It is recommended that you refer to the FTA Uniformity Guide to implement the Motor Fuels Uniformity methods.

Chapter 1 - Introduction

General Information

Electronic Data Interchange (EDI) is the electronic exchange of business documents from one company's computer to another company's computer in machine-processable formats. The direct, computer-to-computer exchange of business information reduces the expense associated with processing paper (opening envelopes, logging in of documents, etc.) as well as the costs, errors and time delays associated with data entry. Companies in industries of all kinds have found that EDI makes tremendous economic sense. Government agencies such as the Florida Department of Revenue (DOR) naturally see the value in reducing the paper-intensive component of motor fuels taxation by implementing EDI.

Advantages

Using EDI will result in a reduction of paperwork and its associated costs.

- Eliminate paper returns
- Quick confirmation of file receipt
- Error Notification (eliminate original filing and resubmit corrected return if filed prior to due date)
- EDI will eliminate postal delays and associated late filing penalties.
- Fuel tracking will be computerized, giving the Florida Department of Revenue tools to reduce fraud.

This EDI Implementation guide follows version 4030 of the EDI ANSI ASC X12 standards. This guide's purpose is to assist you in implementing and filing EDI for motor fuel returns and reports.

General & Tax Specific Instructions

You may find general and tax specific instructions for the Terminal Supplier (DR-309631N) and Terminal Operator (DR-309636N) on the Department's website at <http://dor.myflorida.com/dor/forms/>. Please note the unique filing requirements pertaining to summary transactions, conversions, and blends of reportable and non-reportable product types.

Please reference the Florida Department of Revenue Electronic Filing User Program Guide for information pertaining to enrollment, filing and business specific rules.

Note: The last digit in the quantity field will be treated as a tenth (.1) gallon. Whole numbers must be padded with a zero to reflect the tenth.

Contact Information

EDI Help Desk:

e-Services Unit

Phone: Call us at 850-717-6623; or

Email: e-Vendor@dor.state.fl.us

Please list “EDI Fuel” in subject line of your email.

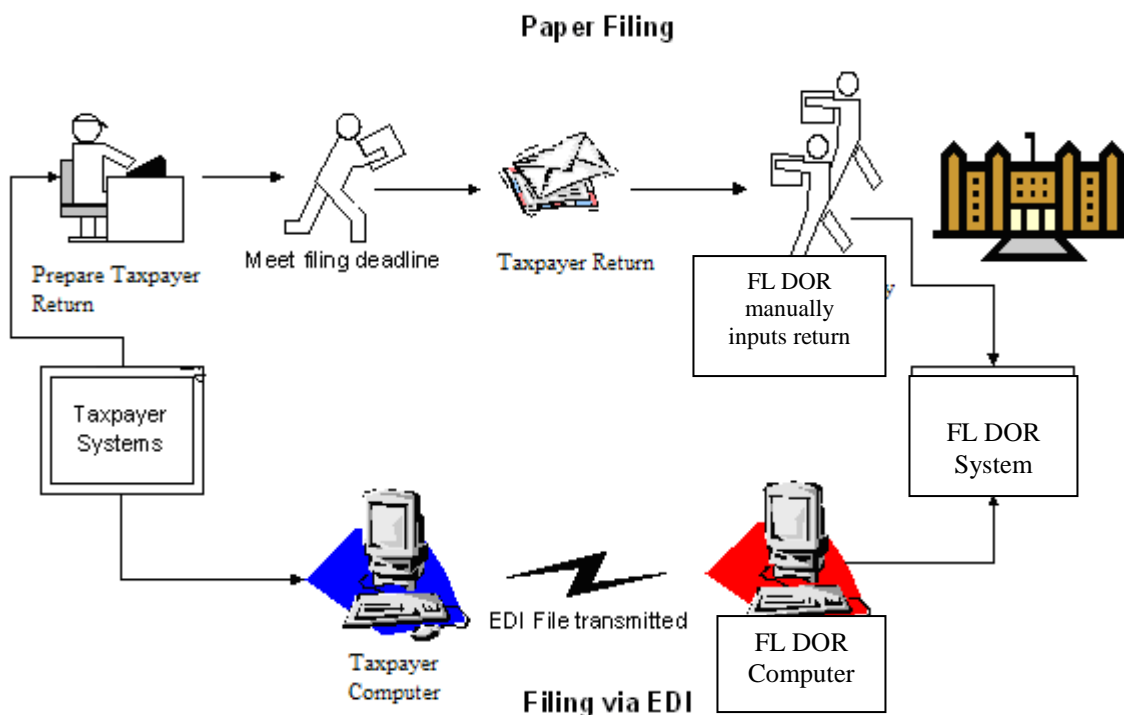

Internet Website Information:

Florida Department of Revenue Website: www.myflorida.com/dor

Understanding EDI

EDI is used extensively in industry. For example, the retail and manufacturing industries cut purchase orders, send invoices, process shipping notifications, and make payments; all electronically. The time saved and accuracy gained using EDI gives businesses a competitive advantage, reducing lead-time, and vastly reducing data entry errors. It also reduces the need to store reams of paper documents for future reference.

EDI may seem complex, but once the basics are understood, the concept is really quite simple. As stated earlier, EDI is a method to electronically exchange business documents using a standard format. To facilitate this exchange of documents, two things are needed. First, the taxpayer needs a method to send and receive electronic documents. Second, the taxpayer needs software to translate schedules and returns into the standard EDI format.

EDI 813 Version

Florida is using the ANSI ASC X12 Version Release 004030 EDI standards for the EDI 813 (Electronic Filing of User Return Data) transaction set. Many states have implemented, or are planning on implementing, the EDI 813 for filing motor fuel tax returns. Previous releases of the EDI 813 transaction set allowed for individual state variations in EDI filing. Version 4030 promotes uniformity in filing motor fuel tax returns. As states migrate to the 4030 version, filers will be able to create a more generic EDI map, reducing the effort needed to track individual state variations.

EDI File Naming Convention

The EDI file should be named using the following conventions:

EDI File Naming will follow the format of FLccyymmAAAAA

“FL” is the state abbreviation

- “ccyymm” is reporting year and month
- “AAAAA” is a state assigned company name abbreviation (use the Default “FLTRUEX12”) if one has not been provided.

Examples:

FL200903PETRC

- “FL” for Florida
- “2009” for the year the return is being filed
- “03” for the month the return is being filed
- “PETRC” represents Petroleum Company

Florida Department of Revenue prefers to receive all returns (the Terminal Supplier Fuel Tax Return, and Terminal Operator Information Return, in a single file (using separate 813 Transaction Sets). However, the filer can choose to send the Terminal Supplier Fuel Tax Return and Terminal Operator Information in separate files.

EDI File Structure

Each 813 (return) must be submitted with its own ST loop (ST segment through SE segment). Multiple ST-SE loops can be submitted under one ISA envelope or each can be sent under a separate ISA envelope. Please remember, the ISA15 controls the test/production indicator; test and production returns cannot be combined under the same ISA envelope.

Available EDI Filing

Initially, the following returns may be filed via EDI:

Form DR-309636 - Terminal Operator Information Return

Form DR-309631 - Terminal Supplier Fuel Tax Return

EDI Timely Filing

Payments: Payments are due on the first day of the month following the collection period. Your payment is late if you do not initiate your payment by 5:00 p.m., E.T., on the 19th day of the month following the collection period. If the 19th falls on a Saturday, Sunday, or state or federal holiday, your payment must be initiated by 5:00 p.m., E.T., on the business day prior to the Saturday, Sunday, or state or federal holiday.

Due to federal security requirements, we cannot process international ACH transactions. If any portion of the money used in the payment you may be making today came from a financial institution located outside of the US or its territories for the purpose of funding this payment, please do not proceed and contact the Florida Department of Revenue at 850-717-6623 to make other payment arrangements. By continuing, you are confirming that this payment is not an international ACH transaction. If you are unsure, please contact your financial institution.

Returns: Returns are due on the 1st day of the month following the collection period. Your return is late if filed after 5:00, Eastern Time on the 20th day of the month following the collection period. If the 20th is a Saturday, Sunday, state holiday or federal holiday, your return and payment must be delivered or postmarked on the next business day, even if no tax is due.

Payments and Returns: Return and payment information are due to the Department on the 1st day of the month following the collection period. If you are electronically filing a return and making your payment at the same time (i.e., using the Department's Internet file-and-pay site), your file-and-pay submission must be completed by 5:00 p.m., E.T., on the 19th day of the month following the collection period. If the 19th falls on a Saturday, Sunday, or state or federal holiday, the file-and-pay submission must be received by 5:00 p.m., E.T., on the business day prior to the Saturday, Sunday, or state or federal holiday.

Note - For additional information regarding payment deadlines, refer to the Electronic Payment Frequently Asked Questions on the Department's Online-Services home page. For specific due dates on electronic payments, refer to the [calendar](#) located on our website at <http://dor.myflorida.com/dor/forms/>.

Weekend and Holiday Schedule If a return due date falls on a holiday or weekend, the return is due no later than the first business day after the holiday or weekend. This requires you to initiate the electronic transmission no later than the last business day prior to the holiday/weekend. Timely returns are based on the date of receipt of the electronic return by the Florida DOR.

HOLIDAY SCHEDULE

New Year's Day
Martin L. King Day
Presidents' Day
Memorial Day Last Monday in May
Independence Day
Labor Day
Veteran's Day
Thanksgiving Day
Day after Thanksgiving Friday following Thanksgiving Day
Christmas Day

NOTE: Department of Revenue Holiday - When a legal holiday falls on a Sunday, it will be observed on the following Monday.
When a legal holiday falls on a Saturday, it will be observed on the preceding Friday.

INSTRUCTIONS FOR FILING TESTING AND PRODUCTION RETURNS

EDI Testing Filing Procedures

1. Complete the enrollment form DR-600 (incorporated by reference in Rule 12-24.011, F.A.C.) if you are not currently enrolled to electronically file with the department prior to setting up your communication link.
2. Upon approval, you will then log into the Department's secure website. If you are a first time user you will need to register prior to sending your file. You will use your User ID & Password to access our website during the testing phase.
3. Contact us when you are ready to test with the Department.
4. Please submit the current and next month's return as your test return. If your company files both the supplier and terminal operators' returns, you are required to submit both in the testing phase. Please provide the summary details for pages 3, 4 & 5 of the paper return. Email to: e-Vendor@dor.state.fl.us
 - A taxpayer will be certified to file electronically if they submit two consecutive matching returns (electronic file to paper return) and they do not have any critical errors.
 - The returns must represent two original filings for the most current months.
 - The Department shall review the paper and electronic return to insure the following information matches:
 - 1) Beginning and Ending Inventory;

Notes – For testing purposes, the Department is requiring beginning and ending inventory figures for the first test cycle.

For production purposes, the Department is requiring beginning and ending inventory figures for the first return filed electronically and for any returns that require an amendment to beginning and/or ending inventory. For all other filings, you may provide ending inventory only.
 - 2) Sum totals of the detail transaction for each schedule and product type;
 - 3) Credit memos issued by the Department (if applicable);
 - 4) Penalty and interest (if applicable)
- The Department shall notify you of any discrepancies within three business days of uploading your file into secure net.
5. Whenever you send a file to the Florida Department of Revenue, be sure to download your 997 acknowledgment to be certain your test has passed the initial edits. If you have a problem with any aspect of your transmission, call the EDI Help Desk.
6. Your file (tax return data) is pulled each business day, translated, and reviewed by the Department. The file receipt should be available same day. The 997 will be available within 48 hours of transmitting your file, providing the cutoff date and time are met. The manifest is typically available the day you receive the 997, but should be available within 24 hours.
7. After receiving your initial test, we will notify you of the results, continued testing may be required. Please note: It is not uncommon to repeat this phase several times.
8. After you have successfully completed all phases you will be notified in writing that you can begin filing in production.

NOTE: The BPR segment is optional and only submitted when making a payment using the 813 transaction.

EDI Production Filing Procedures

Following are the steps that will need to be followed when filing a production return:

1. Before filing a production return, your company must have completed two successful test returns. See EDI Testing Procedures for further instruction on test filings.
2. After completing the testing phase, you will be notified in writing when you are to begin production filing for Motor Fuel EDI.
3. Paper returns must not be sent to the FLDOR after you begin your production EDI filings.
4. To file a production return, you must change your filing status from “Test” to “Production”.
5. Check for your 997 acknowledgement within 48 hours after loading your production file onto the BSWA website.

Acknowledgments

The Florida Department of Revenue will generate 3 types of messages for each file received and processed. All messages will be loaded to your “mailbox” located on the department’s secure Web site.

1. **File receipt** – This will confirm that your file has been received and is ready for processing by the EDI translator. Your file will not be processed until this step is complete.
2. **997 Functional Acknowledgement** - This is produced after your EDI file has completed the translation process. Florida will provide a detail 997 Functional Acknowledgement. If the EDI file is rejected, you must fix the file and send a new EDI file. Please refer to Chapter 6 for additional details regarding the 997 Functional Acknowledgment.

Check your EDI 997 to determine that the filing was received and whether it passed EDI syntax checks. If you cannot retrieve the EDI 997 within two business days, contact Florida Department of Revenue. If the EDI 997 is unable to be retrieved; it is the user’s responsibility to follow up with the EDI Help Desk.

Please note that receipt of an EDI 997 only signifies that the EDI filing was received by BSWA, it does not signify that the electronic return and schedules were an acceptable filing. The electronic return and schedules will be checked further for accuracy. Florida Department of Revenue will contact the user if there are any questions regarding the return, or if any corrections are required.

3. **Manifest** - This document will provide feedback concerning the integrity and accuracy of your return data. The manifest may contain reject and/or warning level errors. The early notification provides you the opportunity to correct any exceptions on current and/or subsequent filings. This process ensures “clean” data is passed to our tax system. Examples of validation types include:
 - a. Validate Federal Employee Identification (FEIN), Department of Environmental Protection Tank Facility, and IRS Terminal Control numbers.
 - b. Validate schedule, product and mode combinations
 - c. Verification of required data within schedules.

Your file will not be accepted until all reject (E) errors have been corrected.

Your file (tax return data) is pulled each business day, translated, and reviewed by the Department. The file receipt should be available same day. The 997 will be available within 48 hours of transmitting your file. The manifest is typically available the day you receive the 997, but should be available within 24 hours.

Transaction Types

The State of Florida will utilize “Original Return”, “Replace Return”, and “Supplemental” to identify the EDI file type.

- Transaction type “00” (Original Return) will be used when transmitting the first return for a collection period. Files designated as an original return and rejected for EDI syntax errors shall be resubmitted as an Original Return.
- Transaction type “05” (Replace Return) will be used to replace the original return. The Department will temporary hold (stop processing) your file if non-critical errors are discovered and your file was transmitted prior to the payment settlement date (electronic payments included) or due date (return only). You may submit a replacement file to correct any errors up until 5:00pm, Eastern Standard Time on the last business day prior to the payment settlement date (electronic payments included) or due date (return only), whichever occurs first. The original return with non-critical errors will be processed if a replacement file is not received by the settlement or due date.
- Transaction type “6S” will be used when transmitting a supplemental return. A supplemental return is any data reported to the Florida Department of Revenue that adjusts or corrects an original user filing. The values listed within a supplemental return must reflect the difference between the original or last filing and the corrected filing. Corrections to understated gallons or additional transactions not included on the original return shall be reported as positive values. Erroneously reported gallons or overstated transactions included on the original return shall be reported as negative values.

Do not use transaction type “6S” if:

1. you have not filed an original return for the applicable collection period,
2. you have filed an original return that was rejected due to an EDI syntax error, or
3. you have filed an original return with non-critical errors that is currently on-hold pending a replacement file and the current date is prior to the settlement or due date.

Chapter 2 - Motor Fuels X12 Data Model

Chapter 3 – X12 Attribute and Separator Conventions

Attributes

Attribute	Definition
Data Element Type	<p>Nn – Numeric Numeric type data element is symbolized by the two-position representation (Nn). N indicates a numeric, and n indicates the decimal places to the right of a fixed, implied decimal point. N0 (N Zero) is a numeric with no decimal places.</p> <p>R – Decimal (Real) The decimal point is optional for integer values, but is required for fractional values. For negative values, the leading minus (-) sign is used. Absence of this sign indicates a positive value. The plus (+) sign should not be transmitted.</p> <p style="padding-left: 40px;">Note: Implied decimal for gallons. Explicit decimals for dollars.</p> <p>ID – Identifier An identifier data element must always contain a value from a predefined list of values that is maintained by ASC X12 or by other bodies that are recognized by ASC X12.</p> <p>AN – String A string (Alphanumeric) is a sequence of any characters from the basic or extended character sets. It must contain at least one non-space character. The significant characters must be left justified. Leading spaces, if any, are assumed to be significant. Trailing spaces should be suppressed.</p> <p>DT – Date Format for the date type is CCYYMMDD. CC is the century digits of the year (ex. 19, 20). YY is the last two digits of the year (00-99), MM is the numeric value of the month (01-12), and DD for the day (01-31).</p> <p>TM – Time Format for the time type is HHMMSS, expressed in 24-hour clock format. HH is the numeric value for hour (00-23), MM for minute (00-59), and SS for second (00-59).</p>
Requirement Designator	<p>Defines how the data element is used in a segment.</p> <p>M Mandatory data element - This element is required to appear in the segment.</p> <p>O Optional data element - The appearance of this data element is at the option of the sending party or is based on a mutual agreement of the interchange parties.</p> <p>X Relational data element - Relational conditions may exist between two or more data elements. If one is present the other/s is required. The relational condition is displayed under the Syntax Noted of the X12 Standards.</p>
Data Element Length	The number of character positions assigned to a data element. Example: Data element length of 2/10. You must have at least 2 characters but no more than 10 characters for this element (minimum of 2/ maximum of 10).
Semantic Note Designator	Z – Designator A data element within a segment may have a designator (Z) that indicates the existence of a semantic note. Semantic notes are considered part of the standard. If a condition designator and a semantic note both affect a single data element, the condition will appear first, separated from the semantic note designator by a vertical bar (). The number 00 to the left of the comment identifies semantic notes that are general in nature.

Separator Requirements

Type	ASCII Value	EBCDIC Value	Character	Character Name
Repetition Separator	7C	4F		Pipe
Segment Terminator	5C	E0	\	Back Slash
Element Separator	7E	A1	~	Tilde
Sub-element Separator	5E	5F	^	Caret
Padding Character	20	40	Space	Space

ANSI ASC X12 – 813 EDI Standard

RELEASE • 004030

TRANSACTION SET TABLES • 813

813 Electronic Filing of Tax Return Data

FUNCTIONAL GROUP: TF

This Draft Standard for Trial Use contains the format and establishes the data contents of the Electronic Filing of Tax Return Data Transaction Set (813) for use within the context of an Electronic Data Interchange (EDI) environment. This transaction set can be used by tax filers to electronically file tax returns with a federal, state, or local taxing authority and which may initiate payments related to the tax return.

NOTES

- 1/0400 The TIA segment allows for tax information and amounts associated with the entire filing. At least one occurrence of the TIA segment must be present in the transaction set, either in Table 1 or Table 2.
- 1/0500 This N1 loop reflects names and addresses associated with the entire filing.
- 2/0500 This N1 loop reflects names and addresses associated with a particular tax form (TFS).
- 2/0920 At least one occurrence of the TIA segment must be present in the transaction set, either in Table 1 or Table 2.
- 2/1300 This N1 loop reflects names and addresses associated with a particular subset of a tax form.
- 2/1800 At least one occurrence of the TIA segment must be present in the transaction set, either in Table 1 or Table 2.

813 EDI Map

FTA Motor Fuel Tax Section Uniformity Committee

The Combined Reporting map is based on Uniform Forms adopted by the Uniformity Committee of the Motor Fuel Tax Section of the Federation of Tax Administrators. This Map is consistent with ANSI ASC X12 version 4030 standards. Any taxing authority implementing EC programs is asked to utilize this document when mapping their motor fuel tax.

Terminal Operator

Transaction Set Header Description

Beginning of Transaction Set Header Segment								(Required) Pos. No. 0100
Element ID	Elem Ref #	Sub-Ele Ref #	Field Status	Field Name	Field Type	Length		Field Description
						Min	Max	
ST01	143		M	Transaction Set Code	ID	3	3	Transaction Set Type "813"
ST02	329		M	Transaction Set Control Number	AN	4	9	Filer defined unique control number (same value as SE02)
ST03	1705		O/Z	Implementation Convention Reference	AN	1	5	Version of taxing authority's implementation guide. (20071)
ST-813~1001~20071\								
Syntax Notes: None								
FTA Note: It is recommended that the ST03 be used to help identify which implementation guide the trading partner is using. This element will help the receiver of the data determine if the sender is using an old guide or the most current guide for the data transmission.								

Identify Tax Agency Information Begin Tax Information Segment								(Required) Pos. No. 0200
Element ID	Elem Ref #	Sub-Ele Ref #	Field Status	Field Name	Field Type	Length		Field Description
						Min	Max	
BTI01	128		M	Reference Number Qualifier	ID	2	2	"T6" = Tax Filing
BTI02	127		M	Reference Number	AN	3	3	"050" = All Fuels Tax Filings
BTI03	66		M	ID Code Qualifier	ID	2	2	"47" = Tax Authority
BTI04	67		M	ID Code	AN	2	20	"FLDOR"
BTI05	373		O	Transaction Create Date	DT	8	8	"CCYYMMDD" = Transmission Date
BTI06	818		Ø	Name Control ID	AN	4	4	Not Used
BTI07	66		X	ID Code Qualifier	ID	2	2	"24" = FEIN
BTI08	67		X	ID Code	AN	9	9	Taxpayer's FEIN
BTI09	66		X	ID Code Qualifier	ID	2	2	Not Used
BTI10	67		X	ID Code	AN	2	20	Not Used
BTI11	66		X	ID Code Qualifier	ID	2	2	"SV" = Software Provider Number
BTI12	67		X	ID Code	AN	9	18	Default "FLTRUEX12"

BTI14	640		O	Transaction Type Code	ID	2	2	Amended Filing Options: "6S" = Supplemental
BTI~T6~050~47~ FLDOR~20070518~24~590000031~~SV~FLTRUEX12-00\								
Syntax Notes: If either BTI07 or BTI08 is present, then the other is required. If either BTI09 or BTI10 is present, then the other is required. If either BTI11 or BTI12 is present, then the other is required.								

FTA Notes:

BTI07 must be the FEIN if the taxpayer has one. ~~Submit a SSN only for sole proprietorships that have not been issued a FEIN. In Canada, companies use a BN - Canadian Business Number.~~

The application of BTI13 and BTI14 are as follows: BTI13 should be used when the taxpayer transmits their initial return (BTI13 should be used without BTI14); BTI14 should be used when the taxpayer transmits modifications (BTI14 should be used without BTI13). This is a recommendation of the Motor Fuel Uniformity Committee, not a requirement of X12. Further clarification of these elements is located below.

Element	Application
BTI13 [Initial Return]	
"00" = Original	Use "Original" when first attempting to transmit your return to the department, whether the return is received or not. Always use "00" until the original return is received.
"05" - Replace	Use "Replace" when original return had corrupted data.
"15" = Resubmission	Use "Resubmission" when the Department did not receive first attempt of your transmitted return.
BTI14 [Amended Return]	
"CO" = Corrected	Use "Corrected" when adjusting or correcting original or amended return.
"6R" = Resubmission	Use "Resubmission" when first attempt to transmit amended return was not received by the Department.
"6S" = Supplemental	Use "Supplemental" when transmitting new or additional data not included in original or replacement return.

Total Net Reported									
Tax Information and Amount Segment								Pos. No. 0400

End of Transaction Set Header

Transaction Set – Report Information

This TFS loop reports information on the type of report. Transaction detail is reported using the Summary and Schedule section of this map.

The TFS loop is repeated when reporting information for each report. Repeat the FGS loop within the TFS loop for each product reported.

Beginning of Report								Pos. No. 0100	
Tax Form Segment									
Element ID	Elem Ref. #	Sub-Ele Ref. #	Field Status	Field Name	Field Type	Length		Field Description	
						Min	Max		
TFS01	128		M	Reference Identification Qualifier	ID	2	2	“T2” = Tax Form Code	
TFS02	127		M	Reference Identification	AN	1	6	SDR = Supplier/Distributor Report TOR = Terminal Operator	
TFS03 and TFS04 Are not used									
TFS05	66		X	ID Code Qualifier	ID	2	2	“TC” = IRS Terminal Code (Used on TOR only)	
TFS06	67		X	ID Code	AN	9	9	IRS Terminal Control Number (TCN)	
TFS~T2~TOR~~~TC~T59FL2034\									
Syntax Notes: If either TFS05 or TFS06 is present, then the other is required.									
FTA Note: TFS05 and TFS06 are only used on a terminal report.									

Condition 1 – If an account has no activity, this segment is required. The Condition 2 DTM and FGS are not used.

No Activity								(Conditional)	
Reference Number Segment								Pos. No. 0200	
Element ID	Elem Ref #	Sub-Ele Ref #	Field Status	Field Name	Field Type	Length		Field Description	
						Min	Max		
REF01	128		M	Entity Identification Code	ID	2	2	“BE” = Business Activity

TIA05	355		M	Unit of Measurement Code	ID	2	2	“GA” = Gallons	
TIA~5002~~~10000~GA\									
Syntax Notes: TIA04 is required. If TIA05 is present, then TIA04 is required.									
FTA Note: Physical Inventory is the only value passed. All other information is derivable from schedules.									

End of FGS loop (Line item detail)
End of TFS loop (TOR detail)

Summary Information

This TFS loop reports summary information. This TFS loop is used in combination with the SDR report.

Summary information is used when the information can not be derived from the schedule details. This TFS loop repeats when one of the following values change: TFS02 Summary Code, TFS04 Product Code TFS06.

If there are no transactions to report in this filing, it is not necessary to transmit a Summary Information TFS loop.

Beginning of Summary Information

End of FGS loop (Summary Data)

End of TFS loop (Summary Information)

Schedules

This TFS loop begins the schedule detail. It repeats when one of the following values change:

Tax Form Code, Schedule Code, Mode Code Product Code, Origin, Position Holder,
Seller, Consignor, Carrier, Buyer, Consignee or Destination.

If there are no transactions to report in this filing, it is not necessary to transmit a Schedules TFS loop. You must indicate no activity in the TOR, SDR, CCR and/or other report type sections of this map.

Beginning of Schedules								Pos. No. 0100
Tax Form Segment								
Element ID	Elem Ref. #	Sub-Ele Ref. #	Field Status	Field Name	Field Type	Length		Field Description
						Min	Max	
TFS01	128		M	Reference Identification Qualifier	ID	2	2	“T3” = Tax Schedule Code
TFS02	127		M	Reference Identification	AN	1	6	Schedule Type Code
TFS03	128		X	Reference Identification Qualifier	ID	2	2	“PG” = Product Group
TFS04	127		X	Reference Identification	AN	3	3	Product Code
TFS05	66		X	Identification Code Qualifier	ID	2	2	“94” = Mode
TFS06	67		X	Identification Code	AN	2	2	Transaction Type Mode Code
TFS~T3~15A~PG~065~94~J\								
Syntax Notes: If either TFS03 or TFS04 is present, then the other is required.								
If either TFS05 or TFS06 is present, then the other is required.								
FTA Notes: None.								

For Point of Origin/Terminal: (One of the following Options is Required)

Use Option 1 when the origin has an IRS TCN.

Use Option 2 when the origin does not have an IRS TCN.

Use Option 3 when the state requires an origin facility ID.

Option 1

Point of Origin								(One of the three options is used)
Name Segment 1								Pos. No. 0500
Element ID	Elem Ref. #	Sub-Ele Ref. #	Field Status	Field Name	Field Type	Length		Field Description
						Min	Max	
N101	98		M	Entity Identification Code	ID	2	2	“OT” = Origin Terminal
N102 is not used.								
N103	66		X	Identification Code Qualifier	ID	2	2	“TC” = IRS Terminal Code
N104	67		X	Identification Code	AN	9	9	IRS Terminal Code (Code list is located at http://www.irs.gov/businesses/small/article/0,,id=180086,00.html)
N1~OT~~TC~T59FL2109\								
Syntax Notes: N103 and N104 are required.								
FTA Notes: None								

Option 2

Point of Origin								(One of the three options is used)
Name Segment 1								Pos. No. 0500
Element ID	Elem Ref. #	Sub-Ele Ref. #	Field Status	Field Name	Field Type	Length		Field Description
						Min	Max	
N101	98		M	Entity Identification Code	ID	2	2	“SF” = Ship From
N102	93		X	Name	AN	2	2	Reference Appendix E (Non-U.S. use “ZZ”.)
N1~SF~AL\								
Syntax Notes: N102 is required.								
FTA Notes: None								

Option 3

Point of Origin				(One of the three options is used)				
Name Segment 1				Pos. No. 0500				
Element ID	Elem Ref. #	Sub-Ele Ref. #	Field Status	Field Name	Field Type	Length		Field Description
						Min	Max	
N101	98		M	Entity Identification Code	ID	2	2	“WO” = Storage Facility at Origin
N102 is not used.								
N103	66		X	Identification Code Qualifier	ID	2	2	“FA” = Facility Identification
N104	67		X	Identification Code	AN	9	9	DEP Facility Number
N1~WO~~FA~479900123\								
Syntax Notes: N103 and N104 are required.								
FTA Notes: None								

Position Holder Information or Delivering Exchange Party Information				Pos. No. 0500				
Name Segment 3								
Element ID	Elem Ref. #	Sub-Ele Ref. #	Field Status	Field Name	Field Type	Length		Field Description
						Min	Max	
N101	98		M	Entity Identification Code	ID	2	2	“ON” = Position Holder
N102 is not used.								
N103	66		X	Identification Code Qualifier	ID	2	2	“24” = FEIN
N104	67		X	Identification Code	AN	9	9	Position Holder’s FEIN
N1~ON~~24~596888888\								
Syntax Notes: At least one of N102 or N103 is required. If either N103 or N104 is present, then the other is required.								
FTA Notes: If reporting position holder or 2-party exchange information this segment is required. For 2-party exchanges this segment defines the party of origin. N102, N103 and N104 are required.								

Carrier Information				Pos. No. 0500				
Name Segment 6								
Element ID	Elem Ref. #	Sub-Ele Ref. #	Field Status	Field Name	Field Type	Length		Field Description
						Min	Max	
N101	98		M	Entity Identification Code	ID	2	2	“CA” = Carrier Name
N102 is not used.								
N103	66		X	Identification Code Qualifier	ID	2	2	“24” = FEIN
N104	67		X	Identification Code	AN	9	9	Carrier’s FEIN
N1~CA~~24~656666666\								
Syntax Notes: At least one of N102 or N103 is required. If either N103 or N104 is present, then the other is required.								
FTA Notes: N102, N103 and N104 are required.								

For Point (Address) of Delivery/Destination: (One of the following Options is Required)

Use Option 1 when the destination has an IRS TCN.

Use Option 2 when the destination does not have an IRS TCN.

Use Option 3 when the state requires a destination facility ID (currently used by the state of Florida).

Option 1

Point of Destination Name Segment 8								(One of the three options is used) Pos. No. 0500	
Element ID	Elem Ref. #	Sub-Ele Ref. #	Field Status	Field Name	Field Type	Length		Field Description	
						Min	Max

BTI-T6-050-47-FLDOR-20090518~24-590000031~~SV~ FLTRUEX12~00\								

Syntax Notes: If either BTI07 or BTI08 is present, then the other is required.
If either BTI09 or BTI10 is present, then the other is required.
If either BTI11 or BTI12 is present, then the other is required.

FTA Notes:

BTI07 must be the FEIN if the taxpayer has one. Submit a SSN only for sole proprietorships that have not been issued a FEIN. ~~In Canada, companies use a BN—Canadian Business Number.~~

The application of BTI13 and BTI14 are as follows: BTI13 should be used when the taxpayer transmits their initial return (BTI13 should be used without BTI14); BTI14 should be used when the taxpayer transmits modifications (BTI14 should be used without BTI13). This is a recommendation of the Motor Fuel Uniformity Committee, not a requirement of X12. Further clarification of these elements is located below.

Element	Application
BTI13 [Initial Return]	
"00" = Original	Use "Original" when first attempting to transmit your return to the department, whether the return is received or not. Always use "00" until the original return is received.
"05" = Replace	Use "Replace" when original return had corrupted data.
"15" = Resubmission	Use "Resubmission" when the Department did not receive first attempt of your transmitted return.
BTI14 [Amended Return]	
"CQ" = Corrected	Use "Corrected" when adjusting or correcting original or amended return.
"6R" = Resubmission	Use "Resubmission" when first attempt to transmit amended return was not received by the Department.
"6S" = Supplemental	Use "Supplemental" when transmitting new or additional data not included in original or replacement return.

Total Net Reported									
Tax Information and Amount Segment								Pos. No. 0400	
Element ID	Elem Ref #	Sub-Ele Ref #	Field Status	Field Name	Field Type	Length		Field Description	
						Min	Max		
TIA01	C037	817	M	Tax Information Code	AN	4	4	"5001" = Total Net Reported

Syntax Notes: TIA04 is required. If TIA05 is present, then TIA04 is required.									
FTA Note: Physical Inventory is the only value passed. All other information is derivable from schedules.									

End of FGS loop (Line item detail)

End of TFS loop (detail)

Summary Information

This TFS loop reports summary information. This TFS loop is used in combination with the SDR report.

Summary information is used when the information can not be derived from the schedule details. This TFS loop repeats when one of the following values change: TFS02 Summary Code, TFS04 Product Code TFS06.

If there are no transactions to report in this filing, it is not necessary to transmit a Summary Information TFS loop.

Beginning of Summary Information								Pos. No. 0100	
Tax Form Segment									
Element ID	Elem Ref. #	Sub-Ele Ref. #	Field Status	Field Name	Field Type	Length		Field Description	
						Min	Max		
TFS01	128		M	Reference Identification Qualifier	ID	2	2	“T3” = Tax Schedule Code	
TFS02	127		M	Reference Identification	AN	1	6	TFS02 Summary Code “S02” = Taxes (used for Penalty and/or Interest) “S03A” = Tax Credit (page 3, line 28)“	
TFS03	128		X	Reference Identification Qualifier	ID	2	2	“PG” = Product Group	
TFS04	127		X	Reference Identification	AN	3	3	Product Code See Product Codes in Appendix on page Error! Bookmark not defined.	
TFS05	128		M	Reference Identification Qualifier	ID	2	2	“T2” = Tax Form Code “94” = Mode	
TFS06	127		M	Reference Identification	AN	1	6	Report Code (See Appendix on page Error! Bookmark not defined.) or “CE” = Mode	
TFS~T3~S02\									
Syntax Notes: If either TFS03 or TFS04 is present, then the other is required. If either TFS05 or TFS06 is present, then the other is required.									
FTA Notes: TFS02 references the report the summary is associated with. If TFS05 = “94” then TFS06 = “CE”. IF TFS05 = “T2” then TFS06 = Report Code

For Point of Origin/Terminal: (One of the following Options is Required)

Use Option 1 when the origin has an IRS TCN.

Use Option 2 when the origin **does not** have an IRS TCN.

Use Option 3 when the state requires an origin facility ID.

Option 1

Point of Origin								(One of the three options is used)
Name Segment 1								Pos. No. 0500
Element ID	Elem Ref. #	Sub-Ele Ref. #	Field Status	Field Name	Field Type	Length		Field Description
						Min	Max	
N101	98		M	Entity Identification Code	ID	2	2	“OT” = Origin Terminal
N102 is not used.								
N103	66		X	Identification Code Qualifier	ID	2	2	“TC” = IRS Terminal Code
N104	67		X	Identification Code	AN	9	9	IRS Terminal Code (Code list is located at http://www.irs.gov/businesses/small/article/0,,id=180086,00.html)
N1~OT~~TC~T59FL2109\								
Syntax Notes: N103 and N104 are required.								
FTA Notes: None								

Option 2

Point of Origin								(One of the three options is used)
Name Segment 1								Pos. No. 0500
Element ID	Elem Ref. #	Sub-Ele Ref. #	Field Status	Field Name	Field Type	Length		Field Description
						Min	Max	
N101	98		M	Entity Identification Code	ID	2	2	“SF” = Ship From
N102	93		X	Name	AN	2	2	Reference Appendix E (Non-U.S. use “ZZ”.)
N1~SF~GA\								
Syntax Notes: N102 is required.								
FTA Notes: None								

Option 3

Point of Origin Name Segment 1								(One of the three options is used) Pos. No. 0500	
Element ID	Elem Ref. #	Sub-Ele Ref. #	Field Status	Field Name	Field Type	Length		Field Description	
						Min	Max		
N101	98		M	Entity Identification Code	ID	2	2	“WO” = Storage Facility at Origin	
N102 is not used.									
N103	66		X	Identification Code Qualifier	ID	2	2	“FA” = Facility Identification	
N104	67		X	Identification Code	AN	9	9	DEP Facility Number	
N1~WO~~FA~479900123\									
Syntax Notes: N103 and N104 are required.									
FTA Notes: None									

Seller Information Name Segment 2								Pos. No. 0500	
Element ID	Elem Ref. #	Sub-Ele Ref. #	Field Status	Field Name	Field Type	Length		Field Description	
						Min	Max		
N101	98		M	Entity Identification Code	ID	2	2	“SE” = Selling Party	
N102 is not used.									
N103	66		X	Identification Code Qualifier	ID	2	2	“24” = FEIN	
N104	67		X	Identification Code	AN	9	9	Seller’s FEIN	
N1~SE~~24~516669999\									
Syntax Notes: At least one of N102 or N103 is required. If either N103 or N104 is present, then the other is required.									
FTA Notes: N102, N103 and N104 are required.									

Not used by Terminal Supplier

Position Holder Information or Delivering Exchange Party Information Name Segment 3								Pos. No. 0500	
Element ID	Elem Ref. #	Sub-Ele Ref. #	Field Status	Field Name	Field Type	Length		Field Description	
						Min	Max		
N101	98		M	Entity Identification Code	ID	2	2	“ON” = Position Holder	
N102 is not used.									
N103	66		X	Identification Code Qualifier	ID	2	2	“24” = FEIN	
N104	67		X	Identification Code	AN	9	9	Position Holder’s FEIN	
N1~ON~~24~596888888\									
Syntax Notes: At least one of N102 or N103 is required. If either N103 or N104 is present, then the other is required.									
FTA Notes: If reporting position holder or 2 party exchange information this segment is required. For 2 party exchanges this segment defines the party of origin. N102, N103 and N104 are required.									

Carrier Information Name Segment 6								Pos. No. 0500	
Element ID	Elem Ref. #	Sub-Ele Ref. #	Field Status	Field Name	Field Type	Length		Field Description	
						Min	Max		
N101	98		M	Entity Identification Code	ID	2	2	“CA” = Carrier Name	
N102 is not used.									
N103	66		X	Identification Code Qualifier	ID	2	2	“24” = FEIN	
N104	67		X	Identification Code	AN	9	9	Carrier’s FEIN	
N1~CA~~24~656666666\									
Syntax Notes: At least one of N102 or N103 is required. If either N103 or N104 is present, then the other is required.									
FTA Notes: N102, N103 and N104 are required.									

Buyer/Consignee Information Name Segment 7								Pos. No. 0500	
Element ID	Elem Ref. #	Sub-Ele Ref. #	Field Status	Field Name	Field Type	Length		Field Description	
						Min	Max		
N101	98		M	Entity Identification Code	ID	2	2	“BY” = Buying Party (Purchaser/Consignee)	
N102 is not used.									
N103	66		X	Identification Code Qualifier	ID	2	2	“24” = FEIN	
N104	67		X	Identification Code	AN	9	9	Purchaser’s FEIN	
N1~BY~~24~657222222\									
Syntax Notes: At least one of N102 or N103 is required. If either N103 or N104 is present, then the other is required.									
FTA Notes: N102, N103 and N104 are required.									

For Point (Address) of Delivery/Destination: (One of the following Options is Required)

Use Option 1 when the destination has an IRS TCN.

Use Option 2 when the destination does not have an IRS TCN.

Use Option 3 when the state requires a destination facility ID (currently used by the state of Florida).

Option 1

Point of Destination								(One of the three options is used)	
Name Segment 8								Pos. No. 0500	
Element ID	Elem Ref. #	Sub-Ele Ref. #	Field Status	Field Name	Field Type	Length		Field Description

Chapter 6 – 997 Functional Acknowledgment

ANSI ASC X12 – 997 EDI Standard

RELEASE • 004030

TRANSACTION SET TABLES • 997

997 Functional Acknowledgment

FUNCTIONAL GROUP: FA

This Draft Standard for Trial Use contains the format and establishes the data contents of the Functional Acknowledgment Transaction Set (997) for use within the context of an Electronic Data Interchange (EDI) environment. The transaction set can be used to define the control structures for a set of acknowledgments to indicate the results of the syntactical analysis of the electronically encoded documents. The encoded documents are the transaction sets, which are grouped in functional groups, used in defining transactions for business data interchange. This standard does not cover the semantic meaning of the information encoded in the transaction sets.

NOTE	POS. NO.	SEG. ID	NAME	REQ. DES.	MAX USE	LOOP REPEAT
N	0100	ST	Transaction Set Header	M	1	
N	0200	AK1	Functional Group Response Header	M	1	
LOOP ID - AK2						999999
N	0300	AK2	Transaction Set Response Header	O	1	
LOOP ID - AK3						999999
C	0400	AK3	Data Segment Note	O	1	
	0500	AK4	Data Element Note	O	99	
	0600	AK5	Transaction Set Response Trailer	M	1	
	0700	AK9	Functional Group Response Trailer	M	1	
	0800	SE	Transaction Set Trailer	M	1	

NOTES

- 1/0100 These acknowledgments shall not be acknowledged, thereby preventing an endless cycle of acknowledgments of acknowledgments. Nor shall a Functional Acknowledgment be sent to report errors in a previous Functional Acknowledgment.
- 1/0100 The Functional Group Header Segment (GS) is used to start the envelope for the Functional Acknowledgment Transaction Sets. In preparing the functional group of acknowledgments, the application sender's code and the application receiver's code, taken from the functional group being acknowledged, are exchanged; therefore, one acknowledgment functional group responds to only those functional groups from one application receiver's code to one application sender's code.
- 1/0100 There is only one Functional Acknowledgment Transaction Set per acknowledged functional group.
- 1/0200 AK1 is used to respond to the functional group header and to start the acknowledgment for a functional group. There shall be one AK1 segment for the functional group that is being acknowledged.
- 1/0300 AK2 is used to start the acknowledgment of a transaction set within the received functional group. The AK2 segments shall appear in the same order as the transaction sets in the functional group that has been received and is being acknowledged.

COMMENTS

- 1/0400 The data segments of this standard are used to report the results of the syntactical analysis of the functional groups of transaction sets; they report the extent to which the syntax complies with the standards for transaction sets and functional groups. They do not report on the semantic meaning of the transaction sets (for example, on the ability of the receiver to comply with the request of the sender).

¹ Data Interchange Standards Association, Inc. (DISA)

997 EDI Map

The 997 Functional Acknowledgment notifies the Information Provider that their EDI file was received. Translators create the 997 ACK when the translator processes an EDI file. This ACK is designed to pass back through the Information Provider/Transmitter's translator to notify the Information Provider/Transmitter that the EDI file was accepted, accepted with errors or rejected. If the EDI file is rejected, the Information Provider/Transmitter must fix the file and send a new EDI file.

Transaction Set Header Description

Beginning of Transaction Set								(Required) Pos. No. 0100
Element	Elem	Sub-Ele	Field	Field Name	Field	Length		Field
ID	Ref #	Ref #	Status		Type	Min	Max	Description
ST01	143		M	Transaction Set Code	ID	3	3	Transaction Set Type "997"
ST02	329		M	Transaction Set Control Number	AN	4	9	Translator defined (same value in SE02, unique control number)

Functional Group Response Header								(Required) Pos. No. 0200
Element	Elem	Sub-Ele	Field	Field Name	Field	Length		Field
ID	Ref #	Ref #	Status		Type	Min	Max	Description
AK101	479		M/Z	Transaction Set Identifier Code	ID	2	2	Functional ID found in the GS segment (GS01) of the functional group being acknowledged. TF = 813
AK102	28		M/Z	Group Control Number	N0	1	9	Functional group control number found in the GS segment (GS02) of the functional group being acknowledged.

Transaction Set Response Header								(Optional) Pos. No. 0300
Element	Elem	Sub-Ele	Field	Field Name	Field	Length		Field
ID	Ref #	Ref #	Status		Type	Min	Max	Description
AK201	143		M/Z	Functional Identifier Code	ID	3	3	Transaction set ID found in the ST segment (ST01) of the transaction set being acknowledged. 813
AK202	329		M/Z	Transaction Set Control Number	AN	4	9	Transaction set control number found in the ST segment (ST01) of the transaction set being acknowledged.

Data Segment Note								(Optional) Pos. No. 0400
Element	Elem	Sub-Ele	Field	Field Name	Field	Length		Field
ID	Ref #	Ref #	Status		Type	Min	Max	Description
AK301	721		M	Segment ID Code	ID	2	3	Code defining the segment ID of the segment in error. See X12 guide for codes.
AK302	719		M	Segment Position in Transaction Set	N0	1	6	The position of the segment counted from the transaction set header (ST). The transaction set header is 1.
AK303	447		O	Loop Identifier Code	AN	1	6	Loop ID number given on the transaction set diagram.
AK304	720		O	Segment Syntax Error Code	ID	1	3	1 = Unrecognized segment ID 2 = Unexpected segment 3 = Mandatory segment missing 4 = Loop occurs over maximum times 5 = Segment exceeds maximum use 6 = Segment not in defined transaction set 7 = Segment not in proper sequence 8 = Segment has data element errors

This segment defines segment syntax errors and the location of the segment. Refer to the X12 standards guide for further definition.

Data Element Note								(Optional) Pos. No. 0500
Element ID	Elem Ref #	Sub-Ele Ref #	Field Status	Field Name	Field Type	Length Min Max		Field Description
AK401	C030		M	Position in Segment				Code indicating relative position of element in error. See X12 guide for further information.
AK401	C030	722	M	Element Position in Segment	N0	1	2	
AK401	C030	1528	O	Component Data Element Position in Composite	N0	1	2	
AK401	C030	1686	O	Repeating Data Element Position	N0	1	4	
AK402	725		O	Data Element Reference Number	N0	1	4	Reference number used to locate the element in the Data Element Dictionary.
AK403	723		M	Data Element Syntax Error Code	ID	1	3	1 = Mandatory data element missing. 2 = Conditional required data element missing. 3 = Too many data elements 4 = Data element too short 5 = Data element too long 6 = Invalid character in data element 7 = Invalid code value 8 = Invalid date 9 = Invalid time 10 = Exclusion condition violated 12 = Too many repetitions 13 = Too many components
AK404	724		O/Z	Copy of Bad Data Element	AN	1	99	A copy of the bad data element.

This segment defines Element syntax errors and the location of the segment. Refer to the X12 standards guide for further definition.

Transaction Set Response Trailer								(Required) Pos. No. 0600
Element ID	Elem Ref #	Sub-Ele Ref #	Field Status	Field Name	Field Type	Length Min Max		Field Description
AK501	717		M	Transaction Set Acknowledgement Code	ID	1	1	A = Accepted E = Accepted but errors were noted M = Rejected, message authentication code failed R = Rejected W = Rejected, assurance failed validity tests X = Rejected, content after decryption could not be analyzed
AK502	718		O	Transaction Set Syntax Error Code	ID	1	3	1 = Transaction set not supported
AK503	718		O	Transaction Set Syntax Error Code	ID	1	3	2 = Transaction set trailer missing
AK504	718		O	Transaction Set Syntax Error Code	ID	1	3	3 = Transaction set control number in header and trailer do not match.
AK505	718		O	Transaction Set Syntax Error Code	ID	1	3	4 = Number of included segments does not match actual count
AK506	718		O	Transaction Set Syntax Error Code	ID	1	3	5 = One or more segments in error 6 = Missing or invalid transaction set identifier 7 = Missing or invalid transaction set control number 8 = Authentication key name unknown 9 = Encryption key name unknown 10 = Requested service (authentication or encryption) not available. 11 = Unknown security recipient 12 = Incorrect message length (encryption only) 13 = Message authentication code failed 15 = Unknown security originator 16 = Syntax error in decryption text 17 = Security not supported 23 = Transaction set control number not unique within the functional group. 24 = S3E security end segment missing for S3S security. 25 = S3S security start segment missing for S3E security. 26 = S4E security end segment missing for S4S security 27 = S4S security start segment missing for S4E security end segment.

This segment acknowledges acceptance or rejection and reports errors. Refer to the X12 standards guide for further definition.

SE02	329	329	M	Transaction Set Control Number	AN	4	9	Determined by Filer (same value in ST02, unique control number)	

SE~6~100\

End of Transaction Set

Florida Functional Acknowledgement Overview

For each functional group of 813 Return Data transaction sets sent to Florida Department of Revenue, the Department will send one transaction set, the 997 functional Acknowledgement, back to the sender. The 997 defines whether the 813 transaction sets in the original functional group were accepted by the Florida Department of Revenue or if they were rejected due to errors.

1. Segment AK9 is used to indicate whether the functional group of 813 transaction sets that you sent to Florida Department of Revenue was accepted. If AK901 is equal to "A", then the transmission was accepted. If AK901 is equal to "R", then the transmission was rejected.
2. Segments AK2 through AK5 are used only if errors have been detected. These segments are used to indicate which 813 transaction set(s) is in error, and to indicate the data segments and/or data elements in error. If there are no errors, the AK2, AK3, AK4, and AK5 segments will not be used.
3. If a transaction set is rejected, AK201 will contain the transaction set identifier "813," and AK202 will contain the unique transaction set control number. Note that these are the same two data values as in ST01 and ST02 for the transaction set. The corresponding AK501 will contain "A" if the transaction set has been accepted, and will contain "R" if the transaction set is rejected. If there are multiple 813 transaction sets in the functional group, such as a supplier return and two terminal operator reports, the AK2/AK5 loop data will indicate whether each transaction set is accepted or rejected. Note that a transaction set may be rejected even though another transaction set in the same functional group is accepted.
4. If the transaction set is rejected due to syntax errors, Florida Department of Revenue will send a rejected 997. The error(s) must be corrected and the entire transmission re-sent.
5. If the return passes the 997 acknowledgement phase but does not correctly identify the user (invalid FEIN and/or license number), the 813 will be rejected. If this occurs, Florida Department of Revenue will contact your company by phone or email to advise you of the error(s) and your company will be required to resubmit the 813. Remember, all 813's that are required to be resubmitted must be coded with data element BT113 equal to "00" as an original filing. If there are other errors in the return, such as math errors or out of period shipments, the Department will contact your company by notice, phone or email to advise you of the error(s) and require you to submit an amended return.
6. Do not acknowledge the 997 Functional Acknowledgment!

An example of a 997 ACK can be found below.

The file you receive will be a continuous stream of data; no carriage returns or line feeds.

Appendix A – Florida Schedules

Schedules

See the FTA Motor Fuels Uniformity Manual for additional details on schedules.

Schedules of Receipts

Schedule 1

Gallons received tax paid

- 1A Gallons received - Florida tax -paid

Schedule 2

Gallons received from motor fuel licensee tax unpaid

- 2A Gallons received from licensed supplier- Florida tax -unpaid (exchange)
- 2B Total product received or Blended – Florida tax unpaid

Schedule 3

Gallons imported from another state direct to customer

- 3A Gallons imported direct to customer – Florida tax - unpaid
- 3B Gallons imported by bulk transfer into tax-free storage

Schedules of Disbursements

Schedule 5

Gallons delivered tax collected

- 5A Diesel gallons delivered – all taxes collected (state and local)
- 5B Gallons delivered – Florida state tax only collected (gasoline & aviation)
- 5HW Gallons of aviation fuel converted for highway use
- 5LO Gallons of gasoline/gasohol delivered to retail location and end users

Schedule 6

Gallons delivered to motor fuel licensee – tax not collected

- 6A Gallons delivered to licensed dealers – Florida tax unpaid (exchanges/sales above rack)
- 6B Gallons delivered – Florida tax unpaid (dyed diesel only)
- 6C Gallons delivered – Tax collected by supplier for another state

Appendix A – Florida Schedules

Schedule 7

Gallons exported

- 7A. Gallons exported by other than bulk transfer – Florida tax paid
- 7B. Gallons exported by supplier – tax self-accrued by supplier for another state
- 7C. Gallons delivered/placed into bonded storage (aviation fuel only)
- 7D. Gallons exported by supplier through bulk transfer

Schedule 8

Gallons delivered to US Government – tax exempt

- 8. Gallons delivered to U.S. government – tax exempt (500 gallons or greater)

Schedule 10

Gallons delivered to other tax exempt entities

- 10. Gallons of undyed diesel/jet fuel delivered to other tax-exempt entities

Schedule 13

Schedule of Credits and Refunds

- 13F Electronic Funds Transfer (EFT) bad debt credit schedule for reporting gallons delivered to EFT wholesalers

Schedule 15

Terminal Operator Report

- 15A Schedule of Receipts
- 15B Schedule of Disbursements

Appendix B – Florida Product Codes

Florida Product Codes

Product Code	Description
065	Gasoline
072	Dyed Kerosene
124	Gasohol
125	Aviation Gasoline
130	Jet Fuel
142	Undyed Kerosene
167	Undyed Diesel
224	Compressed natural gas/propane
226	High Sulfur Dyed Diesel Fuel
227	Low Sulfur Dyed Diesel Fuel
B00	Undyed Biodiesel – (B100)
D00	Dyed Biodiesel (B100)
E00	Ethanol

Appendix C - Summary Codes / TIA Codes

Summary Code and TIA Code Usage

Summary and TIA codes are used for the following purposes (See complete list of codes below.):

813 Map

1. Header – TIA code 5000 defines the version/publication number of the taxing authority’s EC Implementation Guide. TIA code 5001 (Total Net Reported) is a check value for determining if all information is included in the EDI file.
2. TOR – Terminal Operator Report or SDR - Supplier/Distributor Report - TIA code 5002 (Physical Inventory) is used to report Ending and/or Beginning Inventory.
3. SDR – Supplier/Distributor Report – Use TIA code 5003 (Total Due) if using Net Due for Credit Memos(s). Use Dollar Amount (999.99 Explicit Decimal) for Monetary Amount.
4. CCR – Common Carrier Report – TIA code 5004 (Total Net Transported) is a check value used to acknowledge and validate the report.
5. SUM - Summary Code and TIA codes are used for identifying information not found in schedules or able to be derived from the schedules. The SUM loop provides a looping structure allowing multiple TIAs in a uniform format.
6. Schedules – TIA 5005 (Net), 5006 (Gross) and 5007 (Billed) are used to report bill of lading volume details or further define summary detail.
7. Summary codes are defined and utilized for both quantity and money. The TIA segment of the summary has elements for both quantity and monetary values.

Florida Summary Codes

S02 Taxes / Fees

S02A Tax

S03 Credit

S03A Tax Credit

FTA Uniformity TIA Codes

The data represented by these TIA codes is not derivable from schedules or represents a check value.		
5000	Version of taxing authority’s implementation guide	Header
5001	Total Net Reported	Header
5002	Net Physical Inventory	TOR, SDR
5003	Total Due	SDR
5004	Total Net Transported	CCR
5005	Net	SCH, SUM
5006	Gross	SCH, SUM
5007	Billed	SCH, SUM
5008	Interest	SUM
5009	Penalty	SUM
5010	Confidential Information	Header
5011-5199	Not used	

Note: Use TIA code 5003 (Total Due) if using Net Due for Credit Memos(s). Use Dollar Amount (999.99 Explicit Decimal) for Monetary Amount.

Appendix D - Transaction Type Modes Codes

Transaction Type Mode Codes	
Code	Description
J_	Truck
R_	Rail
B_	Barge
S_	Ship
PL	Pipeline
GS	Gas Station
BA	Book Adjustment
ST	Stationary Transfer
CE	Summary Information
RT	Removal from Terminal (other than by truck or Rail) for sale or consumption

The ‘_’ in the code table represent a space. The X12 standard requires 2 characters in the field using this code.

Appendix E - USA States, Provinces/Territories Codes

United States of America (USA) State			
Alabama	AL	Ohio	OH
Alaska	AK	Oklahoma	OK
Arizona	AZ	Oregon	OR
Arkansas	AR	Pennsylvania	PA
California	CA	Rhode Island	RI
Colorado	CO	South Carolina	SC
Connecticut	CT	South Dakota	SD
Delaware	DE	Tennessee	TN
District of Columbia	DC	Texas	TX
Florida	FL	Utah	UT
Georgia	GA	Vermont	VT
Hawaii	HI	Virginia	VA
Idaho	ID	Washington	WA
Illinois	IL	West Virginia	WV
Indiana	IN	Wisconsin	WI
Iowa	IA	Wyoming	WY
Kansas	KS	Non-US Points	ZZ
Kentucky	KY		
Louisiana	LA		
Maine	ME		
Maryland	MD		
Massachusetts	MA		
Michigan	MI		
Minnesota	MN		
Mississippi	MS		
Missouri	MO		
Montana	MT		
Nebraska	NE		
Nevada	NV		
New Hampshire	NH		
New Jersey	NJ		
New Mexico	NM		
New York	NY		
North Carolina	NC		
North Dakota	ND		

Appendix F = Software Edits

EDI Edits

1. Freeze all data after each transmission to ensure a proper audit trail. Do not allow transmitted data to be altered.
2. ISA15 data element field in the interchange control header segment determines the test/production status of the transmission.
If the ISA15 is set to a "T", then the 813 will be considered test data and if it is set to "P" then it will be considered production.
3. The value used in BTI12 will be "FLTRUEX12"

Appendix G - Return and Schedule Formatting Requirements

The Florida Department of Revenue has previously published instructions for completing the following forms and supporting schedules:

Form DR-309636 - Terminal Operator Information Return

Form DR-309636N - Instructions for Filing Terminal Operator Information Return

Form DR-309631 - Terminal Supplier Fuel Tax Return

Form DR-309631N - Instructions for Filing Terminal Supplier Fuel Tax Return

Appendix H - Sample EDI Files

Operator EDI File

Attachment 1- EDI Filing Procedures

To Transmit A Test Or Production EDI 813 File to Florida DOR

1. Enter the following address in your Web Browser:
<https://ritx-secure.bswa.net/floridador/>
This is a secure website accessed only authorized users. This is evident by the “padlock” in the lower right hand corner (Internet Explorer) of the screen image displayed below, as well as the “https” prefix for the website. Select and Click on Welcome to Florida icon.
2. For detail instructions on “How to File” click on **Here for Instructions (see picture below)**.
3. If you have any problems please contact the EDI Help Desk at 850-717-6623 or email e-Vendor@dor.state.fl.us.

Attachment 2 – Terminal Operator/Supplier Information

Form DR-309636 - Terminal Operator Information Return

Form DR-309636N - Instructions for Filing Terminal Operator Information Return

Form DR-309631 - Terminal Supplier Fuel Tax Return

Form DR-309631N - Instructions for Filing Terminal Supplier Fuel Tax Return

Attachment 3 - Florida Specific EDI sample files and TFS and FGS Looping Structure

Supplier File and/or Pay transaction type (File and Pay, File only, Payment only)

TFS and FGS Looping Structure:

Florida Department of Revenue requests that you utilize the correct Schedule TFS and FGS looping structure whenever possible. This will reduce the number of segments that you need to create and we need to translate. This will apply to both the Terminal Supplier and Terminal Operator output. Please refer to page 23 for efficient segment looping instructions.

```
