1.0 Introduction

1.1 Description
Florida Medicaid pain management services provide for the treatment of pain using nerve blocks or steroid injections.

1.1.1 Florida Medicaid Policies
This policy is intended for use by providers that render pain management services to eligible Florida Medicaid recipients. It must be used in conjunction with Florida Medicaid’s general policies (as defined in section 1.3) and any applicable service-specific and claim reimbursement policies with which providers must comply.

1.1.2 Statewide Medicaid Managed Care Plans
This Florida Medicaid policy provides the minimum service requirements for all providers of pain management services. This includes providers who contract with Florida Medicaid managed care plans (i.e., provider service networks and health maintenance organizations). Providers must comply with the service coverage requirements outlined in this policy, unless otherwise specified in AHCA’s contract with the Florida Medicaid managed care plan. The provision of services to recipients in a Florida Medicaid managed care plan must not be subject to more stringent service coverage limits than specified in Florida Medicaid policies.

1.2 Legal Authority
Pain management services are authorized by the following:

- Title XIX of the Social Security Act (SSA)
- Title 42, Code of Federal Regulations (CFR), Parts 440 and 441
- Section 409.905, Florida Statutes (F.S.)
- Rule 59G-4.222, F.A.C.
