Mapped, edited, and published by the Geological Survey  
Department of the Interior, U.S. Geological Survey  
Photographs taken 1956 and 1967. Field checked 1970  
Topographic projection, 10,000-foot grids based on Alabama coordinate  
system, east zone, Georgia coordinate system, west zone, and Florida  
coordinate system, north zone. 1000-meter Universal Transverse  
Mercator grid ticks, zone 16, shown in blue. 1927 North American  
Datum. To place on the predicted North American Datum 1983  
move the projection lines 16 meters south and 8 meters west  
as shown by dashed corner ticks.

Fine red dashed lines indicate selected fence and field lines where  
generally visible on aerial photographs. This information is unchecked  
There may be private inholdings within the boundaries  
of the National or State reservations shown on this map  
Revisions shown in purple and woodland compiled from  
aerial photographs taken 1979 and other sources  
This information not field checked. Map edited 1981

Explanation

The following describe the delineation areas with the contamination for which each  
was delineated and for which testing is required under Rule 62-524.600(1) F.A.C.  
Note: (1) indicates solvent bonded couplings prohibited (62-524.550(2)(b))  
(2) indicates subsidized waterlines. Mandatory connection requirements may apply (62-524.300(2)(5))

32263744  
Ethylene Dibromide

The delineated areas on this map represent areas where  
ground water contamination is known to exist as defined  
in chapter 62-524, F.A.C. This does not indicate that  
the areas which are not delineated are necessarily free  
from ground water contamination.
