laundering.
- 15.0 Operate synthetic washer-extractors.
- 16.0 Operate reclaiming tumblers.
- 17.0 Operate filters.
- 18.0 Demonstrate troubleshooting skills.
- 19.0 Understand proper operation of stills.
- 20.0 Operate pumps at maximum efficiency.
- 21.0 Clean garments.
- 22.0 Perform routine maintenance.
- 23.0 Adjust and operate utility pressers.

- 24.0 Adjust and operate mushroom and automatic pants topper.
- 25.0 Adjust and operate automatic leggers.
- 26.0 Operate form finishers.
- 27.0 Finish slacks and shirts.
- 28.0 Finish coats.
- 29.0 Finish trousers.
- 30.0 Finish dresses.
- 31.0 Finish children's garments.
- 32.0 Finish pleats and knitted garments.
- 33.0 Finish silk.
- 34.0 Inspect garments.

Course Title: Dry Cleaning and Laundering 1
Course Number: 8733010
Course Credit: 1

Course Description:

This course will include orientation on safety, spotting, stain removal and employability skills.

Florida Standards		Correlation to CTE Program Standard #
01.0	Methods and strategies for using Florida Standards for grades 09-10 reading in Technical Subjects for student success in Dry Cleaning and Laundering.	
01.01	Key Ideas and Details	
01.01.1	Cite specific textual evidence to support analysis of science and technical texts, attending to the precise details of explanations or descriptions. LAFS.910.RST.1.1	
01.01.2	Determine the central ideas or conclusions of a text; trace the text’s explanation or depiction of a complex process, phenomenon, or concept; provide an accurate summary of the text. LAFS.910.RST.1.2	
01.01.3	Follow precisely a complex multistep procedure when carrying out experiments, taking measurements, or performing technical tasks, attending to special cases or exceptions defined in the text. LAFS.910.RST.1.3	
01.02	Craft and Structure	
01.02.1	Determine the meaning of symbols, key terms, and other domain-specific words and phrases as they are used in a specific scientific or technical context relevant to grades 9–10 texts and topics. LAFS.910.RST.2.4	
01.02.2	Analyze the structure of the relationships among concepts in a text, including relationships among key terms (e.g., force, friction, reaction force, energy). LAFS.910.RST.2.5	
01.02.3	Analyze the author’s purpose in providing an explanation, describing a procedure, or discussing an experiment in a text, defining the question the author seeks to address.	

Florida Standards		Correlation to CTE Program Standard #
	LAFS.910.RST.2.6	
01.03	Integration of Knowledge and Ideas	
01.03.1	Translate quantitative or technical information expressed in words in a text into visual form (e.g., a table or chart) and translate information expressed visually or mathematically (e.g., in an equation) into words. LAFS.910.RST.3.7	
01.03.2	Assess the extent to which the reasoning and evidence in a text support the author's claim or a recommendation for solving a scientific or technical problem. LAFS.910.RST.3.8	
01.03.3	Compare and contrast findings presented in a text to those from other sources (including their own experiments), noting when the findings support or contradict previous explanations or accounts. LAFS.910.RST.3.9	
01.04	Range of Reading and Level of Text Complexity	
01.04.1	By the end of grade 9, read and comprehend literature [informational texts, history/social studies texts, science/technical texts] in the grades 9–10 text complexity band proficiently, with scaffolding as needed at the high end of the range.	
01.04.2	By the end of grade 10, read and comprehend literature [informational texts, history/social studies texts, science/technical texts] at the high end of the grades 9–10 text complexity band independently and proficiently. LAFS.910.RST.4.10	
02.0	Methods and strategies for using Florida Standards for grades 09-10 writing in Technical Subjects for student success in Dry Cleaning and Laundering.	
02.01	Text Types and Purposes	
02.01.1	Write arguments focused on discipline-specific content. LAFS.910.WHST.1.1	
02.01.2	Write informative/explanatory texts, including the narration of historical events, scientific procedures/experiments, or technical processes. LAFS.910.WHST.1.2	
02.02	Production and Distribution of Writing	
02.02.1	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience. LAFS.910.WHST.2.4	
02.02.2	Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience. LAFS.910.WHST.2.5	
02.02.3	Use technology, including the Internet, to produce, publish, and update

CTE Standards and Benchmarks	FS-M/LA	NGSSS-Sci
04.0 Demonstrate understanding of procedures of orientation and safety–The student will be able to:		
04.01 Define objectives of the course.		
04.02 Explain safety procedures.		
04.03 Explain school/class procedures.		
04.04 Explain the control limitations.		
04.05 Check the basket for burrs and pins.		
04.06 Demonstrate the ability to adjust the loading doors.		
04.07 Define faulty pump.		
05.0 Use and maintain spotting equipment and tools–The student will be able to:		
05.01 Identify the spotter's equipment and tools.		
05.02 Utilize the spotter's equipment and tools.		
05.03 Provide a written list of tools and equipment		
06.0 Identify fibers and fabrics–The student will be able to:		
06.01 Identify fibers and fabrics.		
06.02 Explain methods of fabric construction.		
06.03 Explain the characteristics of fibers		

CTE Standards and Benchmarks	FS-M/LA	NGSSS-Sci
06.04 Demonstrate burning tests for fiber content.		
07.0 Identify and test fabrics and dyestuffs–The student will be able to:		
07.01 Identify dyestuffs.		
07.02 Explain the composition of dyestuffs.		
07.03 Determine proper cleaning procedure for fabrics and dyes.		
08.0 Demonstrate understanding of chemicals and formulas–The student will be able to:		
08.01 Explain the chemical properties of a formula and its effect on fabrics.		
08.02 Provide a written list of formulas used in spotting.		
08.03 Provide a written list of spotting agents.		
09.0 Identify stains–The student will be able to:		
09.01 Define methods of stain identification.		
09.02 Provide a written list of the various methods of stain identification.		
10.0 Remove stains–The student will be able to:		
10.01 Identify a stain.		
10.02 Demonstrate methods for removing stains.		
11.0 Explain properties and uses of petroleum and synthetic solvents–The student will be able to:		
11.01 Write a brief history on the development of petroleum solvent.		
11.02 Provide a written list of the methods for refining petroleum solvents.		
11.03 Write the specifications for petroleum solvents.		
11.04 Provide a written list of the properties of a synthetic solvent.		
11.05 Provide a written list of the methods for making a synthetic solvent.

15.0 Operate synthetic washer-extractors–The student will be able to:		
15.01 Demonstrate the ability to set controls on the machine.		
15.02 Demonstrate the ability to load the machine with solvent.		
15.03 Demonstrate the ability to operate a machine manually.		
16.0 Operate reclaiming tumblers–The student will be able to:		
16.01 Safely operate a tumbler.		
16.02 Demonstrate the ability to control the temperature on a tumbler.		
16.03 Demonstrate the ability to operate a drying cabinet.		
17.0 Operate filters–The student will be able to:		
17.01 Demonstrate the ability to operate filters.		
17.02 Explain the operation of cookers and stills.		
17.03 Explain filter maintenance methods.		
18.0 Demonstrate troubleshooting skills–The student will be able to:		
18.01 Explain the use of the filter pressure gauge		
18.02 Explain plugged screens, tubes or bags.		
18.03 Steam clean and boil screens, tubes, or cleaning bags.		

CTE Standards and Benchmarks	FS-M/LA	NGSSS-Sci
18.04 Describe in writing the properties of a distilling solvent		
18.05 Exhibit the ability to operate the pump on a filter.		
19.0 Understand proper operation of stills–The student will be able to:		
19.01 Explain the causes for slow-down in distilling solvent.		
19.02 List factors of a worn out pump.		
19.03 Explain vacuum leak.		
19.04 Explain a steam or water leak.		
19.05 Define vacuum still pressure.		
19.06 Explain how to clean dirty heating tubes.		
19.07 Determine a faulty steam trap.		
19.08 Diagnose an odor in a distilled solvent.		
20.0 Operate pumps at maximum efficiency–The student will be able to:		
20.01 Demonstrate the reducing or no flow of solvent.		
20.02 Define the loss of pump prime.		
20.03 Identify position of the valve in either a suction or discharge line.		
20.04 Determine the clogged strainers in suction lines.		
20.05 Determine the solvent level in tanks below the pump lines.		
20.06 Explain a slipping pump drive belt.		
20.07 Explain a pressure relief valve, open on gear pumps.		
20.08 Explains lint build up on the impeller in the pump.		
21.0 Clean garments–The student will be able to:		
21.01 Demonstrate understanding of causes for excessive redeposit.		
21.02 Explain insufficient filter flow rate.		

CTE Standards and Benchmarks	FS-M/LA	NGSSS-Sci
21.03 Define improper garment classification.		
21.04 Explain dissolved garment classification.		
21.05 Define causes for excessive oils or greases in solvents.		
21.06 Write causes for wrinkles occurring in dry-cleaning.		
21.07 Diagnose causes for garment streaks, slow drying, or spotting rings.		
21.08 Determine the reason for objectionable odors.		
21.09 Define bleeding of dyes.		
21.10 Describe dye or soil pick-up in local areas.		
21.11 Explain restoration procedures of insoluble soil.		
21.12 Demonstrate the method for softening plastic-coated fabrics.		
22.0 Perform routine maintenance–The student will be able to:		
22.01 Determine causes of machine malfunction.		
22.02 Perform preventative maintenance.		
22.03 Perform shop housekeeping duties.		
22.04 Explain and demonstrate proper handling and storage of flammable and/or toxic materials.

26.02 Exhibit steps for the timer on a form finisher.		
26.03 Demonstrate the operation of the form finisher.		
26.04 Perform the steps for finishing a coat.		
26.05 Perform the steps for finishing a dress.		
27.0 Finish slacks and skirts–The student will be able to:		
27.01 Demonstrate steps necessary to place back, left hip of slacks on mushroom press.		
27.02 Describe steps necessary to place back, right hip of slacks on mushroom press.		
27.03 Demonstrate steps necessary to place front, right hip of slacks on press.		
27.04 Demonstrate steps necessary to place front, left hip of slacks on press.		
27.05 State the methods of legging slacks on regular press.		
27.06 Demonstrate the methods necessary when finishing skirts.		
28.0 Finish coats–The student will be able to:		
28.01 Exhibit procedures for finishing coats on a form finisher and utility press.		
28.02 Demonstrate steps in finishing sleeves on coats.		
28.03 Exhibit methods of finishing coat collars.		
28.04 Demonstrate steps in finishing the front left shoulder and sleeve head.		
28.05 Exhibit steps in finishing front lay.		
28.06 Demonstrate methods of finishing lapels.		
28.07 Demonstrate steps in finishing linings.

Additional Information

Laboratory Activities

Laboratory investigations that include scientific inquiry, research, measurement, problem solving, emerging technologies, tools and equipment, as well as, experimental, quality, and safety procedures are an integral part of this career and technical program/course. Laboratory investigations benefit all students by developing an understanding of the complexity and ambiguity of empirical work, as well as the skills required to manage, operate, calibrate and troubleshoot equipment/tools used to make observations. Students understand measurement error; and have the skills to aggregate, interpret, and present the resulting data. Equipment and supplies should be provided to enhance hands-on experiences for students.

Special Notes

Students may concentrate in the areas of pressing/finishing by completing outcomes 1 and 16-31 or as a spotter cleaner by completing outcomes 1-15 and 29-30.

The occupational standards and benchmarks outlined in this secondary program correlate to the standards and benchmarks of the postsecondary program with the same Classification of Instructional Programs (CIP) number.

Career and Technical Student Organization (CTSO)

SkillsUSA, Inc. is the appropriate career and technical student organization for providing leadership training and reinforcing specific career and technical skills. Career and Technical Student Organizations provide activities for students as an integral part of the instruction offered. The activities of such organizations are defined as part of the curriculum in accordance with Rule 6A-6.065, F.A.C.

Cooperative Training – OJT

On-the-job training is appropriate but not required for this program. Whenever offered, the rules, guidelines, and requirements specified in the OJT framework apply.

Accommodations

Federal and state legislation requires the provision of accommodations for students with disabilities as identified on the secondary student's Individual Educational Plan (IEP) or 504 plan or postsecondary student's accommodations' plan to meet individual needs and ensure equal access. Accommodations change the way the student is instructed. Students with disabilities may need accommodations in such areas as instructional methods and materials, assignments and assessments, time demands and schedules, learning environment, assistive technology and special communication systems. Documentation of the accommodations requested and provided should be maintained in a confidential file.

In addition to accommodations, some secondary students with disabilities (students with an IEP served in Exceptional Student Education (ESE)) will need modifications to meet their needs. Modifications change the outcomes or what the student is expected to learn, e.g., modifying the curriculum of a secondary career and technical education course. Note: postsecondary curriculum and regulated secondary programs cannot be modified.

Some secondary students with disabilities (ESE) may need additional time (i.e., longer than the regular school year), to master the student performance standards associated with a regular Occupational Completion Point (OCP) or a Modified Occupational Completion Point (MOCP). If needed, a student may enroll in the same career and technical course more than once. Documentation should be included in the IEP that clearly indicates that it is anticipated that the student may need an additional year to complete an OCP/MOCP. The student should work on different competencies and new applications of competencies each year toward completion of the OCP/MOCP. After achieving the competencies identified for the year, the student earns credit for the course. It is important to ensure that credits earned by students are reported accurately. The district's information system must be designed to accept multiple credits for the same course number for eligible students with disabilities.

Program Title: Barbering
Program Type: Career Preparatory
Career Cluster: Human Services

Secondary – Career Preparatory

Program Number	8757100
CIP Number	0612040200
Grade Level	9-12, 30, 31
Standard Length	8 credits
Teacher Certification	BARBERING 7 G PERS SERV @7 7G
CTSO	SkillsUSA
SOC Codes (all applicable)	39-5011 Barbers
CTE Program Resources	http://www.fldoe.org/academics/career-adult-edu/career-tech-edu/program-resources.stml

Purpose

This program offers a sequence of courses that provides coherent and rigorous content aligned with challenging academic standards and relevant technical knowledge and skills needed to prepare for further education and careers in the Human Services career cluster; provides technical skill proficiency, and includes competency-based applied learning that contributes to the academic knowledge, higher-order reasoning and problem-solving skills, work attitudes, general employability skills, technical skills, and occupation-specific skills, and knowledge of all aspects of the Human Services career cluster.

The purpose of this program is to prepare students for employment as restricted barbers (SOC 39-5011) or barbers (SOC 39-5011). Instruction is designed to qualify students for employment upon successfully passing the Florida Restricted Barber or Barber License Examination.

The content includes but is not limited to communication skills, leadership skills, human relations skills and employability skills, safe and efficient work practices; Florida barber law and rules, knowledge of barbering and its related chemistry, bacteriology, anatomy and physiology; development of skill in performing the manipulative technique required in the practice of barbering.

Program Structure

This program is a planned sequence of instruction consisting of one program.

Academic Alignment Table

Academic alignment is an ongoing, collaborative effort of professional educators specializing in the fields of science, mathematics, English/language arts, and Career and Technical Education (CTE). This initiative supports CTE programs by improving student performance through the integration of academic content within CTE courses. Career and Technical Education courses that have been aligned to the Next Generation Sunshine State Standards for Science and the Florida Standards for Mathematics and English/Language Arts will show the following data: the quantity of academic standards in the CTE course; the total number of standards contained in the academic course; and the percentage of alignment to the CTE course.

Florida Standards for Technical Subjects

Florida Standards (FS) for English Language Arts and Literacy in History/Social Studies, Science, and Technical Subjects are the critical reading and writing literacy standards designed for grade 6 and above. These standards are predicated on teachers of history/social studies, science, and technical subjects using their content area expertise to help students meet the particular challenges of reading, writing, speaking, listening, and language in their respective fields. It is important to note that the 6-12 literacy standards in history/social studies, science, and technical subjects are not meant to replace content standards in those areas but rather to supplement them.

This curriculum framework incorporates the grades 9-10 reading and writing literacy standards in the first two courses of this CTE program and grade 11-12 reading and writing literacy standards in the third and fourth courses of this CTE program. The standards for Mathematical Practices describe varieties of expertise that educators at all levels should seek to develop in their students. These practices rest on important “processes and proficiencies” with longstanding importance in mathematics education. This curriculum framework incorporates the appropriate mathematical practices in the first four courses of this CTE program.

Common Career Technical Core – Career Ready Practices

Career Ready Practices describe the career-ready skills that educators should seek to develop in their students. These practices are not exclusive to a Career Pathway, program of study, discipline or level of education. Career Ready Practices should be taught and reinforced in all career exploration and preparation programs with increasingly higher levels of complexity and expectation as a student advances through a program of study.

1. Act as a responsible and contributing citizen and employee.
2. Apply appropriate academic and technical skills.
3. Attend to personal health and financial well-being.
4. Communicate clearly, effectively and with reason.
5. Consider the environmental, social and economic impacts of decisions.
6. Demonstrate creativity and innovation.
7. Employ valid and reliable research strategies.
8. Utilize critical thinking to make sense of problems and persevere in solving them.
9. Model integrity, ethical leadership and effective management.
10. Plan education and career path aligned to personal goals.
11. Use technology to enhance productivity.
12. Work productively in teams while using cultural/global competence.

Standards

After successfully completing this program, the student will be able to perform the following:

- 01.0 Methods and strategies for using Florida Standards for grades 09-10 reading in Technical Subjects for student success in Barbering.
- 02.0 Methods and strategies for using Florida Standards for grades 09-10 writing in Technical Subjects for student success in Barbering.
- 03.0 Methods and strategies for using Florida Standards for grades 09-10 Mathematical Practices in Technical Subjects for student success in Barbering.
- 04.0 Demonstrate safe, sanitary and efficient work practices.
- 05.0 Identify and perform shampoo/hair conditioners and scalp treatment.
- 06.0 Identify and perform trimming/shaping hair.
- 07.0 Identify and perform hairstyles.
- 08.0 Identify and perform mustache and beard design.
- 09.0 Demonstrate shaving the face.
- 10.0 Methods and strategies for using Florida Standards for grades 11-12 reading in Technical Subjects for student success in Barbering.
- 11.0 Methods and strategies for using Florida Standards for grades 11-12 writing in Technical Subjects for student success in Barbering.
- 12.0 Methods and strategies for using Florida Standards for grades 11-12 Mathematical Practices in Technical Subjects for student success in Barbering.
- 13.0 Demonstrate appropriate understanding of basic science.
- 14.0 Identify and perform facial treatments.
- 15.0 Demonstrate knowledge of professional development (employability skills).
- 16.0 Demonstrate knowledge of Florida law and State Board requirements.
- 17.0 Demonstrate an understanding of entrepreneurship.
- 18.0 Identify and prepare hairpieces, wigs and hair attachments.
- 19.0 Identify and perform permanent wave/reconstruction curl/chemical relaxing.
- 20.0 Identify and apply temporary/semi-permanent and permanent color/bleach and specialty color techniques.

Florida Standards		Correlation to CTE Program Standard #
10.0	Methods and strategies for using Florida Standards for grades 11-12 reading in Technical Subjects for student success in Barbering.	
10.01	Key Ideas and Details	
10.01.1	Cite specific textual evidence to support analysis of science and technical texts, attending to important distinctions the author makes and to any gaps or inconsistencies in the account. LAFS.1112.RST.1.1	
10.01.2	Determine the central ideas or conclusions of a text; trace the text’s explanation or depiction of a complex process, phenomenon, or concept; provide an accurate summary of the text. LAFS.1112.RST.1.2	
10.01.3	Follow precisely a complex multistep procedure when carrying out experiments, taking measurements, or performing technical tasks, attending to special cases or exceptions defined in the text. LAFS.1112.RST.1.3	
10.02	Craft and Structure	
10.02.1	Determine the meaning of symbols key terms, and other domain-specific words and phrases as they are used in a specific scientific or technical context relevant to grades 11–12 texts and topics. LAFS.1112.RST.2.4	
10.02.2	Analyze how the text structures information or ideas into categories or hierarchies, demonstrating understanding of the information or ideas. LAFS.1112.RST.2.5	
10.02.3	Analyze the author’s purpose in providing an explanation, describing a procedure, or discussing an experiment in a text, identifying important issues that remain unresolved. LAFS.1112.RST.2.6	

Florida Standards		Correlation to CTE Program Standard #
10.03 Integration of Knowledge and Ideas		
10.03.1	Integrate and evaluate multiple sources of information presented in diverse formats and media (e.g. quantitative data, video, multimedia) in order to address a question or solve a problem. LAFS.1112.RST.3.7	
10.03.2	Evaluate the hypotheses, data, analysis, and conclusions in a science or technical text, verifying the data when possible and corroborating or challenging conclusions with other sources of information. LAFS.1112.RST.3.8	
10.03.3	Synthesize information from a range of sources (e.g., texts, experiments, simulations) into a coherent understanding of a process, phenomenon, or concept, resolving conflicting information when possible. LAFS.1112.RST.3.9	
10.04 Range of Reading and Level of Text Complexity		
10.04.1	By the end of grade 11, read and comprehend literature [informational texts, history/social studies texts, science/technical texts] in the grades 11–CCR text complexity band proficiently, with scaffolding as needed at the high end of the range. By the end of grade 12, read and comprehend literature [informational texts, history/social studies texts, science/technical texts] at the high end of the grades 11–CCR text complexity band independently and proficiently. LAFS.1112.RST.4.10	
10.04.2		
11.0 Methods and strategies for using Florida Standards for grades 11-12 writing in Technical Subjects for student success in Barbering.		
11.01 Text Types and Purposes		
11.01.1	Write arguments focused on discipline-specific content. LAFS.1112.WHST.1.1	
11.01.2	Write informative/explanatory texts, including the narration of historical events, scientific procedures/experiments, or technical processes. LAFS.1112.WHST.1.2	
11.02 Production and Distribution of Writing		
11.02.1	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience. LAFS.1112.WHST.2.4	
11.02.2	Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience. LAFS.1112.WHST.2.5	
11.02.3	Use technology, including the Internet, to produce, publish, and update

	individual or shared writing products in response to ongoing feedback, including new arguments or information. LAFS.1112.WHST.2.6	
11.03	Research to Build and Present Knowledge	
11.03.1	Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation. LAFS.1112.WHST.3.7	
11.03.2	Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the strengths and limitations of each source in terms of the specific task, purpose, and audience; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and overreliance on any one source and following a standard format for citation. LAFS.1112.WHST.3.8	
11.03.3	Draw evidence from informational texts to support analysis, reflection, and research. LAFS.1112.WHST.3.9	
11.04	Range of Writing	
11.04.1	Write routinely over extended time frames (time for reflection and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences. LAFS.1112.WHST.4.10	
12.0	Methods and strategies for using Florida Standards for grades 11-12 Mathematical Practices in Technical Subjects for student success in Barbering.	
12.01	Make sense of problems and persevere in solving them. MAFS.K12.MP.1.1	
12.02	Reason abstractly and quantitatively. MAFS.K12.MP.2.1	
12.03	Construct viable arguments and critique the reasoning of others. MAFS.K12.MP.3.1	
12.04	Model with mathematics. MAFS.K12.MP.4.1	
12.05	Use appropriate tools strategically. MAFS.K12.MP.5.1	
12.06	Attend to precision. MAFS.K12.MP.6.1	
12.07	Look for and make use of structure.

Additional Information

Laboratory Activities

Laboratory investigations that include scientific inquiry, research, measurement, problem solving, emerging technologies, tools and equipment, as well as, experimental, quality, and safety procedures are an integral part of this career and technical program/course. Laboratory investigations benefit all students by developing an understanding of the complexity and ambiguity of empirical work, as well as the skills required to manage, operate, calibrate and troubleshoot equipment/tools used to make observations. Students understand measurement error; and have the skills to aggregate, interpret, and present the resulting data. Equipment and supplies should be provided to enhance hands-on experiences for students.

Special Notes

The occupational standards and benchmarks outlined in this secondary program correlate to the standards and benchmarks of the postsecondary program with the same Classification of Instructional Programs (CIP) number.

Career and Technical Student Organization (CTSO)

SkillsUSA, Inc. is the appropriate career and technical student organization for providing leadership training and reinforcing specific career and technical skills. Career and Technical Student Organizations provide activities for students as an integral part of the instruction offered. The activities of such organizations are defined as part of the curriculum in accordance with Rule 6A-6.065, F.A.C.

Cooperative Training – OJT

On-the-job training is appropriate but not required for this program. Whenever offered, the rules, guidelines, and requirements specified in the OJT framework apply.

Accommodations

Federal and state legislation requires the provision of accommodations for students with disabilities as identified on the secondary student's Individual Educational Plan (IEP) or 504 plan or postsecondary student's accommodations' plan to meet individual needs and ensure equal access. Accommodations change the way the student is instructed. Students with disabilities may need accommodations in such areas as instructional methods and materials, assignments and assessments, time demands and schedules, learning environment, assistive technology and special communication systems. Documentation of the accommodations requested and provided should be maintained in a confidential file.

In addition to accommodations, some secondary students with disabilities (students with an IEP served in Exceptional Student Education (ESE)) will need modifications to meet their needs. Modifications change the outcomes or what the student is expected to learn, e.g., modifying the curriculum of a secondary career and technical education course. Note: postsecondary curriculum and regulated secondary programs cannot be modified.

Some secondary students with disabilities (ESE) may need additional time (i.e., longer than the regular school year), to master the student performance standards associated with a regular Occupational Completion Point (OCP) or a Modified Occupational Completion Point (MOCP). If needed, a student may enroll in the same career and technical course more than once. Documentation should be included in the IEP that clearly

indicates that it is anticipated that the student may need an additional year to complete an OCP/MOCP. The student should work on different competencies and new applications of competencies each year toward completion of the OCP/MOCP. After achieving the competencies identified for the year, the student earns credit for the course. It is important to ensure that credits earned by students are reported accurately. The district's information system must be designed to accept multiple credits for the same course number for eligible students with disabilities.

Program Title: Nails Specialty
Program Type: Career Preparatory
Career Cluster: Human Services

Secondary – Career Preparatory

Program Number	8757300
CIP Number	0612041004
Grade Level	9-12, 30, 31
Standard Length	2 credits
Teacher Certification	NAIL TEC 7 G PERS SERV @7 7G COSMETOL @7 7 G
CTSO	SkillsUSA
SOC Codes (all applicable)	39-5092 Manicurists and Pedicurists
CTE Program Resources	http://www.fldoe.org/academics/career-adult-edu/career-tech-edu/program-resources.stml

Purpose

This program offers a sequence of courses that provides coherent and rigorous content aligned with challenging academic standards and relevant technical knowledge and skills needed to prepare for further education and careers in the Human Services career cluster; provides technical skill proficiency, and includes competency-based applied learning that contributes to the academic knowledge, higher-order reasoning and problem-solving skills, work attitudes, general employability skills, technical skills, and occupation-specific skills, and knowledge of all aspects of the Human Services career cluster. This program offers a broad foundation of knowledge and skills to prepare students for employment in network support services positions.

A student completing the Nails Specialty program is prepared for employment as a licensed Manicurist and Pedicurist (SOC 39-5092). Instruction is designed to qualify students for employment upon successfully obtaining a Nails Specialty Certification.

The content includes, but is not limited to: communication, leadership, human relations and employability skills; safe and efficient work practices; Florida cosmetology law and rules; acquisition of knowledge of the facial specialist and the related chemistry; bacteriology, anatomy and physiology; art of make-up; and development of skill in performing the manipulative and electrical techniques required in the practice of facials specialist occupations.

Program Structure

This program is a planned sequence of instruction consisting of a core and one occupational completion point. Students must complete the core, or demonstrate the mastery of skills standards contained in the core, before advancing in the program.

The following table illustrates the secondary program structure:

OCP	Course Number	Course Title	Length	SOC Code	Level	Graduation Requirement

Academic Alignment Table

Academic alignment is an ongoing, collaborative effort of professional educators specializing in the fields of science, mathematics, English/language arts, and Career and Technical Education (CTE). This initiative supports CTE programs by improving student performance through the integration of academic content within CTE courses. Career and Technical Education courses that have been aligned to the Next Generation Sunshine State Standards for Science and the Florida Standards for Mathematics and English/Language Arts will show the following data: the quantity of academic standards in the CTE course; the total number of standards contained in the academic course; and the percentage of alignment to the CTE course.

Florida Standards for Technical Subjects

Florida Standards (FS) for English Language Arts and Literacy in History/Social Studies, Science, and Technical Subjects are the critical reading and writing literacy standards designed for grade 6 and above. These standards are predicated on teachers of history/social studies, science, and technical subjects using their content area expertise to help students meet the particular challenges of reading, writing, speaking, listening, and language in their respective fields. It is important to note that the 6-12 literacy standards in history/social studies, science, and technical subjects are not meant to replace content standards in those areas but rather to supplement them.

This curriculum framework incorporates the grades 9-10 reading and writing literacy standards in the first two courses of this CTE program and grade 11-12 reading and writing literacy standards in the third and fourth courses of this CTE program. The standards for Mathematical Practices describe varieties of expertise that educators at all levels should seek to develop in their students. These practices rest on important “processes and proficiencies” with longstanding importance in mathematics education. This curriculum framework incorporates the appropriate mathematical practices in the first four courses of this CTE program.

Regulated Programs

Please refer to 61G5-22.015 F.A.C. for specific hours of instruction in the indicated theory items as well as the required number of services students must complete within the program.

Planned and supervised instructional activities must be provided through one or more of the following: (1) directed laboratory experience, (2) student projects, (3) placement for experience.

Common Career Technical Core – Career Ready Practices

Career Ready Practices describe the career-ready skills that educators should seek to develop in their students. These practices are not exclusive to a Career Pathway, program of study, discipline or level of education. Career Ready Practices should be taught and reinforced in all career exploration and preparation programs with increasingly higher levels of complexity and expectation as a student advances through a program of study.

1. Act as a responsible and contributing citizen and employee.
2. Apply appropriate academic and technical skills.
3. Attend to personal health and financial well-being.
4. Communicate clearly, effectively and with reason.
5. Consider the environmental, social and economic impacts of decisions.
6. Demonstrate creativity and innovation.
7. Employ valid and reliable research strategies.
8. Utilize critical thinking to make sense of problems and persevere in solving them.
9. Model integrity, ethical leadership and effective management.
10. Plan education and career path aligned to personal goals.
11. Use technology to enhance productivity.
12. Work productively in teams while using cultural/global competence.

Standards

After successfully completing this program, the student will be able to perform the following:

- 01.0 Methods and strategies for using Florida Standards for grades 09-10 reading in Technical Subjects for student success in Nail Specialty.
- 02.0 Methods and strategies for using Florida Standards for grades 09-10 writing in Technical Subjects for student success in Nail Specialty.
- 03.0 Methods and strategies for using Florida Standards for grades 09-10 Mathematical Practices in Technical Subjects for student success in Nail Specialty.
- 04.0 Identify career opportunities.
- 05.0 Demonstrate the importance of health, safety, and environmental management systems in organizations and their importance to organizational performance and regulatory compliance.
- 06.0 Employ safe, Sanitary and efficient work practices.
- 07.0 Demonstrate language arts knowledge and skills.
- 08.0 Demonstrate mathematics knowledge and skills.
- 09.0 Demonstrate science knowledge and skills.
- 10.0 Explain the importance of employability skill and entrepreneurship skills.
- 11.0 Demonstrate leadership and teamwork skills needed to accomplish team goals and objectives.
- 12.0 Demonstrate personal money-management concepts, procedures, and strategies.
- 13.0 Describe the importance of professional ethics and legal responsibilities.
- 14.0 Describe the roles within teams, work units, departments, organizations, inter-organizational systems, and the larger environment.
- 15.0 Use information technology tools.
- 16.0 Solve problems using critical thinking skills, creativity and innovation.
- 17.0 Use oral and written communication skills in creating, expressing and interpreting information and ideas.
- 18.0 Demonstrate the practice of performing manicures, pedicures, and apply artificial nails/nail wraps identifying the proper procedure and application of chemicals.
- 22.0 Demonstrate the practice of performing manicures, pedicures, and apply artificial nails/nail wraps identifying the proper procedure and application of chemicals.

Course Title: Grooming and Salon Services Core 1
Course Number: 8757210
Course Credit: .5

Course Description:

This course is designed to provide instruction in school, classroom/laboratory safety rules and procedures. It is also designed to provide the student with an opportunity to become familiar with competencies in employability, communication, math and science skills required to succeed in industry. Additionally, it is designed to provide the student with an overview of competencies in State Board of Cosmetology requirements and in the study of the cosmetology law and rules and regulations. He/she will briefly review entrepreneurship competency.

02.03	Research to Build and Present Knowledge	
02.03.1	Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation. LAFS.910.WHST.3.7	
02.03.2	Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the usefulness of each source in answering the research question; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and following a standard format for citation. LAFS.910.WHST.3.8	
02.03.3	Draw evidence from informational texts to support analysis, reflection, and research. LAFS.910.WHST.3.9	
02.04	Range of Writing	
02.04.1	Write routinely over extended time frames (time for reflection and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences. LAFS.910.WHST.4.10	
03.0	Methods and strategies for using Florida Standards for grades 09-10 Mathematical Practices in Technical Subjects for student success in Nail Specialty.

Additional Information

Laboratory Activities

Laboratory investigations that include scientific inquiry, research, measurement, problem solving, emerging technologies, tools and equipment, as well as, experimental, quality, and safety procedures are an integral part of this career and technical program/course. Laboratory investigations benefit all students by developing an understanding of the complexity and ambiguity of empirical work, as well as the skills required to manage, operate, calibrate and troubleshoot equipment/tools used to make observations. Students understand measurement error; and have the skills to aggregate, interpret, and present the resulting data. Equipment and supplies should be provided to enhance hands-on experiences for students.

Special Notes

Please refer to 61G5-22.015 F.A.C. for specific hours of instruction in the indicated theory items as well as the required number of services students must complete within the program.

Planned and supervised instructional activities must be provided through one or more of the following: (1) directed laboratory experience, (2) student projects, (3) placement for experience.

The occupational standards and benchmarks outlined in this secondary program correlate to the standards and benchmarks of the postsecondary program with the same Classification of Instructional Programs (CIP) number.

Career and Technical Student Organization (CTSO)

SkillsUSA, Inc. is the inter-curricular career and technical student organization providing leadership training and reinforcing specific career and technical skills. Career and Technical Student Organizations provide activities for students as an integral part of the instruction offered. The activities of such organizations are defined as part of the curriculum in accordance with Rule 6A-6.065, F.A.C.

Cooperative Training – OJT

On-the-job training is appropriate but not required for this program. Whenever offered, the rules, guidelines, and requirements specified in the OJT framework apply.

Accommodations

Federal and state legislation requires the provision of accommodations for students with disabilities as identified on the secondary student's Individual Educational Plan (IEP) or 504 plan or postsecondary student's accommodations' plan to meet individual needs and ensure equal access. Accommodations change the way the student is instructed. Students with disabilities may need accommodations in such areas as instructional methods and materials, assignments and assessments, time demands and schedules, learning environment, assistive technology and special communication systems. Documentation of the accommodations requested and provided should be maintained in a confidential file.

In addition to accommodations, some secondary students with disabilities (students with an IEP served in Exceptional Student Education (ESE)) will need modifications to meet their needs. Modifications change the outcomes or what the student is expected to learn, e.g., modifying the curriculum of a secondary career and technical education course. Note: postsecondary curriculum and regulated secondary programs cannot be modified.

Some secondary students with disabilities (ESE) may need additional time (i.e., longer than the regular school year), to master the student performance standards associated with a regular Occupational Completion Point (OCP) or a Modified Occupational Completion Point (MOCP). If needed, a student may enroll in the same career and technical course more than once. Documentation should be included in the IEP that clearly indicates that it is anticipated that the student may need an additional year to complete an OCP/MOCP. The student should work on different competencies and new applications of competencies each year toward completion of the OCP/MOCP. After achieving the competencies identified for the year, the student earns credit for the course. It is important to ensure that credits earned by students are reported accurately. The district's information system must be designed to accept multiple credits for the same course number for eligible students with disabilities.

Standard Length	2 credits
Teacher Certification	FACIAL TEC 7 G COSMETOL @7 7 G PERS SERV @7 7G
CTSO	SkillsUSA, Inc.
SOC Codes (all applicable)	39-5094 Skin Care Specialists
CTE Program Resources	http://www.fldoe.org/academics/career-adult-edu/career-tech-edu/program-resources.stml

Purpose

This program offers a sequence of courses that provides coherent and rigorous content aligned with challenging academic standards and relevant technical knowledge and skills needed to prepare for further education and careers in the Human Services career cluster; provides technical skill proficiency, and includes competency-based applied learning that contributes to the academic knowledge, higher-order reasoning and problem-solving skills, work attitudes, general employability skills, technical skills, and occupation-specific skills, and knowledge of all aspects of the Human Services career cluster. This program offers a broad foundation of knowledge and skills to prepare students for employment in network support services positions.

A student completing the Facials Specialist program is prepared for employment as a licensed Facials/Skin Care Specialist (SOC 39-5094). Instruction is designed to qualify students for employment upon successfully obtaining a Facials Specialty Certification.

The content includes, but is not limited to: communication, leadership, human relations and employability skills; safe and efficient work practices; Florida cosmetology law and rules; acquisition of knowledge of the facial specialist and the related chemistry; bacteriology, anatomy and physiology; art of make-up; and development of skill in performing the manipulative and electrical techniques required in the practice of facials specialist occupations.

Program Structure

This program is a planned sequence of instruction consisting of a core and one occupational completion point. Students must complete the core, or demonstrate the mastery of skills standards contained in the core, before advancing in the program.

The following table illustrates the secondary program structure:

OCP	Course Number	Course Title	Length	SOC Code	Level	Graduation Requirement

Academic Alignment Table

Academic alignment is an ongoing, collaborative effort of professional educators specializing in the fields of science, mathematics, English/language arts, and Career and Technical Education (CTE). This initiative supports CTE programs by improving student performance through the integration of academic content within CTE courses. Career and Technical Education courses that have been aligned to the Next Generation Sunshine State Standards for Science and the Florida Standards for Mathematics and English/Language Arts will show the following data: the quantity of academic standards in the CTE course; the total number of standards contained in the academic course; and the percentage of alignment to the CTE course.

Florida Standards for Technical Subjects

Florida Standards (FS) for English Language Arts and Literacy in History/Social Studies, Science, and Technical Subjects are the critical reading and writing literacy standards designed for grade 6 and above. These standards are predicated on teachers of history/social studies, science, and technical subjects using their content area expertise to help students meet the particular challenges of reading, writing, speaking, listening, and language in their respective fields. It is important to note that the 6-12 literacy standards in history/social studies, science, and technical subjects are not meant to replace content standards in those areas but rather to supplement them.

This curriculum framework incorporates the grades 9-10 reading and writing literacy standards in the first two courses of this CTE program and grade 11-12 reading and writing literacy standards in the third and fourth courses of this CTE program. The standards for Mathematical Practices describe varieties of expertise that educators at all levels should seek to develop in their students. These practices rest on important “processes and proficiencies” with longstanding importance in mathematics education. This curriculum framework incorporates the appropriate mathematical practices in the first four courses of this CTE program.

Regulated Programs

Please refer to 61G5-22.006 F.A.C. for specific hours of instruction in the indicated theory items as well as the required number of services students must complete within the program.

Planned and supervised instructional activities must be provided through one or more of the following: (1) directed laboratory experience, (2) student projects, (3) placement for experience.

Common Career Technical Core – Career Ready Practices

Career Ready Practices describe the career-ready skills that educators should seek to develop in their students. These practices are not exclusive to a Career Pathway, program of study, discipline or level of education. Career Ready Practices should be taught and reinforced in all career exploration and preparation programs with increasingly higher levels of complexity and expectation as a student advances through a program of study.

1. Act as a responsible and contributing citizen and employee.
2. Apply appropriate academic and technical skills.
3. Attend to personal health and financial well-being.
4. Communicate clearly, effectively and with reason.
5. Consider the environmental, social and economic impacts of decisions.
6. Demonstrate creativity and innovation.
7. Employ valid and reliable research strategies.
8. Utilize critical thinking to make sense of problems and persevere in solving them.
9. Model integrity, ethical leadership and effective management.
10. Plan education and career path aligned to personal goals.
11. Use technology to enhance productivity.
12. Work productively in teams while using cultural/global competence.

Standards

After successfully completing this program, the student will be able to perform the following:

- 01.0 Methods and strategies for using Florida Standards for grades 09-10 reading in Technical Subjects for student success in Facial Specialty.
- 02.0 Methods and strategies for using Florida Standards for grades 09-10 writing in Technical Subjects for student success in Facial Specialty.
- 03.0 Methods and strategies for using Florida Standards for grades 09-10 Mathematical Practices in Technical Subjects for student success in Facial Specialty.
- 04.0 Identify career opportunities.
- 05.0 Demonstrate the importance of health, safety, and environmental management systems in organizations and their importance to organizational performance and regulatory compliance.
- 06.0 Employ safe, Sanitary and efficient work practices.
- 07.0 Demonstrate language arts knowledge and skills.
- 08.0 Demonstrate mathematics knowledge and skills.
- 09.0 Demonstrate science knowledge and skills.
- 10.0 Explain the importance of employability skill and entrepreneurship skills.
- 11.0 Demonstrate leadership and teamwork skills needed to accomplish team goals and objectives.
- 12.0 Demonstrate personal money-management concepts, procedures, and strategies.
- 13.0 Describe the importance of professional ethics and legal responsibilities.
- 14.0 Describe the roles within teams, work units, departments, organizations, inter-organizational systems, and the larger environment.
- 15.0 Use information technology tools.
- 16.0 Solve problems using critical thinking skills, creativity and innovation.
- 17.0 Use oral and written communication skills in creating, expressing and interpreting information and ideas.
- 18.0 Methods and strategies for using Florida Standards for grades 11-12 reading in Technical Subjects for student success in Facial Specialty.
- 19.0 Methods and strategies for using Florida Standards for grades 11-12 writing in Technical Subjects for student success in Facial Specialty.
- 20.0 Methods and strategies for using Florida Standards for grades 11-12 Mathematical Practices in Technical Subjects for student success in Facial Specialty.
- 21.0 Perform facials, manipulation and related massage, make-up, hair removal, and artificial lash application. Identify the proper chemical to be prescribed using an understanding of the chemistry that affects the nails and skin that can be described, measure and predicted. Demonstrate proper procedure and application of chemicals.
- 22.0 Perform facials, manipulation, make-up, hair removal and artificial lash application. Identify the proper chemical to be prescribed using an understanding of the chemistry that affects the skin that can be described, measured and predicted. Demonstrate proper procedure and application of chemicals.

Course Title: Grooming and Salon Services Core 1
Course Number: 8757210
Course Credit: .5

Course Description:

This course is designed to provide instruction in school, classroom/laboratory safety rules and procedures. It is also designed to provide the student with an opportunity to become familiar with competencies in employability, communication, math and science skills required to succeed in industry. Additionally, it is designed to provide the student with an overview of competencies in State Board of Cosmetology requirements and in the study of the cosmetology law and rules and regulations. He/she will briefly review entrepreneurship competency.

Course Description:

This course is designed to provide instruction in competencies in facials and massage.

Florida Standards		Correlation to CTE Program Standard #
18.0	Methods and strategies for using Florida Standards for grades 11-12 reading in Technical Subjects for student success in Facial Specialty.	
18.01	Key Ideas and Details	
18.01.1	Cite specific textual evidence to support analysis of science and technical texts, attending to important distinctions the author makes and to any gaps or inconsistencies in the account. LAFS.1112.RST.1.1	
18.01.2	Determine the central ideas or conclusions of a text; trace the text's explanation or depiction of a complex process, phenomenon, or concept; provide an accurate summary of the text. LAFS.1112.RST.1.2	
18.01.3	Follow precisely a complex multistep procedure when carrying out experiments, taking measurements, or performing technical tasks, attending to special cases or exceptions defined in the text. LAFS.1112.RST.1.3	
18.02	Craft and Structure	
18.02.1	Determine the meaning of symbols key terms, and other domain-specific words and phrases as they are used in a specific scientific or technical context relevant to grades 11–12 texts and topics. LAFS.1112.RST.2.4	
18.02.2	Analyze how the text structures information or ideas into categories or hierarchies, demonstrating understanding of the information or ideas. LAFS.1112.RST.2.5	
18.02.3	Analyze the author's purpose in providing an explanation, describing a procedure, or discussing an experiment in a text, identifying important issues that remain unresolved. LAFS.1112.RST.2.6	
18.03	Integration of Knowledge and Ideas	

Florida Standards		Correlation to CTE Program Standard #
18.03.1	Integrate and evaluate multiple sources of information presented in diverse formats and media (e.g. quantitative data, video, multimedia) in order to address a question or solve a problem. LAFS.1112.RST.3.7	
18.03.2	Evaluate the hypotheses, data, analysis, and conclusions in a science or technical text, verifying the data when possible and corroborating or challenging conclusions with other sources of information. LAFS.1112.RST.3.8	
18.03.3	Synthesize information from a range of sources (e.g., texts, experiments, simulations) into a coherent understanding of a process, phenomenon, or concept, resolving conflicting information when possible. LAFS.1112.RST.3.9	
18.04 Range of Reading and Level of Text Complexity		
18.04.1	By the end of grade 11, read and comprehend literature [informational texts, history/social studies texts, science/technical texts] in the grades 11–CCR text complexity band proficiently, with scaffolding as needed at the high end of the range.	
18.04.2	By the end of grade 12, read and comprehend literature [informational texts, history/social studies texts, science/technical texts] at the high end of the grades 11–CCR text complexity band independently and proficiently. LAFS.1112.RST.4.10	
19.0	Methods and strategies for using Florida Standards for grades 11-12 writing in Technical Subjects for student success in Facial Specialty.	
19.01 Text Types and Purposes		
19.01.1	Write arguments focused on discipline-specific content. LAFS.1112.WHST.1.1	
19.01.2	Write informative/explanatory texts, including the narration of historical events, scientific procedures/experiments, or technical processes. LAFS.1112.WHST.1.2	
19.02 Production and Distribution of Writing		
19.02.1	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience. LAFS.1112.WHST.2.4	
19.02.2	Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience. LAFS.1112.WHST.2.5	
19.02.3	Use technology, including the Internet, to produce, publish, and update individual or shared writing products in response to ongoing feedback,	

Florida Standards		Correlation to CTE Program Standard #
	including new arguments or information. LAFS.1112.WHST.2.6	
19.03	Research to Build and Present Knowledge	
19.03.1	Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation. LAFS.1112.WHST.3.7	
19.03.2	Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the strengths and limitations of each source in terms of the specific task, purpose, and audience; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and overreliance on any one source and following a standard format for citation. LAFS.1112.WHST.3.8	
19.03.3	Draw evidence from informational texts to support analysis, reflection, and research. LAFS.1112.WHST.3.9	
19.04	Range of Writing	
19.04.1	Write routinely over extended time frames (time for reflection and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences. LAFS.1112.WHST.4.10	
20.0	Methods and strategies for using Florida Standards for grades 11-12 Mathematical Practices in Technical Subjects for student success in Facial Specialty.	
20.01	Make sense of problems and persevere in solving them. MAFS.K12.MP.1.1	
20.02	Reason abstractly and quantitatively. MAFS.K12.MP.2.1	
20.03	Construct viable arguments and critique the reasoning of others. MAFS.K12.MP.3.1	
20.04	Model with mathematics. MAFS.K12.MP.4.1	
20.05	Use appropriate tools strategically. MAFS.K12.MP.5.1	
20.06	Attend to precision. MAFS.K12.MP.6.1	
20.07	Look for and make use of structure. MAFS.K12.MP.7.1

Additional Information

Laboratory Activities

Laboratory investigations that include scientific inquiry, research, measurement, problem solving, emerging technologies, tools and equipment, as well as, experimental, quality, and safety procedures are an integral part of this career and technical program/course. Laboratory investigations benefit all students by developing an understanding of the complexity and ambiguity of empirical work, as well as the skills required to manage, operate, calibrate and troubleshoot equipment/tools used to make observations. Students understand measurement error; and have the skills to aggregate, interpret, and present the resulting data. Equipment and supplies should be provided to enhance hands-on experiences for students.

Special Notes

Please refer to 61G5-22.006 F.A.C. for specific hours of instruction in the indicated theory items as well as the required number of services students must complete within the program.

Planned and supervised instructional activities must be provided through one or more of the following: (1) directed laboratory experience, (2) student projects, (3) placement for experience.

The occupational standards and benchmarks outlined in this secondary program correlate to the standards and benchmarks of the postsecondary program with the same Classification of Instructional Programs (CIP) number.

Career and Technical Student Organization (CTSO)

SkillsUSA, Inc. is the inter-curricular career and technical student organization providing leadership training and reinforcing specific career and technical skills. Career and Technical Student Organizations provide activities for students as an integral part of the instruction offered. The activities of such organizations are defined as part of the curriculum in accordance with Rule 6A-6.065, F.A.C.

Cooperative Training – OJT

On-the-job training is appropriate but not required for this program. Whenever offered, the rules, guidelines, and requirements specified in the OJT framework apply.

Accommodations

Federal and state legislation requires the provision of accommodations for students with disabilities as identified on the secondary student's Individual Educational Plan (IEP) or 504 plan or postsecondary student's accommodations' plan to meet individual needs and ensure equal access. Accommodations change the way the student is instructed. Students with disabilities may need accommodations in such areas as instructional methods and materials, assignments and assessments, time demands and schedules, learning environment, assistive technology and special communication systems. Documentation of the accommodations requested and provided should be maintained in a confidential file.

In addition to accommodations, some secondary students with disabilities (students with an IEP served in Exceptional Student Education (ESE)) will need modifications to meet their needs. Modifications change the outcomes or what the student is expected to learn, e.g., modifying the curriculum of a secondary career and technical education course. Note: postsecondary curriculum and regulated secondary programs cannot be modified.

Some secondary students with disabilities (ESE) may need additional time (i.e., longer than the regular school year), to master the student performance standards associated with a regular Occupational Completion Point (OCP) or a Modified Occupational Completion Point (MOCP). If needed, a student may enroll in the same career and technical course more than once. Documentation should be included in the IEP that clearly indicates that it is anticipated that the student may need an additional year to complete an OCP/MOCP. The student should work on different competencies and new applications of competencies each year toward completion of the OCP/MOCP. After achieving the competencies identified for the year, the student earns credit for the course. It is important to ensure that credits earned by students are reported accurately. The district's information system must be designed to accept multiple credits for the same course number for eligible students with disabilities.

Purpose

This program offers a sequence of courses that provides coherent and rigorous content aligned with challenging academic standards and relevant technical knowledge and skills needed to prepare for further education and careers in the Human Services cluster; provides technical skill proficiency, and includes competency-based applied learning that contributes to the academic knowledge, higher-order reasoning and problem-solving skills, work attitudes, general employability skills, technical skills, and occupation-specific skills, and knowledge of all aspects of the Human Services cluster.

Each student job placement must be related to the job preparatory program in which the student is enrolled or has completed.

The purpose of this course is to provide the on-the-job training component when the **cooperative method of instruction** is appropriate. Whenever the cooperative method is offered, the following is required for each student: a training agreement; a training plan signed by the student, teacher and employer, including instructional objectives; a list of on-the-job and in-school learning experiences; a workstation which reflects equipment, skills and tasks which are relevant to the occupation which the student has chosen as a career goal; and a site supervisor with a working knowledge of the selected occupation. The workstation may be in an industry setting or in a virtual learning environment. The student **must be compensated** for work performed.

The teacher/coordinator must meet with the site supervisor a minimum of once during each grading period for the purpose of evaluating the student's progress in attaining the competencies listed in the training plan.

Human Services Cooperative Education - OJT may be taken by a student for one or more semesters. A student may earn multiple credits in this course. The specific student performance standards which the student must achieve to earn credit are specified in the Cooperative Education - OJT Training Plan.

Additional Information relevant to this Career and Technical Education (CTE) program is provided at the end of this document.

Common Career Technical Core – Career Ready Practices

Career Ready Practices describe the career-ready skills that educators should seek to develop in their students. These practices are not exclusive to a Career Pathway, program of study, discipline or level of education. Career Ready Practices should be taught and reinforced in all career exploration and preparation programs with increasingly higher levels of complexity and expectation as a student advances through a program of study.

1. Act as a responsible and contributing citizen and employee.
2. Apply appropriate academic and technical skills.
3. Attend to personal health and financial well-being.
4. Communicate clearly, effectively and with reason.
5. Consider the environmental, social and economic impacts of decisions.
6. Demonstrate creativity and innovation.
7. Employ valid and reliable research strategies.
8. Utilize critical thinking to make sense of problems and persevere in solving them.
9. Model integrity, ethical leadership and effective management.
10. Plan education and career path aligned to personal goals.
11. Use technology to enhance productivity.
12. Work productively in teams while using cultural/global competence.

Standards

After successfully completing this program, the student will be able to perform the following:

- 01.0 Perform designated job skills.
- 02.0 Demonstrate work ethics.

Purpose

The purpose of this course is to provide students with learning opportunities in a prescribed program of study within the Human Services cluster(s) that will enhance opportunities for employment in the career field chosen by the student.

Additional Information relevant to this Career and Technical Education (CTE) program is provided at the end of this document.

Course Structure

The content is prescribed by the instructor based upon the individual student's assessed needs for directed study.

This course may be taken only by a student who has completed or is currently completing a specific secondary job preparatory program or occupational completion point for additional study in this career cluster. A student may earn multiple credits in this course.

The selected standards and benchmarks, which the student must master to earn credit, must be outlined in an instructional plan developed by the instructor.

01.0	Demonstrate expertise in a specific occupation within the career cluster – the student will be able to:
01.01	The benchmarks will be selected from the appropriate curriculum frameworks and determined by the instructor based upon the individual students assessed needs.
02.0	Conduct investigative research on a selected topic related to the career cluster using approved research methodology, interpret findings, and prepare presentation to defend results – the student will be able to:
02.01	Select investigative study referencing prior research and knowledge.
02.02	Collect, organize and analyze data accurately and precisely.
02.03	Design procedures to test the research.
02.04	Report, display and defend the results of investigations to audiences that may include professionals and technical experts.
03.0	Apply enhanced leadership and professional career skills – the student will be able to:
03.01	Develop and present a professional presentation offering potential solutions to a current issue.
03.02	Enhance leadership and career skills through work-based learning including job placement, job shadowing, entrepreneurship, internship, or a virtual experience.
03.03	Participate in leadership development opportunities available through the appropriate student organization and/or other professional organizations.
03.04	Enhance written and oral communications through the development of presentations, public speaking, and live and/or virtual interviews.
04.0	Demonstrate higher order critical thinking and reasoning skills appropriate for the selected program of study – the student will be able to:
04.01	Use mathematical and/or scientific skills to solve problems encountered in the chosen occupation.
04.02	Read and interpret information relative to the chosen occupation.
04.03	Locate and evaluate key elements of oral and written information.
04.04	Analyze and apply data and/or measurements to solve problems and interpret documents.

04.05 Construct charts/tables/graphs using functions and data.

Additional Information

Laboratory Activities

Laboratory investigations that include scientific inquiry, research, measurement, problem solving, emerging technologies, tools and equipment, as well as, experimental, quality, and safety procedures are an integral part of this career and technical program/course. Laboratory investigations benefit all students by developing an understanding of the complexity and ambiguity of empirical work, as well as the skills required to manage, operate, calibrate and troubleshoot equipment/tools used to make observations. Students understand measurement error; and have the skills to aggregate, interpret, and present the resulting data. Equipment and supplies should be provided to enhance hands-on experiences for students.

Career and Technical Student Organization (CTSO)

FCCLA is the inter-curricular career and technical student organization(s) providing leadership training and reinforcing specific career and technical skills. Career and Technical Student Organizations provide activities for students as an integral part of the instruction offered. The activities of such organizations are defined as part of the curriculum in accordance with Rule 6A-6.065, F.A.C.

Purpose

This program offers a sequence of courses that provides coherent and rigorous content aligned with challenging academic standards and relevant technical knowledge and skills needed to prepare for further education and careers in the Human Services career cluster; provides technical skill proficiency, and includes competency-based applied learning that contributes to the academic knowledge, higher-order reasoning and problem-solving skills, work attitudes, general employability skills, technical skills, and occupation-specific skills, and knowledge of all aspects of the Human Services career cluster. This program offers a broad foundation of knowledge and skills to prepare students for employment in network support services positions.

A student completing the Cosmetology program is prepared for employment as a licensed Hairdressers, Hairstylists, and Cosmetologists (SOC 39-5012). Instruction is designed to qualify students for employment upon successfully obtaining a Cosmetology license.

The content includes, but is not limited to: communication, leadership, human relations and employability skills; safe and efficient work practices; Florida cosmetology law and rules; acquisition of knowledge of the cosmetology/nails specialist/facial specialist and the related chemistry; bacteriology, anatomy and physiology; art of make-up; and development of skill in performing the manipulative and electrical techniques required in the practice of cosmetology/nails specialist and facials specialist occupations.

Program Structure

Students must complete the core, or demonstrate the mastery of skills standards contained in the core, before advancing in the program.

Academic Alignment Table

Academic alignment is an ongoing, collaborative effort of science, mathematics, and english/language arts core academic and Career and Technical Education (CTE) professional educators. This initiative supports CTE programs to improve the academic and career and technical skills of students through the integration of academics and CTE. Career and Technical Education courses that have been aligned to the Next Generation Sunshine State Standards for Science and the Florida Standards for Mathematics and English/Language Arts will show the following data: the quantity of academic standards in the CTE course; the total number of standards contained in the academic course; and the percentage of alignment to the CTE course.

Florida Standards for Technical Subjects

Florida Standards (FS) for English Language Arts and Literacy in History/Social Studies, Science, and Technical Subjects are the critical reading and writing literacy standards designed for grade 6 and above. These standards are predicated on teachers of history/social studies, science, and technical subjects using their content area expertise to help students meet the particular challenges of reading, writing, speaking, listening, and language in their respective fields. It is important to note that the 6-12 literacy standards in history/social studies, science, and technical subjects are not meant to replace content standards in those areas but rather to supplement them.

This curriculum framework incorporates the grades 9-10 reading and writing literacy standards in the first two courses of this CTE program and grade 11-12 reading and writing literacy standards in the third and fourth courses of this CTE program. The standards for Mathematical Practices

describe varieties of expertise that educators at all levels should seek to develop in their students. These practices rest on important “processes and proficiencies” with longstanding importance in mathematics education. This curriculum framework incorporates the appropriate mathematical practices in the first four courses of this CTE program.

Common Career Technical Core – Career Ready Practices

Career Ready Practices describe the career-ready skills that educators should seek to develop in their students. These practices are not exclusive to a Career Pathway, program of study, discipline or level of education. Career Ready Practices should be taught and reinforced in all career exploration and preparation programs with increasingly higher levels of complexity and expectation as a student advances through a program of study.

1. Act as a responsible and contributing citizen and employee.
2. Apply appropriate academic and technical skills.
3. Attend to personal health and financial well-being.
4. Communicate clearly, effectively and with reason.
5. Consider the environmental, social and economic impacts of decisions.
6. Demonstrate creativity and innovation.
7. Employ valid and reliable research strategies.
8. Utilize critical thinking to make sense of problems and persevere in solving them.
9. Model integrity, ethical leadership and effective management.
10. Plan education and career path aligned to personal goals.
11. Use technology to enhance productivity.
12. Work productively in teams while using cultural/global competence.

Standards

After successfully completing this program, the student will be able to perform the following:

- 01.0 Methods and strategies for using Florida Standards for grades 09-10 reading in Technical Subjects for student success in Cosmetology.
- 02.0 Methods and strategies for using Florida Standards for grades 09-10 writing in Technical Subjects for student success in Cosmetology.
- 03.0 Methods and strategies for using Florida Standards for grades 09-10 Mathematical Practices in Technical Subjects for student success in Cosmetology.
- 04.0 Identify career opportunities.
- 05.0 Demonstrate the importance of health, safety, and environmental management systems in organizations and their importance to organizational performance and regulatory compliance.
- 06.0 Employ safe, sanitary and efficient work practices.
- 07.0 Demonstrate language arts knowledge and skills.
- 08.0 Demonstrate mathematics knowledge and skills.
- 09.0 Demonstrate science knowledge and skills.
- 10.0 Explain the importance of employability skill and entrepreneurship skills.
- 11.0 Demonstrate leadership and teamwork skills needed to accomplish team goals and objectives.
- 12.0 Demonstrate personal money-management concepts, procedures, and strategies.
- 13.0 Describe the importance of professional ethics and legal responsibilities.
- 14.0 Describe the roles within teams, work units, departments, organizations, inter-organizational systems, and the larger environment.
- 15.0 Use information technology tools.
- 16.0 Solve problems using critical thinking skills, creativity and innovation.
- 17.0 Demonstrate the practice of performing manicures, pedicures, and apply artificial nails/nail wraps identifying the proper procedure and application of chemicals.
- 18.0 Perform facials, manipulation and related massage, make-up, hair removal, and artificial lash application. Identify the proper chemical to be prescribed using an understanding of the chemistry that affects the nails and skin that can be described, measured and predicted. Demonstrate proper procedure and application of chemicals.
- 19.0 Identify shampoo/hair conditioners and scalp treatments. Evaluate scalp and hair needs by analysis, demonstrating an awareness of diseases and disorders. Communicate an understanding of the chemical compositions and reactions of shampoos, conditioners, and rinses with water and each other. Demonstrate an understanding of electrical current, transfer of energy and how it affects the skin. Demonstrate application of shampoo, manipulations and rinsing.
- 20.0 Methods and strategies for using Florida Standards for grades 11-12 reading in Technical Subjects for student success in Cosmetology.
- 21.0 Methods and strategies for using Florida Standards for grades 11-12 writing in Technical Subjects for student success in Cosmetology.
- 22.0 Methods and strategies for using Florida Standards for grades 11-12 Mathematical Practices in Technical Subjects for student success in Cosmetology.
- 23.0 Identify and perform hair shaping (cutting). Identify and analyze spheres and dimensional shapes using visualization. Illustrate ways in which geometric shapes can be combined, subdivided and changed in performing haircuts on a manikin or client. Communicate an understanding of factors that influence the determination of strategies necessary to meet individual client needs.
- 24.0 Identify and perform hairstyles. Identify and analyze spheres and dimensional shapes using visualization. Illustrate ways in which geometric shapes can be combined, subdivided and changed in performing haircuts on a manikin or client. Communicate an understanding of factors that influence the determination of strategies necessary to meet individual client needs.

- 25.0 Identify and prepare hairpieces, wigs and hair attachments. Identify and analyze spheres and dimensional shapes using visualization. Illustrate ways in which geometric shapes can be combined, subdivided and changed in performing haircuts on a manikin or client. Communicate an understanding of factors that influence the determination of strategies necessary to meet individual client needs.
- 26.0 Identify and perform permanent waving/reconstruction and curl/ chemical relaxing. Identify the proper chemical to be prescribed and understand the way chemicals affect the hair shaft and skin. Be able to demonstrate proper procedure and application of chemicals.
- 27.0 Identify and apply temporary/semi-permanent and permanent color/bleach and specialty color techniques. Identify the proper chemical to be prescribed. Understand the chemicals that affect the hair shaft and skin and be able to describe, measure, and predict chemical reactions. Demonstrate proper procedures including the measurement, mixing and application of chemicals.

Course Title: Grooming and Salon Services Core 1
Course Number: 8757210
Course Credit: .5

Course Description:

This course is designed to provide instruction in safety rules and procedures, school, classroom/laboratory procedures. It provides competencies in hair shampooing and conditioning, trimming and shaping hair using clippers, shears and razors.

Florida Standards		Correlation to CTE Program Standard #
01.0 Methods and strategies for using Florida Standards for grades 09-10 reading in Technical Subjects for student success in Cosmetology .		
01.01 Key Ideas and Details		
01.01.1	Cite specific textual evidence to support analysis of science and technical texts, attending to the precise details of explanations or descriptions. LAFS.910.RST.1.1	
01.01.2	Determine the central ideas or conclusions of a text; trace the text’s explanation or depiction of a complex process, phenomenon, or concept; provide an accurate summary of the text. LAFS.910.RST.1.2	
01.01.3	Follow precisely a complex multistep procedure when carrying out experiments, taking measurements, or performing technical tasks, attending to special cases or exceptions defined in the text. LAFS.910.RST.1.3	
01.02 Craft and Structure		
01.02.1	Determine the meaning of symbols, key terms, and other domain-specific words and phrases as they are used in a specific scientific or technical context relevant to grades 9–10 texts and topics. LAFS.910.RST.2.4	
01.02.2	Analyze the structure of the relationships among concepts in a text, including relationships among key terms (e.g., force, friction, reaction force, energy). LAFS.910.RST.2.5	
01.02.3	Analyze the author’s purpose in providing an explanation, describing a procedure, or discussing an experiment in a text, defining the question the author seeks to address. LAFS.910.RST.2.6	

Florida Standards		Correlation to CTE Program Standard #
01.03 Integration of Knowledge and Ideas		
01.03.1	Translate quantitative or technical information expressed in words in a text into visual form (e.g., a table or chart) and translate information expressed visually or mathematically (e.g., in an equation) into words. LAFS.910.RST.3.7	
01.03.2	Assess the extent to which the reasoning and evidence in a text support the author's claim or a recommendation for solving a scientific or technical problem. LAFS.910.RST.3.8	
01.03.3	Compare and contrast findings presented in a text to those from other sources (including their own experiments), noting when the findings support or contradict previous explanations or accounts. LAFS.910.RST.3.9	
01.04 Range of Reading and Level of Text Complexity		
01.04.1	By the end of grade 9, read and comprehend literature [informational texts, history/social studies texts, science/technical texts] in the grades 9–10 text complexity band proficiently, with scaffolding as needed at the high end of the range.	
01.04.2	By the end of grade 10, read and comprehend literature [informational texts, history/social studies texts, science/technical texts] at the high end of the grades 9–10 text complexity band independently and proficiently. LAFS.910.RST.4.10	
02.0 Methods and strategies for using Florida Standards for grades 09-10 writing in Technical Subjects for student success in Cosmetology .		
02.01 Text Types and Purposes		
02.01.1	Write arguments focused on discipline-specific content. LAFS.910.WHST.1.1	
02.01.2	Write informative/explanatory texts, including the narration of historical events, scientific procedures/experiments, or technical processes. LAFS.910.WHST.1.2	
02.02 Production and Distribution of Writing		
02.02.1	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience. LAFS.910.WHST.2.4	
02.02.2	Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience. LAFS.910.WHST.2.5	
02.02.3	Use technology, including the Internet, to produce, publish, and update individual or shared writing products, taking advantage of technology's capacity to link to other information and to display information flexibly

	and dynamically. LAFS.910.WHST.2.6	
02.03	Research to Build and Present Knowledge	
02.03.1	Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation. LAFS.910.WHST.3.7	
02.03.2	Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the usefulness of each source in answering the research question; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and following a standard format for citation. LAFS.910.WHST.3.8	
02.03.3	Draw evidence from informational texts to support analysis, reflection, and research. LAFS.910.WHST.3.9	
02.04	Range of Writing	
02.04.1	Write routinely over extended time frames (time for reflection and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences. LAFS.910.WHST.4.10	
03.0	Methods and strategies for using Florida Standards for grades 09-10 Mathematical Practices in Technical Subjects for student success in Cosmetology .	
03.01	Make sense of problems and persevere in solving them. MAFS.K12.MP.1.1	
03.02	Reason abstractly and quantitatively. MAFS.K12.MP.2.1	
03.03	Construct viable arguments and critique the reasoning of others. MAFS.K12.MP.3.1	
03.04	Model with mathematics. MAFS.K12.MP.4.1	
03.05	Use appropriate tools strategically. MAFS.K12.MP.5.1	
03.06	Attend to precision. MAFS.K12.MP.6.1	
03.07	Look for and make use of structure. MAFS.K12.MP.7.1	
03.08	Look for and express regularity in repeated reasoning.

21.03.1	Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.	LAFS.1112.WHST.3.7
21.03.2	Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the strengths and limitations of each source in terms of the specific task, purpose, and audience; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and overreliance on any one source and following a standard format for citation.	LAFS.1112.WHST.3.8
21.03.3	Draw evidence from informational texts to support analysis, reflection, and research.	LAFS.1112.WHST.3.9
21.04	Range of Writing	
21.04.1	Write routinely over extended time frames (time for reflection and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.	LAFS.1112.WHST.4.10
22.0	Methods and strategies for using Florida Standards for grades 11-12 Mathematical Practices in Technical Subjects for student success in Cosmetology .	
22.01	Make sense of problems and persevere in solving them.	MAFS.K12.MP.1.1
22.02	Reason abstractly and quantitatively.	MAFS.K12.MP.2.1
22.03	Construct viable arguments and critique the reasoning of others.	MAFS.K12.MP.3.1
22.04	Model with mathematics.	MAFS.K12.MP.4.1
22.05	Use appropriate tools strategically.	MAFS.K12.MP.5.1
22.06	Attend to precision.	MAFS.K12.MP.6.1
22.07	Look for and make use of structure.	MAFS.K12.MP.7.1
22.08	Look for and express regularity in repeated reasoning.

Additional Information

Laboratory Activities

Laboratory investigations that include scientific inquiry, research, measurement, problem solving, emerging technologies, tools and equipment, as well as, experimental, quality, and safety procedures are an integral part of this career and technical program/course. Laboratory investigations benefit all students by developing an understanding of the complexity and ambiguity of empirical work, as well as the skills required to manage, operate, calibrate and troubleshoot equipment/tools used to make observations. Students understand measurement error; and have the skills to aggregate, interpret, and present the resulting data. Equipment and supplies should be provided to enhance hands-on experiences for students.

Special Notes

Students wishing to complete the Cosmetology program, Hairdresser and Cosmetologist, shall complete the requirements listed in Rule 61G5-22 that outline the basic curriculum which shall be used in cosmetology schools in the State of Florida. This curriculum includes definitions, level of acceptable competency, knowledge of Florida law, and sanitation and sterilization practices. Additional curriculum requirements are listed in the table below:

Rule Cite	Number and Type of Service Required
61G5-22.006, F.A.C.	Ten (10) facials including skin care and hair removal
61G5-22.0125, F.A.C.	Twenty (20) manicuring/pedicuring/nail extension services
61G5-22.007, F.A.C.	Seventy-five (75) hair shaping services
61G5-22.008, F.A.C.	Forty-five (45) scalp treatments and hair care rinses
61G5-22.009, F.A.C.	Fifty (50) shampoos and rinses
61G5-22.010, F.A.C.	Three hundred (300) hair arranging/styling services
61G5-22.011, F.A.C.	Forty-five (45) hair coloring services
61G5-22.012, F.A.C.	Sixty-five (65) chemical waving and relaxing/straightening services

Optional curricula may include beauty salon management as outlined in 61G5-22.014, F.A.C. This curriculum is not mandatory for the certification examination.

The occupational standards and benchmarks outlined in this secondary program correlate to the standards and benchmarks of the postsecondary program with the same Classification of Instructional Programs (CIP) number.

Career and Technical Student Organization (CTSO)

SkillsUSA is the inter-curricular career and technical student organization providing leadership training and reinforcing specific career and technical skills. Career and Technical Student Organizations provide activities for students as an integral part of the instruction offered. The activities of such organizations are defined as part of the curriculum in accordance with Rule 6A-6.065, F.A.C.

Cooperative Training – OJT

On-the-job training is appropriate but not required for this program. Whenever offered, the rules, guidelines, and requirements specified in the OJT framework apply.

Accommodations

Federal and state legislation requires the provision of accommodations for students with disabilities as identified on the secondary student's Individual Educational Plan (IEP) or 504 plan or postsecondary student's accommodations' plan to meet individual needs and ensure equal access. Accommodations change the way the student is instructed. Students with disabilities may need accommodations in such areas as instructional methods and materials, assignments and assessments, time demands and schedules, learning environment, assistive technology and special communication systems. Documentation of the accommodations requested and provided should be maintained in a confidential file.

In addition to accommodations, some secondary students with disabilities (students with an IEP served in Exceptional Student Education (ESE)) will need modifications to meet their needs. Modifications change the outcomes or what the student is expected to learn, e.g., modifying the curriculum of a secondary career and technical education course. Note: postsecondary curriculum and regulated secondary programs cannot be modified.

Some secondary students with disabilities (ESE) may need additional time (i.e., longer than the regular school year), to master the student performance standards associated with a regular Occupational Completion Point (OCP) or a Modified Occupational Completion Point (MOCP). If needed, a student may enroll in the same career and technical course more than once. Documentation should be included in the IEP that clearly indicates that it is anticipated that the student may need an additional year to complete an OCP/MOCP. The student should work on different competencies and new applications of competencies each year toward completion of the OCP/MOCP. After achieving the competencies identified for the year, the student earns credit for the course. It is important to ensure that credits earned by students are reported accurately. The district's information system must be designed to accept multiple credits for the same course number for eligible students with disabilities.

06.02 Analyze the characteristics and responsibilities of organizational leaders.

06.03 Demonstrate parliamentary procedure skills during a meeting.

CTE Standards and Benchmarks

06.04 Evaluate a committee which has an assigned task and report to the class.

06.05 Demonstrate effective communication skills through delivery of a speech or conducting a demonstration.

06.06 Use a computer to assist in the completion of a project.

07.0 Integrate the use of science, mathematics, reading, writing, and communications – the student will be able to:

07.01 Apply basic mathematics operations to solve problems.

07.02 Prepare written and/or oral materials using correct English grammar.

07.03 Identify the main idea in oral presentations and/or written materials.

07.04 Locates, organizes, and interprets information from a variety of sources.

08.0 Recognize the value of responsibility, good work habits, and planning for career opportunities in agriculture services – the student will be able to:

08.01 Identify attitudes and habits necessary to achieve career success.

08.02 Describe personality aspects to consider when choosing a career.

08.03 Identify the basic steps in career planning.

08.04 Develop basic career plan.

08.05 Identify and research careers within a specific area of Human Services

09.0 Identify components of network systems – the student will be able to:

09.01 Identify attitudes and habits necessary to achieve career success.

09.02 Identify structure to access internet, including hardware and software components.

09.03 Identify and configure user customization features in web browsers, including preferences, caching, and cookies.

09.04 Recognize essential database concepts.

09.05 Define and use additional networking and internet services.

10.0 Describe and use communication features of information technology – the student will be able to:

10.01 Define important internet communications protocols and their roles in delivering basic Internet services.

CTE Standards and Benchmarks

10.02 Identify basic principles of the Domain Name System (DNS).

10.03 Identify security issues related to Internet clients.

Course Title: Introduction to Human Service Careers
Course Number: 8960350
Course Credit: Semester

Course Description:

Beginning with a broad overview of the Human Services career cluster, students are introduced to the terminology, careers, history, required skills, and technologies associated with each pathway in the Human Services career cluster. Additionally, they will be provided with opportunities to acquire and demonstrate beginning leadership skills.

CTE Standards and Benchmarks	
01.0	Demonstrate an understanding of the Early Childhood Development and Services career pathway – the student will be able to:
01.01	Define and use proper terminology associated with the Early Childhood Development and Services career pathway.
01.02	Describe some of the careers available in the Early Childhood Development and Services career pathway.
01.03	Identify common characteristics of the careers in the Early Childhood Development and Services career pathway.
01.04	Research the history of the Early Childhood Development and Services career pathway and describe how the associated careers have evolved and impacted society.
01.05	Identify skills required to successfully enter any career in the Early Childhood Development and Services career pathway.
01.06	Describe technologies associated in careers within the Early Childhood Development and Services career pathway.
02.0	Demonstrate an understanding of the Counseling and Mental Health Services career pathway – the student will be able to:
02.01	Define and use proper terminology associated with the Counseling and Mental Health Services career pathway.
02.02	Describe some of the careers available in the Counseling and Mental Health Services career pathway.
02.03	Identify common characteristics of the careers in the Counseling and Mental Health Services career pathway.
02.04	Research the history of the Counseling and Mental Health Services career pathway and describe how the careers have evolved and impacted society.
02.05	Identify skills required to successfully enter any career in the Counseling and Mental Health Services career pathway.

CTE Standards and Benchmarks

02.06 Describe technologies associated in careers within the Counseling and Mental Health Services career pathway.

03.0 Demonstrate an understanding of the Family and Community Services career pathway – the student will be able to:

03.01 Define and use proper terminology associated with the Family and Community Services career pathway.

03.02 Describe some of the careers available in the Family and Community Services career pathway.

03.03 Identify common characteristics of the careers in the Family and Community Services career pathway.

03.04 Research the history of the Family and Community Services career pathway and describe how the careers have evolved and impacted society.

03.05 Identify skills required to successfully enter any career in the Family and Community Services career pathway.

03.06 Describe technologies associated in careers within the Family and Community Services career pathway.

04.0 Demonstrate an understanding of the Personal Care Services career pathway – the student will be able to:

04.01 Define and use proper terminology associated with the Personal Care Services career pathway.

04.02 Describe some of the careers available in the Personal Care Services career pathway.

04.03 Identify common characteristics of the careers in the Personal Care Services career pathway.

04.04 Research the history of Personal Care Services career have evolved and impacted society.

04.05 Identify skills required to successfully enter any career in the Personal Care Services career pathway.

04.06 Describe technologies associated in careers within the Personal Care Services career pathway.

05.0 Demonstrate an understanding of the Consumer Services career pathway – the student will be able to:

05.01 Define and use proper terminology associated with the Consumer Services career pathway.

05.02 Describe some of the careers available in the Consumer Services career pathway.

05.03 Identify common characteristics of the careers in the Consumer Services career pathway.

05.04 Research the history of Consumer Services career have evolved and impacted society.

05.05 Identify skills required to successfully enter any career in the Consumer Services career pathway.

05.06 Describe technologies associated in careers within the Consumer Services career pathway.

06.0 Apply leadership and communication skills – the student will be able to:

06.01 Discuss the establishment and history of the FCCLA organization.

06.02 Identify the characteristics and responsibilities of organizational leaders.

06.03 Demonstrate parliamentary procedure skills during a meeting.

06.04 Participate on a committee which has an assigned task and report to the class.

06.05 Demonstrate effective communication skills through delivery of a speech, a slide presentation, or conducting a demonstration.

06.06 Use a computer to assist in the completion of a project related to the Human Services career cluster.

07.0 Describe how information technology is used in the Human Services career cluster – the student will be able to:

07.01 Identify information technology (IT) careers in the Human Services career cluster, including the responsibilities, tasks and skills they require.

07.02 Relate information technology project management concepts and terms to careers in the Human Services career cluster.

07.03 Manage information technology components typically used in professions of the Human Services career cluster.

07.04 Identify security-related ethical and legal IT issues faced by professionals in the Human Services career cluster.

08.0 Use information technology tools – the student will be able to:

08.01 Identify the functions of web browsers, and use them to access the World Wide Web and other computer resources typically used in the Human Services career cluster.

08.02 Use e-mail clients to send simple messages and files to other Internet users.

08.03 Demonstrate ways to communicate effectively using Internet technology.

08.04 Use different types of web search engines effectively to locate information relevant to the Human Services career cluster.

01.01	Define and use proper terminology associated with the Early Childhood Development and Services career pathway.
01.02	Describe some of the careers available in the Early Childhood Development and Services career pathway.
01.03	Identify common characteristics of the careers in the Early Childhood Development and Services career pathway.
01.04	Research the history of the Early Childhood Development and Services career pathway and describe how the associated careers have evolved and impacted society.
01.05	Identify skills required to successfully enter any career in the Early Childhood Development and Services career pathway.
01.06	Describe technologies associated in careers within the Early Childhood Development and Services career pathway.
02.0	Demonstrate an understanding of the Counseling and Mental Health Services career pathway – the student will be able to:
02.01	Define and use proper terminology associated with the Counseling and Mental Health Services career pathway.
02.02	Describe some of the careers available in the Counseling and Mental Health Services career pathway.
02.03	Identify common characteristics of the careers in the Counseling and Mental Health Services career pathway.
02.04	Research the history of the Counseling and Mental Health Services career pathway and describe how the careers have evolved and impacted society.
02.05	Identify skills required to successfully enter any career in the Counseling and Mental Health Services career pathway.
02.06	Describe technologies associated in careers within the Counseling and Mental Health Services career pathway.

CTE Standards and Benchmarks

03.0	Demonstrate an understanding of the Family and Community Services career pathway – the student will be able to:
03.01	Define and use proper terminology associated with the Family and Community Services career pathway.
03.02	Describe some of the careers available in the Family and Community Services career pathway.
03.03	Identify common characteristics of the careers in the Family and Community Services career pathway.
03.04	Research the history of the Family and Community Services career pathway and describe how the careers have evolved and impacted society.
03.05	Identify skills required to successfully enter any career in the Family and Community Services career pathway.
03.06	Describe technologies associated in careers within the Family and Community Services career pathway.
04.0	Demonstrate an understanding of the Personal Care Services career pathway – the student will be able to:
04.01	Define and use proper terminology associated with the Personal Care Services career pathway.
04.02	Describe some of the careers available in the Personal Care Services career pathway.
04.03	Identify common characteristics of the careers in the Personal Care Services career pathway.
04.04	Research the history of Personal Care Services career have evolved and impacted society.
04.05	Identify skills required to successfully enter any career in the Personal Care Services career pathway.
04.06	Describe technologies associated in careers within the Personal Care Services career pathway.
05.0	Demonstrate an understanding of the Consumer Services career pathway – the student will be able to:
05.01	Define and use proper terminology associated with the Consumer Services career pathway.
05.02	Describe some of the careers available in the Consumer Services career pathway.
05.03	Identify common characteristics of the careers in the Consumer Services career pathway.
05.04	Research the history of Consumer Services career have evolved and impacted society.

06.04 Participate on a committee which has an assigned task and report to the class.

06.05 Demonstrate effective communication skills through delivery of a speech, a slide presentation, or conducting a demonstration.

06.06 Use a computer to assist in the completion of a project related to the Human Services career cluster.

07.0 Describe how information technology is used in the Human Services career cluster – the student will be able to:

07.01 Identify information technology (IT) careers in the Human Services career cluster, including the responsibilities, tasks and skills they require.

07.02 Relate information technology project management concepts and terms to careers in the Human Services career cluster.

07.03 Manage information technology components typically used in professions of the Human Services career cluster.

07.04 Identify security-related ethical and legal IT issues faced by professionals in the Human Services career cluster.

08.0 Use information technology tools – the student will be able to:

08.01 Identify the functions of web browsers, and use them to access the World Wide Web and other computer resources typically used in the Human Services career cluster.

08.02 Use e-mail clients to send simple messages and files to other Internet users.

08.03 Demonstrate ways to communicate effectively using Internet technology.

08.04 Use different types of web search engines effectively to locate information relevant to the Human Services career cluster.

Listed below are the standards that must be met to satisfy the requirements of Section 1003.4156, Florida Statutes--The student will be able to:

09.0 Describe the influences that societal, economic, and technological changes have on employment trends and future training.

10.0 Develop skills to locate, evaluate, and interpret career information.

11.0 Identify and demonstrate processes for making short and long term goals.

12.0 Demonstrate employability skills such as working in a group, problem-solving and organizational skills, and the importance of entrepreneurship.

13.0 Understand the relationship between educational achievement and career choices/postsecondary options.

CTE Standards and Benchmarks

14.0 Identify a career cluster and related pathways that match career and education goals.

15.0 Develop a career and education plan that includes short and long-term goals, high school program of study, and postsecondary/career goals.

16.0 Demonstrate knowledge of technology and its application in career fields/clusters.

Additional Information

Laboratory Activities

Laboratory investigations that include scientific inquiry, research, measurement, problem solving, emerging technologies, tools and equipment, as well as, experimental, quality, and safety procedures are an integral part of this career and technical program/course. Laboratory investigations benefit all students by developing an understanding of the complexity and ambiguity of empirical work, as well as the skills required to manage, operate, calibrate and troubleshoot equipment/tools used to make observations. Students understand measurement error; and have the skills to aggregate, interpret, and present the resulting data. Equipment and supplies should be provided to enhance hands-on experiences for students.

Special Notes

The length of this course is one semester.

Career Planning

The requirements of section 1003.4156 (1) (e), Florida Statutes, have been integrated into this course. The statute requires that students take a career and education planning course that must result in a completed personalized academic and career plan for the student; must emphasize the importance of entrepreneurship skills; must emphasize technology or the application of technology in career fields; and, beginning in the 2014-2015 academic year, must provide information from the Department of Economic Opportunity's economic security report as described in section 445.07, Florida Statutes. For additional information on the Middle School Career and Education Planning course requirements, go to <http://www.fl DOE.org/workforce/ced/>.

Career and Technical Student Organization (CTSO)

FCCLA is the inter-curricular career and technical student organization(s) providing leadership training and reinforcing specific career and technical skills. Career and Technical Student Organizations provide activities for students as an integral part of the instruction offered. The activities of such organizations are defined as part of the curriculum in accordance with Rule 6A-6.065, F.A.C.

Accommodations

Federal and state legislation requires the provision of accommodations for students with disabilities as identified on the secondary student's Individual Educational Plan (IEP) or 504 plan or postsecondary student's accommodations' plan to meet individual needs and ensure equal access. Accommodations change the way the student is instructed. Students with disabilities may need accommodations in such areas as instructional methods and materials, assignments and assessments, time demands and schedules, learning environment, assistive technology and special communication systems. Documentation of the accommodations requested and provided should be maintained in a confidential file.

In addition to accommodations, some secondary students with disabilities (students with an IEP served in Exceptional Student Education (ESE)) will need modifications to meet their needs. Modifications change the outcomes or what the student is expected to learn, e.g., modifying the curriculum of a secondary career and technical education course. Note: postsecondary curriculum and regulated secondary programs cannot be modified.

Purpose

This program offers a sequence of courses that provides coherent and rigorous content aligned with challenging academic standards and relevant technical knowledge and skills needed to prepare for further education and careers in the Human Services career cluster; provides technical skill proficiency, and includes competency-based applied learning that contributes to the academic knowledge, higher-order reasoning and problem-solving skills, work attitudes, general employability skills, technical skills, and occupation-specific skills, and knowledge of all aspects of the Human Services career cluster. This program offers a broad foundation of knowledge and skills to prepare students for employment in network support services positions.

A student completing the Cosmetology program is prepared for employment as a licensed Hairdressers, Hairstylists, and Cosmetologists (SOC 39-5012). Instruction is designed to qualify students for employment upon successfully obtaining a Cosmetology license.

The content includes, but is not limited to: communication, leadership, human relations and employability skills; safe and efficient work practices; Florida cosmetology law and rules; acquisition of knowledge of the cosmetology/nails specialist/facial specialist and the related chemistry;

bacteriology, anatomy and physiology; art of make-up; and development of skill in performing the manipulative and electrical techniques required in the practice of cosmetology/nails specialist and facials specialist occupations.

This program focuses on broad, transferable skills and stresses understanding and demonstration of the following elements of the cosmetology industry; planning, management, finance, technical and production skills, underlying technological principles, labor, community, health, safety, and environmental issues.

Additional Information relevant to this Career and Technical Education (CTE) program is provided at the end of this document.

Program Structure

This program consists of a one occupational completion point. Students must complete the core, or demonstrate the mastery of skills standards contained in the core, before advancing in the program.

This program is comprised of courses which have been assigned course numbers in the SCNS (Statewide Course Numbering System) in accordance with Section 1007.24 (1), F.S. Career and Technical credit shall be awarded to the student on a transcript in accordance with Section 1001.44(3)(b), F.S.

The following table illustrates the post-secondary program structure:

OCP	Course Number	Course Title	Length	SOC Code
A	CSP0009	Grooming and Salon Services Core, Facials and Nails	225 hours	39-5012
	COS0002	Cosmetologist and Hairdresser 1	300 hours	
	COS0003	Cosmetologist and Hairdresser 2	300 hours	
	COS0009	Cosmetologist and Hairdresser 3	375 hours	

Regulated Programs

Students wishing to complete the Cosmetology program, OCP A – Hairdresser and Cosmetologist, shall complete the requirements listed in Rule 61G5-22 that outline the basic curriculum which shall be used in cosmetology schools in the State of Florida. This curriculum includes definitions, level of acceptable competency, knowledge of Florida law, and sanitation and sterilization practices. Additional curriculum requirements are listed in the table below:

Common Career Technical Core – Career Ready Practices

Career Ready Practices describe the career-ready skills that educators should seek to develop in their students. These practices are not exclusive to a Career Pathway, program of study, discipline or level of education. Career Ready Practices should be taught and reinforced in all career exploration and preparation programs with increasingly higher levels of complexity and expectation as a student advances through a program of study.

1. Act as a responsible and contributing citizen and employee.
2. Apply appropriate academic and technical skills.
3. Attend to personal health and financial well-being.
4. Communicate clearly, effectively and with reason.
5. Consider the environmental, social and economic impacts of decisions.
6. Demonstrate creativity and innovation.
7. Employ valid and reliable research strategies.
8. Utilize critical thinking to make sense of problems and persevere in solving them.
9. Model integrity, ethical leadership and effective management.
10. Plan education and career path aligned to personal goals.
11. Use technology to enhance productivity.
12. Work productively in teams while using cultural/global competence.

- 03.0 Employ safe, sanitary and efficient work practices.
- 04.0 Demonstrate language arts knowledge and skills.
- 05.0 Demonstrate mathematics knowledge and skills.
- 06.0 Demonstrate science knowledge and skills.
- 07.0 Explain the importance of employability skill and entrepreneurship skills.
- 08.0 Demonstrate leadership and teamwork skills needed to accomplish team goals and objectives.
- 09.0 Demonstrate personal money-management concepts, procedures, and strategies.
- 10.0 Describe the importance of professional ethics and legal responsibilities.
- 11.0 Describe the roles within teams, work units, departments, organizations, inter-organizational systems, and the larger environment.
- 12.0 Use information technology tools.
- 13.0 Solve problems using critical thinking skills, creativity and innovation.
- 14.0 Use oral and written communication skills in creating, expressing and interpreting information and ideas.
- 15.0 Demonstrate the practice of performing manicures, pedicures, and apply artificial nails/nail wraps identifying the proper procedure and application of chemicals.
- 16.0 Perform facials, manipulation and related massage, make-up, hair removal, and artificial lash application. Identify the proper chemical to be prescribed using an understanding of the chemistry that affects the nails and skin that can be described, measured and predicted. Demonstrate proper procedure and application of chemicals.
- 17.0 Identify shampoo/hair conditioners and scalp treatments. Evaluate scalp and hair needs by analysis, demonstrating an awareness of diseases and disorders. Communicate an understanding of the chemical compositions and reactions of shampoos, conditioners, and rinses with water and each other. Demonstrate an understanding of electrical current, transfer of energy and how it affects the skin. Demonstrate application of shampoo, manipulations and rinsing.
- 18.0 Identify and perform hair shaping (cutting). Identify and analyze spheres and dimensional shapes using visualization. Illustrate ways in which geometric shapes can be combined, subdivided and changed in performing haircuts on a manikin or client. Communicate an understanding of factors that influence the determination of strategies necessary to meet individual client needs.
- 19.0 Identify and perform hairstyles. Identify and analyze spheres and dimensional shapes using visualization. Illustrate ways in which geometric shapes can be combined, subdivided and changed in performing haircuts on a manikin or client. Communicate an understanding of factors that influence the determination of strategies necessary to meet individual client needs.
- 20.0 Identify and prepare hairpieces, wigs and hair attachments. Identify and analyze spheres and dimensional shapes using visualization. Illustrate ways in which geometric shapes can be combined, subdivided and changed in performing haircuts on a manikin or client. Communicate an understanding of factors that influence the determination of strategies necessary to meet individual client needs.
- 21.0 Identify and perform permanent waving/reconstruction and curl/ chemical relaxing. Identify the proper chemical to be prescribed and understand the way chemicals affect the hair shaft and skin. Be able to demonstrate proper procedure and application of chemicals.
- 22.0 Identify and apply temporary/semi-permanent and permanent color/bleach and specialty color techniques. Identify the proper chemical to be prescribed. Understand the chemicals that affect the hair shaft and skin and be able to describe, measure, and predict chemical reactions. Demonstrate proper procedures including the measurement, mixing and application of chemicals.

14.07	Exhibit public relations skills that aid in achieving customer satisfaction.
15.0	Demonstrate the practice of performing manicures, pedicures, and apply artificial nails/nail wraps identifying the proper procedure and application of chemicals (students are only required to perform 20 nails procedures to obtain a cosmetology license, refer to rule 61G5-22.0125) – the student will be able to:
15.01	Clean and maintain implements by using appropriately mixed chemicals (EPA approved and hospital grades) and following the procedures for decontamination of tools per Chapter 61G5-22.005, F.A.C. Assemble, set up, and operate equipment according to manufacturer's instructions.
15.02	Demonstrating knowledge of chemical products and ability to follow the manufacturer's directions, correctly remove the nail polish from the natural nail. Demonstrating knowledge of anatomy and safety procedures, correctly clean under the free edge of the natural nail.
15.03	Demonstrating the proper technique and safety precautions and utilizing knowledge of anatomy of the nail structure, diseases and disorders of the skin and nail, chemistry of compounds and their reaction to the skin, angles and curves; correctly shape the natural nail, soften and care for the cuticles and trim hangnails.
15.04	Perform proper techniques for smoothing and buffing the nails by demonstrating knowledge of anatomy of nails, chemistry of products and safety precautions.
15.05	Perform proper techniques for foot care, including sanitizing and soaking, by demonstrating knowledge of the chemistry of products on the skin and implements, and following the manufacturer's directions.
15.06	Demonstrate knowledge of anatomy of the skin and nails, and chemistry of products by performing the proper massage techniques to the hands and feet.
15.07	Prepare the natural nail for the application of an artificial nail by utilizing knowledge of anatomy of nails and hands and product reaction on the nails.
15.08	Utilize knowledge of angles, curves and relationship to size select the correct size and type of artificial nails using safety procedures and follow the manufacturer's directions.
15.09	Repair and wrap a natural nail by applying knowledge of anatomy, diseases and disorders of nails, and chemistry of products and their effect on the skin and nails.
15.10	Demonstrate the correct application procedure of nail forms and caps by following all safety and sanitation procedures.

15.11	Correctly apply artificial material to the natural nail following all safety and sanitation procedures for nails and diseases and disorders. Shape and buff the artificial nail to the proper consistency using proper implements and knowledge of angles and shapes to mold into a natural looking nail. Follow all manufacturers' directions.
15.12	Following all manufactures directions, correctly apply artificial material (acrylic and gels) to the free edge of the natural nail and or to the full natural nail. Demonstrate knowledge of diseases and disorders of the nail and relationships of size to mold the artificial nail into a natural looking nail.
15.13	Following the manufacturer's directions and knowledge of safety procedures, demonstrate knowledge of acetone product reactions to the skin and nails by removing the artificial material from the natural nail plate without damage to the natural nail.
15.14	Applying knowledge of the chemical reactions of products to the skin and nails, correctly demonstrate ability to properly polish the nail with a base, color and topcoat to make a smooth even shade to the nail, relying on consultation with client. Demonstrate ability create artful scenes on a minute surface.
15.15	Demonstrate knowledge of nail diseases and disorders by providing client with the proper information regarding safe nail maintenance.
16.0	Perform facials, manipulation and related massage, make-up, hair removal, and artificial lash application. Identify the proper chemical to be prescribed using an understanding of the chemistry that affects the skin that can be described, measured and predicted. Demonstrate proper procedure and application of chemicals (students are only required to perform 10 facial procedures to obtain a cosmetology license, refer to rule 61G5-22.006) – the student will be able to:
16.01	Choose the proper supplies, products, and equipment based on skin analysis and client consultation.
16.02	Demonstrate knowledge of action and reaction of chemical products used for the cleansing of the face and neck.
16.03	Demonstrate knowledge of available treatments and chemical products associated with each treatment and use problem solving skills in selecting the appropriate chemicals and equipment to meet the needs of the client.
16.04	Demonstrate ability and knowledge to properly do a final cleansing of the face and neck using product knowledge of reactions to chemicals on the different textures of skin.
16.05	Demonstrate working knowledge of chemicals used for lash and eyebrow tinting and the adverse reactions that may occur.
16.06	Demonstrate proper procedure for applying artificial eyelashes with a working knowledge of the chemicals and adverse reactions that may occur.
16.07	Shape eyebrows by tweezing and waxing incorporating bone structure, appropriate angles and procedures for hair removal to meet the client's needs.
16.08	Apply make-up based on the client's needs and desires, using proper safety procedures and appropriate application procedures and products, and utilizing knowledge of color theory and chemical reactions to the skin before application.

Occupational Completion Point: A
Hairdressers, Hairstylists, and Cosmetologists – 300 Hours – SOC Code 39-5012

17.0	Identify shampoo/hair conditioners and scalp treatments. Evaluate scalp and hair needs by analysis, demonstrating an awareness of diseases and disorders. Communicate an understanding of the chemical compositions and reactions of shampoos, conditioners, and rinses with water and each other. Demonstrate an understanding of electrical current, transfer of energy and how it affects the skin. Demonstrate application of shampoo, manipulations and rinsing – THE student will be able to:
------	---

17.01	Prepare the client for service.
17.02	Analyze and evaluate the hair's chemical composition and structure.
17.03	Identify different compositions of shampoos. Utilize problem-solving skills to determine the appropriate products and applications and communicate an understanding of factors that influence the choice of products to meet client's needs.
17.04	Understand the chemical reaction of the shampoo molecule on the hair and scalp and utilize proper manipulations.
17.05	Rinse shampoo thoroughly from hair and scalp. Understand the chemical reaction of shampoo with water composition, temperature and electrostatic force of each.
17.06	Identify different compositions of conditioners. Utilize problem solving skills determine the appropriate products and applications to communicate an understanding of factors that influence the choice of products to meet client's needs.
17.07	Apply treatment or conditioner according to manufacturer's directions.
17.08	Demonstrate the proper manipulation based on the scalp analysis and client consultation.
17.09	Set up and operate electrical equipment as required (high frequency currents, ultra violet or infrared rays). Have working knowledge of the effects of electricity and light as it deals with the scalp chemically and physically. Utilize problem-solving skills to determine the proper procedure to meet client's needs.
17.10	Remove conditioner or treatment, if required. Understand the chemical reaction of conditioners/treatments with the water, manufacturing recommendations, and client's needs.
18.0	Identify and perform hair shaping (cutting). Identify and analyze spheres and dimensional shapes using visualization. Illustrate ways in which geometric shapes can be combined, subdivided and changed in performing haircuts on a manikin or client. Communicate an understanding of factors that influence the determination of strategies necessary to meet individual client needs – the student will be able to:
18.01	Select and utilize hair cutting implements and techniques using scissors, razors, clippers, texturizing implements and utilizing universal precautions. Select proper implements, identify implement parts, and utilize implements properly by using knowledge of hair structure and condition of the hair.
18.02	Make a decision using active listening and knowledge of hair to determine desired implementation and results. Divide the head into sections according to head structure of client for desired haircut (dry/wet). Use appropriate elevation and proceed with hair cut to obtain desired results, (solid form, graduated, layered, over-directed and combinations thereof).
18.03	Edge and clean neckline using the bone structure of the head and texture of the hair to the appropriate shape and length, using the razor, clipper or scissors.
18.04	Check completed haircut for blends by analyzing the relationship between the hair remaining on the client's head to the stature of the client using the different degree of elevation of hair.
18.05	Decontaminate, and maintain cutting implements using appropriately mixed chemicals (EPA approved and hospital grade) and following the manufacturer's directions and the procedure for decontamination of tools per 61G5-22.005, F.A.C.

Course Number: COS0003
Occupational Completion Point: A
Hairdressers, Hairstylists, and Cosmetologists – 375 Hours – SOC Code 39-5012

19.0	Identify and perform hairstyles. Identify and analyze spheres and dimensional shapes using visualization. Illustrate ways in which geometric shapes can be combined, subdivided and changed in performing hairstyles on a manikin or client. Communicate an understanding of factors that influence the determination of strategies necessary to meet individual client needs – the student will be able to:
19.01	Communicate an understanding of factors that influence the determination of strategies necessary to meet individual client needs by demonstration of knowledge of planes, angles, anatomy and law of color.
19.02	Perform “wet set” using principles of design (i.e. hair sculpturing, rollers and finger waves).
19.03	Set up equipment and perform thermal styling using electric rollers, blow dryers, flat irons, curling irons, crimping irons, pressing combing, using principles of design.
19.04	Demonstrate the principles of styling the client's hair utilizing knowledge of anatomy, angles and planes in "combing-out" various hairstyles.
19.05	Demonstrate knowledge of braiding natural hair techniques by utilizing knowledge of anatomy and mathematics.
19.06	Demonstrate ability in styling individual hairpieces by utilizing knowledge of chemistry, angles, planes.
19.07	Demonstrate ability to create hairstyles by incorporating, attaching and blending hairpieces into the desired hairstyle.
20.0	Identify and prepare hairpieces, wigs and hair attachments. Identify and analyze spheres and dimensional shapes using visualization. Illustrate ways in which geometric shapes can be combined, subdivided and changed in performing haircuts on a manikin or client. Communicate an understanding of factors that influence the determination of strategies necessary to meet individual client needs – the student will be able to:
20.01	Determine and identify the geometric shapes of artificial hair, including wigs and hairpieces. Calculate the relationships of color theory and its chemical make-up necessary to achieve the desired result.
20.02	Measure client's head form as it relates to the similarity and proportionality of the individual wig or hairpiece.
20.03	Cleanse and cut artificial hair utilizing chemical theory and practical application necessary to achieve the desired result.
20.04	Secure and intertwine artificial hair to the scalp or hair using chemical bonding compound or by interlocking with a needle or hook to achieve the desired style.

Course Number: COS0009
Occupational Completion Point: A
Hairdressers, Hairstylists, and Cosmetologists – 300 Hours – SOC Code 39-5012

21.0	Identify and perform permanent waving, reconstructed curl and chemical relaxing. Identify the proper chemical to be prescribed and understand the way chemicals affect the hair shaft and skin. Be able to demonstrate proper procedure and application of chemicals – THE student will be able to:
21.01	Analyze scalp and hair for skin or hair disease or disorders to avoid adverse reaction and determine that proper chemical for the client.

21.02	Select appropriate solution and strength, by measuring and mixing, according to hair texture and desired results.
21.03	Demonstrate knowledge of chemical and physical changes.
21.04	Demonstrate knowledge of possible adverse chemical reactions to the skin. Apply a protective barrier cream to avoid client injury.
21.05	Apply the proper chemicals required for a rearranger or chemical relaxer to achieve desired result.
21.06	Demonstrate knowledge of the chemical reaction of chemical relaxer or reconstructive curl to determine the necessary processing time.
21.07	Read, analyze and perform rinsing or shampooing as per manufacturer's instructions to avoid adverse chemical reactions.
21.08	Demonstrate knowledge of the proper selection of rods and wrapping techniques to achieve desired results.
21.09	Demonstrate the ability to apply the processing solution for the appropriate time and perform test curl.
21.10	Demonstrate the ability to rinse, blot, shampoo, and/or neutralize all chemical solutions.
21.11	Demonstrate the ability to remove rods and apply knowledge of chemicals to condition, normalize and style hair to the desired result and to record the results.
21.12	Demonstrate chemical knowledge and application of leave-in treatments and record the results.
22.0	Identify and apply temporary, semi-permanent, permanent color, bleach and specialty color techniques. Identify the proper chemical to be prescribed. Understand the chemicals that affect the hair shaft and skin. Identify, measure, and predict chemical reactions. Demonstrate proper procedure and application of chemicals – the student will be able to:
22.01	Perform an FDA mandated patch test (predisposition, skin, and allergy test), to determine client sensitivity to product. Decide whether to apply patch test and use appropriate application procedure. Mix chemicals following manufacturer's directions.
22.02	Demonstrate the practice of effective draping of the client to insure safety in the workplace and community. Use active listening to communicate with the client an understanding of factors that influence the determination of strategies necessary to meet individual client needs.
22.03	Describe, observe, identify and analyze the functions, structures, diseases and disorders of the scalp and hair.
22.04	Analyze the hair's texture, density, elasticity, porosity and condition to determine the appropriate solutions needed to perform the service and obtain the desired results. Select and assemble all needed materials after analysis.
22.05	Divide the hair into appropriate sections to visualize the scalp for proper application of product.
22.06	Mix, if required, and apply appropriate color, toner, and/or bleach according to manufacturer's directions. Use proper safety equipment to safeguard the student, operator, and client.
22.07	Perform a strand test to determine desired color using proper procedures. Follow all safety and sanitation procedures.
22.08	Identify and perform specialty-coloring techniques using the knowledge of ratios and proportions to analyze the density and texture of the client's hair and determine the techniques needed to properly section and apply product.
22.09	Choose the appropriate shampoo to cleanse the hair using knowledge of shampoo chemistry before or after applying color according to manufacturer's instructions. Remove unwanted color stains on the skin if needed using appropriate products and

complete the client consultation card.

22.10 Analyze the hair to determine if a conditioner or normalizing conditioner is needed either before or after shampooing using the knowledge of the chemistry of conditioners. Follow manufacturer's directions. Complete the client consultation card.

Additional Information

Laboratory Activities

Laboratory investigations that include scientific inquiry, research, measurement, problem solving, emerging technologies, tools and equipment, as well as, experimental, quality, and safety procedures are an integral part of this career and technical program/course. Laboratory investigations benefit all students by developing an understanding of the complexity and ambiguity of empirical work, as well as the skills required to manage, operate, calibrate and troubleshoot equipment/tools used to make observations. Students understand measurement error; and have the skills to aggregate, interpret, and present the resulting data. Equipment and supplies should be provided to enhance hands-on experiences for students.

Special Notes

N/A

Career and Technical Student Organization (CTSO)

SkillsUSA, Inc. is the appropriate career and technical student organization for providing leadership training and reinforcing specific career and technical skills. Career and Technical Student Organizations provide activities for students as an integral part of the instruction offered. The activities of such organizations are defined as part of the curriculum in accordance with Rule 6A-6.065, F.A.C.

Cooperative Training – OJT

On-the-job training is appropriate but not required for this program. Whenever offered, the rules, guidelines, and requirements specified in the OJT framework apply.

Basic Skills (if applicable)

In PSAV programs offered for 450 hours or more, in accordance with Rule 6A-10.040, F.A.C., the minimum basic skills grade levels required for postsecondary adult career and technical students to complete this program are: Mathematics 8, Language 8 and Reading 9. These grade level numbers correspond to a grade equivalent score obtained on a state designated basic skills examination.

Adult students with disabilities, as defined in Section 1004.02(7), Florida Statutes, may be exempted from meeting the Basic Skills requirements (Rule 6A-10.040). Students served in exceptional student education (except gifted) as defined in s. 1003.01(3)(a), F.S., may also be exempted from meeting the Basic Skills requirement. Each school district and Florida College must adopt a policy addressing procedures for exempting eligible students with disabilities from the Basic Skills requirement as permitted in Section 1004.91(3), F.S.

Students who possess a college degree at the Associate of Applied Science level or higher; who have completed or are exempt from the college entry-level examination; or who have passed a state, national, or industry licensure exam are exempt from meeting the Basic Skills requirement (Rule 6A-10.040, F.A.C.) Exemptions from state, national or industry licensure are limited to the certifications listed on the Basic Skills and Licensure Exemption List which may be accessed from the CTE Program Resources page.

Accommodations

Federal and state legislation requires the provision of accommodations for students with disabilities to meet individual needs and ensure equal access. Postsecondary students with disabilities must self-identify, present documentation, request accommodations if needed, and develop a plan with their counselor and/or instructors. Accommodations received in postsecondary education may differ from those received in secondary education. Accommodations change the way the student is instructed. Students with disabilities may need accommodations in such areas as instructional methods and materials, assignments and assessments, time demands and schedules, learning environment, assistive technology and special communication systems. Documentation of the accommodations requested and provided should be maintained in a confidential file.

Note: postsecondary curriculum and regulated secondary programs cannot be modified.

Basic Skills Level	Mathematics: 8 Language: 8 Reading: 9

Purpose

This program offers a sequence of courses that provides coherent and rigorous content aligned with challenging academic standards and relevant technical knowledge and skills needed to prepare for further education and careers in the Human Services career cluster; provides technical skill proficiency, and includes competency-based applied learning that contributes to the academic knowledge, higher-order reasoning and problem-solving skills, work attitudes, general employability skills, technical skills, and occupation-specific skills, and knowledge of all aspects of the Human Services career cluster.

This program is a continuation of the Facials/Skin Care Specialist program. A student completing the Advanced Esthetics program is prepared for employment as a licensed Facials/Skin Care Specialist (SOC 39-5094) within the spa industry, medical offices including dermatologic and plastic surgeons, and the new medi spa industry. The program is designed for registered Facials/Skin Care Specialist who would like to add training to update their skills and become current with the new trends in the field of esthetics. It will help meet rising consumer demand for personalized care and therapeutic treatment by highly skilled skin care professionals.

The content includes, but is not limited to: communication, leadership, human relations, and employability skills; safe and efficient work practices; Florida cosmetology law and rules; spa therapies; chemical peels; exfoliators; microdermabrasion equipment; advanced esthetics; advanced European treatments; and esthetics chemistry. Students will also become familiar with appropriate medical terminology and first aid. Nutrition and its effects on the body and appearance will also be studied.

Additional Information relevant to this Career and Technical Education (CTE) program is provided at the end of this document.

Program Structure

This program consists of a one occupational completion point. Students must complete the core, or demonstrate the mastery of skills standards contained in the core, before advancing in the program.

This program is comprised of courses which have been assigned course numbers in the SCNS (Statewide Course Numbering System) in accordance with Section 1007.24 (1), F.S. Career and Technical credit shall be awarded to the student on a transcript in accordance with Section 1001.44(3)(b), F.S.

The following table illustrates the post-secondary program structure:

OCP	Course Number	Course Title	Length	SOC Code
A	CSP0105	Advanced Skin Care I	150 hours	39-5094
	CSP0106	Advanced Skin Care II	150 hours	
	CSP0264	Facial Treatments	150 hours	
	CSP0930	Specialty Topics	60 hours	
	CSP0505	Ethical Business Practices	30 hours	
	CSP0940	Internship	60 hours	

Regulated Programs

This program is designed for registered Facials/Skin Care Specialist within the State of Florida who wish to enhance their skillset in order to be employable by the spa industry, medical offices including dermatology and plastic surgery, and the new medi spa industry.

Common Career Technical Core – Career Ready Practices

Career Ready Practices describe the career-ready skills that educators should seek to develop in their students. These practices are not exclusive to a Career Pathway, program of study, discipline or level of education. Career Ready Practices should be taught and reinforced in all career exploration and preparation programs with increasingly higher levels of complexity and expectation as a student advances through a program of study.

1. Act as a responsible and contributing citizen and employee.
2. Apply appropriate academic and technical skills.
3. Attend to personal health and financial well-being.
4. Communicate clearly, effectively and with reason.
5. Consider the environmental, social and economic impacts of decisions.
6. Demonstrate creativity and innovation.
7. Employ valid and reliable research strategies.
8. Utilize critical thinking to make sense of problems and persevere in solving them.
9. Model integrity, ethical leadership and effective management.
10. Plan education and career path aligned to personal goals.
11. Use technology to enhance productivity.
12. Work productively in teams while using cultural/global competence.

Standards

After successfully completing this program, the student will be able to perform the following:

- 01.0 Demonstrate knowledge and understanding of principles found in advanced bacteriology.
- 02.0 Demonstrate knowledge and understanding of advanced electrical equipment and their usage and purpose within the esthetics field.
- 03.0 Demonstrate understanding of the field of advanced techniques and procedures with emphasis on medical terminology and bodily health.
- 04.0 Demonstrate a clear understanding of cosmetic surgery and the esthetician.
- 05.0 Demonstrate a clear understanding of Botox®, dermal fillers and sclerotherapy.
- 06.0 Demonstrate and have a working knowledge of how to build your medi spa business.
- 07.0 Demonstrate advanced knowledge of skin and its physiology and histology as a basic requirement of knowledge for the advanced skin care professional.
- 08.0 Demonstrate the usage of products in the field of advanced esthetics.
- 09.0 Demonstrate the techniques, precautions and procedures of mask application.
- 10.0 Demonstrate understanding of the field of microdermabrasion techniques, precautions and procedures.
- 11.0 Demonstrate competence in the field of chemical peel techniques, precautions, and procedures.
- 12.0 Demonstrate a strong foundation of treatment plans for individual client needs which ensures an optimal outcome in skin care.
- 13.0 Demonstrate understanding of specialty topic, their legal and regulatory implications, and be able to apply this knowledge in the work setting.
- 14.0 Develop entrepreneurial business practices.
- 15.0 Demonstrate working knowledge of the industry itself.

Program Title: Advanced Esthetics
PSAV Number: D500200

Course Number: CSP0105	
Occupational Completion Point: A	
Advanced Skin Care I-Esthetician – 150 Hours – SOC Code 39-5094	
01.0	Demonstrate knowledge and understanding of principles found in advanced bacteriology – the student will be able to:
01.01	Demonstrate basic understanding of the importance of sanitary precautions in the work environment.
01.02	Demonstrate basic knowledge of bacteria according to State Board of Cosmetology. Using universal precaution, identify decontamination procedures to insure the safety of the client and student in the classroom and laboratory. (NOTE: Staph and MRSA must be reviewed)
01.03	Students will be able to follow procedures for decontamination of tools per 61G5-22.002 F.A.C.
01.04	Be able to prepare clients and assemble sanitized materials.
01.05	Describe, observe, identify, and analyze the functions, structures, and diseases and disorders of skin.
01.06	Demonstrate and communicate to the client the proper care of skin, through cleanliness, nutrition, and healthy living.
01.07	Apply teamwork procedures and social skills in following the rules for professional ethics and demonstrate a cultural awareness of hygiene and socialized differences by using active listening skills.
02.0	Demonstrate knowledge and understanding of advanced electrical equipment and their usage and purpose within the esthetics field – the student will be able to:
02.01	Explain the principles of electricity as used within the esthetics field.
02.02	Have a clear understanding of electric modalities and benefits.
02.03	Be able to identify appropriate equipment based on the identification of bone structure, face shapes, and fashion trends to fulfill client's needs and desires.
02.04	Have a clear understanding of the proper use of equipment and proper treatment protocols concerning advanced care.
02.05	Be able to set up and operate electrical equipment as required (high frequency currents, ultra violet or infrared rays).
02.06	Have a clear understanding of the safety and the use of all equipment and machines in a medi spas environment.
02.07	Describe the effects of electricity and light as it deals with the skin chemically and physically.

02.08	Define the basics of atoms, neutrons, and electrons as it applies to the esthetics field.
02.09	Explain the difference between mechanical and chemical exfoliation medical grades.
02.10	Have a clear working knowledge of galvanic and iontophoresis of serum concentrates.
02.11	Have a clear working knowledge of high frequency applications and techniques.
02.12	Demonstrate an understanding of advanced face and body treatments in accordance with state guidelines.
02.13	Utilize problem-solving skills to determine the proper procedure to meet client's needs.
03.0	Demonstrate understanding of the field of advanced techniques and procedures with emphasis on medical terminology and bodily health – the student will be able to:
03.01	Know and place in context with the esthetics industry a brief history of medicine.
03.02	Know some major contributions to the medical field involving issues within the esthetics industry.
03.03	Know the history of medical terminology as it pertains to the esthetics industry.
03.04	Identify and define proper medical terminology as it pertains to the esthetics industry.
03.05	Understand and identify common drug side effects used within the esthetics industry.
03.06	Demonstrate an understanding of how prescription and illegal drugs affect the skin.
03.07	Demonstrate the effect of drugs on skin conditions such as acne and how others can cause dryness and allergic reactions on the skin's surface.
03.08	Explain to clients the effects of drugs and how they interfere with the body's intake of oxygen thus effecting healthy cell growth.
03.09	Explain the effect of lifestyles and the impact on the health of the skin.
04.0	Demonstrate a clear understanding of cosmetic surgery and the esthetician – the student will be able to:
04.01	Identify and demonstrate a clear understanding of post- and pre-op surgical procedures under a physician's supervision.
04.02	Identify which procedures a Facial/Skin Care Specialist by Florida Statute/Rule can perform under a doctor's supervision.
04.03	Identify surgical procedures that can be performed by plastic surgeons and dermatologists only.
04.04	Understand and apply protocols involved with patient recovery.
04.05	Understand and apply working knowledge of wound care for proper healing of surgical procedures.
04.06	Explain career opportunities that are available in the medi spas side of esthetics.

05.0	Demonstrate a clear understanding of Botox®, dermal fillers and sclerotherapy – the student will be able to:
05.01	Explain the history of Botox® and other dermal fillers.
05.02	Explain the benefits of Botox® and dermal fillers.
05.03	Explain the importance of training as it pertains to Botox® and dermal fillers.
05.04	Identify the licensure and liability issues associated with Botox® and other injectables.
06.0	Demonstrate and have a working knowledge of how to build your medi spas business – the student will be able to:
06.01	Identify and define a medi spas clinical setting and the services that are performed in that setting.
06.02	Understand the importance of innovation within the medi spas industry.
06.03	Describe how medi spas integrate surgical and nonsurgical procedures.
06.04	Describe how medi spas monitor patient recovery.
06.05	Discuss how medi spas organize and monitor medi spas treatments and which must be under the care and supervision of a physician.
06.06	Explain the licensure and liability issues associated with the medi spas industry and how corporations use this industry for preventative care options.

Course Number: CSP0106
Occupational Completion Point: A
Advanced Skin Care II-Esthetician – 150 Hours – SOC Code 39-5094

07.0	Demonstrate advanced knowledge of skin and its physiology and histology as a basic requirement of knowledge for the advanced skin care professional – the student will be able to:
07.01	Demonstrate advanced knowledge of skin, its physiology and histology.
07.02	Be able to identify and explain the basic layers of the skin.
07.03	Be able to identify the effects of hormones on the skin.
07.04	Describe the function of the skin and how it gets its color through melanin.
07.05	Define and have an understanding of collagen and elasticity.
07.06	Demonstrate a clear understanding of the dermatological treatment of sun damage and sun protection of the skin.
07.07	Explain the aging process of the skin.
07.08	Have a clear understanding of free radical damage.

07.09	Be able to identify the structures, functions and disorders of the skin and be able to advise on a wide variety of appropriate protocols.
07.10	Distinguish between different types of chronic disorders of the skin and suggestions on appropriate protocols.
07.11	Describe the changes in skin (normal, oily, dry, and combination) in advanced skin care protocols.
08.0	Demonstrate the usage of products in the field of advanced esthetics – the student will be able to:
08.01	Identify skin type and aging classifications with treatment plans in mind for proper protocol specific to both male and female clients.
08.02	Describe the basic products used in advanced facials.
08.03	Recognize and understand the benefits of many ingredients.
08.04	Understand product chemistry and product components in formulating advanced skin care products.
08.05	List and describe the main categories of advanced professional skin care products, e.g. derma fillers, medical grade chemical peels, keratolytic agents, etc.
08.06	Be able to understand and apply different product formulations for different skin types.
08.07	Explain FDA regulations regarding cosmetic claims and product safety.
08.08	Have a clear understanding of the history of aromatherapy and spa therapies.
08.09	Be able to appropriately use aromatherapy oils.
08.10	Know and apply safety precautions regarding use of aromatherapy oils within the esthetics industry.
09.0	Demonstrate the techniques, precautions and procedures of mask application – the student will be able to:
09.01	Demonstrate a clear understanding of mask application.
09.02	Communicate skills and knowledge of mask treatment protocols to others.
09.03	Demonstrate preparation and procedures for advanced facial mask techniques.
09.04	Identify treatments for different skin conditions which include dryness, oiliness, or redness and the appropriate mask formula which will work best for these skin types.
09.05	Understand contraindications and indications of facial treatments with the use of masks.
09.06	Be able to describe, observe, identify and analyze the functions, structures, and diseases and disorders of skin.
09.07	Have a clear understanding of sanitization and sterilization in reference to advanced mask (e.g., medical-grade) usage and safety procedures for all forms of decontaminations and autoclave.
09.08	Using universal precaution, identify decontamination procedures to insure the safety of the client and student in the classroom and laboratory.

09.09	Set-up and operate equipment and utilize materials by mixing chemicals (EPA approved and hospital strength levels) in appropriate proportions according to manufacturer's instructions.
09.10	Clean and maintain implements by using appropriately mixed chemicals and following the procedures for decontamination of tools per 61G5-22.002 Florida Administrative Code (F.A.C.).
09.11	Demonstrate and communicate to the client the proper care of skin through cleanliness, nutrition, and healthy living.
10.0	Demonstrate understanding of the field of microdermabrasion techniques, precautions and procedures – the student will be able to:
10.01	Summarize the history of microdermabrasion.
10.02	Understand the value of clinical training for microdermabrasion.
10.03	Know and apply the Florida Administrative Code (F.A.C.), regulations and insurance requirements for licensure which apply to equipment used in the field of microdermabrasion.
10.04	Know and be able to apply indications, applications, contraindications, and mechanism of action of microdermabrasion.
10.05	Understand the benefits of the use of microdermabrasion and patient recovery time under physician care.
10.06	Be able to identify various career options available with microdermabrasion.
10.07	Understand how professional ethics apply to the field of microdermabrasion treatments.
10.08	Demonstrate a working knowledge in Microdermabrasion applications, safety, and procedures.
11.0	Demonstrate competence in the field of chemical peel techniques, precautions, and procedures – the student will be able to:
11.01	Know and apply indications, applications, contraindications, and mechanisms of action of chemical peeling agents that are medical grade.
11.02	Identify chemical peel classifications in terms of peel depth.
11.03	Understand and apply the principles of patient selection, pre- and post-treatment precautions, and treatment alternatives for chemical peels.
11.04	Understand and be able to implement clinical protocols for the following chemical peeling agents to obtain optimal results with medical grade retinoic acid, enzyme peels, alpha hydroxy acid, beta hydroxy acid, and trichloroacetic acid.
11.05	Prevent and manage chemical peel complications, types of wounds and compromises.
11.06	Demonstrate a clear understanding of post- and pre-opt surgical procedures under a physician's supervision.
11.07	Be able to identify various career options available with chemical peels.
11.08	Understand and be able to advise and act ethically with clients regarding chemical peels.

Course Number: CSP0264
Occupational Completion Point: A
Facial Treatments-Esthetician – 150 Hours – SOC Code 39-5094

12.0	Demonstrate a strong foundation of treatment plans for individual client needs which ensures an optimal outcome in skin care – the student will be able to:
12.01	Discuss the importance and the advantages of giving a facial without the aid of machines in the salon for cost effectiveness.
12.02	Explain the procedures that can be done in the salon with the different types of skin and benefits of each.
12.03	Discuss the benefits for having a strong foundation of step-by-step procedures for each skin type and to be able to meet individual needs.
12.04	Demonstrate the treatment protocol for dry skin.
12.05	Demonstrate the treatment protocol for normal skin.
12.06	Demonstrate the treatment protocol for oily skin.
12.07	Demonstrate the treatment protocol for acne skin.
12.08	Demonstrate the treatment protocol for mature and aging skin.
12.09	Demonstrate the treatment protocol for combination skin.
12.10	Demonstrate the treatment protocol for couperose skin.
12.11	Demonstrate the treatment protocol for skin that is affected by rosacea.
12.12	Demonstrate the treatment protocol for males.
12.13	Demonstrate the treatment protocol for ethnic skin.

Course Number: CSP0930
Occupational Completion Point: A
Specialty Topics-Esthetician – 60 Hours – SOC Code 39-5094

13.0	Demonstrate understanding of specialty topic, their legal and regulatory implications, and be able to apply this knowledge in the work setting – the student will be able to:
13.01	Explain the importance of the specialty topic.
13.02	Explain the benefits to clients of the specialty topic.
13.03	Explain the legal and regulatory issues involved with the specialty topic.

13.04	Explain the indications and contraindications of use of the specialty topic on clients.
13.05	Demonstrate competence in an application of the specialty topic.
13.06	Demonstrate an understanding of any safety precautions involved with the specialty topic.
13.07	Explain economic or business decisions involved with the specialty topic.
13.07.01	Identify career opportunities involved with the specialty topic.
13.07.02	Describe any personal or salon safety rules impacted by the specialty topic.

15.01 Demonstrate high level of work place skills to potential employers.

15.02 Demonstrate readiness for advanced positions within the esthetics industry.

15.03 Demonstrate effective communication skills with clients and others that allow the client to understand the factors that influence the determination of treatment strategies necessary to meet his/her needs.

15.04 Acquire additional skills as the industry changes and matures.

Additional Information

Laboratory Activities

Laboratory investigations that include scientific inquiry, research, measurement, problem solving, emerging technologies, tools and equipment, as well as, experimental, quality, and safety procedures are an integral part of this career and technical program/course. Laboratory investigations benefit all students by developing an understanding of the complexity and ambiguity of empirical work, as well as the skills required to manage, operate, calibrate and troubleshoot equipment/tools used to make observations. Students understand measurement error; and have the skills to aggregate, interpret, and present the resulting data. Equipment and supplies should be provided to enhance hands-on experiences for students.

Special Notes

N/A

Career and Technical Student Organization (CTSO)

SkillsUSA, Inc. is the appropriate career and technical student organization for providing leadership training and reinforcing specific career and technical skills. Career and Technical Student Organizations provide activities for students as an integral part of the instruction offered. The activities of such organizations are defined as part of the curriculum in accordance with Rule 6A-6.065, F.A.C.

Cooperative Training – OJT

On-the-job training is appropriate but not required for this program. Whenever offered, the rules, guidelines, and requirements specified in the OJT framework apply.

Basic Skills (if applicable)

In PSAV programs offered for 450 hours or more, in accordance with Rule 6A-10.040, F.A.C., the minimum basic skills grade levels required for postsecondary adult career and technical students to complete this program are: Mathematics 8, Language 8 and Reading 9. These grade level numbers correspond to a grade equivalent score obtained on a state designated basic skills examination.

Adult students with disabilities, as defined in Section 1004.02(7), Florida Statutes, may be exempted from meeting the Basic Skills requirements (Rule 6A-10.040). Students served in exceptional student education (except gifted) as defined in s. 1003.01(3)(a), F.S., may also be exempted from meeting the Basic Skills requirement. Each school district and Florida College must adopt a policy addressing procedures for exempting eligible students with disabilities from the Basic Skills requirement as permitted in Section 1004.91(3), F.S.

Students who possess a college degree at the Associate of Applied Science level or higher; who have completed or are exempt from the college entry-level examination; or who have passed a state, national, or industry licensure exam are exempt from meeting the Basic Skills requirement (Rule 6A-10.040, F.A.C.) Exemptions from state, national or industry licensure are limited to the certifications listed on the Basic Skills and Licensure Exemption List which may be accessed from the CTE Program Resources page.

Accommodations

Federal and state legislation requires the provision of accommodations for students with disabilities to meet individual needs and ensure equal access. Postsecondary students with disabilities must self-identify, present documentation, request accommodations if needed, and develop a plan with their counselor and/or instructors. Accommodations received in postsecondary education may differ from those received in secondary education. Accommodations change the way the student is instructed. Students with disabilities may need accommodations in such areas as instructional methods and materials, assignments and assessments, time demands and schedules, learning environment, assistive technology and special communication systems. Documentation of the accommodations requested and provided should be maintained in a confidential file.

Note: postsecondary curriculum and regulated secondary programs cannot be modified.

Purpose

This program offers a sequence of courses that provides coherent and rigorous content aligned with challenging academic standards and relevant technical knowledge and skills needed to prepare for further education and careers in the Human Services cluster; provides technical skill proficiency, and includes competency-based applied learning that contributes to the academic knowledge, higher-order reasoning and problem-solving skills, work attitudes, general employability skills, technical skills, and occupation-specific skills, and knowledge of all aspects of the Human Services cluster.

Each student job placement must be related to the job preparatory program in which the student is enrolled or has completed.

The purpose of this course is to provide the on-the-job training component when the **cooperative method of instruction** is appropriate. Whenever the cooperative method is offered, the following is required for each student: a training agreement; a training plan signed by the student, teacher and employer, including instructional objectives; a list of on-the-job and in-school learning experiences; a workstation which reflects equipment, skills and tasks which are relevant to the occupation which the student has chosen as a career goal; and a site supervisor with a working knowledge of the selected occupation. The workstation may be in an industry setting or in a virtual learning environment. The student **must be compensated** for work performed.

The teacher/coordinator must meet with the site supervisor a minimum of once during each grading period for the purpose of evaluating the student's progress in attaining the competencies listed in the training plan.

Human Services Cooperative Education - OJT may be taken by a student for one or more semesters. A student may earn multiple credits in this course. The specific student performance standards which the student must achieve to earn credit are specified in the Cooperative Education - OJT Training Plan.

Additional Information relevant to this Career and Technical Education (CTE) program is provided at the end of this document.

Common Career Technical Core – Career Ready Practices

Career Ready Practices describe the career-ready skills that educators should seek to develop in their students. These practices are not exclusive to a Career Pathway, program of study, discipline or level of education. Career Ready Practices should be taught and reinforced in all career exploration and preparation programs with increasingly higher levels of complexity and expectation as a student advances through a program of study.

1. Act as a responsible and contributing citizen and employee.
2. Apply appropriate academic and technical skills.
3. Attend to personal health and financial well-being.
4. Communicate clearly, effectively and with reason.
5. Consider the environmental, social and economic impacts of decisions.
6. Demonstrate creativity and innovation.
7. Employ valid and reliable research strategies.
8. Utilize critical thinking to make sense of problems and persevere in solving them.
9. Model integrity, ethical leadership and effective management.
10. Plan education and career path aligned to personal goals.
11. Use technology to enhance productivity.
12. Work productively in teams while using cultural/global competence.

Standards

After successfully completing this program, the student will be able to perform the following:

- 01.0 Perform designated job skills.
- 02.0 Demonstrate work ethics.

Program Title: Dry Cleaning and Laundering
PSAV Number: I120101

Course Number: HEV0540	
Occupational Completion Point: A	
Laundry, Dry Cleaning Machine Operator – 450 Hours – SOC Code 51-6011	
01.0	Demonstrate understanding of procedures of orientation and safety – the student will be able to:
01.01	Define objectives of the course.
01.02	Explain safety procedures.
01.03	Explain school/class procedures.
01.04	Explain the control limitations.
01.05	Check the basket for burrs and pins.
01.06	Demonstrate the ability to adjust the loading doors.
01.07	Define faulty pump.
02.0	Use and maintain spotting equipment and tools – the student will be able to:
02.01	Identify the spotter's equipment and tools.
02.02	Utilize the spotter's equipment and tools.
02.03	Provide a written list of tools and equipment
03.0	Identify fibers and fabrics – the student will be able to:
03.01	Identify fibers and fabrics.
03.02	Explain methods of fabric construction.
03.03	Explain the characteristics of fibers
03.04	Demonstrate burning tests for fiber content.

04.0	Identify and test fabrics and dyestuffs – the student will be able to:
04.01	Identify dyestuffs.
04.02	Explain the composition of dyestuffs.
04.03	Determine proper cleaning procedure for fabrics and dyes.
05.0	Demonstrate understanding of chemicals and formulas – the student will be able to:
05.01	Explain the chemical properties of a formula and its effect on fabrics.
05.02	Provide a written list of formulas used in spotting.
05.03	Provide a written list of spotting agents.
06.0	Identify stains – the student will be able to:
06.01	Define methods of stain identification.
06.02	Provide a written list of the various methods of stain identification.
07.0	Remove stains – the student will be able to:
07.01	Identify a stain.
07.02	Demonstrate methods for removing stains.
08.0	Explain properties and uses of petroleum and synthetic solvents – the student will be able to:
08.01	Write a brief history on the development of petroleum solvent.
08.02	Provide a written list of the methods for refining petroleum solvents.
08.03	Write the specifications for petroleum solvents.
08.04	Provide a written list of the properties of a synthetic solvent.
08.05	Provide a written list of the methods for making a synthetic solvent.
09.0	Operate synthetic washer-extractors – the student will be able to:
09.01	Demonstrate the ability to set controls on the machine.
09.02	Demonstrate the ability to load the machine with solvent.

09.03	Demonstrate the ability to operate a machine manually.
10.0	Operate reclaiming tumblers – the student will be able to:
10.01	Safely operate a tumbler.
10.02	Demonstrate the ability to control the temperature on a tumbler.
10.03	Demonstrate the ability to operate a drying cabinet.
11.0	Operate filters – the student will be able to:
11.01	Demonstrate the ability to operate filters.
11.02	Explain the operation of cookers and stills.
11.03	Explain filter maintenance methods.
12.0	Demonstrate troubleshooting skills – the student will be able to:
12.01	Explain the use of the filter pressure gauge.
12.02	Explain plugged screens, tubes or bags.
12.03	Steam clean and boil screens, tubes, or cleaning bags.
12.04	Describe in writing the properties of a distilling solvent
12.05	Exhibit the ability to operate the pump on a filter.
13.0	Understand proper operation of stills – the student will be able to:
13.01	Explain the causes for a slow-down in distilling solvent.
13.02	List factors of a worn out pump.
13.03	Explain vacuum leak.
13.04	Explain a steam or water leak.
13.05	Define vacuum still pressure.
13.06	Explain how to clean dirty heating tubes.
13.07	Determine a faulty steam trap.
13.08	Diagnose an odor in a distilled solvent.

14.0	Operate pumps at maximum efficiency – the student will be able to:
14.01	Demonstrate the reducing or no flow of solvent.
14.02	Define the loss of pump prime.
14.03	Identify position of the valve in either a suction or discharge line.
14.04	Determine the clogged strainers in suction lines.
14.05	Determine the solvent level in tanks below the pump lines.
14.06	Explain a slipping pump drive belt.
14.07	Explain a pressure relief valve, open on gear pumps.
14.08	Explains lint build up on the impeller in the pump.
15.0	Clean garments – the student will be able to:
15.01	Demonstrate understanding of causes for excessive redeposit.
15.02	Explain insufficient filter flow rate.
15.03	Define improper garment classification.
15.04	Explain dissolved garment classification.
15.05	Define causes for excessive oils or greases in solvents.
15.06	Write causes for wrinkles occurring in dry-cleaning.
15.07	Diagnose causes for garment streaks, slow drying, or spotting rings.
15.08	Determine the reason for objectionable odors.
15.09	Define bleeding of dyes.
15.10	Describe dye or soil pick-up in local areas.
15.11	Explain restoration procedures of insoluble soil.
15.12	Demonstrate the method for softening plastic-coated fabrics.
16.0	Adjust and operate utility pressers – the student will be able to:

16.01	Write specifications for the utility press.
16.02	Demonstrate ability to operate the utility press.
16.03	Perform maintenance procedure.
16.04	Demonstrate variable pressure operation.
16.05	Demonstrate the iron attachment.
17.0	Adjust and operate mushroom and automatic pants toppler – the student will be able to:
17.01	State specifications for the toppler press.
17.02	Demonstrate the operation of the pants toppler.
17.03	Explain the timer on an automatic toppler press.
17.04	Demonstrate programmer adjustment procedures on the toppler.
18.0	Adjust and operate automatic leggers – the student will be able to:
18.01	State specifications for the automatic legger.
18.02	Demonstrate the operation of the legger.
18.03	Define the timer on the legger.
18.04	Demonstrate the mechanical adjustment of the legger.
19.0	Operate form finishers – the student will be able to:
19.01	List specifications for the form finisher.
19.02	Exhibit steps for the timer on a form finisher.
19.03	Demonstrate the operation of the form finisher.
19.04	Perform the steps for finishing a coat.
19.05	Perform the steps for finishing a dress.
20.0	Finish slacks and skirts – the student will be able to:
20.01	Demonstrate steps necessary to place back, left hip of slacks on mushroom press.

20.02	Describe steps necessary to place back, right hip of slacks on mushroom press.
20.03	Demonstrate steps necessary to place front, right hip of slacks on press.
20.04	Demonstrate steps necessary to place front, left hip of slacks on press.
20.05	State the methods of legging slacks on regular press.
20.06	Demonstrate the methods necessary when finishing skirts.
21.0	Finish coats – the student will be able to:
21.01	Exhibit procedures for finishing coats on a form finisher and utility press.
21.02	Demonstrate steps in finishing sleeves on coats.
21.03	Exhibit methods of finishing coat collars.
21.04	Demonstrate steps in finishing the front left shoulder and sleeve head.
21.05	Exhibit steps in finishing front lay.
21.06	Demonstrate methods of finishing lapels.
21.07	Demonstrate steps in finishing linings.
22.0	Finish trousers – the student will be able to:
22.01	Demonstrate procedures in topping trousers on upright presser.
22.02	Demonstrate steps in finishing trouser tops or waistbands.
22.03	Demonstrate steps in finishing pockets on trousers.
22.04	Demonstrate steps in finishing left legs of trousers.
22.05	Demonstrate steps in finishing right legs of trousers.
23.0	Finish dresses – the student will be able to:
23.01	Demonstrate operations for finishing sleeves on dresses.
23.02	Demonstrate steps in finishing collars and lapels on dresses.
23.03	Demonstrate process of finishing blouses.

23.04	Demonstrate steps for finishing skirts or dresses.
24.0	Finish children's garments – the student will be able to:
24.01	Demonstrate methods of finishing a sleeve on a child's coat.
24.02	Demonstrate steps in finishing collars and trim.
24.03	Demonstrate steps in finishing fronts and backs of coats.
24.04	Demonstrate methods of finishing trousers.
24.05	Exhibit techniques for finishing boys' and girls' jackets.
25.0	Finish pleats and knitted garments – the student will be able to:
25.01	Demonstrate steps for finishing pleats.
25.02	Demonstrate procedures for finishing pleats on the sleeve board.
25.03	Demonstrate methods for finishing pleats on the utility press.
25.04	Demonstrate methods for finishing knitted garments.
25.05	Perform methods for measuring knitted garments before and after finishing.
25.06	List methods of handling finished knitted garments.
26.0	Finish silk – the student will be able to:
26.01	Finish sleeves on the sleeve puff iron.
26.02	Finish a skirt on the long press.
26.03	Finish collars and lapels.
26.04	Demonstrate steps in touch-up of finished garments.
27.0	Inspect garments – the student will be able to:
27.01	Demonstrate methods of inspection.
27.02	Define points of inspection in the order in which work has processed through various departments.
27.03	State processes for inspecting garments that need special attention.

28.0	Routine maintenance – the student will be able to:
28.01	Determine causes of machine malfunction.
28.02	Perform preventative maintenance.
28.03	Perform shop housekeeping duties.
28.04	Explain and demonstrate proper handling and storage of flammable and/or toxic materials.
29.0	Demonstrate employability skills – the student will be able to:
29.01	Conduct a job search.
29.02	Secure information about a job.
29.03	Identify documents required when applying for a job interview.
29.04	Complete a job application form correctly.
29.05	Demonstrate competence in job interview techniques.
29.06	Identify or demonstrate appropriate responses to criticism from employer, supervisor or other employees.
29.07	Demonstrate acceptable work habits.
29.08	Demonstrate knowledge of how to make appropriate job changes.
29.09	Demonstrate acceptable employee health habits.
29.10	Demonstrate knowledge of the "Florida Right-To-Know Law" as recorded in Florida Statutes Chapter 442.
30.0	Demonstrate an understanding of entrepreneurship – the student will be able to:
30.01	Define entrepreneurship.
30.02	Describe the importance of entrepreneurship to the American economy.
30.03	List advantages and disadvantages of business ownership.
30.04	Identify risks involved in ownership of a business.
30.05	Identify personal characteristics of a successful entrepreneur.
30.06	Identify business skills needed to operate a small business efficiently and effectively.

Additional Information

Laboratory Activities

Laboratory investigations that include scientific inquiry, research, measurement, problem solving, emerging technologies, tools and equipment, as well as, experimental, quality, and safety procedures are an integral part of this career and technical program/course. Laboratory investigations benefit all students by developing an understanding of the complexity and ambiguity of empirical work, as well as the skills required to manage, operate, calibrate and troubleshoot equipment/tools used to make observations. Students understand measurement error; and have the skills to aggregate, interpret, and present the resulting data. Equipment and supplies should be provided to enhance hands-on experiences for students.

Special Notes

N/A

Career and Technical Student Organization (CTSO)

SkillsUSA, Inc. is the appropriate career and technical student organization for providing leadership training and reinforcing specific career and technical skills. Career and Technical Student Organizations provide activities for students as an integral part of the instruction offered. The activities of such organizations are defined as part of the curriculum in accordance with Rule 6A-6.065, F.A.C.

Cooperative Training – OJT

On-the-job training is appropriate but not required for this program. Whenever offered, the rules, guidelines, and requirements specified in the OJT framework apply.

Basic Skills (if applicable)

In PSAV programs offered for 450 hours or more, in accordance with Rule 6A-10.040, F.A.C., the minimum basic skills grade levels required for postsecondary adult career and technical students to complete this program are: Mathematics 8, Language 8 and Reading 9. These grade level numbers correspond to a grade equivalent score obtained on a state designated basic skills examination.

Adult students with disabilities, as defined in Section 1004.02(7), Florida Statutes, may be exempted from meeting the Basic Skills requirements (Rule 6A-10.040). Students served in exceptional student education (except gifted) as defined in s. 1003.01(3)(a), F.S., may also be exempted from meeting the Basic Skills requirement. Each school district and Florida College must adopt a policy addressing procedures for exempting eligible students with disabilities from the Basic Skills requirement as permitted in Section 1004.91(3), F.S.

Students who possess a college degree at the Associate of Applied Science level or higher; who have completed or are exempt from the college entry-level examination; or who have passed a state, national, or industry licensure exam are exempt from meeting the Basic Skills requirement (Rule 6A-10.040, F.A.C.) Exemptions from state, national or industry licensure are limited to the certifications listed on the Basic Skills and Licensure Exemption List which may be accessed from the CTE Program Resources page.

Accommodations

Federal and state legislation requires the provision of accommodations for students with disabilities to meet individual needs and ensure equal access. Additional Information

Laboratory Activities

Laboratory investigations that include scientific inquiry, research, measurement, problem solving, emerging technologies, tools and equipment, as well as, experimental, quality, and safety procedures are an integral part of this career and technical program/course. Laboratory investigations benefit all students by developing an understanding of the complexity and ambiguity of empirical work, as well as the skills required to manage, operate, calibrate and troubleshoot equipment/tools used to make observations. Students understand measurement error; and have the skills to aggregate, interpret, and present the resulting data. Equipment and supplies should be provided to enhance hands-on experiences for students.

Special Notes

N/A

Career and Technical Student Organization (CTSO)

SkillsUSA, Inc. is the appropriate career and technical student organization for providing leadership training and reinforcing specific career and technical skills. Career and Technical Student Organizations provide activities for students as an integral part of the instruction offered. The activities of such organizations are defined as part of the curriculum in accordance with Rule 6A-6.065, F.A.C.

Cooperative Training – OJT

On-the-job training is appropriate but not required for this program. Whenever offered, the rules, guidelines, and requirements specified in the OJT framework apply.

Basic Skills (if applicable)

In PSAV programs offered for 450 hours or more, in accordance with Rule 6A-10.040, F.A.C., the minimum basic skills grade levels required for postsecondary adult career and technical students to complete this program are: Mathematics 8, Language 8 and Reading 9. These grade level numbers correspond to a grade equivalent score obtained on a state designated basic skills examination.

Adult students with disabilities, as defined in Section 1004.02(7), Florida Statutes, may be exempted from meeting the Basic Skills requirements (Rule 6A-10.040). Students served in exceptional student education (except gifted) as defined in s. 1003.01(3)(a), F.S., may also be exempted from meeting the Basic Skills requirement. Each school district and Florida College must adopt a policy addressing procedures for exempting eligible students with disabilities from the Basic Skills requirement as permitted in Section 1004.91(3), F.S.

Students who possess a college degree at the Associate of Applied Science level or higher; who have completed or are exempt from the college entry-level examination; or who have passed a state, national, or industry licensure exam are exempt from meeting the Basic Skills requirement (Rule 6A-10.040, F.A.C.) Exemptions from state, national or industry licensure are limited to the certifications listed on the Basic Skills and Licensure Exemption List which may be accessed from the CTE Program Resources page.

Accommodations

Federal and state legislation requires the provision of accommodations for students with disabilities to meet individual needs and ensure equal access. Postsecondary students with disabilities must self-identify, present documentation, request accommodations if needed, and develop a plan with their counselor and/or instructors. Accommodations received in postsecondary education may differ from those received in secondary education. Accommodations change the way the student is instructed. Students with disabilities may need accommodations in such areas as instructional methods and materials, assignments and assessments, time demands and schedules, learning environment, assistive technology and special communication systems. Documentation of the accommodations requested and provided should be maintained in a confidential file.

Note: postsecondary curriculum and regulated secondary programs cannot be modified.

15.01	Clean and maintain implements by using appropriately mixed chemicals (EPA approved and hospital strength levels) and following the procedures for decontamination of tools per Chapter 61G5.002 (2), F.A.C. Assemble, set up, and operate equipment according to manufacturer's instructions.
15.02	Demonstrating knowledge of chemical products and ability to follow the manufacturer's directions, correctly remove the nail polish from the natural nail. Demonstrating knowledge of anatomy and safety procedures, correctly clean under the free edge of the natural nail.
15.03	Demonstrating the proper technique and safety precautions and utilizing knowledge of anatomy of the nail structure, diseases and disorders of the skin and nail, chemistry of compounds and their reaction to the skin, angles and curves; correctly shape the natural nail, soften and care for the cuticles and trim hangnails.
15.04	Perform proper techniques for smoothing and buffing the nails by demonstrating knowledge of anatomy of nails, chemistry of products and safety precautions.
15.05	Perform proper techniques for foot care, including sanitizing and soaking, by demonstrating knowledge of the chemistry of products on the skin and implements, and following the manufacturer's directions.
15.06	Perform proper Procedures for disinfection of pedicure equipment and maintaining a log book as required in 61G5-20.002 (4) (G).
15.07	Demonstrate knowledge of anatomy of the skin and nails, and chemistry of products by performing the proper massage techniques to the hands and feet.

Additional Information

Laboratory Activities

Laboratory investigations that include scientific inquiry, research, measurement, problem solving, emerging technologies, tools and equipment, as well as, experimental, quality, and safety procedures are an integral part of this career and technical program/course. Laboratory investigations benefit all students by developing an understanding of the complexity and ambiguity of empirical work, as well as the skills required to manage, operate, calibrate and troubleshoot equipment/tools used to make observations. Students understand measurement error; and have the skills to aggregate, interpret, and present the resulting data. Equipment and supplies should be provided to enhance hands-on experiences for students.

Special Notes

Please refer to 61G5-22.015 F.A.C. for specific hours of instruction in the indicated theory items as well as the required number of services students must complete within the program.

Planned and supervised instructional activities must be provided through one or more of the following: (1) directed laboratory experience, (2) student projects, (3) placement for experience.

Career and Technical Student Organization (CTSO)

SkillsUSA is the appropriate career and technical student organization for providing leadership training and reinforcing specific career and technical skills. Career and Technical Student Organizations provide activities for students as an integral part of the instruction offered. The activities of such organizations are defined as part of the curriculum in accordance with Rule 6A-6.065, F.A.C.

Cooperative Training – OJT

On-the-job training is appropriate but not required for this program. Whenever offered, the rules, guidelines, and requirements specified in the OJT framework apply.

Basic Skills (if applicable)

In PSAV programs offered for 450 hours or more, in accordance with Rule 6A-10.040, F.A.C., the minimum basic skills grade levels required for postsecondary adult career and technical students to complete this program are: Mathematics N/A, Language N/A, and Reading N/A. These grade level numbers correspond to a grade equivalent score obtained on a state designated basic skills examination.

Adult students with disabilities, as defined in Section 1004.02(7), Florida Statutes, may be exempted from meeting the Basic Skills requirements (Rule 6A-10.040). Students served in exceptional student education (except gifted) as defined in s. 1003.01(3)(a), F.S., may also be exempted from meeting the Basic Skills requirement. Each school district and Florida College must adopt a policy addressing procedures for exempting eligible students with disabilities from the Basic Skills requirement as permitted in Section 1004.91(3), F.S.

Students who possess a college degree at the Associate of Applied Science level or higher; who have completed or are exempt from the college entry-level examination; or who have passed a state, national, or industry licensure exam are exempt from meeting the Basic Skills requirement

(Rule 6A-10.040, F.A.C.) Exemptions from state, national or industry licensure are limited to the certifications listed on the Basic Skills and Licensure Exemption List which may be accessed from the CTE Program Resources page.

Accommodations

Federal and state legislation requires the provision of accommodations for students with disabilities to meet individual needs and ensure equal access. Postsecondary students with disabilities must self-identify, present documentation, request accommodations if needed, and develop a plan with their counselor and/or instructors. Accommodations received in postsecondary education may differ from those received in secondary education. Accommodations change the way the student is instructed. Students with disabilities may need accommodations in such areas as instructional methods and materials, assignments and assessments, time demands and schedules, learning environment, assistive technology and special communication systems. Documentation of the accommodations requested and provided should be maintained in a confidential file.

Note: postsecondary curriculum and regulated secondary programs cannot be modified.

Purpose

This program offers a sequence of courses that provides coherent and rigorous content aligned with challenging academic standards and relevant technical knowledge and skills needed to prepare for further education and careers in the Human Services career cluster; provides technical skill proficiency, and includes competency-based applied learning that contributes to the academic knowledge, higher-order reasoning and problem-solving skills, work attitudes, general employability skills, technical skills, and occupation-specific skills, and knowledge of all aspects of the Human Services career cluster. This program offers a broad foundation of knowledge and skills to prepare students for employment in network support services positions.

A student completing the Facials Specialist program is prepared for employment as a licensed Facials/Skin Care Specialist (SOC 39-5094). Instruction is designed to qualify students for employment upon successfully obtaining a Facials Specialty Certification.

The content includes, but is not limited to: communication, leadership, human relations and employability skills; safe and efficient work practices; Florida cosmetology law and rules; acquisition of knowledge of the facial specialist and the related chemistry; bacteriology, anatomy and physiology;

art of make-up; and development of skill in performing the manipulative and electrical techniques required in the practice of facials specialist occupations.

This program focuses on broad, transferable skills and stresses understanding and demonstration of the following elements of the cosmetology industry; planning, management, finance, technical and production skills, underlying technological principles, labor, community, health, safety, and environmental issues.

Additional Information relevant to this Career and Technical Education (CTE) program is provided at the end of this document.

Program Structure

This program is a planned sequence of instruction consisting of one occupational completion point.

This program is comprised of courses which have been assigned course numbers in the SCNS (Statewide Course Numbering System) in accordance with Section 1007.24 (1), F.S. Career and Technical credit shall be awarded to the student on a transcript in accordance with Section 1001.44(3)(b), F.S.

Common Career Technical Core – Career Ready Practices

Career Ready Practices describe the career-ready skills that educators should seek to develop in their students. These practices are not exclusive to a Career Pathway, program of study, discipline or level of education. Career Ready Practices should be taught and reinforced in all career exploration and preparation programs with increasingly higher levels of complexity and expectation as a student advances through a program of study.

1. Act as a responsible and contributing citizen and employee.
2. Apply appropriate academic and technical skills.
3. Attend to personal health and financial well-being.
4. Communicate clearly, effectively and with reason.
5. Consider the environmental, social and economic impacts of decisions.
6. Demonstrate creativity and innovation.
7. Employ valid and reliable research strategies.
8. Utilize critical thinking to make sense of problems and persevere in solving them.
9. Model integrity, ethical leadership and effective management.
10. Plan education and career path aligned to personal goals.
11. Use technology to enhance productivity.
12. Work productively in teams while using cultural/global competence.

Standards

After successfully completing this program, the student will be able to perform the following:

- 01.0 Identify career opportunities.
- 02.0 Demonstrate the importance of health, safety, and environmental management systems in organizations and their importance to organizational performance and regulatory compliance.
- 03.0 Employ safe, Sanitary and efficient work practices.
- 04.0 Demonstrate language arts knowledge and skills.
- 05.0 Demonstrate mathematics knowledge and skills.
- 06.0 Demonstrate science knowledge and skills.
- 07.0 Explain the importance of employability skill and entrepreneurship skills.
- 08.0 Demonstrate leadership and teamwork skills needed to accomplish team goals and objectives.
- 09.0 Demonstrate personal money-management concepts, procedures, and strategies.
- 10.0 Describe the importance of professional ethics and legal responsibilities.

15.13	Apply basic, corrective, evening and/or glamour make-up based on client's needs and desires, using proper safety procedures and

appropriate application procedures and products and utilizing knowledge of color theory and chemical reactions to the skin before application.

Additional Information

Laboratory Activities

Laboratory investigations that include scientific inquiry, research, measurement, problem solving, emerging technologies, tools and equipment, as well as, experimental, quality, and safety procedures are an integral part of this career and technical program/course. Laboratory investigations benefit all students by developing an understanding of the complexity and ambiguity of empirical work, as well as the skills required to manage, operate, calibrate and troubleshoot equipment/tools used to make observations. Students understand measurement error; and have the skills to aggregate, interpret, and present the resulting data. Equipment and supplies should be provided to enhance hands-on experiences for students

Special Notes

Please refer to 61G5-22.006 F.A.C. for specific hours of instruction in the indicated theory items as well as the required number of services students must complete within the program.

Planned and supervised instructional activities must be provided through one or more of the following: (1) directed laboratory experience, (2) student projects, (3) placement for experience.

Career and Technical Student Organization (CTSO)

SkillsUSA, Inc. is the appropriate career and technical student organization for providing leadership training and reinforcing specific career and technical skills. Career and Technical Student Organizations provide activities for students as an integral part of the instruction offered. The activities of such organizations are defined as part of the curriculum in accordance with Rule 6A-6.065, F.A.C.

Cooperative Training – OJT

On-the-job training is appropriate but not required for this program. Whenever offered, the rules, guidelines, and requirements specified in the OJT framework apply.

Basic Skills (if applicable)

In PSAV programs offered for 450 hours or more, in accordance with Rule 6A-10.040, F.A.C., the minimum basic skills grade levels required for postsecondary adult career and technical students to complete this program are: Mathematics 8, Language 8 and Reading 9. These grade level numbers correspond to a grade equivalent score obtained on a state designated basic skills examination.

Adult students with disabilities, as defined in Section 1004.02(7), Florida Statutes, may be exempted from meeting the Basic Skills requirements (Rule 6A-10.040). Students served in exceptional student education (except gifted) as defined in s. 1003.01(3)(a), F.S., may also be exempted from meeting the Basic Skills requirement. Each school district and Florida College must adopt a policy addressing procedures for exempting eligible students with disabilities from the Basic Skills requirement as permitted in Section 1004.91(3), F.S.

Students who possess a college degree at the Associate of Applied Science level or higher; who have completed or are exempt from the college entry-level examination; or who have passed a state, national, or industry licensure exam are exempt from meeting the Basic Skills requirement (Rule 6A-10.040, F.A.C.) Exemptions from state, national or industry licensure are limited to the certifications listed on the Basic Skills and Licensure Exemption List which may be accessed from the CTE Program Resources page.

Accommodations

Federal and state legislation requires the provision of accommodations for students with disabilities to meet individual needs and ensure equal access. Postsecondary students with disabilities must self-identify, present documentation, request accommodations if needed, and develop a plan with their counselor and/or instructors. Accommodations received in postsecondary education may differ from those received in secondary education. Accommodations change the way the student is instructed. Students with disabilities may need accommodations in such areas as instructional methods and materials, assignments and assessments, time demands and schedules, learning environment, assistive technology and special communication systems. Documentation of the accommodations requested and provided should be maintained in a confidential file.

Note: postsecondary curriculum and regulated secondary programs cannot be modified.
